CHAS. C. NAVLET CO.
INCORPORATED
Nurserymen
Seedsman
Florists
San Jose, Cal.

CUT FLOWER DEPARTMENT

Most Florists do not raise the stock they sell. Some sell flowers and never see the plants growing. They buy at wholesale and sell at retail. Not so with us. We are Seedsmen, Nurserymen and Florists, and there is no waste in our business, and that is why we can sell so much lower than others. If you want to send a friend a beautiful box of flowers, send us the address and your card, and we will guarantee the delivery in perfect condition. When the flowers are sent express charges collect, we include enough extra flowers of same kind as ordered to cover cost of expressage. We have experienced packers, and guarantee to please. We advise our customers to leave the selection of flowers to us when ordering floral pieces, baskets and bouquets, as every month some flower is at its best. Always state, when ordering, whether for an old or young person. All flowers are packed by experienced packers, delivered to the express office ready for transportation, free of charge. Prompt attention paid to telephone and telegraph orders.

Notice.—If money does not accompany order, flowers will be sent C. O. D.

The following prices include a liberal amount of ferns neatly packed in a box:

Carnations—White, Red or Pink—Very choice.....	Per dozen \$1.00
	(Xmas Price—\$1.50 per dozen)

FLORAL DESIGN DEPARTMENT

The following list is for medium-sized floral pieces, not too large or too small. If you wish smaller or larger designs than ones listed, kindly telephone, telegraph or write us the amount you wish to spend and we assure you satisfaction. Floral designs are specialties in our Floral Department. Every month has its seasonable flowers when they are at their best, and these we use in making floral designs so they may arrive at their destination in perfect condition. We also make a specialty of assorted boxes of flowers for grave decorations from \$1.00 up, the selection being left to us. Oftentimes, according to the season, there are flowers in bloom that are not listed. In making up these boxes of our own selection we are enabled to send a greater variety of flowers. No charge for packing. No extra charge for lettering on designs.

Floral Anchor, 16 inches	\$3.00
Floral Anchor, on stand, 36 inches high.....	\$7.00

To Whom It May Concern:

San José, the Garden City of California, contains no better firm or none more worthy of patronage, than Chas. C. Navlet Co., Nurserymen, Seedmen and Florists. For over a quarter of a century they have been established here and the fact that business has grown larger each succeeding year until they now have the largest business of its kind in the world, speaks volumes of praise for the integrity and fair dealing of Mr. Navlet and his associates.

We heartily recommend them and know that any orders entrusted to them will be promptly and efficiently fulfilled.

SAN JOSE CHAMBER OF COMMERCE
E. N. Richmond President.

Chas. C. Navlet Co's 1914 Catalogue and Planters Guide Established More Than 29 Years!

THE PRICES IN THIS CATALOGUE ARE GOOD FOR THE ENTIRE YEAR OF 1914

How to Order—In order to prevent the possibility of errors, we ask you, whenever possible, to use one of our Order Blanks, and every time you order, sign your Name, Post-office, County and State. If you write a letter, do so on a separate sheet, as it will enable us to fill your order more promptly.

How to Remit—In making remittances you may send small amounts in one or two cent stamps (1c preferred). Postoffice or Express money orders or Bank drafts are satisfactory and need not be registered. Cash should always be sent by registered mail.

Our References—The best references we have are the thousands of people who have bought from us in the past. If you have bought from us before, you know we are reliable and do just as we agree. If not, ask your neighbor, ask any bank or business house in San José, and they will tell you we are an old-established, reliable house. Best of all, send us your order and the goods will satisfy you.

This Year Catalogue Contains More Bargains Than Ever Before

Why We Sell So Low—Most seedsmen, nurserymen and florists do not raise the stock and seeds they sell. Some of them sell seeds and yet never see the plants from which the seed is taken. Some sell flowers and never see the plants growing. Others buy at wholesale and sell at retail, and the buyer pays at least two profits—often three. Not so with us. We are Nurserymen, Seed Growers and Florists. We raise all our own products, and we sell direct to the consumer, with just one profit added—and that a small one. That is why we can sell you everything you need at one-quarter what you would pay others for the same thing. That is the reason we have built up the biggest plant-mailing business of its kind in the world; and the fact that we sell better goods for less money is known and recognized everywhere.

A Word of Thanks—Again we wish to extend our thanks to our many thousands of customers for their increased orders last season. It is our aim to sell nothing but the best—to give two dollars in value for every dollar spent with us, and increased business allows us to make many bigger and better offers this year. Many of our friends prevailed on their neighbors to order from us for the first time last season, and we take this opportunity of extending our thanks to them for the double kindness. We regard our customers as old friends, as they are, and we hope to merit the same kindly and friendly assistance this year as we have for so many years past.

An Invitation to You—When you come to San José we would like to have you call on us. Our Floral Store is at First and San Fernando streets. Our Seed Store half a block away on San Fernando street, between First and Second streets. Our City Sales Yard is on Prevost street, between San Salvador and William streets, and can be reached by taking the Delmas avenue car.

Premium Notices—Unless otherwise stated, each dollar you send us for Plants by the single Plant, or Plants, by the dozen, entitles you to 25c worth extra; that is, if you select Plants amounting to \$1.00 you may select 25c worth more, for which we make no charge.

\$1.00 order of Flower Seed by the Packet entitles you to 25c worth free, in addition to the dollar's worth; or, \$1.25 for \$1.00.

\$1.00 order of Vegetable Seeds, by the Packet, entitles you to 25c worth, in addition to the dollar's worth; or, \$1.25 for \$1.00.

No Premium is given with Bulbs, Rose Bushes, Fruit Trees, Ornamental Trees, Berry Plants, Potatoes, etc., or with any Plants when bought by the hundred.

Our Guarantee—We hold ourselves responsible for the safe arrival of goods in first-class condition. In this way you are protected against loss—this is something no other house in our line does. Any error of ours will be cheerfully rectified and plants replaced. Any shipment not found satisfactory return at once at our expense and order will be refilled.

No Losses—There are no losses in our business, as we make use of everything we grow—others raise plants merely for the seed, or for the plants themselves, or for the flowers. We waste nothing, and that is the reason you can buy from us at prices that would bankrupt others if they attempted it.

By our methods we can select the prettiest plants, the most delicate shades of beautiful flowers and give you seeds that will grow and be "things of beauty and a joy forever." For over 29 years we have been doing nothing else but this. We handle nothing but the best, as we believe the best is none too good. Read each and every one of these pages, the wonderful bargains; they will save you money. We want to add you to a large list of satisfied purchasers—because you will be more than satisfied with everything you buy. Remember, we guarantee every offer or will refund your money.

Foreign Correspondents—We can answer correspondents in their own language—French, German, Italian, Spanish or Portuguese may be used in making out orders or writing letters.

Order Early—We strive to fill all orders within a day or two after they reach us, but this is frequently made impossible by a great rush of business about planting time. Do not wait until you need your seeds, plants and bulbs before ordering. Anticipate planting time and order early.

Chas. C. Navlet Co's 1914 Bargains

Our Surprise Collection of Plants

We are obliged to grow enormous stocks of all kinds of Plants, generally more than is necessary, to make sure of having enough. It is our custom to take this surplus stock of novelties and various good things, make it into "Surprise" Collections, and offer them to our customers, giving far more than the cost value. In fact, the "Surprise" is the great amount of fine things one gets for the money paid. These collections will be entirely of our own selection, made from kinds of which we have a surplus. We advise our friends to invest in one or more of these collections. We guarantee that they will be greatly pleased. We receive thousands of orders each year, and where such a big variety of plants is offered, some of them are not ready until March 1st. Orders are filled in rotation as received, and we urge that orders be sent at once. No premium can be allowed with these collections.

No. 1--Chas. C. Navlet Co's Surprise Collection

30 Ever-Blooming Vines and Ornamental Plants—All extra large plants, including Roses and Carnations. All choice and in good growing condition—our selection from such varieties described in this Catalogue as we may have a surplus of will be sent by Express to any address for..... **\$1.00**

No. 2--Chas. C. Navlet Co's Surprise Collection

75 Ever-Blooming Vines and Ornamental Plants—All extra large plants, including Roses and Carnations. All choice and in good growing condition—our selection from such varieties described in this Catalogue as we may have a surplus of will be sent by Express to any address for..... **\$2.00**

CHAS. C. NAVLET CO.'S

No. 3--Bargain in Carnation Plants \$1.00

When we offer a bargain you can depend on it that you will get your money's worth, and then some. Our competitors, who charge two or three times the price we ask for the same kind of plants, cannot understand how we can afford to do it, but when we tell you that we sell 250,000 Carnation plants each season and several of our competitors combined do not use one-half the quantity, you will readily understand the why and wherefore of it. This is an age of specializing, and when we raise big quantities of anything, we can raise it better and cheaper, and you get the benefit of it.

Try one of these bargain collections. You will be delighted with the plants. They are all choice—all different—and among them are some of our newest novelties. The flowers they produce are of immense size, flawless form, surpassing beauty and most pleasing fragrance. Most of the blossoms are as double as can be—and have beautifully fringed petals. Some are in rich solid colors—white, blush, pink, salmon, carmine, scarlet, dark crimson or maroon. Others are spotted, striped, tinted or blended in a gorgeous and indescribable manner. Our only reason for offering them at this tiny price is to dispose of such varieties as we may have a surplus of. No premium with these collections.

12 CHOICE PLANTS \$1.00, BY MAIL, POSTPAID

CHAS. C. NAVLET CO.'S

No. 4--Bulb Garden Bargain \$1.00

This is your opportunity to contract ahead and get the benefit of the lowest wholesale prices and have the choicest bulbs—the pick of the Holland market, which supplies the best in the world.

Each year it is necessary to contract in Holland for the choicest Bulbs. We send word to our European agent to buy 100,000 of this kind of Bulb, a quarter of a million of another kind, as all of them are contracted for long before they are shipped to this country. The choicest bulbs are grown in Holland, and as we use such big quantities we get the first selections.

In order to give you the benefit of our contract prices we have decided to take advance orders for next winter's Bulbs. The orders will be filled in rotation in the order in which they are received, and your order must be sent in not later than August 1, 1914, in order to take advantage of this special price, and the Bulbs will be sent you, delivered free, early in October.

This bargain in Bulbs consists of one hundred of the choicest Bulbs of assorted colors and varieties of Hyacinths, Daffodils, Tulips, Freesias, Iris, Crocus and Poet's Narcissus. Every Bulb is guaranteed to grow and bloom. Every collection guaranteed or money refunded. If planted in the early fall you can have a gorgeous array of blooms in December and January.

Remember, you must order by August 1, 1914. After August 1 and until December 31st we will fill orders with later blooming Bulbs. So attend to it early. No premium with this collection.

100 GORGEOUS FLOWERING BULBS \$1.00, DELIVERED FREE

OR, ONE-HALF (50 BULBS) 60c, DELIVERED FREE—Ready for Delivery in October.

CHAS. C. NAVLET CO.'S

No. 5--Chrysanthemum Plant Bargain 75c

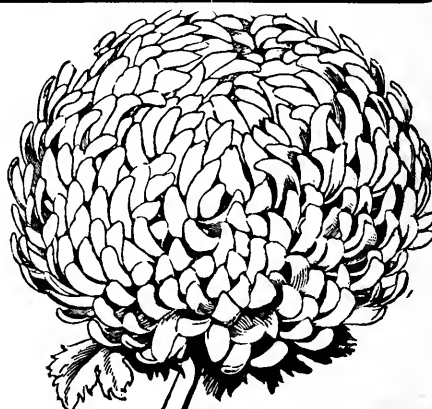

If you could take a look at the Chrysanthemum field out at our Garden Villa Nurseries and see the prize winners from Japan in all their glory, see the thousands upon thousands of magnificent blooms, it is a sight you would never forget. Here we raise Chrysanthemums in all their perfection. Big, massive blooms, that measure 12 inches across, all the colors of the rainbow and snowy white.

Because we have many thousands of the choicest varieties left over is the reason for this bargain in Chrysanthemums.

You surely should send for this collection of Chrysanthemum Plants, as you cannot begin to realize what big value you are getting unless you buy it and watch the beautiful flowers grow. This collection includes some of our grandest and latest novelties, selling for 15 cents each. The plants will be our selection from varieties described in this catalogue, distinct and different, but unlabeled. Our collection this year is bigger and better than ever, and the assortment is unrivaled in every way. No premium is allowed with this bargain collection.

1914 Bargains

CHAS. C. NAVLET CO'S

No. 6—Rose Bush Bargains

Our competitors say they cannot understand how it is possible for us to sell Bush Roses and Climbing Roses, to give strong, field-grown Roses at the price we do, because it is usually one-half or one-third of what they charge for Rose Bushes, generally not nearly such choice varieties and never half as big.

There's a reason for all things. Out at our Garden Villa Nurseries you will find 200,000 Roses growing all the time. It costs very little more to take care of this immense quantity, to cultivate, trim, prune and irrigate, than it would to take care of 1,000, which is about the number most nurserymen sell in a season.

When you buy from us you get the benefit of all this.

You can have all Bush Roses—all Climbing Roses—or Bush and Climbing Roses assorted. All the Roses are among those listed in this catalogue. No two will be alike, and every variety will be a choice one. As we have told you we grow enormous quantities of Roses—always more than is necessary—to make sure of having enough to fill all orders promptly. It is from this surplus stock that these Bargain Collections are made up. We advise you to order one or more of these collections, as we know you will be delighted with the Roses when in bloom in your garden. No premium can be allowed with this extra special bargain.

No. 7—Show, Cactus and Fancy Dahlia Bargain

ALL PRIZE WINNING VARIETIES

As we have told you elsewhere in this catalogue, the Dahlia is the coming show flower and our stock is exceptionally choice this season. Read the description of the Dahlias in the Plant Department and they will give you an idea of the beauty of the flowers, the massive blooms and the reason why Dahlias are coming to the front more and more each year. This collection includes some of the latest and most expensive novelties and while they are our selection, unlabeled, you will get your money's worth two or three times over.

Each year we sell more and more of these Dahlia Bargain Collections and it is because we give people their money's worth. If you are fond of Dahlias you should order this Bargain.

We have a large supply on hand as we must be prepared to fill every order promptly, and still allow a little surplus. It is from this surplus stock that we are enabled to make a choice selection at such a remarkably low price. Of course, no premium can be allowed with this collection. Remember our selection of

No. 8—Canna Bargains

Cannas are the most suitable Bedding Plants that are grown for this purpose and some of them, when seen at a distance look like balls of fire.

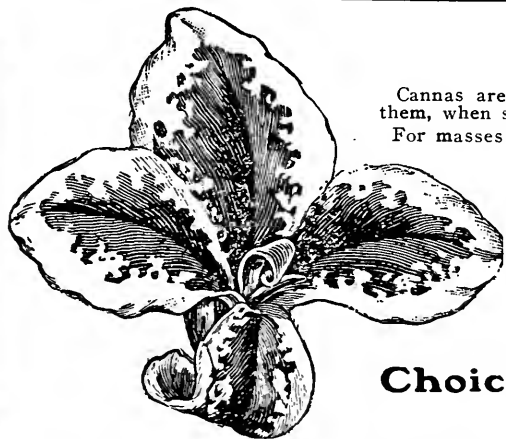

For masses to cover unsightly fences or along walls they are ideal and are stately plants for driveways or for making a screen.

Our Bargain collection of Cannas, includes many novelties, three or four of which would be well worth the price we ask for the entire collection. This is a particularly choice bargain and if you order one we are sure you will say that they are worth double what we ask for them.

You cannot get such Canna value elsewhere for from two to three times our price as every collection sold means an added friend to our long list of satisfied customers. No premium with this collection.

No. 10—Chas. C. Navlet Co's Sweet Pea Bargain 75c

Everyone likes Sweet Peas, and here in California we raise tons of Sweet Pea Seed for the Eastern and European seedsmen. In Santa Clara County are raised the choicest Sweet Peas in the world, and if you could see the flowers for which our seeds are grown the sight would linger in your memory forever.

We sell enormous quantities of Sweet Pea seed and put up hundreds of thousands of packages each year, but none which are sold at such a bargain as these.

This collection consists of 25 extra large packets; each packet contains a different variety or color, so many, in fact, that when they are in full bloom you can pick a different colored bouquet every day for a month. Every color of the rainbow is represented in this collection, and nowhere else in the world can you get such Sweet Pea value. No premium with this collection.

Specialties and Novelties

On this and the three following pages we are listing a few novelties and specialties which are well worthy of your attention. It will pay you to read each offer carefully, as each and every one of them will please you. Besides, you will be ready to admit that you have gotten your money's worth—besides possessing something that few of your friends and neighbors have.

Bush and Climbing Rose Novelties

STRONG FIELD GROWN ROSE BUSHES

Climbing Roses

SILVER MOON—The Large, Clematis-Like Rose. Silver Moon is the result of a most interesting cross, Rosa Wichuraiana and Rosa Sinica—Cherokee Rose. The flowers run four and one-half inches and over in diameter, clear, silvery white in color; petals of great substance and beautifully cupped. The center is filled with bright yellow stamens—a very attractive feature. It is very floriferous, the plants literally covering themselves with great clematis-like flowers. They are borne on strong stems, twelve to eighteen inches long, and are delicately fragrant. The foliage is large and abundant, bronze-green, glossy and practically immune from mildew. 60c each, \$6.00 per dozen, by express.

DR. W. VAN FLEET—The Flesh Pink Climbing Rose. The parentage is Souvenir du Pres. Carnot and Rosa Wichuraiana. The open flowers are four inches and over in diameter. The center is built high; petals beautifully undulated and cupped. The color is a remarkably delicate shade of flesh pink on the outer surface, deepening to rosy flesh in the center. The flowers are full and double, of delicate perfume, buds pointed, stems twelve to eighteen inches, and fine for cutting. The foliage is a peculiar shade of bronze-green, large and glossy, with spines a bright bronze-red. The variety is a vigorous grower, practically immune from mildew. 60c each, \$6.00 per dozen, by express.

Ramona—The new red single Cherokee; a sport of the famous Pink Cherokee. The color is one unusual in roses; rich carmine overlaid with a lustrous sheen, which is impossible of reproduction with the artist's brush. During the Spring months the plants are literally covered with blooms. They flower as freely as the white or pink forms, and for porches or covering pergolas and fences they are unsurpassed. Small plants 35c each, \$3.00 per dozen. Large plants 60c each, \$5.00 per dozen, by express.

Climbing White Maman Cochet—The grandest novelty in Climbing Roses to date. This variety offered is a sport from the Pure White Maman Cochet, and is identical with it in every way. The flowers are the same form and substance, but on account of its vigorous habit they are larger and finer. There is no other rose that blooms more freely than the Cochet. You must have one of these climbers in your garden to appreciate its beauty. 50c each, \$5.00 per dozen, by express.

Bush Roses

Radiance—Hybrid Tea. A new rose of American origin, and in our opinion one of the most meritorious of recent introductions. The buds are large and pointed, expanding into blooms of enormous size. The shape is similar to Madam Caroline Testout, but the color is a deep silvery-rose. A wonderfully productive variety, with fine stem and foliage. 60c each, \$6.00 per dozen, by express.

Mrs. John Laing—Hybrid Perpetual. The color is a soft pink; the flowers are very large, beautifully formed and intensely fragrant. A few flowers placed in a vase will scent the whole room. 35c each, \$3.00 per dozen, by express.

J. B. Clark—Hybrid Tea. One of the most vigorous growing of all hybrid tea roses, the flower canes being sometimes six feet high. The color is a blackish crimson, with scarlet shadings. A fine fall bloomer. 50c each, \$5.00 per dozen, by express.

Roger Lamberlin—Hybrid Perpetual. The color is a glowing crimson, each petal being marked with white. 50c each, \$5.00 per dozen, by express.

Austrian Copper—A beautiful bright reddish-copper, the reverse of the petals being a golden copper; flowers single and very striking. 50c each, \$5.00 per dozen, by express.

Irish Glory—A new Irish single rose; a prize-winner in England at the floral show. Color a beautiful cerise; large, broad petals; free bloomer; a vigorous grower. 50c each, \$5.00 per dozen, by express.

The Lyon—The most sensational Rose yet introduced, but neither words nor artist's brush can do justice to its wonderful coloring—it must be seen to be appreciated.

It is of very vigorous habit, with excellent foliage of a rich reddish green. The buds are long, tipped coral-red and chrome-yellow at the base. The flowers when expanded are large and full, with broad petals of a superb color, being a coral-red or salmon-pink, shaded with chrome-yellow in the center, toning to a shrimp-pink at the tips, a most happy and charming contrast of colors. Very free, fragrant and hardy. 35c each, \$3.00 per dozen, by express.

Mrs. Aaron Ward—Long buds, borne on erect stems; flowers very large and full. And the color is a coppery-orange in the opening bud; golden-orange when partly developed; pinkish fawn of lovely shade when fully open, when it looks like a full fluffy silk rosette. No wonder that flower buyers have fallen in love with it! 35c each, \$3.00 per dozen, by express.

Mrs. Benjamin R. Cant—A splendid new garden Rose of round, full form and solid color, clear, bright rosy-pink; large size, double and full, and quite fragrant. The most vigorous grower of all Tea Roses. It is an excellent garden Rose—has come to stay. 50c each, \$5.00 per dozen, by express.

Irish Elegans, "Irish Rose"—Apricot, shaded coppery bronze at the base of petals; flowers single. This interesting rose is a new type. 35c each, \$3.00 per dozen by express.

Leopard Plant or Farfugium Grande

At last we have a beautiful house plant which will grow almost anywhere if it has a little light. It is a wonderful plant on the porch, in the parlor or anywhere almost. It is a beautiful plant if planted in the garden in a bed of plants next to the house or under trees; in fact, if planted outside as well as inside, is always beautiful. If you will give this plant a little fertilizer once a month, as it is a gross feeder, you will have the prettiest ornamental house plant grown. It has large, circular, thick, leathery leaves eight to twelve inches in diameter, of a deep glossy green, with large, bright yellow spots, borne on long, wiry stems. It is very handsome and striking; as pretty an ornament as a vase of beautiful flowers. Price of small plants, 35c each, \$3.00 per dozen, postpaid. We have larger plants, 75c, \$1.00 and \$1.50 each, by express.

Silver Moon

Geranium Novelties

America—A new single Geranium; a wonder; in a class by itself. One of the strongest growers. Has large trusses high above beautiful foliage. Color, bright, fiery red, acuminate effect, penciled and shaded to a pure white center. A handsome and striking variety. This beautiful single flowering Geranium is admired by everyone that sees it. When used in beds or as a hedge it is wonderfully effective and beautiful. 15c each, postpaid; \$1.00 per dozen.

Ivy Geraniums

Leopard—One of the most vivid colored Ivy Geraniums known. Size of flower and coloring resembles a Lady Washington Geranium. It is of a beautiful cerise pink, blazed with fiery crimson. Flowers semi-double, borne on long, stiff stems, in immense clusters. We recommend this as the most beautiful of Ivy Geraniums, largest flowers and of the richest color. A vigorous grower and blooms profusely. 20c each, 12 for \$2.00, postpaid.

Col. Baden Powell—Another beautiful Ivy Geranium, unsurpassed for its delicate color and peculiar markings. Flowers of the largest size, semi-double; abundantly produced in good size trusses, borne on long stems; pearl white shading to a soft blush, dark blotches on upper petals. 20c each, 12 for \$2.00, postpaid.

"Hills of Snow" Hydrangea

Hills of Snow, or **Snowball Hydrangea** is a grand addition to the summer-blooming, hardy shrubs. One of its good points is that it comes into bloom just at a time when there is a scarcity of white flowers. Its habit is much like the common Hydrangea, but the blooms are white as the driven snow and blooms long and beautiful. No hardy shrub can compare with this grand novelty for freedom of bloom, duration of flower, or beautiful white blossoms as a cut flower. 35c each, delivered free. Large plants \$1.00 each, by express.

No Premium With Novelties and Specialties.

Leopard Plant

Novelties and Specialties

Chas. C. Navlet Co's 1914 Dahlia Novelties

The best varieties, including our own novelties and the choicest recent European introductions.

Paeony-Flowered—The newest type of Dahlia; originated in Holland and comes to use with the endorsement of all Europe. The blossoms are semi-double, of enormous size; the color is most brilliant and beautiful. They come in several pleasing forms, generally with three to five rows of petals, which are long and broad, sometimes being beautifully curled and twisted. Paeony Dahlias bloom more freely than any other class, and are very vigorous. They grow to a height of five or six feet, with their flowers on long stems above the foliage.

New Paeony--Flowered Dahlias

Geisha, (Paeony) Yellow—The showiest and most attractive of this type yet introduced; of strong growth, with rich colored flowers standing well above the foliage. These are original in form, consisting of peculiarly twisted and curled petals of an effective and rich combination of scarlet and gold, the center being yellow, which becomes suffused with and deepens to scarlet at the center of the petals, shading off lighter at the edges. **Either green plants, ready for delivery May 1st, or strong roots, ready for immediate delivery. 50c each, postpaid.**

Magnet, (Paeony) Cerise—Beautiful in color, white ground, center suffused with light cerise and broad stripes running to end of petals of bright cerise, making it a most striking flower. The petals are broad and tubular towards the tips and more or less curled or twisted; a wonderful keeper as a cut flower. **Green plants only, ready for delivery May 1st, 50c each, postpaid.**

Marie, (Paeony) Salmon—Semi-double Dahlia; one of the most beautiful and striking colored Dahlias that has ever been produced. The color is a lovely rosy-flesh, suffused with salmon and lightly penciled with bronze. The disc is of a beautiful orange. The flowers are 5 to 6 inches in diameter, and stand above the plants on stiff stems 24 to 36 inches long. One of the first to bloom and a very vigorous grower; continues to bloom until killed by the frost. As a cut flower and for its lasting qualities, it is unsurpassed. For decorations and floral work is unequalled. We recommend this Dahlia as the most beautiful semi-double Dahlia ever introduced up to the present time, to our knowledge. **Strong roots, ready for immediate delivery, 50c each, postpaid.**

Queen Wilhelmina, (Paeony) White—Immense fluffy flowers of pure white with yellow center. Very graceful and free-flowering; one of the finest garden Dahlias. **Only green plants sold. 50c each, postpaid. Ready for delivery May 1st.**

Dr. K. W. Van Gorkom, (Paeony) White—White, shaded with rose; a free bloomer and a very handsome variety. **Either green plants, ready for delivery May 1st, or strong roots, ready for immediate delivery. 50c each, postpaid.**

Three Grand Dahlias

Rosslyn Wood (Cactus). A deep vivid golden-orange Cactus Dahlia. Flowers full to the center, borne on long stems, shading to a lighter orange at end of petals, six to eight inches in diameter. Only golden-orange Cactus Dahlia ever offered for sale, or in existence, to our knowledge. After years of careful hybridizing we have succeeded in perfecting this wonderful Dahlia, which we now offer to our patrons and feel highly proud of its merits. Can you picture a cluster of these golden-orange Cactus Dahlias arranged in a vase with our vivid crimson Dahlia? The plant is a very strong grower, and a very free, early and late bloomer. No lovers of Dahlias should be without this wonderful new colored Cactus Dahlia in their garden. **Large roots 50c each, postpaid. Ready for immediate delivery.**

Minnie Burtle (Decorative). Another truly wonderful decorative Dahlia that has won the admiration of every Dahlia fancier on account of its rich vivid velvety crimson color. The flowers average from 7 to 8 inches in diameter, full to the center, borne on long, stiff stems. An extraordinary free bloomer. A half dozen roots of this wonderful Dahlia will produce enough blooms from early Spring to late Fall to keep a beautiful vase full of flowers before you constantly. **Large roots 25c each, postpaid; \$2.50 per dozen, by express. Ready for immediate delivery.**

Delice Dahlia

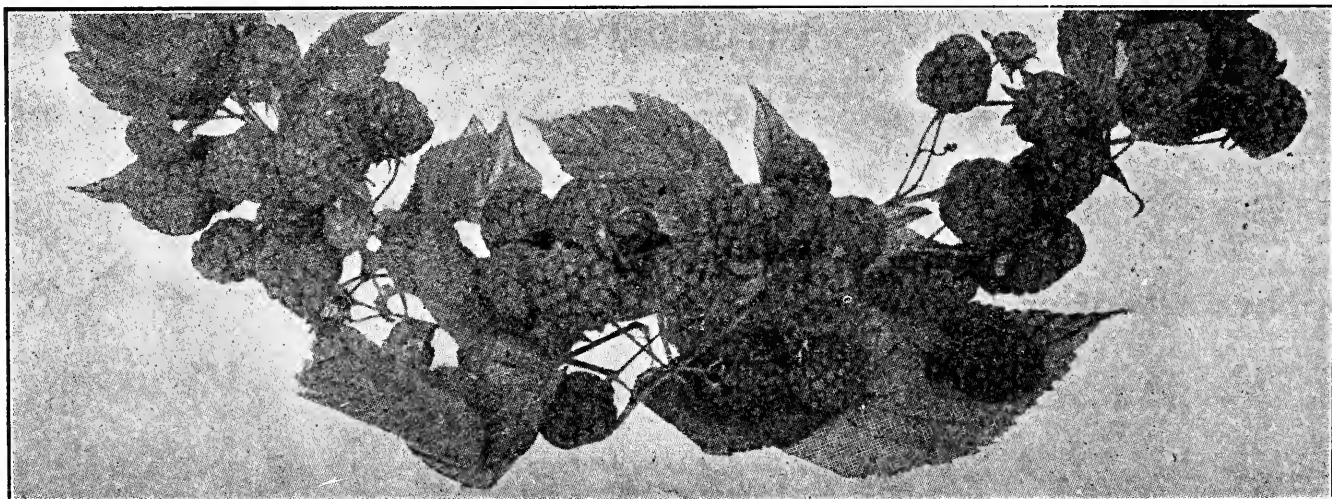

Delice, (Decorative) Rose—Its beautiful, soft, yet lovely color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, which hold the flower well above the foliage, and the fact that when cut it retains its freshness for a long time, makes this one of the sorts for the garden. **Green plants, ready for delivery May 1st, or strong roots, ready for immediate delivery, 35c each, \$3.50 per dozen.**

Venus Canna

Venus, the prettiest of all Cannas. The flowers of this Canna are by far the most striking of colors that we have seen during all of our experience for over a quarter of a century. We recommend this Canna to be the finest of all Cannas. The flowers are very large and of the softest and most delicate shades of rosy-pink, with heavy, pretty mottled border of creamy yellow. Do not fail to get some of these beautiful Cannas. When they are in bloom they will be envied by everybody. **Price 35c each, 3 for \$1.00. Delivered free.**

Thornless Black-Cap Raspberry

This berry is one of the latest variety to be brought into general use; while it is not a very large berry, it is sweet as honey, and luscious, with a peculiar flavor all its own. Not seedy as some of the older Raspberries. The berries grow in large clusters of twelve to fifteen berries, and also in singles. The canes are blue-black, covered with a grey netting, like a rouge, and entirely thornless; the leaves are a silver green, fringed and regular with creases all through the surface. Should be pruned in February so as not to interfere with tip growth; cut away all laterals on single cane growth, so as to induce a larger growth in size of fruit. Is a rapid grower; will produce fruit the second year, and from then on will increase in quantity; in good soil will throw out canes six to ten feet long. Can be grown in bush form or on wire trellises or poles. Plant at least five feet apart in rows. Fruit ripens in July. A very desirable berry for the family garde'n. **50c each, postpaid; \$4.50 per dozen, by express.**

Thornless Black-Cap Raspberry

Novelties and Specialties

The Latest

Carnation Novelties

Ready For Delivery All the Year Round

Gorgeous (Crimson)—Is a strictly high-class variety, and has been termed by many "The American Beauty" among Carnations. If its robust, healthy and vigorous growth is considered, it certainly merits the distinction, for it is a veritable "Giant" among Carnations; but, unlike the American Beauty Rose, it produces a flower on every shoot. Its color (as its name implies) is superb, and may be described as a rich, glowing crimson, suffused with brilliant vermillion, shading out on the edges to rose madder. When viewed in full sunlight the petals reflect a glittering shimmer, as if fine gold dust was scattered over their surface. Under artificial light it looks scarlet, and with age softens to a beautiful carmine. Plants 35c each, 12 for \$3.50, delivered free.

5 Prize Winners

25c Each, 12 For \$2.00, Postpaid

Portola (Pink)—A prize-winner at the 1913 State Floral Show in San Francisco. Color a beautiful satiny-pink. The flowers are large and full and borne on stiff stems. One of the best garden varieties.

Dorothy Gordon (Pink)—An improved rose-pink Enchantress. Flowers of an even rose-pink shade, grand in growth, very free in production of blooms. Flowers of immense size and borne on long, stiff stems.

Mrs. C. W. Ward (Pink)—A perfectly formed flower with full center, immense in size, color deep pink, strong, erect stems, 20 to 36 inches in length. A vigorous, healthy grower and has never shown disease of any kind. A very free and early bloomer. One of the leaders in its shade of pink.

White Wonder (White)—Is the largest and fullest flower we know of; it blooms throughout the entire season. Color, snow white; very fragrant; absolutely perfect in form, healthy and a grand variety in every way. Flowers are borne on very long, stiff stems and surpasses any other white carnation we have ever seen. We recommend this variety very highly.

Washington (Cerise)—This is a grand variety, a sport from Enchantress, a very free bloomer. Flowers of immense size and very double. Color, a beautiful cerise; robust grower. Flowers are borne on long, stiff stems.

Chrysanthemum Marguerite

Mrs. F. Sander—In this we have unquestionably the most important flowering plant introduced in many years, a plant that will not only be grown extensively for cut flowers, but also a subject which will prove invaluable for the amateur's conservatory and window garden, it succeeding in any light, sunny position. Unlike all other Marguerites, its color is of the purest glistening white throughout; in size it frequently measures 5 inches across; the center of the flower is a mass of closely arranged fringed florets; these are surrounded or edged by the broad, shining white ray petals, forming a flower which reminds one forcibly of a bouquet of Asters. These are produced on long stems with a freedom not known in other varieties of the Marguerite.

The flowers, if used in floral work or decorations or for vases, are simply beautiful, and a plant that will give one a whole year of pleasure, as there is never a day that this plant is not in bloom. The illustration is taken from plants now at our Nursery, and we consider this plant one of the finest novelties ever introduced of its kind. Strong plants 15c each—\$1.50 per dozen. Delivered free.

Novelties in Petunia Plants

Single Petunia—Flowers large as saucers, giant flowering, extra choice, assorted colors, composed of royal purple, black throat; white, edged with light purple; throat striped yellow; white, variegated with lavender. These are all fringed varieties. Many other beautiful colors are included in this assortment, many resembling orchids. This variety is sold only in mixed colors. 25c each, postpaid, \$2.00 per dozen by express.

Double Petunia (Pink)—Beautiful shell pink flowers of immense size. 25c each, postpaid, \$2.00 per dozen by express.

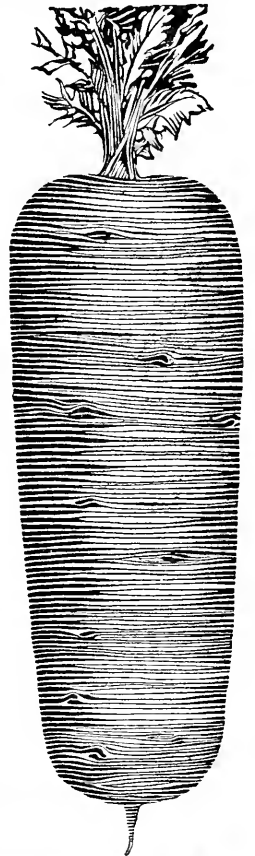

Double Petunia (White)—Grand snow white flowers, immense size. 25c each, postpaid, \$2.00 per dozen by express.

Giant Canary Yellow Polyanthus

This magnificent strain is perfectly hardy and the most easily grown spring and summer garden Primrose. The plants are of strong, sturdy habit, bearing immense trusses of giant flowers of a beautiful canary-yellow on self-supporting stems, 10 to 16 inches in length. Undoubtedly the richest colored giant flowering Primrose ever grown. The foliage is of a beautiful olive green of immense size, making it unsurpassed either as a pot plant, in solid beds or for borders. The great advantage in these is they are ablaze with blooms in early spring and throughout the summer and bear flowers the entire season. Beautiful flowers for house decorations or vases. Strong plants, 25c each, postpaid, \$1.50 per dozen by express.

A Wonderful New Carrot
Chas. C. Navlet Co.'s improved strain of orange-colored stock carrot. We have a carrot that suits every soil. A tremendous cropper. A wonder for its earliness. This grand new carrot can be harvested as easily as beets, and yields a heavier crop than any other carrot known. This variety is a cross between Long Orange and Oxheart. It grows about 4 inches across the shoulder, 9 to 11 inches long, and tapers slightly to the bottom, and very stump rooted.

The color is of a very bright orange. The carrot is very sweet, of fine texture, entirely devoid of stringiness, coarseness, and woody heart or core. All kinds of stock simply relish this wonderful carrot. The past four years we have had this carrot grown by the largest growers of Santa Clara Valley. The carrot was placed on the market to test its merits, and brought more per sack than any other variety. It has proven to be a wonderful cropper and the best seller. A sack of these carrots once tried, the consumer would never be without them for stock. It suits heavy or light soils, and is very easily harvested. This carrot yields such a large crop that we feel proud to be able to offer this money-maker to the public. We guarantee everything we say about this carrot and recommend it as the best orange carrot up to date. It has no equal. Per packet 5c; oz. 15c; ¼ lb. 50c; pound \$1.50.

Novelties and Specialties

The Wonderful Lemon Ponderosa

Ponderosa Lemon Tree

A Fine Pot Plant for the House, Conservatory or Garden

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of the ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one Lemon. We have the genuine stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant, or can be grown outdoors. The waxy-white blossoms will scent every room in the house when grown indoors. Everybody can grow his own lemons; it will fruit freely each year.

Says the Houston Post: "Harry Adams, landscape gardener for the Sunset at San Antonio, has presented Col. T. J. Anderson a monster Ponderosa Lemon from the Sunset tropical botanical garden at the depot in that city. There were thirty-eight lemons on this tree, and the one sent is one of the largest, weighing about three pounds. It is estimated that this single lemon will make two gallons of good lemonade or two barrels of the circus variety, or material for two dozen lemon pies, or sour enough to impart flavor to one hundred and fifty sour toddies, or lemon peel sufficient to decorate two hundred cocktails. Colonel Anderson sent the monster lemon to the office of Traffic Manager C. K. Dunlap."

Strong Plants 35c each, delivered free.

Yellow Centaurea

Centaurea or Sweet Sultan—Flowers of beautiful canary-yellow. Plants 10c each—75c per dozen, delivered free.

Be sure to read about the wonderful bargain offers on pages 6 to 8.

Otaheite Orange

As a pot plant this lovely Dwarf Orange is one of the most novel and beautiful that can be grown. With a couple of plants of it you can have an abundance of the far-famed, delicate and fragrant Orange blossoms, and we recommend it to our friends as a novelty of sterling worth and merit. For eight months in the year this little orange tree is in bloom and fruit, and if grown inside the perfume from the waxy blossoms will permeate every room in the house. Can be grown outside in the garden, in a window box or on the porch, and will give you real pleasure every day in the year. The fruit is small, yet makes a showy, attractive appearance that delights all who have seen it. **Strong plants 35c each, delivered free.**

Violas or Tufted Pansies

New—and every lover of flowers and Pansies should have a few in the garden, as they bloom the year round. While the flowers of the Tufted Pansies are not so large as the regular type, yet they bloom so freely that they are superior to Pansies where effect is wanted, the colors being particularly clear and distinct. The improved forms of Viola are little known here, but are certain to become general favorites. If planted in a partially shaded bed they will flower continuously for two years or more. Their bright colors and great blooming qualities will make them welcome additions to any garden. **Strong plants 75c per dozen, \$5.00 per 100, delivered free.**

Otaheite Orange

Jerusalem Cherry or Solanum

A very beautiful pot plant for the house or for the garden. The leaves are small and of a beautiful dark green, and during the Fall and Spring are covered with a mass of red cherries, making the plant very effective and ornamental. The fruit is not edible. These plants grow to a height of three feet. **Strong plants, 35c each, delivered free. Large plants, 50c each, delivered free.**

Yard Long Bean Seed A Great Novelty

10c Per Package, Postpaid—Ready for Immediate Delivery

Just think of a tender, edible bean that you can use in place of a yardstick. Pods grow from two to three feet in length. Prolific bearer. A useful vegetable as well as a great novelty.

Japanese Air Plant

A novelty imported from Japan. Grows without water or soil. We have had a basket of this wonderful Air Plant for two years, and it looks as beautiful today as the day we placed it in our sitting-room. It will not stand the sun, as the sprays are very fine, and the sun will burn them. The plants absorb the moisture from the air; this keeps the plants looking beautiful all the time. The plant is of a beautiful green color, and is a very beautiful ornament for the parlor, and is inexpensive. The plants are arranged in a pretty, dark, twig basket, and can be suspended from a chandelier or placed in the center of a table, where the effect is beautiful.

We are selling thousands of these beautiful plants every month in our Floral Store. They must be seen to be appreciated. Twig basket made especially for the Air Plants, 25c each, postpaid; or basket and two Air Plants, enough to fill a basket and make a pretty effect, 65c each, postpaid. Air Plants, 20c each, postpaid. You do not know what you are missing if you haven't one of these pretty plants to ornament your home.

Japanese Air Plant

NO PREMIUM WITH NOVELTIES AND SPECIALTIES.

Berry Department

ALL BERRIES READY FOR IMMEDIATE DELIVERY

There is no country under the sun so favorable for the growth of small fruit as the Pacific Coast. Hence, there is really no reason why every owner of a plot of ground should not have a supply of the different berries for the table. Grown for home use, it is a pleasure to care for them. And to pick the large, luscious berries—washed in the sparkling dew of early morn—is a joy. Then, just compare such berries with those purchased on the market—covered, as they so often are, with the dust and filth that is blown around the streets of our large cities. One to five hundred Strawberry plants are plenty. Two or three dozen Blackberry or Raspberry plants, a row of Loganberries or Seedless Blackberries would furnish an ample supply of berries for the table and canning. **It also pays to grow berries in commercial quantities.** There is a splendid market on this Coast for all kinds of berries. There is big money in raising berries for any market that is not distant. **We are the largest handlers of Berry plants on the Coast, and make no charge for packing plants for shipping—other houses do.**

Chas. C. Navlet Co's Wonderful New

Seedless Blackberry

THE GRANDEST BLACKBERRY ON EARTH

20c Each { Delivered } 12 for \$2
Free

READY FOR IMMEDIATE DELIVERY

More popular than ever. Each season we sell more than the previous one, and what is better still, are selling more of them to the same people who bought them six years ago and have proven their worth. This endorses our claims and proves that it more than lives up to what we say of it.

The demand last year for our Wonderful Seedless Blackberry was nothing short of phenomenal, and we heard nothing but praise from those who planted them. Every one speaks a good word for it, and each succeeding season have ordered more plants. This year we have grown an enormous stock in order to be prepared to meet every demand. Our wonderful Seedless Blackberry is recognized as the berry gardener's greatest money-maker. On account of being four weeks earlier than any other Blackberry, handsome in appearance, juicier and more delicious than any other Blackberry, it brings higher prices and sells more readily than any other. We have testimonials from hundreds of customers, who say it is all and more than we claim.

If you already have this berry, do not forget to cut off the old canes, as it is the new shoots that give you the most luscious fruit. This wonderful Blackberry has superlative merit. Our customers who have grown it speak of it in the most enthusiastic terms, and say it is impossible for us to praise it too highly.

It is Superior in Every Way to Any Other Blackberry in the World and is the Most Profitable Berry that can be Cultivated

It commences to produce its luscious fruit four weeks earlier than any other Blackberry, and is at its best when other varieties are but beginning to ripen. It is juicier and of more delicious flavor than any other Blackberry. It is larger than the well-known Kittatiny, Crandall or Lawton, and fewer berries are needed to fill a basket. It is far more attractive in appearance than either of these popular varieties, and not only finds a quicker market, but commands a higher price. If planted this spring or summer, and properly watered and cultivated, it will bear a small crop the first year—no other variety will produce fruit until the second year. It begins to bear fruit—if the season is favorable—between the 15th and 30th of May, and produces its heaviest crop in June and July. While not entirely seedless, it is nearly so, and the few seeds that it has are round and so small and soft that they are not the least annoying. We are sure that everybody who cultivates it will be more than pleased. Plant from December to April.

20c PER PLANT—\$2.00 PER DOZEN—DELIVERED FREE TO ANY ADDRESS

The Choicest Currants

CHERRY—The largest Red Currant in existence. The bushes are unusually hardy in habit of growth and bear profusely. The berries are a beautiful light red, and grow in immense clusters, more resembling bunches of Red Grapes than bunches of Currants. 20c per plant—\$1.50 per 10—\$10.00 per 100.

WHITE GRAPE—This is the hardiest white sort ever introduced, and is therefore especially desirable. This and Cherry we consider the best of all Currants. 20c per plant—\$1.50 per 10—\$10.00 per 100.

BLACK NAPLES—A fine black Currant and a general favorite. The berry and bunch are very large and of most excellent quality. 20c per plant—\$1.50 per 10—\$10.00 per 100. Purchaser to pay transportation on all currants. Ready for immediate delivery. Plant from December to April.

WE DO NOT CHARGE FOR PACKING AND CARTAGE ON BERRIES AND FRUIT TREES.

OTHERS CHARGE FOR PACKING AND CARTAGE, WHICH, IN MANY CASES, ADDS FROM 15 TO 25 PER CENT TO THE COST OF THE GOODS. IN COMPARING OUR PRICES, WITH OTHERS', PLEASE REMEMBER THIS.

Seedless Blackberries

Dewberry

ONE OF THE FINEST AND MOST SATISFACTORY BERRIES.

The Dewberry is a most wonderful berry, ripening an immense crop of fruit before late Raspberries are gone. In some localities it ripens in May. Large, firm, of superior flavor, and very attractive. A rampant grower and may be trellised like Grapevines. Roots from tips like Cap Raspberries. Those who have grown it consider it one of the greatest berries ever introduced. It certainly is of extreme earliness, enormous productiveness and finest quality count for anything. Perfectly hardy, standing extreme cold, drought and heat equally well. 15c per tip—75c per 10—\$4.00 per 100 by express. Purchaser to pay transportation. Plant from December to April.

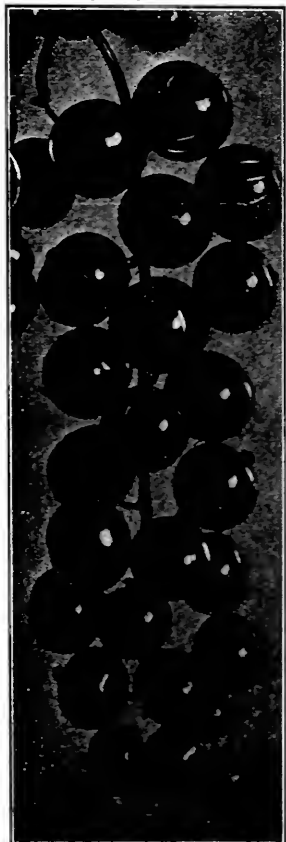

The Finest Gooseberries

DOWNING—Popular variety. Fruit pale green, large and juicy. Splendid for both cooking and table use. 25c per plant—\$1.75 per 10—\$15.00 for 100. Purchaser to pay transportation.

HOUGHTON—Vigorous grower, abundant bearer; fruit of medium size, pale red, sweet and juicy. 20c per plant—\$1.50 per 10—\$12.00 per 100. Purchaser to pay transportation.

SMITH'S IMPROVED—One of the most widely cultivated Gooseberries. Pale green fruit, thin skin, unsurpassed for table use or cooking. 25c per plant—\$1.75 per 10—\$15.00 per 100. Purchaser to pay transportation.

WHITE SMITH—Perhaps the finest Gooseberry in the world. Large yellowish-white, good market variety. 25c per plant—\$2.00 per 10—\$18.00 per 100. Purchaser to pay transportation. Plant from December to April.

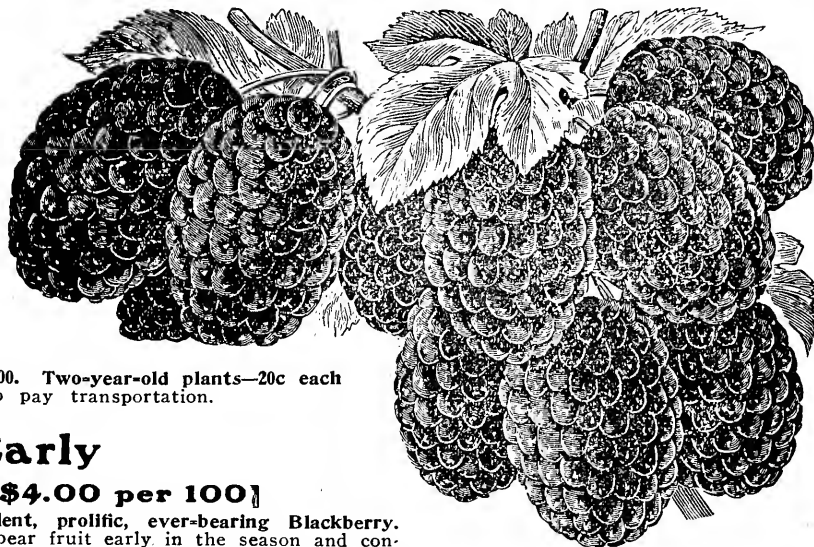

Cherry Currant

Mammoth Blackberry

The Largest Blackberry in the World

**10c Each—75c per 10
\$4.00 per 100**

The Mammoth grows entirely unlike any other Blackberry in cultivation. It is a rapid grower, trailing on the ground or upon trellises like Grapevines, and under favorable conditions will grow 20 feet in a season. Canes are large and strong. Foliage large, healthy, thick, and of a deep green color. Enormously productive and exceedingly early. Fruit enormously large, specimens often reaching 2½ inches in length. Seed small and soft. Core small, very soft and palatable. In size and extra fine flavor the Mammoth surpasses all other varieties of Blackberry, with the single exception of our Wonderful Seedless Blackberry. One of the finest Fruit Novelties of recent years. It is unlike a Dewberry or any other so-called running Blackberry ever introduced. Plants 10c each—75c per 10—\$4.00 per 100. Two-year-old plants—20c each—\$1.50 per 10—\$12.00 per 100. By express, purchaser to pay transportation.

Loganberries

Crandall's Early

10c per plant—60c per 10—\$4.00 per 100

An excellent, prolific, ever-bearing Blackberry. Begins to bear fruit early in the season and continues until late in the fall. It often yields good, ripe, well-developed fruit as late as the last days of December. Berries are large, of fine flavor, firm and solid. 10c per plant—60c per 10—\$4.00 per 100. Purchaser to pay transportation.

Kittatiny Blackberry

10c per plant—60c per 10—\$4.00 per 100

One of the old popular varieties. Fruit of best quality, large, handsome, and ripe as soon as black. Very productive. Midseason. 10c per plant—60c per 10—\$4.00 per 100. Purchaser to pay transportation.

Himalaya Giant

15c per plant—\$1.00 per 10—\$6.00 per 100

A late Blackberry coming after the other Berries are gone, and ripening over a period of several weeks. Especially desirable for family use. In Northern California they are seldom injured by frost, as they blossom after all frosts are over. Like the Loganberry, it must be grown on a trellis—the vines under favorable conditions growing 15 to 20 feet. The berries grow in bunches, are of excellent flavor and the yield is tremendously large. 15c per plant—\$1.00 per 10—\$6.00 per 100 by express. Purchaser to pay transportation.

Loganberry

THE MARVELOUS

BLACKBERRY-RASPBERRY

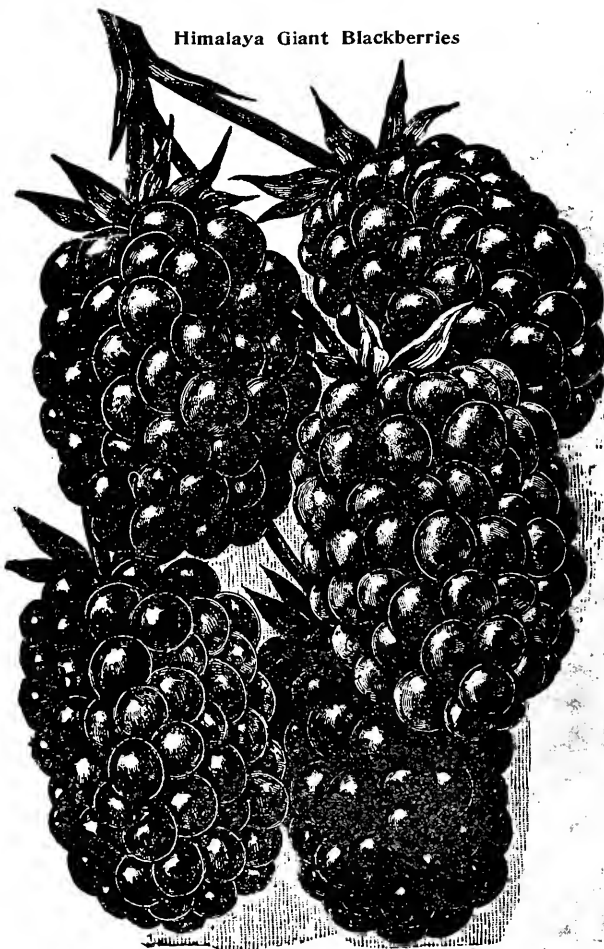

10c per plant—75c per 10—postpaid—\$4.00 per 100. Two-year-old plants 15c each—\$1.25 per 10—\$7.50 per 100 by express. Purchaser to pay transportation.

The Loganberry originated in California. It is unlike any other berry in existence. A hybrid between the Raspberry and the Blackberry, it partakes of a nature of both in appearance, but has a delicious, vinous flavor peculiar to itself. Hardy as a rock—stands driest weather without flinching—and fruits in the poorest soil. The bushes are of low growing habit, and have strong canes without thorns. One of the most profitable berries you can cultivate. Purchaser to pay transportation. Plant above Berries from December to April.

Phenomenal Berry

15c Each
10 for \$1.25
100 for \$10.00

By Express. Purchaser to Pay Transportation

A Luscious Berry that Tastes and Looks Like Both the Raspberry and Blackberry—One of Luther Burbank's Greatest Triumphs

Of this extraordinary berry Mr. Burbank says: "It is larger than the largest berry every before known. It has a bright crimson Raspberry color, is as productive as could be desired, and the most delicious of all berries for canning and drying. The berries grow in clusters of 5 to 10 or more each, and the individual berries measure three inches around one way, by four inches the other way, and weigh one-quarter ounce each—even larger ones were weighed and measured last season." We have found this berry to be all that is claimed for it—phenomenal in every particular. It tastes and looks like both the Raspberry and Blackberry. It is one of the most remarkable of all new fruits introduced during this generation. A berry of sterling worth in every particular. It is twice as large and in many ways superior to the new Loganberry which is being so highly praised. 15c per plant—10 for \$1.25—\$10.00 per 100 by express. Purchaser to pay transportation.

Raspberries

Cuthbert, "Queen of the Market"

10c per plant—60c per 10—\$5.00 per 100
Purchaser to pay transportation

A standard hardy variety, that endures northern winters and southern summers equally well. The berries—a deep rich crimson in color—are of very large size, delicious flavor and so firm they can be shipped hundreds of miles. The bush is a very vigorous grower and bountiful producer.

Gregg, Best Black Variety

THE MOST VALUABLE OF THE BLACK CAP FAMILY

10c per Plant—75c per 10—\$6.00 per 100
Purchaser to pay transportation

The canes grow strongly and vigorously, and under good culture are very productive. The berries are large, covered with heavy bloom, firm, meaty and of fine flavor. The Gregg is unquestionably the best and largest Black Cap Raspberry in cultivation. Berry growers who want a late berry, a handsome berry, a good berry, a productive berry and a profitable berry should not fail to plant this peerless sort.

Golden Queen

The Golden-Yellow Beauty

A Seedling of the Cuthbert

10c per Plant—75c per 10—\$6.00 per 100. Purchaser to pay transportation

Of surpassing size, beauty, productiveness, adaptability, flavor and hardness. The large berries are a beautiful golden-yellow in color, and the canes are extremely hardy and of strong growth. The fruit always brings a high price in the market because of the peculiarity of color and flavor.

California Surprise

10c per Plant—75c per 10—\$6.00 per 100
Purchaser to pay transportation

This Raspberry is the best suited to the hot interior valleys. It bears abundantly from early spring until frost, and it is in the Los Angeles markets almost through the entire year. Compared with the Cuthbert, it is earlier by two weeks, not quite such a deep red, gives larger crops, and while not so sweet it is one of the most profitable market berries. Needs good soil to bear large berries and large crops.

Superlative

As Delicious as the Name Implies

Two Year old plants 25c each—\$2.00 per 10
\$17.50 per 100
PURCHASER TO PAY TRANSPORTATION

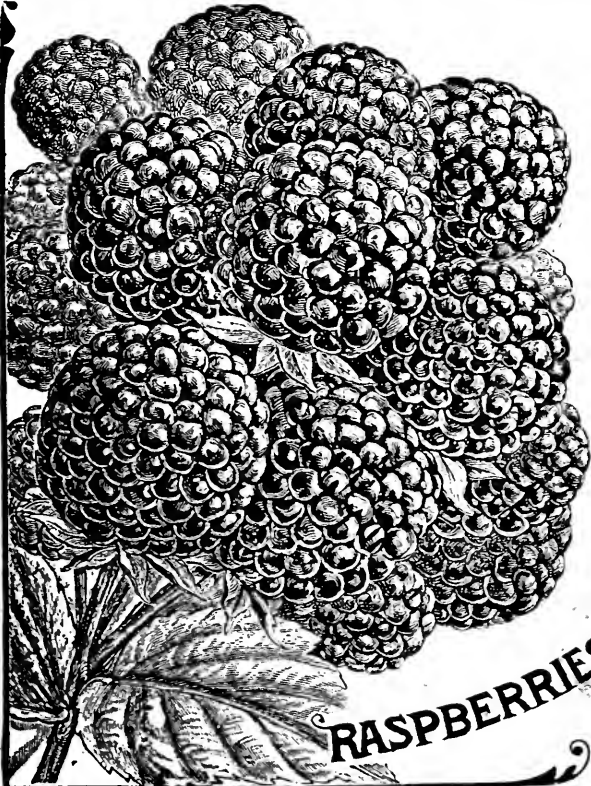

The Superlative Raspberry is a surprise in the fullness of its merits. It deserves the strongest words of praise in our language. We know of no variety that can compare with it at all. It is a stiff, upright grower, a continuous cropper from May until November.

Plant Raspberries from December to April.

Cuthberts

Strawberry Plants

ALL BERRY PLANTS READY FOR IMMEDIATE DELIVERY

12 for 25c Delivered Free 100 for \$1.00 By Express

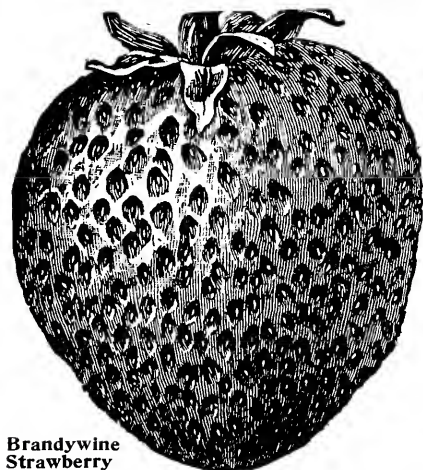

The Three Best Self-Fertilizing Sorts

BRANDYWINE—An extra fine, very large, and enormously productive medium to late Strawberry. The berries are exceptionally sweet, perfect in form and of a rich glossy crimson color, which permeates the flesh almost to the center. An ideal dessert berry, and unsurpassed for canning and preserving. The plant is a strong, luxuriant grower—succeeds in any soil—and can always be depended upon to yield a bountiful crop.

MOLINDA—An exceedingly handsome, high-colored Strawberry of good size and unexcelled quality. Plant very strong, a good grower, long lived, and makes but few runners. Berries are firm and of a rich color. Very prolific.

LONGWORTH'S PROLIFIC—A well-known and immensely popular Strawberry, especially in California. Fruit small, but very sweet. Always commands a high price in the markets.

BRANDYWINE, MOLINDA AND LONGWORTH'S PROLIFIC STRAWBERRY PLANTS, 25c PER DOZEN—DELIVERED FREE. \$1.00 PER HUNDRED—BY EXPRESS. Purchaser to pay transportation.

Brandywine Strawberry

Cardinal

A Noble Yielder of Delicious Fruit

12 for 50c, Delivered Free—100 for \$2.50 by Express

The **Cardinal** is the greatest market Strawberry yet introduced. The fruit is of good size. The color is rich brilliant red. The flesh is firm enough for a distant market. The **Cardinal** is a pistillate variety and should have every fourth row of bisexual variety. For instance, one row **Klondyke** (early), three rows **Cardinal**, one row **Brandywine** (late). 50c per dozen plants by mail, postpaid. \$2.50 per 100 by express. Purchaser to pay transportation

Klondyke

QUEEN OF EARLY STRAWBERRIES

12 for 35c, Delivered Free—100 for \$2 00 by Express

The **Klondyke** variety is famous for the beautiful and uniform shape of its rich blood-red berries. We have given it a thorough test in our breeding beds and can advise our customers to set largely of the **Klondyke**. 35c per dozen by mail, postpaid. \$2.00 per 100 by express. Purchaser to pay transportation.

Plant Strawberries from October to May.

Burbank's Wonderberry Plants

Grown from Luther Burbank's seed. Strong plants; will bear fruit three months after planting. 15c each—\$1.50 per dozen—postpaid.

Burbank's New Strawberry

The Patagonia

15c Each, 12 for \$1.50, Delivered Free

In introducing this Strawberry, Mr. Burbank says:

"Of the twenty standard varieties of Strawberries now growing on my home places the 'Patagonia' commences to ripen **first and continues to bear the Longest**.

"Well grown plants are about one foot in height and twelve to eighteen inches across. The leaves are large and unusually thick and firm, with a thin silky down, and are never injured by sunburn, where other varieties are either seriously browned or wholly destroyed.

"The berries grow on stiff branching stalks, which, while generally holding the berries free from the ground, yet do not expose them to the hot sun, so that in warm, dry weather the berries keep here in best condition a week or more on the vines. The berries are uniformly large, single berries sometimes weighing an ounce each at the beginning of the season, decreasing somewhat in size during the heat of midsummer, but are even larger in the fall if the runners have been removed; fine scarlet color with a handsome pale yellow flesh. The seeds are so very small as to be almost imperceptible.

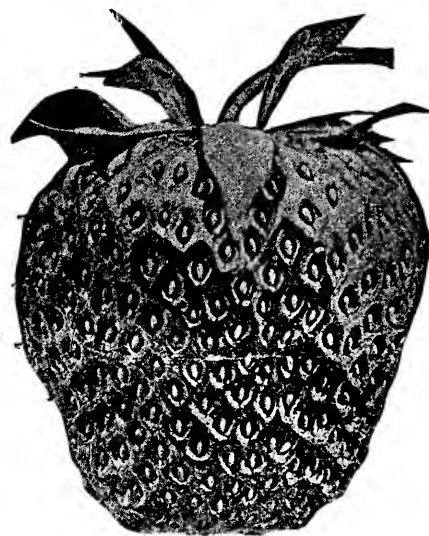

"This berry though firm and a remarkably good keeper is of most exquisite quality, melting in the mouth with a sweet pineapple, strawberry and cream-like flavor, and can be freely eaten by those who cannot eat the common acid strawberries now grown.

"The calyx is extraordinarily large. This keeps the berries apart, giving an air space, making them keep much longer than ordinary berries and adding a peculiar, fresh beauty when offered in boxes or baskets.

"But above all, this new strawberry is a home berry. Easy to raise, producing great quantities of large, firm, sweet, delicious, pineapple-flavored berries without the usual care necessary to produce good strawberries. It is the first of a new race which has come to make strawberry growers rejoice.

"Everyone who has seen the 'Patagonia' has been surprised and delighted with the vigor and surprising productiveness of the plants, the size, beauty, exquisitely delightful flavor and aroma of this, the King of Strawberries."

15c each; \$1.50 per dozen. Delivered Free.

Molinda Strawberry

Patagonia Strawberries

Fruit Tree Department

All Fruit Trees Are Packed and Delivered to Express or Freight Office Without Extra Charge—Others Charge for Packing and Cartage—Quite a Saving to Customers.

All Ready For Immediate Delivery

Please note that we will sell Five Fruit Trees of any kind for one-half of the cost of ten. No other nursery will do this.
NOTE—The prices quoted in this catalogue on fruit trees are for THIS SPRING ONLY on account of the demand being greater than the supply. The high price of trees is caused by the big prices received for all fruit crops last season. Fruit Growers ordered early for the following: Apricots, Cherries, Peaches, Bartlett Pears and Prunes. Other nurserymen are practically exhausted of trees suitable for this year's planting, but we have reserved twice as much stock this year for our mail order customers.
 While many nurserymen list all varieties of each kind of Fruit Trees, we offer only those tried and true kinds that will prove the best. Ours are all selected stock, carefully propagated, true to name, and in every respect can be depended on.

No Premium With Fruit Trees

Fruit Trees are Sent By Freight or Express, Purchaser to Pay Transportation Charges

Apple Trees

Summer Varieties

4 to 6 feet—30c each—\$2.50 per 10
Early Harvest—Medium size. Bright straw color. Tender and fine. Good for table and cooking. Ripens in July.

Red Astrachan—Large, deep crimson. Flesh, white, moderately juicy, with an agreeable rich and acid flavor. Very productive. Best early Apple. Ripens in July and August.

Autumn Varieties

4 to 6 feet—30c each—\$2.50 per 10
Alexander—A very large, deep red or crimson Apple. Hardy and fairly productive. An excellent market sort. Ripens in September.

Jonathan—Medium to large, striped, mostly red. Tender, juicy, rich, vinous flavor. Very productive and one of the best varieties either for table or market. Ripens in October and November.

Winter Varieties

4 to 6 feet—30c each—\$2.50 per 10
Esopus Spitzenberg—Large, light red, delicately coated with light bloom. Crisp, rich, sprightly, vinous flavor. Ripens November to January.

Smith's Cider—Large, handsome, red and yellow. Juicy, acid. A vigorous grower and abundant bearer. Ripens December to March.

White Winter Pearmain—Large, pale yellow. Extra high flavor. Ripens December to February.

Yellow Bellflower—A large, handsome and excellent winter Apple. Skin smooth, pale lemon yellow, often with a blush next the sun. Flesh tender, juicy, crisp, with a sprightly sub-acid flavor. Ripens October to January.

Yellow Newtown Pippin—Large, yellow, firm, crisp, juicy, with a very rich, high flavor. The best winter Apple. Ripens December to March.

Jonathan Apple

Crab Apples

4 to 6 feet—30c each—\$2.50 per 10

Hyslop—Almost as large as the Early Strawberry Apple. Deep crimson. Very popular. Late, Tree remarkably vigorous.

Red Siberian—Fruit small, about an inch in diameter. Yellow, with scarlet cheek. Tree an erect, free grower. Bears when two or three years old.

Transcendent—A beautiful variety of the Siberian Crab. Large, red and yellow. Tree a remarkably strong grower.

Apricot Trees

4 to 6 feet—50c each—\$4.00 per 10.

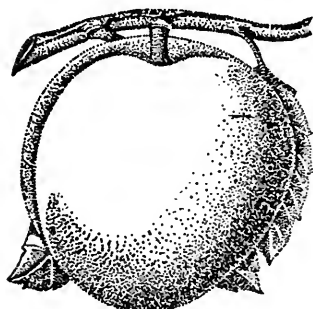

Blenheim—Orange with a deep yellow cheek. Juicy and tolerably rich flesh. Vigorous grower, and regular prolific bearer.

Hemskirke—Strongly resembles the Moorpark in size and color, but differs from that variety in ripening a little earlier and more evenly. Ripens July to August.

Moorpark—One of the largest and most popular Apricots. Deep orange or brownish red. Flesh quite firm, bright orange, parting freely from the stone. Quite juicy, with a rich and luscious flavor. A favorite canning variety. Ripens in August.

Royal—A standard variety. Skin dull yellow, with an orange cheek. Flesh pale orange, firm and juicy, with a rich, vinous flavor. Ripens in July.

Fruit trees should be planted from December to March. Order early and obtain desired selections.

Hemskirke Apricot

Family Orchard

for Special Prices on Fruit Trees in 100 or 1000 Lots.

Our Family Orchard of Fruit Trees, listed on page 8, is an economical way of buying a good small assortment. Write

Cherry Trees

By Express or Freight, Purchaser to Pay Transportation Charges

4 to 6 feet 50c each—\$4.00 per 10

Black Tartarian—Fruit of the largest size. Bright purplish black. Flesh thick, juicy, very rich and delicious. Tree a remarkably vigorous, erect and beautiful grower and an immense bearer. The best of the black cherries.

Napoleon Bigarreau—(Royal Ann)—A magnificent Cherry of the largest size. Pale yellow, becoming amber in the shade, with a bright red cheek. Flesh very firm, juicy and sweet.

Bing—Lately introduced. Fruit large, dark brown or black. Very fine. Late. A good shipping variety.

Governor Wood—Large light yellow, shaded with bright red. Flesh juicy, sweet, rich and delicious. A vigorous grower and very productive.

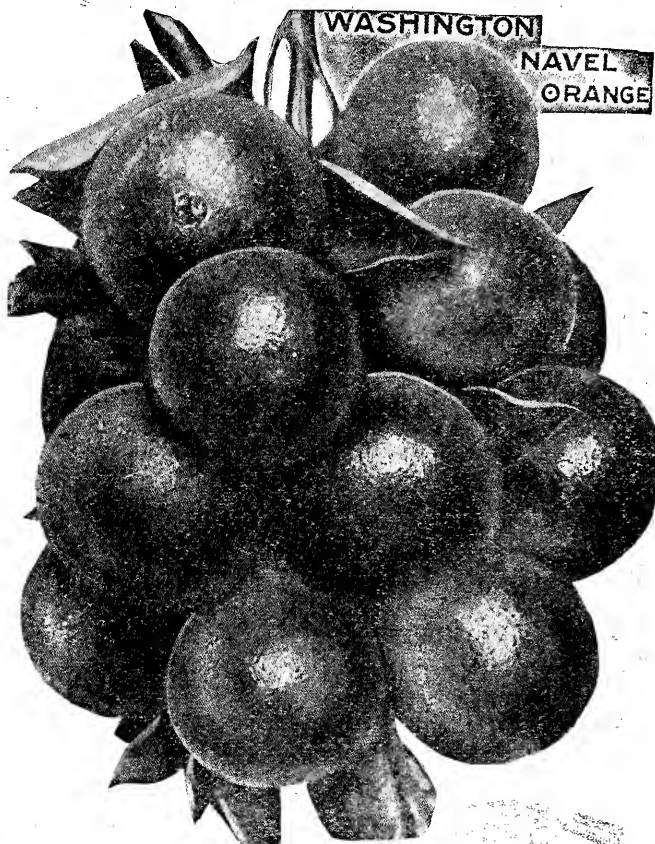

Lewelling—(Black Republican)—Large size. Cross between Napoleon Bigarreau and Black Tartarian, having the solid flesh of the former and the color of the latter. Very late and good.

May Duke—An old well-known, excellent variety. Large dark red, juicy, rich, sub-acid. Good for pies.

Fig Trees

Adriatic—Tree a strong and healthy grower. Fruit above medium size. Skin white and thin. Pulp red, fine, exceedingly aromatic and changes to an amber color when dried. Price—3 to 4 feet, 40c each, or \$3.50 per 10. Extra choice stock.

California Black—The well-known local variety. Fruit large, dark purple, almost black when fully ripe. Makes a good dried fig. Tree grows to a very large size and bears immense crop. Prices—3 to 4 feet, 40c each, or \$3.50 per 10. Extra choice.

Lemon Trees

Villa Franca—Thornless, or nearly so. Fruit juicy and nearly seedless. Withstands lower temperature than any other variety. 4 to 5 feet, \$2.50 each.

Lisbon—Tree of largest growth. Fruit medium size, fine grained, and with a strong acid flavor. Few seeds. Good keeper. 4 to 5 feet, \$2.50 each.

Nectarines

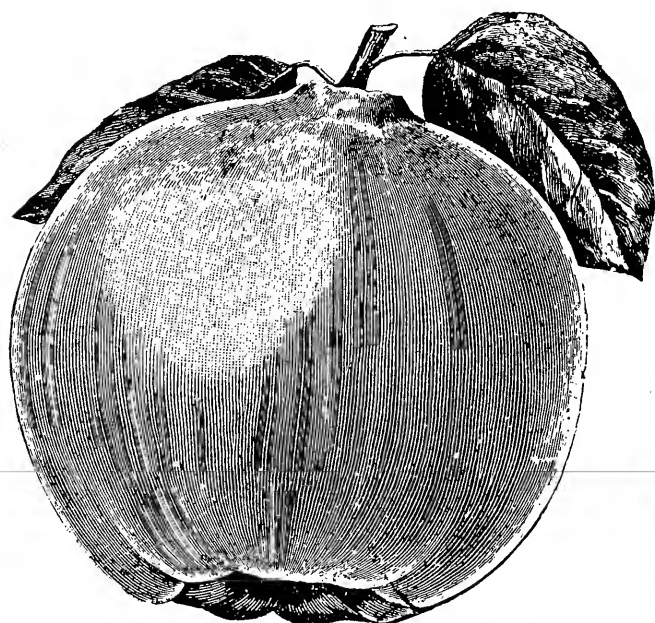

4 to 6 feet 40c—\$3.00 per 10

Boston—Large, deep yellow, with a bright blush and deep mottlings of red. Flesh yellow, without any red at the stone. Sweet though not rich, with a pleasant and peculiar flavor.

New White—Fruit rather large, nearly round. Skin white, with a light tinge of red when exposed. Flesh white, tender, very juicy, fine flavor. Ripens in August.

Orange Trees

Washington Navel—Of all introduced none have given California the prominence and prestige as a great citrus section that this remarkable variety has. Here it has reached the highest state of perfection, and it stands pre-eminently in the lead of all other varieties for its large size, lusciousness and sweetness of pulp, so that it well deserves the title of "King of Oranges." Tree is a rapid grower, and an early and prolific cropper. Fruit juicy, melting, seedless. Price—4 to 5 feet, \$2.50 each.

Quince

Persimmon

Japanese—Very large. Skin light yellow, marked with veins. Flesh dark brown. 3 to 4 feet 40c each—10 for \$3.50

Pomegranate

Paper Shell—A heavy bearing variety. Skin very thin, hence the name. Especially valuable for home consumption 4 to 6 feet—75c each. 3 to 4 feet—50c each.

Spanish Ruby—A new large fruited sort. Skin thick, pale yellow, with a crimson cheek. Flesh crimson, highly aromatic, and very sweet. Excellent shipper. 4 to 6 feet—75c each. 3 to 4 feet—50c each.

Pomelo—or Grape Fruit

Marsh Seedless—Nearly seedless, very juicy, and of excellent quality. 4 to 5 feet—\$2.50 each.

Quince Trees

New Quince—3 to 5 feet—50c each.

Pineapple—Fruit very large. Apple shaped, clear yellow. Flesh very tender. Can be eaten raw like an apple. Makes a highly flavored jelly. Its flavor is the same as that of a Pineapple. Fruit Trees should be planted from December to March. Order early and obtain desired selections.

Peach Trees

Freestone Varieties

4 to 6 feet, 50c each—\$4.00 per 10.

Early Crawford—A magnificent, large, yellow Peach of good quality. Its size, beauty and productiveness make it one of the most popular varieties.

Strawberry—Medium size, oval. Skin marbled with deep red. Flesh whitish, juicy, rich, and of a very delicious flavor.

Muir—An excellent bearer, and does not curl. Fruit large to very large. A fine shipper, and one of the best canning Peaches. As a drying Peach it excels all others ever introduced.

Elberta—Very large. Skin golden-yellow where exposed to the sun, faintly striped with red. Flesh yellow, very fine grain, juicy, rich, sweet and splendidly flavored. Tree very prolific. It is a perfect freestone, and one of the most successful market varieties.

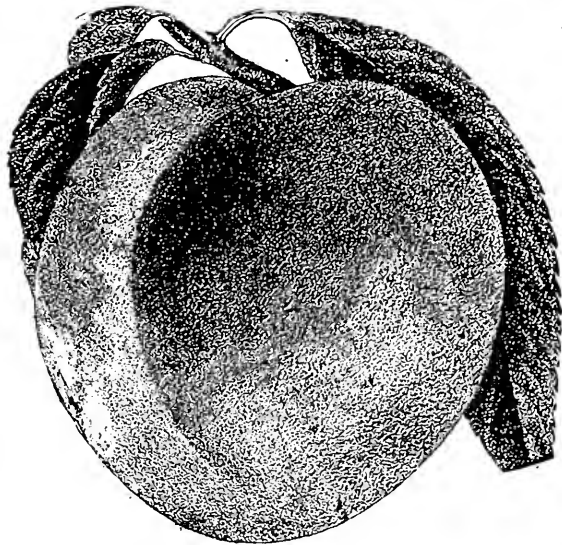

Clingstone Varieties

4 to 6 feet, 50c each—\$4.00 per 10.

Heath—The most delicious of all clingstones. Fruit very large. Skin downy, creamy-white, with a faint blush of red in the sun. Flesh greenish-white, very tender, and exceedingly juicy, with the richest, highest and most luscious flavor.

Nichol's Orange—A large yellow cling, with purple cheek. A vigorous, productive variety. In every way worthy of extensive cultivation.

Phillips—Large. Flesh clear, yellow to the pit, which is very small. Exceedingly rich and high flavor.

Heath Peach

Pear Trees Summer Varieties

4 to 6 feet, 50c each—\$4.00 per 10

Bartlett—Large, skin very thin, clear lemon-yellow, with soft blush on the sunny side. Flesh white, buttery, very juicy and highly flavored. The best summer Pear. Thrives in all parts of California.

Autumn Varieties

4 to 6 feet, 50c each—\$4.00 per 10

Beurre Clairgeau—Very large. Yellow shaded with red. Nearly melting, highly flavored. One of the earliest and most prolific bearers. Ripens in September.

Dana's Hovey—(Winter Sickle)—A medium-sized Pear of the highest flavor. One of the most valuable Pears in the catalogue. Ripens October to December.

Winter Varieties

4 to 6 feet, 50c each—\$4.00 per 10

P. Barry—Fruit very large. Skin deep yellow, nearly covered with a rich golden-russet. Flesh whitish, fine, juicy, buttery, melting, rich and slightly vinous. Ripens January to March.

Plum Trees Standard Varieties

4 to 6 feet, 50c each—\$4.00 per 10

Bavay's Green Gage—An excellent foreign variety of fine flavor. Large, greenish. Highly recommended for canning. Ripens in September.

Jefferson—A fine variety. Large oval. Yellow, with a reddish cheek. Flesh very rich, juicy, luscious, high flavor. Parts freely from the stone. Ripens in August.

Green Gage—Small, but of the highest excellence. Round. Greenish-yellow, with brown dots. Very juicy and sweet. Ripens in August.

Kelsey Japan—A valuable plum for preserving, and all culinary purposes. Ripens in October.

Washington—A magnificent, large Plum. Deep yellow, with a pale crimson blush. Flesh yellow, firm, very sweet and luscious. Ripens in July and August.

Yellow Egg—A very large and beautiful egg-shaped, yellow Plum. Flesh yellow, rather acid until very ripe, when it becomes sweet. Ripens in August.

Luther Burbank's New Hybrid

3 to 5 feet, 50c each—\$4.00 per 10

Wickson—A cross with Satsuma on Kelsey Bloom. Formed like the Kelsey, but more symmetrical. In ripening the color changes from a deep cherry red to a rich claret. Flesh amber, very juicy. Pit small. Flavor striking and agreeable. A valuable shipping Plum.

Prune Trees

4 to 6 feet, 50c each—\$4.00 per 10

French—The well-known variety so extensively planted for drying. Medium size, egg-shaped, violet purple. Juicy, very sweet, rich and sugary.

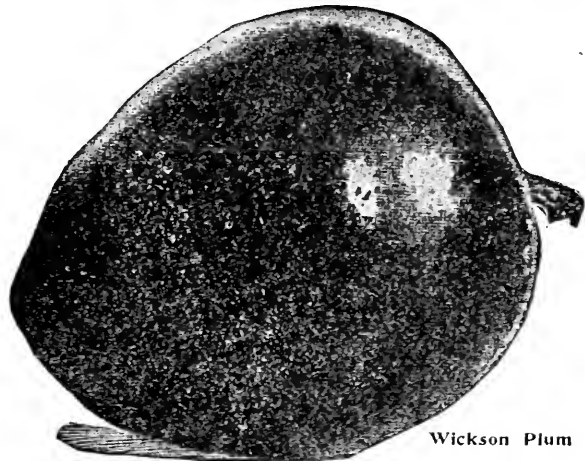

Sugar—An extremely early Prune. Very large. Ripens August 1st. Skin very tender. At first of a light purple, tinted with green, changing at maturity to dark purple.

Giant—Fruit of immense size. Dark crimson color upon a yellow ground. Flesh firm, rich, sweet, delicious. Excellent shipper. Freestone. Tree an early, regular, heavy bearer.

Hungarian—Very large, dark red, juicy and sweet. Its large size, bright color, productiveness, and shipping qualities render it a profitable variety for home or distant market.

Imperial Epineuse—Large and uniform in size. Very sweet and of high flavor. Skin thin and of a reddish purple when green—when dried, coal black.

BY EXPRESS. PURCHASER TO PAY TRANSPORTATION

Of the numerous varieties of grapes introduced from Europe in recent years, not one is to be compared to this magnificent variety. It has been bearing with us now for four seasons, and fulfills our most sanguine expectations as a shipping grape. This grape is constantly gaining in favor, both with the fruit grower and buyer. Very heavy planting is being done at the present time, and many vineyardists believe that it is destined to be one of the most popular and profitable grapes ever introduced. It is the most popular grape of Asia Minor, and is used there for table, shipping and raisins, being the only variety outside of the Sultanina Blanche (Thompson Seedless) from which raisins are made. It is earlier than the Malaga, and the vine is fully as strong a grower, and if anything a heavier bearer. Bunches large, only slightly shouldered, berries loose, never compact, this one point adding very materially to its value as a shipping grape. Berries very large, quite oval in form, one inch and over long by three-quarters of an inch across diameter; skin thin, but tough, greenish at first, but as the grape matures turning to a beautiful golden amber and covered with a whitish bloom; very fleshy, juicy and sweet, with little or no acidity. Its keeping qualities are unsurpassed, and even when allowed to remain on the vines until over-ripe, it shows no inclination to drop off the stems. We predict a great future for this beautiful grape, and our remarks pertaining to it hardly do it justice; it must be seen and eaten before its unsurpassed qualities can be appreciated.

For Table Raisins and Shipping

One and Two-Year-Old Vines—20c each—\$1.25 per 10—\$8.00 per 100
By Express. Purchaser to Pay Transportation Charges

Black Ferrara—One of the most valuable Grapes for shipping. Color black, bunches large, flavor fine.

Black Hamburg—A fine, tender Grape, producing large, magnificent bunches. Berries black, very large and oblong.

Black Malvoise—Bunches large and long. Berries oval, flavor fine. An excellent table Grape, and valuable for wine.

Black Morocco or Bishop—A large, showy Grape. Bunches large. Berries large. Skin thick, dark red, becoming black when fully ripe. Ripens late and keeps well.

Chasselas de Fontainebleau—Bunches large and compact. Berries medium size. Skin thin, transparent, greenish-yellow. Pulp tender, juicy, sweet and richly flavored. One of the best early Grapes.

Chasselas Rose—Fruit resembles the foregoing except in color, but the bunch and berries are smaller and the flavor more pronounced.

Golden Chasselas—A most excellent grape. Bunches large. Berries larger than those of the C. de Fontainebleau. Skin tender, amber color when fully ripe. Flesh tender, delicious.

Purple Damascus—A large, oval Grape of fine quality. Requires a warm situation to mature well.

Emperor—Clusters large, with large, oval, rose-colored berries. One of the most valuable Grapes for shipping long distances.

Malaga—Vine a strong grower, and immensely productive. Bunches very large. Berries very large, oval, yellowish-green. Skin thick and fleshy.

Muscat of Alexandria—Bunches large, long and loose. Berries large, slightly oval, pale amber when ripe, covered with a thin white bloom. Flesh firm, exceedingly sweet and rich. Fine flavored. The variety most extensively planted for raisins.

Muscat Hamburg (Black Muscat)—Bunches and berries large. Skin thin, tough, dark reddish purple, covered with a thin blue bloom. Pulp juicy, rich and sugary. Strongly resembles the Muscat in flavor.

Rose of Peru (Black Prince)—Bunches very large. Skin thick, brownish black. Flesh tender, juicy, rich and sprightly. A fine market variety.

Thompson's Seedless—Larger than the Sultanina. Berries greenish-yellow, firm, seedless. Skin thin. Rapid grower. Enormous bearer. The raisins are of a superior quality and are in big demand. Ripens in July.

Flame-Colored Tokay—Bunches very large and handsomely formed. Berries large. Skin thick, pale red, or flame-colored. Flesh firm, sweet, with a sprightly and very good flavor. A splendid shipping grape.

Verdel—Bunches large and loose. Berries greenish-white, covered with a thick bloom. Flesh tender, sugary, and richly flavored. Ripens late. Very productive.

Zante—Bunches large, compact. Berries round, very small, seedless. Skin thin, black, covered with blue bloom. Sweet, juicy and richly flavored. It is from this variety that the Currants of commerce are made.

WRITE FOR PRICES IN LARGE QUANTITIES

Nut Trees

BY EXPRESS OR FREIGHT, PURCHASER TO PAY TRANSPORTATION CHARGES

Almonds—Soft Shell Sorts

4 to 6 feet—40c each—\$3.50 per 10

IXL—Tree sturdy, rather upright grower. Nuts large. Hulls easily. Shells soft, but perfect.

Ne Plus Ultra—Extremely prolific, producing its nuts in bunches all over the twigs. Nuts large and long, almost invariably of one kernel. Of fine flavor. Hulls readily.

Nonpareil—Of a weeping style of growth, but still forms a beautiful tree. Heavy and regular bearer. Of the Paper Shell Type.

Chestnut Trees

4 to 6 feet—50c each—\$4.00 per 10

Japan Chestnut—Fruit larger than the European. In its native country this nut grows to much larger size than it does with us. Tree bears when quite young.

Walnut Trees

California Black—Nut roundish, much smoother than the American Black Walnut, and the kernel is sweeter and of a more delicate flavor. 6 to 8 feet, 60c each, or \$5.00 per 10. 4 to 6 feet, 50c each, or \$4.00 per 10.

Santa Barbara Soft Shell—An early and abundant bearer. The nut is large, the kernel white, sweet and readily extracted, the shell being broken easily. 4 to 6 feet, 40c each, or \$3.50 per 10. 3 to 4 feet, 35c each, or \$3.00 per 10.

French Grafted Walnuts

4 to 6 feet, \$2.00 each—\$18.00 per 10—3 to 4 feet, \$1.75 each—\$15.00 per 10—2 to 3 feet, \$1.50 each—\$12.00 per 10.

Franquette—Nut very large and long. Kernel full-fleshed, sweet and rich. Buds out late in the spring. A good market variety.

Mayette—One of the best dessert nuts grown. Large, full-fleshed and sweet.

Walnut

Chas. C. Navlet Co's Re-Selected Strains

Our prices for Vegetable Seeds by the packet, ounce, quarter and half pound include postage. Pounds and larger quantities are NOT delivered free, and if to be sent by mail, 8 cents per pound must be added to our prices for postage.

NOTE.—On account of the drought the general seed crop has been a failure. Fortunately we provided for the emergency, and on our seed farms we were able to irrigate freely, and therefore are more favorably situated than most of our competitors. While the prices are almost as high as last year, yet we are considerably lower than those quoted by others. By comparing this year's prices with those of last year, you will find we have reduced the prices on many varieties. But, better still, a comparison of our prices with those of other firms will plainly show you that we still sell lower than all others.

THINK IT OVER

GROCERY AND DRUG STORE SEED—Perhaps you have noticed the pretty boxes in many corner Grocery and Drug Stores where Vegetable and Flower Seeds are sold at five and ten cents per package. Now figure what one dollar will buy from them and figure what one dollar will buy from us. You get twenty packages at five cents per packet from them—you get twenty-five 5c packets from us. Or you get ten packets at ten cents from others; you get twelve 10c packets from us and a five cent packet besides. That is to say, if you buy one dollar's worth of Vegetable Seeds by the single packet from us you may select twenty-five cents' worth of either Vegetable or Flower Seeds extra without charge. Nor is that all. You buy the **BEST SEED** when you buy from us. We are never "just out of it" when you want to plant. Our seed is all clean Seed, carefully selected, nothing but the best, and is reliable for the reason that it has been tested. We maintain an experiment station to try out all seed before it is offered to our customers. We have built up our reputation on the quality of our seeds, plants, etc., and it will be maintained. A comparison of our prices on seeds by the ounce, quarter pound, half pound, and pound will usually show that you can get as much from us for one dollar as what would cost two dollars elsewhere. **Why not buy from the Grower—You will surely get the Best.**

Artichoke

Large Green Globe—Most Popular Variety

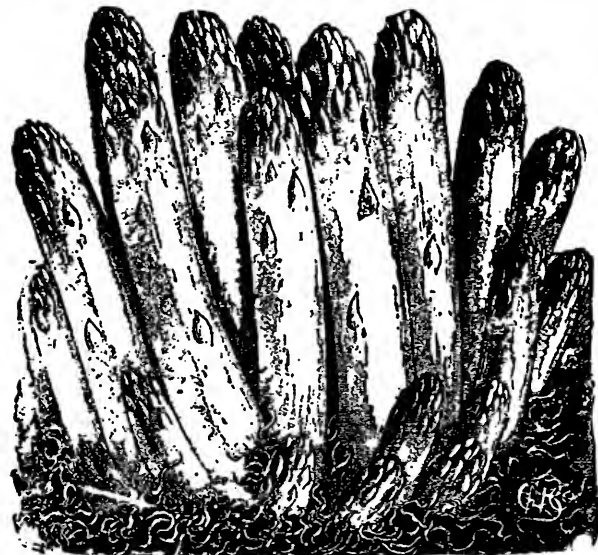

Highly esteemed for its delicately flavored and large flowered heads, which are cooked like Asparagus. Per packet 5c—ounce 30c, quarter pound \$1.00, pound \$3.50. Plant from February to May.

Artichoke Plants

Large Green Globe—12 for \$1.25. Delivered free. These plants are healthy and vigorous. Ready for immediate delivery.

Asparagus

It requires three to four years from the time of planting seed for the plants to produce shoots suitable for eating. Sow the seed in rows a foot apart. The soil for the permanent bed should be thoroughly manured and trenched to a depth of at least 2 feet. Plant the roots in rows 3 feet apart and 1 foot between the plants in the rows; spread the roots out well and let the crown of the plant be covered about 6 to 8 inches when established. Previous to sowing the seedsoak in tepid water for 24 hours.

Palmetto Asparagus

Artichoke

Palmetto Asparagus—This variety of Asparagus, originally from South Carolina, has been found best adapted for the Pacific Coast. It is grown extensively for the markets of the large cities on the Coast and on account of being two weeks earlier than other varieties sells at higher prices. An average bunch of 12 shoots will measure 12 inches in circumference. Early, mammoth size, prolific and regular bearing makes it a desirable variety. Per packet 5c—ounce 10c, quarter pound 20c, pound 75c.

Barr's Mammoth—A favorite with market gardeners. Shoots very large, tender, quick growing, and thick to the top. Per packet 5c—ounce 10c, quarter pound 25c, pound 85c.

Columbia Mammoth White—A large, thick variety; very white even above ground. Per packet 5c—ounce 10c, quarter pound 25c, pound 85c.

Conover's Colossal Asparagus

A well-known Variety of Quick Growth—Mammoth plant, producing from 30 to 50 tender sprouts of excellent quality. Spreads less than other sorts. Per packet 5c—ounce 10c, quarter pound 20c, pound 75c. Plant Asparagus from February to May.

Asparagus Roots

Palmetto or Conover's Colossal—12 for 25c, 100 for \$1.50, delivered free. By purchasing Roots you will save one year's time.

OUR COMPLETE VEGETABLE GARDEN
BARGAIN NO. 11 ON PAGE 8
IS WORTHY OF YOUR ATTENTION

Chas. C. Navlet Co's Re-Selected Strains BEANS BEST BUSH VARIETIES

Improved Golden Wax

Heavy yielder. Pods thick and stringless. This is one of the handsomest Beans we have ever seen, being of dark rich golden-yellow color, and of perfect shape. It is of grand quality, showing no string or coarseness even when past its best, but it is of tender melting flavor at all stages of its growth. For market gardeners or private families, no better Bush Bean can be planted. See illustration at left. Note our low price. Per packet 5c—pound 20c—10 pounds for \$1.25—100 pounds for \$11.00.

Improved German Black Wax

An improved stock of the old Black Wax. The plant is strong and so vigorous in growth that it effectually repels attacks of rust, while its ample foliage so completely shelters the pods from the rays of the sun that they are always uniformly of a translucent, creamy yellow color. The pods are beautifully rounded, meaty and deeply saddle-backed. The flesh is brittle, solid and entirely stringless. Exceedingly early and enormously productive. Our price: Per packet 5c—pound 20c—10 pounds for \$1.25—100 pounds for \$11.00.

Davis White Wax

The most hardy and productive wax-podded variety. The pods are very long and good bean for shipping; seed white, and on this account is desirable for a shelled bean in winter. Per packet 5c—pound 20c, 10 pounds \$1.75, 100 pounds \$15.00.

Beans—Green Podded Sorts Extra Early Tender Podded Red Valentine

America's Standard Dwarf Snap Bean—Fully ten days earlier than the old, popular Valentine Bean. Often ready for picking in forty-five days from planting, and the full, round, meaty pods are of unsurpassed tenderness and quality. This grand variety is a great improvement over the original Red Valentine, which it has now entirely supplanted. The healthy, vigorous plants are usually hardy, successfully withstanding early frosts. It may therefore be planted very early. This, with its quick development, makes it the earliest large-podded variety, and on this account it is extensively grown by truckers over wide sections of the country, though it is equally desirable for home gardens. It will always yield a large crop of handsome, long, round, fleshy pods, a rich green in color and unsurpassed for tenderness when gathered young, when it is practically stringless. It is the Standard Snap Bean, not only for the earliest, but for successive plantings, bearing up to frost. Per packet, only 5c—pound 20c, 10 pounds \$1.25, 100 pounds for \$11.00.

Extra Early Refugee, or 1,000 to 1

The earliest strain of this popular variety by ten days. One of the most profitable Beans ever grown. It is loaded with pods in any season. The pods are nearly round, pale green in color, five inches long, tapering to a slender point. They are quite solidly fleshy, brittle, tender and mild in flavor. Grown by all the market gardeners, who are always quick to pick up a good thing and stick to it after it has proved its worth. Per packet 5c—pound 15c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Early Long Yellow Six Weeks

A very early standard variety, much prized for its productiveness and excellent quality. The green pods are often eight inches long, tender and brittle. Vine vigorous and branching. Beans long, kidney-shaped, yellowish-dun color. Per packet 5c—pound 20c, 10 pounds for \$1.25, 100 pounds for \$11.00.

Burpee Stringless Green Pod

An early maturing, round, fleshy podded variety, of fine quality. Pods straight, brittle and entirely stringless. Rivals all the bush varieties. Per packet 5c—pound 20c, 10 pounds for \$1.75, 100 pounds for \$15.00. Plant all above beans from March to August.

BEANS Running or Pole

The Finest Varieties

Kentucky Wonder, or "Old Homestead"

A marvel of productiveness from July until frost. Unquestionably the best and most popular green-podded snap pole Bean. Ten days earlier than any other variety. The pods hang in great clusters from the top to the bottom of the vine, and can be gathered by the handful. The pods are very large—8 to 10 inches in length—entirely stringless, plump, round and almost "solid meat." They cook meltingly tender and are of superb flavor. We have supplied our "Kentucky Wonder" Beans to customers in almost every State in the Union, and those who report on them invariably do so in the most flattering terms. Per packet 5c—pound 20c, 10 pounds for \$1.25, 100 pounds for \$10.00.

White Creaseback

Of rapid growth and very productive. One of the best early green-podded Beans for snapshoots. The silvery-green pods grow in clusters and are from 5 to 6 inches long, perfectly round, and deeply creased or "saddle-backed." They are solidly fleshy, entirely stringless, and of finest quality. The dry seed is pure white and excellent for winter use. Per packet 5c—pound 20c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Horticultural, or Speckled Cranberry

A late and very productive sort. It is a very strong grower, bearing a profusion of large, fleshy, golden-yellow pods, which, as they become older, are brightly marked with rich carmine flakes and stripes. It is a "double purpose bean," and will furnish a large supply of delicious shell Beans to use in the green state during the summer months or dried for winter. Pods grow from 6 to 8 inches in length. Per packet 5c—pound 20c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Scarlet Runner Bean

Scarlet Runner Bean—Favorite English Climbing Bean. Scarlet blossoms, tender. Also used as an ornamental climber. Per packet 5c—pound 50c.

Burger's Pole

A new pole variety of great merit. Wears long, brittle, stringless pods of excellent flavor. It rivals all other pole beans and is destined to become the most popular of all. Per packet 5c—pound 20c, 10 pounds for \$1.50, 100 pounds for \$12.00.

Plant all of above Beans from March to August.

LIMA BEANS

Running or Pole Varieties

Large White Lima—A very good variety of pole or running type. Very prolific and of good quality. Per packet 5c—pound 20c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Small White Lima—Same as above, only a smaller bean. Per packet 5c—pound 20c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Plant these Beans from March to June.

King of the Garden

One of the most popular main crop varieties. It is a medium early sort, with well-filled pods. 5 to 6 inches long, filled with 4 or 5 good-sized beans. The vines are very hardy. Heavy cropper. Per packet 5c—pound 25c, 10 pounds for \$1.50, 100 pounds for \$12.00.

The Best Bush Lima Beans

Henderson's Bush Lima

Extremely early and enormously productive. Ready for the table or market from two to three weeks ahead of any other Climbing or Bush Bean, and bears continuously throughout the summer until killed by frost. It is an immense yielder, and the handsome, large pods are well filled with very large Beans of most luscious flavor. A true bush variety, requiring no support from stakes or poles. It excels in quality, quantity and earliness. Our price: Per packet 5c—pound 25c, 10 pounds for \$1.50, 100 pounds for \$12.00.

Plant these Beans from March to August.

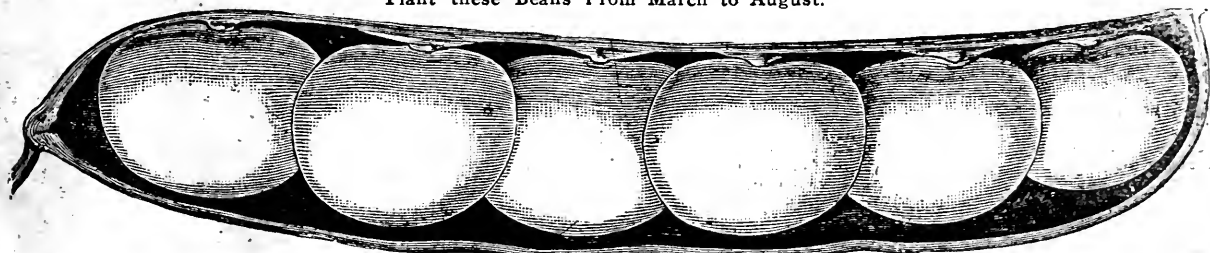

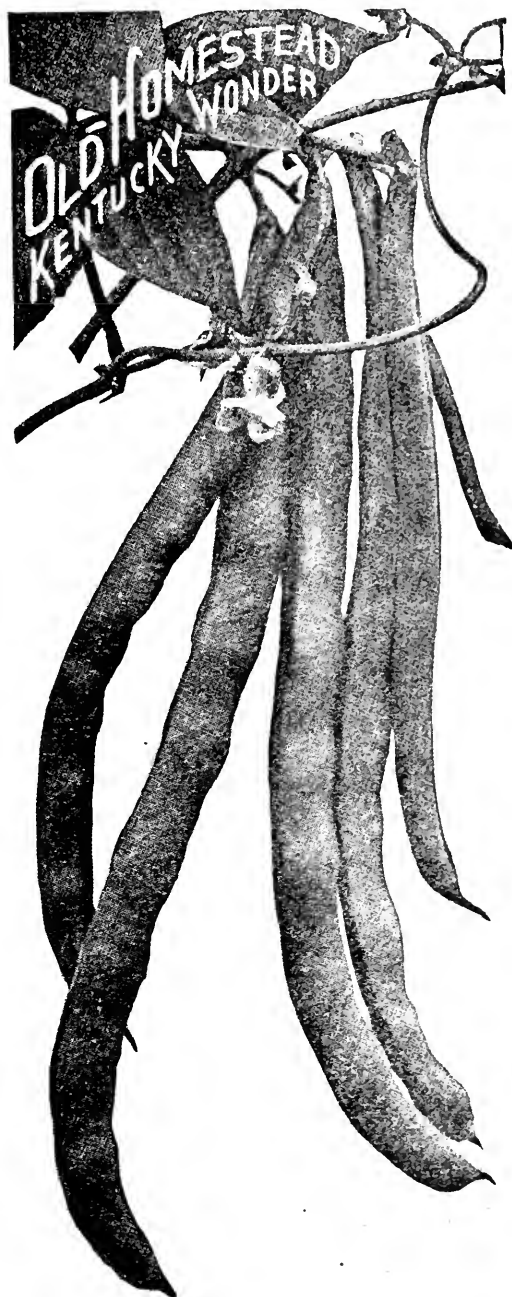

Burpee's Large White Bush Lima

The merits of this well-known late variety are enormous size of pod and fruit, productiveness and quality. It produces the largest Limas we have ever seen, and the big, fat buttery beans are produced in pods of gigantic size. The plant is of rugged constitution, which carries it through wet spells without injury. The superb quality, tenderness and rich flavor, combined with great size of fruit and productiveness, make it the peer of any Lima grown for use either green or dried. Packet 5c—pound 25c, 10 pounds for \$1.50, 100 pounds for \$12.00.

Burpee's Improved Bush

This bean produces magnificent crops of pods, which measure from five to six inches long, by one and one-quarter inches wide. The pods and beans are very large, while the beans, either green or dry, are very thick. The beans have the same luscious flavor of the best flavored Limas, and are ready to use six to eight days earlier. The dried beans are very handsome and sometimes show a greenish-white coloring. Per packet 5c—pound 25c, 10 pounds for \$1.50, 100 pounds for \$12.00.

Plant these Beans from March to August.

Henderson's Bush Lima Beans

Choicest Table Beets

For large quantities of Beet Seed, write for special quotations.

Extra Early Eclipse Blood Turnip Beets

The Ideal Table Beet—fine grained, rich red flesh, exceedingly tender and delicious. Remarkably early. A grand money maker. The Extra Early Eclipse Blood Turnip Beet has every good quality that a Table Beet should possess. It is almost round, with small leaves and tap root, and combines the maximum of edible bulb with the minimum of root and foliage. The color is very dark blood red, and the flesh is delicate, rich and sugary. Extremely early. 5c per packet—ounce 15c, quarter pound 40c, pound \$1.00.

Improved Egyptian

An Extremely Handsome and Early Table Beet

Roots very dark, rounded on top, but flat beneath, with very small tap roots. flesh dark red, with rings of a lighter hue—hard, crisp and tender. Our seed is a special selection of the darkest, earliest and most perfect roots with small tops. 5c per packet—ounce 15c, quarter pound 40c, pound \$1.00.

Best Beet for Stock

IMPROVED COLOSSAL (or MAMMOTH) LONG RED

This is an enormously productive variety, yielding from 50 to 70 tons to the acre, a single root often weighing from 20 to 30 pounds. It is the best Long Red Mangel and of the greatest value for stock feeding. It grows well above ground, and is easily pulled. Our strain is an extra selection from the largest and thickest Mangels. Per packet 5c—ounce 10c, quarter pound 20c, pound 40c, 10 pounds \$3.50.

Improved Gold Tankard

The best Yellow Mangel in cultivation. A distinct and valuable yellow-fleshed variety, which contains a larger percentage of sugar and nutritive matter than any of the red-skinned sorts. It is more relished by milch cows and sheep than any other. Its shape is almost cylindrical. It is very easily pulled and is exceedingly hardy. Per packet 5c—ounce 10c, quarter pound 20c, pound 40c, 10 pounds \$3.50

Yellow Globe Giant Mangel

Very large and of vigorous growth. The roots have fine necks and very smooth skin. Flesh white, firm, sweet and very nutritious. Grows almost on the surface of the soil, hence is easily harvested, and the chunky shape of the roots prevents them from being broken in handling. Per packet 5c—ounce 10c, quarter pound 20c, pound 40c, 10 pounds \$3.50.

Improved German White Sugar

Roots grow to great size, are of heavy weight, make a large bulk of crop and are rich in saccharine matter. Highly recommended as a most excellent and profitable root to grow for stock feeding. Per packet 5c—ounce 10c, quarter pound 20c, pound 45c, 10 pounds \$4.00.

French White Sugar

A mammoth variety with crisp, snow-white flesh. Very valuable for stock feeding, and excellent for table use. Productive. Per packet 5c—ounce 10c, quarter pound 20c, pound 45c, 10 pounds \$4.00.

Swiss Chard Beet or Sea Kale

This vegetable is as valuable to poultry raisers as Alfalfa is to dairy farmers. It grows continuously—year after year—and yields an abundance of nutritious green food all through the winter. It is also far superior to the common Beet for greens. For summer use we consider it superior to Spinach. It is of almost the same flavor and is much easier to wash and prepare for the table, a fact which every housewife knows how to appreciate. Later the leaves grow very large, with broad, flat, white wax-like stems and mid-ribs, which may be cooked like Asparagus, or made into most attractive pickles.

Per packet 5c—ounce 15c, quarter pound 30c, pound \$1.00. Plant Beets all the year round.

Brussels

Sprouts

Improved Dwarfs—This variety is a great improvement. It is of sturdy growth and produces abundantly large, solid sprouts. Are ready for gathering from June—sown seed the same season. Cook same as Cauliflower. Per packet 5c—ounce 15c, quarter pound 45c, pound \$1.50. Plant January to April, and July to October.

Broccoli

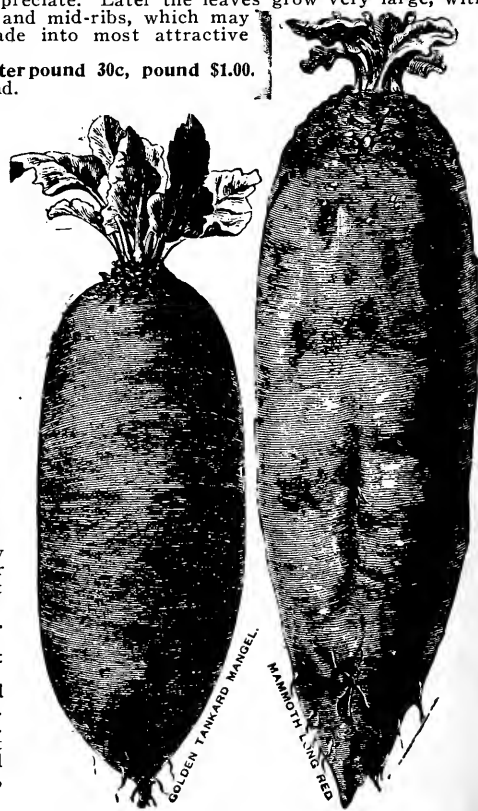

Kale or Borecole

A species of Cabbage forming a large mass of leaves, some of the varieties being very beautiful and curly. The leaves are cooked as greens. If the seed is planted in September the plants will be ready to use for winter, although it can be planted earlier or later. It is very hardy.

Dwarf Green Curled Scotch—Curly, bright green leaves—tender and of delicate flavor. Per package 5c—ounce 10c, quarter pound 30c, pound 85c.

Dwarf Green Curled—Known as German greens. Beautifully curled leaves of the richest emerald green. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Tall Jersey Kale—This native of Europe produces a tremendous mass of beautifully cut and curled leaves which are eagerly sought and eaten by chickens, sheep, horses and cattle. The plants also make a splendid shade for young chicks during the hot summer months. Tall Jersey Kale grows to a height of three or four feet, the roots penetrating to a great depth in the sub-soil, so that the plant is not affected by drought. It grows with wonderful rapidity after being fed off and flourishes in all kinds of soil. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c. Plant Kale from January to April, or July to October.

Chas. C. Navlet Co's
Re-Selected Strains

CABBAGE

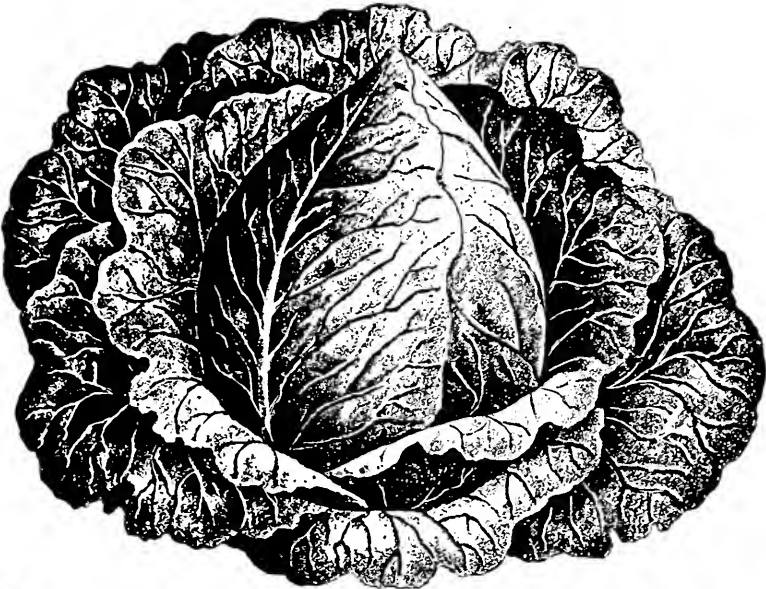

EXTRA EARLY
VARIETIES

Large Jersey Wakefield

Most gardeners depend upon this variety for the bulk of their extra early crop. Its exceeding hardiness not only enables it to resist cold, but other unfavorable conditions, and insures the greatest likelihood of profitable and satisfactory results. Our stock is grown and selected with the greatest care. Head conical, very compact, solid and of excellent quality. The thick, stout leaves and compact habit make it the best sort for wintering over or for very early setting. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Extra Large York

A grand old standard Cabbage for market and home use. Sure header. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Large Jersey Wakefield Cabbage

2nd;Early or Summer Cabbage
Early Winnigstadt

A peerless Cabbage for general use, being very hardy and sure to head. Owing to its compact and upright habit of growth and peculiar texture of short, thick leaf, the variety seems to suffer less from the Cabbage worm than most other sorts. Head regular, conical, very hard, and keeps well both summer and winter. It is the hardiest, not only as regards frost, but will suffer less from excessive wet, drought, insects or disease than any other second early sort. We have devoted a great deal of time and labor to the development of the strain we offer, and send it out confident that it is the best and purest in the country. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Early Dwarf Flat Dutch

Early Dwarf Flat Dutch—A most valuable second early cabbage. The plant is short-stemmed, upright and having comparatively few and short leaves; the rows can be set close together. Head large, solid, crisp and tender, maturing with early summer. Every plant will form a hard head fit for market. Our carefully selected strain should not be confounded with the inferior stocks so frequently offered. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Early Drumhead

A leading variety. Sure to head and good to ship. Plant very hardy and compact, with thick, dark green leaves, covered with a dense bloom. Head flat, very solid and of fine quality. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Early Drumhead Cabbage

Late
or Winter Cabbage
Premium Flat Dutch

A productive market variety. Makes a large, solid head, which keeps long without bursting. Per packet 5c—ounce 25c, quarter pound 75c, pound, \$2.50.

Large Late Drumhead

Very productive and of best quality. Produces enormous heads that are as solid as a rock. Can't be beat as a fall or winter variety. Per packet 5c—ounce 25c, quarter pound, 75c, pound \$2.50.

Red Dutch

A sure bearer. Large, slightly rounded head. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Green Globe Savoy

Particularly adapted for private use where quality rather than quantity is desired. Tender, crisp and finely flavored. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

For winter and early spring crops plant Cabbage seed from July to October—for summer use from January to April.

Collards

A form of Cabbage

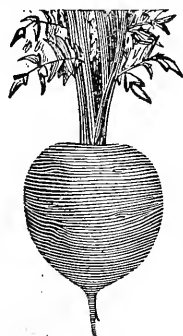

Extensively grown in the south, where it furnishes an abundance of food for the table and for stock. It forms a large, loose, open head, or a mass of leaves on a tall stem. Freezing does not injure, but rather improves the quality. Per packet 5c—ounce 10c, quarter pound 25c, pound 80c. Plant from February to May or during September and October.

PREMIUM LATE FLAT DUTCH

Chas. C. Navlet Co's Re-Selected Strains

CARROTS

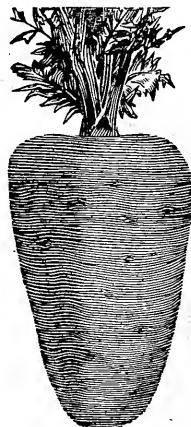

FRENCH
FORCING

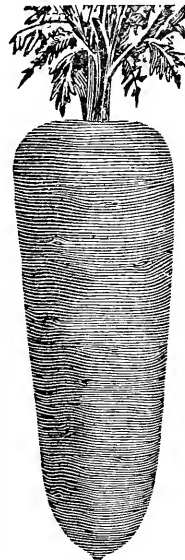

Table Carrots

EARLY
SCARLET
HORN

OXHEART

TRUE
DANVERS

LONG
ORANGE

Selected Half Long True Danvers Carrot

Half Long—A handsome cylindrical-shaped Carrot of large size and stump rooted. It is of a rich, dark orange color, and the flesh is very close in texture and little core. It is a first-class Carrot for all soils, and under good cultivation has yielded from 25 to 30 tons per acre with the smallest length of root of any now grown. More easily harvested than the larger types. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early Scarlet Horn Carrot

One of the most popular varieties grown, color deep orange. One of the best for table use. Grown extensively by market gardeners. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early French Forcing Carrot

Earliest and Best Variety for Forcing—The reddish-orange colored roots are nearly round. When matured they are about two inches in diameter, but should be used before they are full grown, when they are tender and delicious. Per packet 5c—ounce 10c, quarter pound 30c, pound 85c.

Early Oxheart or Guerande Carrot

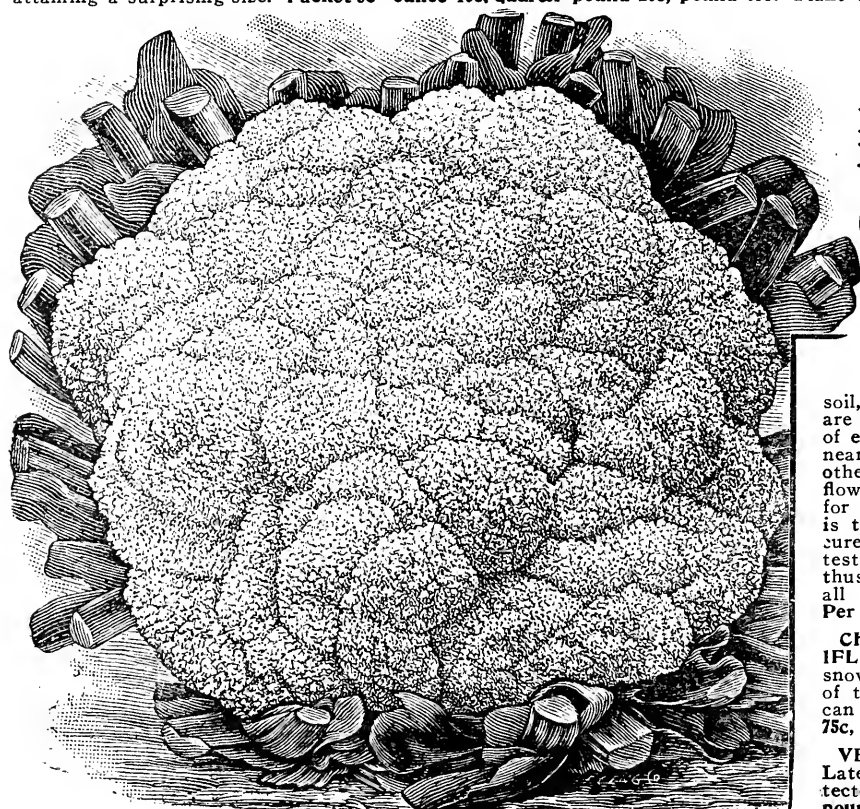

A Thick Carrot, 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of delicious flavor and of a deep red color, and is a variety we can recommend to all market gardeners. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

The Two Best Stock Carrots Improved Long Orange Carrot

Standard Late Sort—Roots 12 to 15 inches long. A good variety for the table and market purposes as well as for stock. Packet 5c—ounce 10c, quarter pound 20c, pound 65c.

White Belgian Carrot

Grows largely above ground, making it easy to harvest. This Carrot is enormously productive, the roots attaining a surprising size. Packet 5c—ounce 10c, quarter pound 20c, pound 65c. Plant Carrots all the year round.

Snowball Cauliflower

Chas. C. Navlet Co's Extra Early Snowball Cauliflower

IT HEADS WHERE OTHERS FAIL

The earliest and best quick growing Cauliflower. The plant is of strong growth, with erect, pointed dark green leaves growing closely about the head. It is remarkable both for the extreme earliness and certainty with which it produces fine heads. In good soil, the heads measure eight to ten inches across. They are of pure snowy-white, with very close compact curd of extra fine quality. So extremely solid and deep are the nearly-globe-shaped heads that they weigh heavier than other heads of equal size. Market gardeners growing Cauliflower on a large scale can plant our Snowball Cauliflower for both early and late crops, with full assurance that it is the choicest and most reliable strain that can be procured. Had we space to spare we could publish many testimonials from experienced growers who are most enthusiastic in stating that this is without a single exception all its name implies—"The BEST EARLY Cauliflower." Per packet 10c—quarter ounce 60c, ounce \$2.00.

CHAS. C. NAVLET CO'S EARLY DANISH CAULIFLOWER—A very dwarf variety, producing large, solid snowy-white heads. Very tender and fine flavor. One of the earliest. Has proved itself reliable and gardeners can trust it every time. Per packet 10c—quarter ounce 75c, ounce \$2.50.

VEITCHE'S AUTUMN GIANT CAULIFLOWER—Late variety. Large heads—firm and compact, well protected by foliage. Per packet 10c—ounce 50c, quarter pound \$1.50, pound \$5.00. Plant Cauliflower from July to January.

Chas. C. Navlet Co's Re-Selected Strains

CELERY

White Plume

The Earliest Variety Grown

It can be blanched for the table in September. It blanches naturally without banking up. It has no rival for earliness, beauty, flavor and texture. Compare our prices with others, and you will see how much money you can save.

It is as easy to grow White Plume Celery as any other vegetable. If the stalks are drawn together when the plant is three-fourths grown and the soil drawn to or pressed around the plant, it will soon be fit for use. At maturity the plant is highly ornamental. Its ample white heart and variegated leaves present a beautiful appearance. The delicate flavor of its crisp, succulent stalks is unequalled. Our stock of this grand Celery is finer today than ever. Per packet 5c—ounce 20c, quarter pound 65c, pound \$2.25.

Giant Pascal Celery

For Autumn and Winter Use.

This is a green-leaved variety, developed from the Golden Yellow Self-Blanching, and is an excellent sort for fall and winter use. It blanches to a beautiful yellowish-white color, is very solid and crisp and of a fine nutty flavor. The stalk is very thick, the upper portion nearly round, but broadening and flattening toward the base. With rich soil and high culture this variety will be wholly satisfactory if a large-growing, medium late Celery of excellent quality is desired. Per packet 5c—ounce 20c, quarter pound 60c, pound \$2.00.

Large White Solid

A Splendid Celery

A large, vigorous-growing Celery. The stalks are white, round, very crisp, free from stringiness or bitterness, perfectly solid and of superior flavor. Under good cultivation it grows three feet high. Per packet 5c, ounce 20c, quarter pound 60c, pound \$2.00.

Golden Self-Blanching Celery

This grand variety is of French origin. It is not quite as early as White Plume, but is of heavier and more compact growth, and possesses the same self-blanching characteristics. The stalks are thick and brittle—the hearts large and solid. Its handsome color, crispness, tenderness, freedom from stringiness, and delicious, nutty flavor made it a universal favorite, both for private use and for market. Our seed is a very select California grown strain, and will give superior results and satisfaction. Per packet 10c—ounce 50c; quarter pound \$1.50, pound \$5.00.

Celeriac or Turnip Rooted Celery

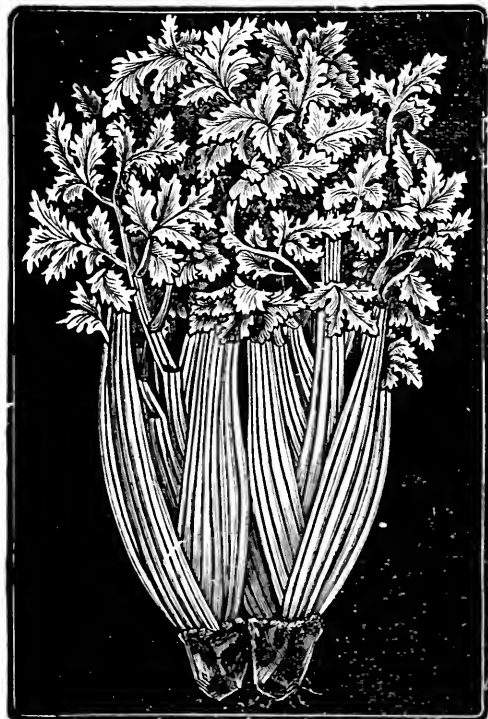

Large Smooth Prague—Per packet 5c—ounce 15c, quarter pound 50c, pound \$1.50.

Celery Seed for Flavoring

Per packet 5c—ounce 10c, quarter pound 15c, pound 50c. Plant Celery from February to April.

White Plume Celery

Golden Self-Blanching Celery.

Chicory—Large Rooted

Fine for salad. The dried roots are used quite extensively as a substitute for and an adulterant of coffee. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c. Plant from February to May.

Corn Salad—Fetticus, or Lamb Lettuce

Used during the winter and spring months as a substitute for Lettuce. Also cooked and used like Spinach. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c. Plant from March to May or August to October.

Cress—or Pepper Grass

A quick-growing vegetable. Used for salads. The leaves are finely cut and feathery, like a good Parsley. Growth dwarf and compact. Ornamental and crisp, pungent. Per packet 5c—ounce 10c, quarter pound 15c, pound 50c. Plant from February to April.

Water Cress—A Fine Salad

Also used as a garnish for meats during the winter. It has a pleasant and peculiar flavor. Per packet 5c—ounce 35c, quarter pound, \$1.00, pound \$3.00. Plant from February to April.

Dandelion

An easily grown plant, now much esteemed for greens, which are cooked like mustard and spinach. The best time to sow the seed is in May or June on good, rich soil, and thoroughly cultivate, when the leaves will be ready to cut the following spring. An ounce will sow 200 feet of row.

Improved Large Leaved—The largest leaved and best cutting variety. Per packet 5c—ounce 50c, quarter pound \$1.75. Plant Dandelion from March to August.

Egg Plant—Most Popular Sorts

New York Improved Purple—The leading market variety. Plant of strong growth and extremely productive. The fruit is of large size, with smooth, glossy, deep purple skin. Per packet 5c—ounce 30c, quarter pound \$1.00, pound \$3.00.

Early Long Purple—Hardy and much earlier than the large New York Purple, succeeding farther north. Thin fruits from six to ten inches long. Per packet 5c—ounce 20c, quarter pound 60c, pound \$2.00. Plant Egg Plant from February to April.

Endive—An Appetizing Salad

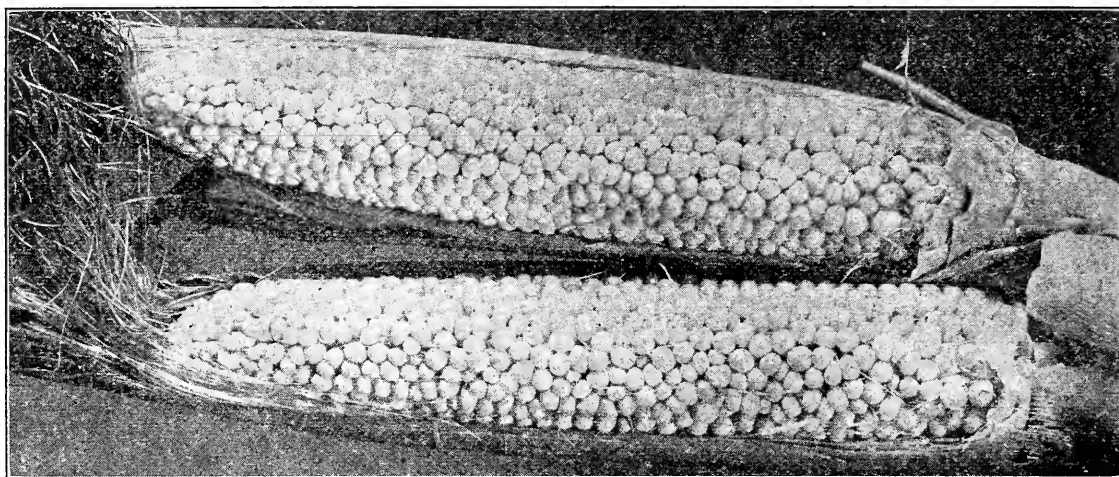

Large Green Curled—a large, strong-growing Endive which, by tying up, can be made to form finely blanched centers of good quality. Outer leaves well cut and of a bright, deep green. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Broad-Leaved Batavian—(Escarolle). This variety has broad, thick, plain or slightly wrinkled leaves, forming a large head, and is desirable for stews and soups. If the outer leaves are gathered and tied at the top, the inner ones will blanch and may be used for salad. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00. Plant Endive from March to October.

Kohl-Rabi—Turnip Rooted Cabbage

Kohl-Rabi is grown for its Turnip-shaped bulb, which is formed above ground. The bulb should be used while young and tender. The Early White Vienna is the best variety for table use. Per packet 5c—ounce 20c, quarter pound 60c, pound \$2.00. Plant from February to June or September to October.

Chas. C. Navlet Co's Re-Selected Strains SWEET CORN

Country Gentleman Corn

Country Gentleman Most Delicious Sweet Corn Grown

Country Gentleman is the finest of all Sweet Corn for the private table. The moment your teeth sink into this luscious, milky, tender corn, you will become a complete convert to it, for it will delight the most fastidious epicure. It retains its delicate tenderness and flavor even when a little old, as the ears are enclosed in a heavy husk, which tends to keep them "in the milk" for several days longer than other Corns. The cob is small and plump, and filled from end to end with pearly white kernels of great depth. It produces three, many times four, and occasionally five and six ears, to a stalk. But the great merit of the "Country Gentleman" Corn is its delicious quality. Per packet 5c—pound 15c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Extra Early White Cob Cory

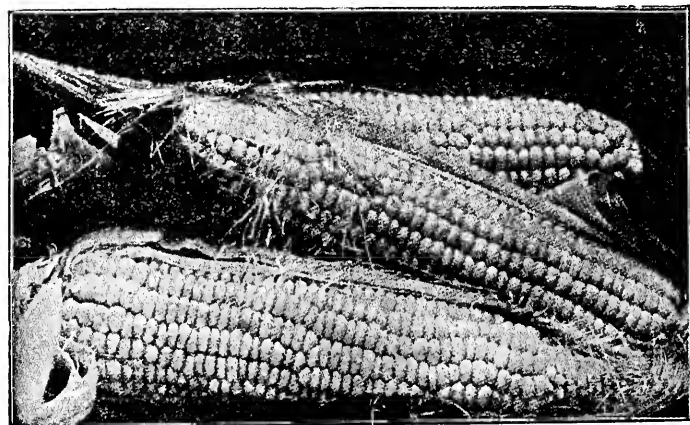

One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine-shaped ears, which are usually fit for use in from fifty to sixty days from seed sowing. The ears are very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white and of remarkably good quality for such an early sort. The size and beauty of this variety give it ready sale even when the market is overstocked. Also valuable to plant late in summer for autumn use. Per packet 5c—pound 15c, 10 pounds for \$1.00, 100 pounds for \$9.00.

Golden Bantam

A very early variety. The ears but medium size, but are thickly set with delicious yellow kernels. The quality of this variety is superb, and it has become a general favorite early sweet corn with all who have tried it. Per packet 5c—pound 15c, 10 pounds for \$1.25, 100 pounds for \$10.00.

Early Mammoth or Alameda Sweet

A variety that no lover of delicious, meaty Sweet Corn can afford to miss. It is remarkably productive, a very strong grower with large ears, and the flavor is of the finest. Extensively grown in Alameda County for the San Francisco market. Per packet 5c—pound 15c, 10 pounds for \$1.00, 100 pounds for \$9.00.

Stowell's Evergreen Corn

Black Mexican

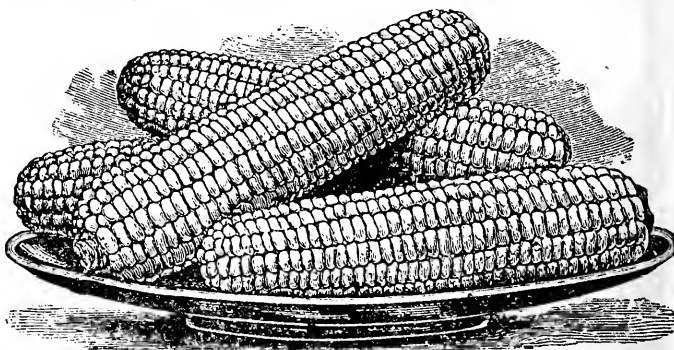

Sweet as honey. The grains when first perfected are pure white and are then at their best for table use. They soon become dark and almost black, though still retaining their wonderful sweetness. Especially good and highly esteemed for the family garden. Per packet 5c—pound 15c, 10 pounds for \$1.00, 100 pounds for \$9.00.

Early Minnesota

This old and deservedly popular variety is one of the best early sorts for the market and private garden. Stalks about five feet high, with no suckers, and bearing one or two ears well covered with husks. Ears long, eight-rowed, kernels very broad, deliciously sweet and tender, not shrinking much in drying. By careful selection we have developed a stock of this standard variety which is remarkably uniform, and in which all the good qualities that have made this sort so popular are intensified. Per packet 5c—pound 15c, 10 pounds for \$1.00, 100 pounds for \$9.00.

Stowell's Evergreen

The standard main crop variety. It is hardy and productive, very tender and sugary, remaining a long time in condition and suitable for boiling. Our stock has been carefully grown and selected to avoid the tendency to a shorter grain and deterioration in the evergreen character of this best known of all late sorts. Height about seven and one-half feet. Per packet 5c—pound 15c, 10 pounds for \$1.00, 100 pounds for \$9.00.

Early Mammoth Corn

Field Corn

GOLDEN BEAUTY

A large, broad grained and very handsome golden-yellow corn. Matures early—hardy—very productive—easy to husk. Per packet 5c—pound 15c, 10 pounds for 75c, 100 pounds for \$5.00.

TAMALE CORN

Pure white. Used almost entirely for Tamales and as a fodder corn. Per packet 5c—pound 10c, 10 pounds 80c, 100 pounds \$7.00.

COMMON YELLOW AND WHITE

Grown in the Santa Clara Valley. Field or fodder corn. Per packet 5c—pound 10c, 10 pounds for 50c, 100 pounds for \$4.00.

POP CORN

The most popular variety. Short ears, long kernels, rice shape. White in color. Per packet 5c—pound 15c, 10 pounds for 75c, 100 pounds for \$6.00.

Plant corn from March to July.

Chas. C. Navlet Co's Re-Selected Strains CUCUMBER

Early Long White Spine The Finest for Slicing

Our selected strain of this favorite type of Early White Spine is unsurpassed, either for forcing or the open ground. The Cucumbers are very regular in outline, uniform in size, averaging seven to eight inches in length, straight and of a rich dark-green in color. They present the finest appearance in market, and, of course, like all the true White Spine type, never turn yellow; the light stripes, or "white spines," running from blossom end only add to the attractive appearance of the older fruits. Flesh white, crisp as ice, and solid, with comparatively few seeds. Flavor excellent. Vines of vigorous growth and very productive, yielding large crops both early and throughout the season. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Green Prolific Or Boston Pickling

A favorite with pickle growers and commercial gardeners. Very productive. Fruit medium size, very smooth, symmetrical and of a beautiful bright green. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Early Short Green Or Early Frame Cucumber

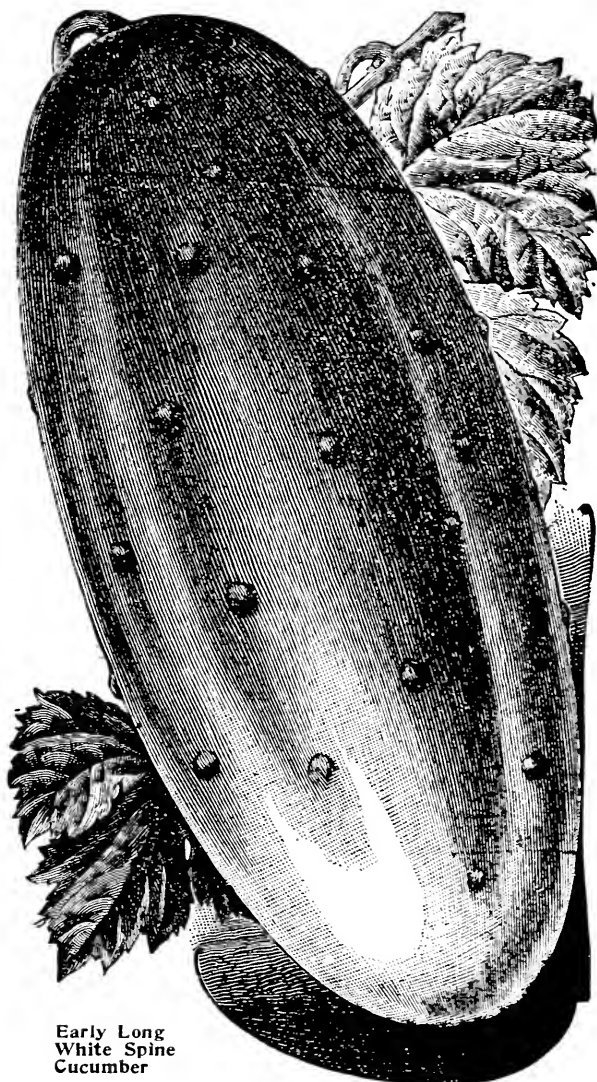

An excellent sort both for table use and pickling. Plant very vigorous and productive. Fruit straight, handsome, small at each end, bright green, lighter at the blossom end, with crisp, tender flesh. Makes excellent pickles. Comes into use a little later than the Early Cluster and keeps green a long time. Our stock is very superior. Per packet 5c—ounce 15c, quarter pound 30c, pound \$1.00.

Japanese Climbing

The vine attains nearly twice the length of common varieties. The young plants are bushy. But as soon as they get well established they begin to climb, and may be grown on fences, poles or trellises. It is estimated that with this Cucumber the product of a given area can be increased three-fold. The fruits are ten to twelve inches in length and of a fine green color. The flesh is thick and firm, never bitter, and fine for pickling as well as slicing. It is very prolific. The vines are proof against mildew, and continue bearing until late in the fall. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.50.

Improved Long Green The Leading Variety of Green Cucumbers

Produced by selection from the Long Green. Vine vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts. Fruit about twelve inches long, firm and crisp. Also excellent for pickles and when mature is sometimes used for making sweet pickles. We offer a carefully selected strain, uniformly long, of good form, with the large warts and spines well distributed over the surface instead of being clustered at one end as in inferior stocks. Per packet 5c—ounce 15c, quarter pound 30c, pound \$1.00.

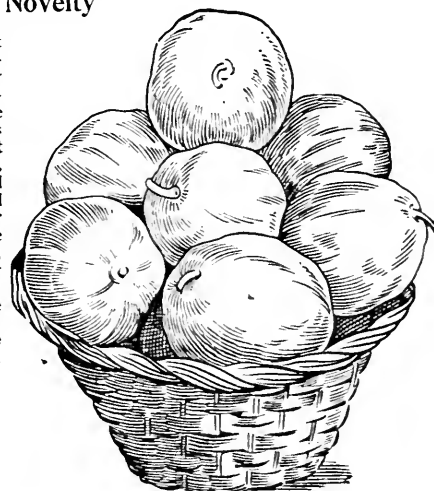

Early Long White Spine Cucumber

Small Gherkin For Pickles

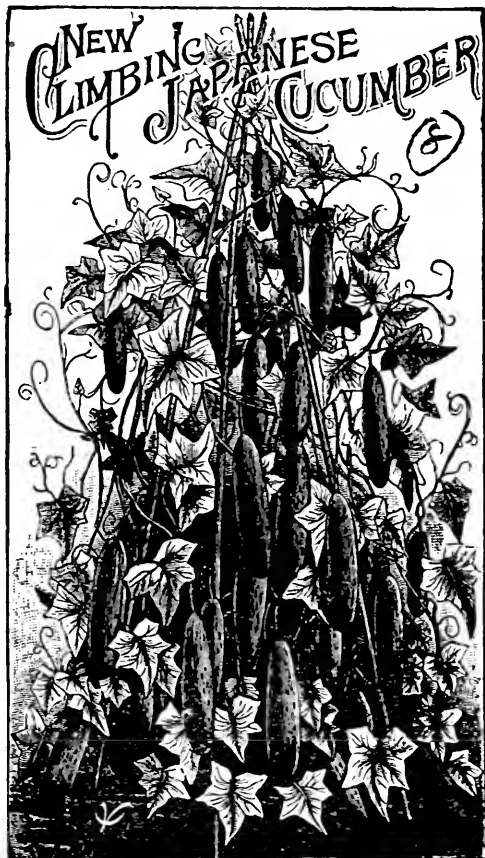

A very small, oval, prickly variety, quite distinct from all others and grown exclusively for pickles. It is the smallest of all varieties and should always be picked when young and tender. The seed is slow to germinate, requiring usually from two to three weeks. Per packet 5c—ounce 15c, quarter pound 50c, pound \$1.50. Plant Cucumbers from March to June.

Lemon Cucumber Latest Novelty

This wonderful new introduction is almost indispensable for the home garden and a tremendously profitable vegetable to grow for the market. We have grown Lemon Cucumbers for the last five years, and they have proven to be the most desirable Cucumbers for table we have ever cultivated. The fruit is as large as a lemon, the shape of a lemon, and the color of a lemon. It can be pared and eaten the same as an apple. When sliced and served it is very delicious, the flavor being most refreshing and delightful. The Lemon Cucumber is not injurious to health, as it does not possess the acid that all other cucumbers have. The vines are strong growers and will bear heavily until frost. Give this splendid novelty a trial this season. You will never regret it. Per packet 10c—ounce 20c, quarter pound 60c, pound \$1.75. Plant Cucumbers from March to June.

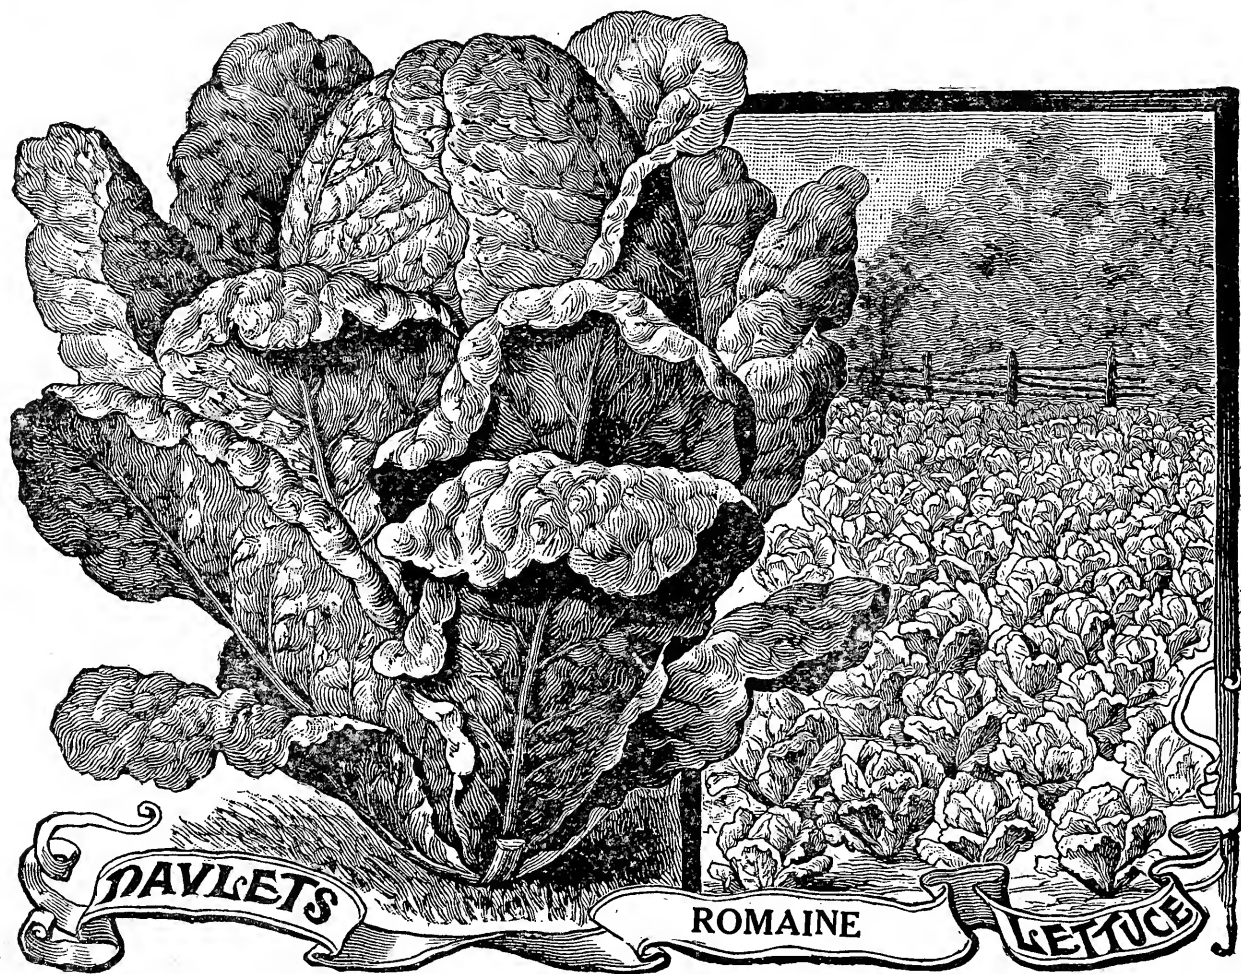

Lemon Cucumber

ALL OF OUR VEGETABLE SEEDS ARE RE-SELECTED STRAINS, THUS INSURING SEED WITH HIGH GERMINATING POWER.

Chas. C. Navlet Co's
Re-Selected Strains

LETTUCE

Big Boston

A very popular variety with gardeners who want a large-heading, forcing sort—also for outdoor winter culture. Plant is large, very hardy and vigorous. Leaves broad, comparatively smooth but wavy at edge, thin and very hard. Color, bright light green. Indoors the Big Boston forms a solid head, while outdoors it is less distinctively a heading sort. Always finds a ready market. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

California Cream Butter

Cabbage Lettuce—A very popular variety for autumn and winter use. Forms a very large head, which is very buttery and of a rich golden yellow inside. The leaves are thick and of bright green, slightly tinged with brown on top of head, and the outer leaves are slightly spotted with inconspicuous brown spots. Easy to grow and a good shipping variety. Grown extensively by the San Francisco market gardeners. Per packet 5c—ounce 15c, quarter pound 35c, pound \$1.00.

Deacon, or San Francisco Market

The Deacon Lettuce does not make as large head as some others, but the heads formed are very solid and of excellent flavor, and remain in condition for use as long as any variety in cultivation. Plant medium sized with very few outer leaves which are a deep green and very thick. The inner leaves blanch to a bright, rich yellow and are of fine, buttery flavor and very crisp and tender. This is certainly one of the best in quality of the summer heading sorts. Per packet 5c—ounce 15c, quarter pound 35c, pound \$1.00.

Grand Rapids Forcing

As a lettuce for greenhouse forcing this variety stands at the head of the list, being of thick growth—little liable to rot—and standing for some days after being fit to cut. The plant is upright and forms a loose head or cluster of large, light yellowish-green leaves that are slightly crimped and blistered and rather thin. It will stand shipping long distances better than most sorts, as it does not break easily or decay quickly. Per packet 5c—ounce 15c, quarter pound 35c, pound \$1.00.

Hanson's Improved

Grows to large size, and is uniformly sure heading. Head very solid and beautifully blanch—crisp, mild, tender. One of the finest varieties to grow for market, during the summer months. Our stock is unexcelled, being of the improved hard-heading strain. Per packet 5c—ounce 15c, quarter pound 35c, pound \$1.25.

White Paris Co's (Romaine)

Also known as Romaine. Much esteemed by epicures for its crispness, tenderness, and flavor, which is different from that of any other Lettuce. The heads are long and conical. The leaves require to be tied up, when they soon form solid heads that quickly bleach to snowy whiteness and become as stiff and sweet as celery stalks, and are delicious when eaten in the same manner or prepared for salad. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

Los Angeles or New York

Los Angeles or New York Lettuce, the pride of the Los Angeles market. This lettuce is grown by almost every market gardener in and around Los Angeles. It is hardy and grows very large, of uniform size. The interior is blanched creamy white, crisp, tender and delicious, being absolutely free from any trace of bitterness. It is a very large, robust-growing variety, rooting deeply, resisting hot dry weather. The outer color is a distinct apple green. This lettuce is shipped from Los Angeles to San Francisco in enormous quantities every winter. It is one of the best varieties for shipping. Our seed is from selected stock. Per packet 5c—ounce 20c, quarter pound 60c, pound \$2.00.

Passion

The most popular variety among California and New Orleans market gardeners. A medium-sized cabbage, butter-heading sort. We have the best and truest stock of this variety that can be obtained. It is especially recommended as a garden lettuce for our climate. It heads well and bears shipping remarkably well, since it revives nicely after wilting. Per packet 5c—ounce 15c, quarter pound, 40c, pound \$1.25.

Chas. C. Navlet Co's Early Prize Head

This old standard variety is still the best of the large, thin-leaved, clustering sorts for the home garden, but it is not a good kind to ship long distances, as the leaves are so tender that they are easily broken in handling. The leaves are very large, crimped, bright green tinged with brownish-red, and are exceedingly tender, crisp and sweet, forming a large loose head. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

Simpson's Early Curled

An early, erect-growing, clustering variety. It may be sown thickly and cut when the plants are very young. Leaves broad, often frilled and blistered and formed into a loose head. Light green in color, and exceedingly sweet, tender and well-flavored. Popular in all markets. Per packet 5c—ounce 15c, quarter pound 35c, pound \$1.00.

Lettuce seed can be planted at almost any time.

Chas. C. Navlet Co's Re-Selected Strains **MUSKMELON**

Hackensack or Turk's Cap

One of the most extensively grown Muskmelons. A reliable and bountiful yielder. Extra early. Fruit very large, the diameter being much more than the length. Ribs large, of irregular width and densely covered with coarse netting. Flesh green, thick, coarse, but very sweet and fine flavored. Our stock is true to the "Turk's Cap" type, and after careful comparison with that of other growers, we unhesitatingly pronounce it the best in the country. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

Rocky Ford Muskmelon

A sweet, luscious melon that has become world-famous for its captivating flavor. The vine is exceedingly healthy and produces an enormous number of melons during the entire season. Fruit averages five to six inches in length. The skin is of a rich, greenish gold in color and the flesh is of exquisite texture and melting almost to the rind. The seed cavity is very small. We have used the utmost care in selecting our seed of this variety, looking well to shape, size, solidity, depth and color of flesh, seed cavity, and quality—and know that it is the true Rocky Ford. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Large Yellow Cantaloupe

A richly flavored melon of good size. Netted and slightly ribbed. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Montreal Improved Green Nutmeg Muskmelon

A superb melon of large size and rich aromatic flavor. Vine vigorous, hardy and productive. Fruit round, flattened at both ends, ribbed and covered with coarse netting. Flesh very thick, luscious and melting. One of the handsomest varieties to grow for exhibition. Per packet 5c—ounce 15c, quarter pound 35c, pound \$1.25.

Large Netted Cantaloupe

A splendid and very popular variety. Melons are of uniform size and spicily flavored. Very productive. Per packet 5c—ounce 10c, quarter pound 35c, pound \$1.25.

Burrell's Gem

A medium sized oval variety, deeply netted and having salmon or red flesh. It is larger than Rocky Ford and of an entirely distinct flavor. There is a growing demand for the fine-grained, smooth, salmon-red fleshed muskmelons, and Burrell's Gem seems to be one of the best in cultivation. Large packet 5c—ounce 15c, quarter pound 50c, pound \$1.75.

The Hoodoo

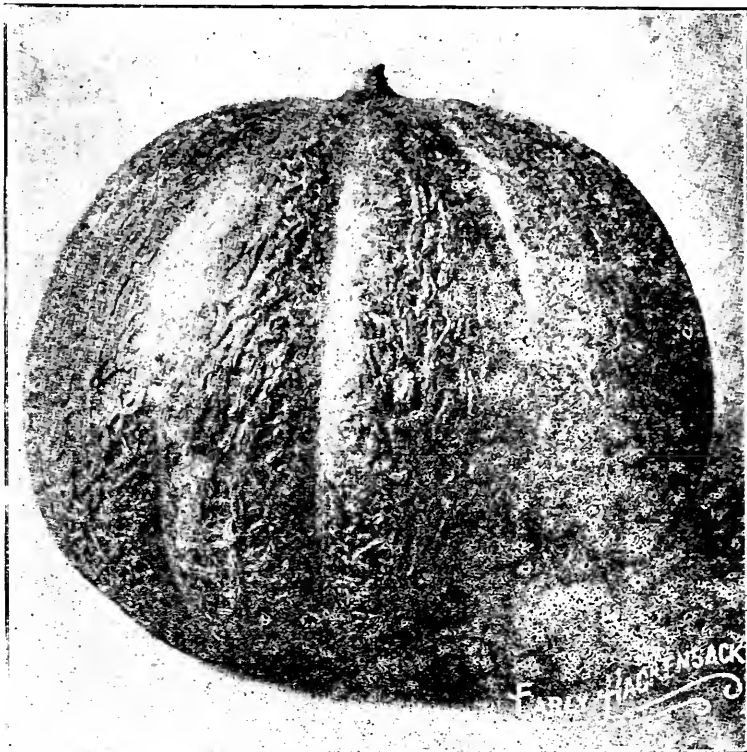

Unlike its unpropitious name, this muskmelon is one of the best of recent introductions. It is early and prolific. The fruit is of medium size; the seed cavity is very small, the rind very thin indeed, and the edible fleshy part very thick and meaty. It is of orange or salmon color, the type much preferred now. But its great charm is its flavor, which is *par excellence*. We have seldom had such enthusiastic reports from any vegetable novelty as from the Hoodoo Muskmelon. It will pay you to try it. Large packet 5c—ounce 20c, quarter pound 65c, pound \$2.50. Plant Muskmelon Seed from March to June.

Casaba (Xmas) Melon The Wonderful New Winter Muskmelon

This grand new Melon is a great acquisition to the vegetable world. It is one of the most remarkable introductions of the age, and is a novelty that market gardeners—as well as those who grow melons for the home table—will be delighted with. The flesh is thick, of fine texture, and juicy and palatable to within one-quarter inch of the skin. The flavor—a combination of pineapple and the finest wild Muskmelon—is delicious beyond description. The fruits are oblong and about 12 inches long—the skin is smooth and finely mottled with dark green and yellow—the seed cavity is small. Seed should not be sown until all danger of frost is over. Soil should be moist and sandy. Do not gather the Melons until the light streaks become quite yellow. Stow away so the Melons will not touch each other in a cool, dark place. When the rind becomes slightly softened and moist the fruit is ready to eat. Some of the Melons will actually keep until February. Try this magnificent new novelty without fail. Per packet 10c—ounce 25c, quarter pound 75c, pound \$2.50.

Southern Giant Curled Mustard

This is the true curled-leaf variety. Grown largely to furnish an early spring salad. May also be boiled and eaten like Spinach. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c. Plant from February to May.

Nasturtium

The green seed of the nasturtium has a sharp, pungent flavor, and when pickled makes an excellent condiment. It is also valuable as a flower, and serves a double purpose in the garden. Per packet 5c—ounce 10c, quarter pound, 25c, pound 75c.

Okra, or Gumbo

The young seed pods of this Southern plant are used for the well-known and delicious "Gumbo" Soups; alone or with Chicken. Its smooth, glutinous taste is much liked. Probably the finest known vegetable for this use. Very easy to grow.

White Velvet—Produces pods larger than any other. They are never prickly to the touch, always round and smooth, while in other varieties they are either ridged or square-holed. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c.

Dwarf—Grows low, but stocky, and is very productive. Per packet 5c—ounce 10c, quarter pound 20c, pound 50c.

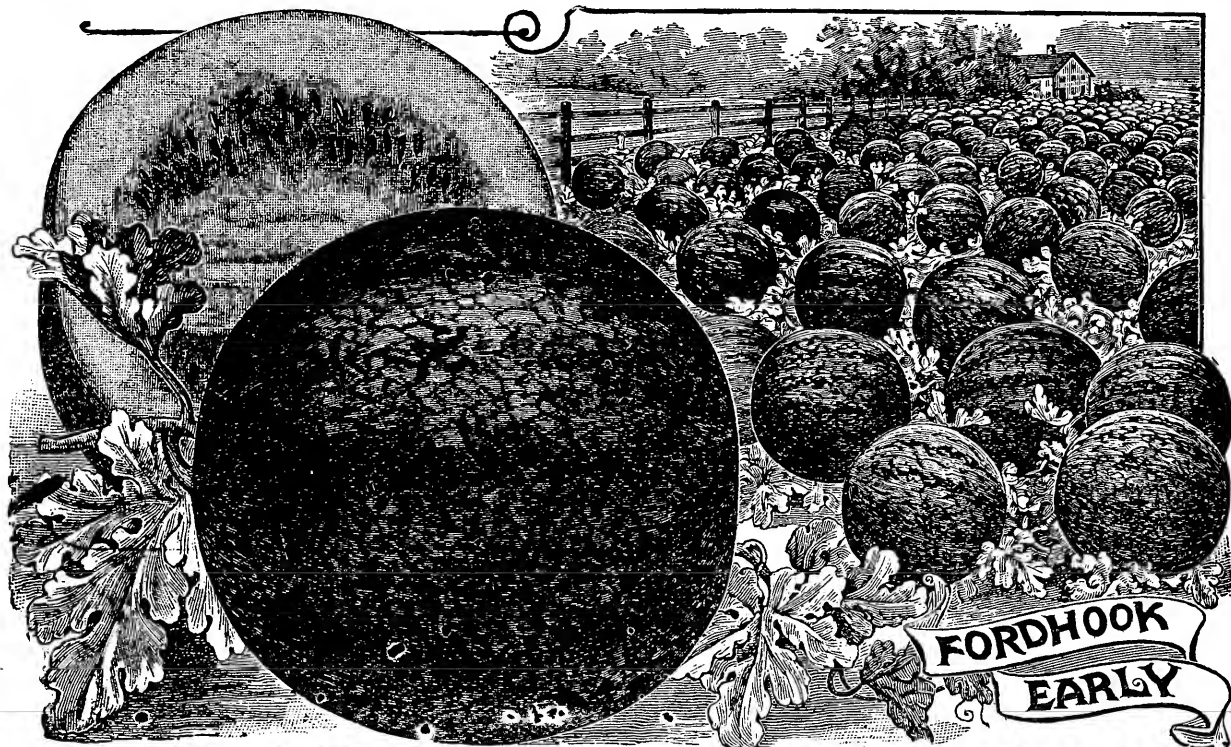

Tall, or Perkins' Mammoth—The long pods, measuring 4 and 5 inches, are produced in great quantities. The appearance is handsome, of green color and best quality. Per packet 5c—ounce 10c, quarter pound 20c, pound 50c.

Plant from March to June.

Chas. C. Navlet Co's
Re-Selected Strains

WATERMELON

Fordhook Early

The earliest large-fruited Watermelon in cultivation—when grown from the genuine stock. The melons average about thirty-five pounds in weight and are rather short and blocky in form. Skin dark green with occasional faint stripes of lighter green. Flesh bright red, crisp, sweet, and of surpassing quality. Rind quite thin but tough, making a first-class shipping variety. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Peerless or Ice Cream

The great home market Watermelon. It has too thin a rind for shipping. The fruit is oblong in shape with a dark green and slightly mottled skin. The bright scarlet flesh is solid to the center, melting and very delicious. Per packet 5c—ounce 10c, quarter pound 20c, pound 50c.

Citron—Red Seeded

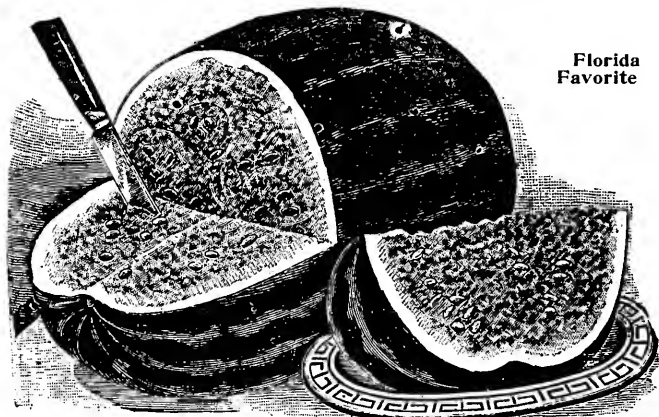

A small globular variety, striped and marbled with light green. Flesh white and solid, seeds red. Used exclusively for pickles and preserves. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Southern Rattlesnake or Gypsy Oblong

An oblong Watermelon of good size and excellent quality. Rind thin, light green with beautiful stripes. Flesh bright scarlet, solid, tender and very sweet. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Kleckley Sweets

The sweetest of all Watermelons. Fruit is of large size, oblong in form, with a dark green skin and very thin rind. The flesh—a beautiful bright scarlet in color—has a broad solid heart, and is crisp, sugary, melting in the highest degree, and entirely free from any stringiness. The melons average eighteen to twenty inches in length by ten to twelve inches in diameter, and are very handsome in appearance and of uniformly superior quality. While the skin is too tender to admit of the fruit being shipped any distance to market the "Kleckley Sweets" is a most desirable Watermelon to plant for home use or nearby markets. Per packet 5c—ounce 15c, quarter pound 25c, pound 75c.

Florida Favorite

Florida Favorite

A very large variety with large, oblong fruit and dark green skin, mottled with a deeper shade. Rind thin, flesh deep red and of fine quality. The flavor is excellent, and the melon is well suited for either table or market. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

The Lodi or San Joaquin

The Lodi, or San Joaquin—Well-known and popular California variety, grown on an immense scale in San Joaquin Valley and shipped to all parts of the Pacific Coast. Fruit large and oblong, skin green and slightly mottled, rind thin but tough, flesh bright red and sweet, seeds white. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Chilian Watermelon

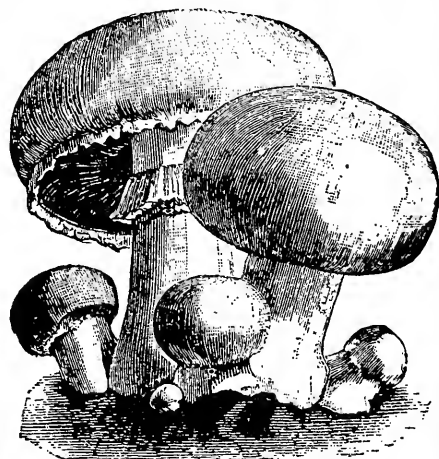

A remarkably fine Melon. The Chilian is a very brittle, thin-skinned variety of the highest quality, and especially valuable for the home garden. It is slightly oblong. The skin is deep rich green, mottled and striped with a still deeper green. The flesh is bright red and the flavor is remarkably fine and sweet. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Cuban Queen

One of the finest Watermelons yet introduced. The fruit is of large size and oblong in form. Skin beautifully striped in dark and light green. Rind quite thin, but tough enough for shipping. Flesh bright red, remarkably solid, peculiarly luscious, crisp and sugary. A good keeper. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c. Plant Watermelons from March to June.

French Mushroom Spawn

French Mushroom Spawn propagated continuously by the ordinary method usually degenerates, giving decreasing yields of inferior Mushrooms. Some growers in their efforts to overcome this deterioration procure spores from chance-grown Mushrooms in field or farmyard, but these, on account of the diversity of varieties, their consequent varied merits and values, seldom prove satisfactory. This new spawn is produced by a new method direct from virgin spores secured from the finest type of healthy, large white French Mushrooms. These being propagated in a sterilized medium insures freedom from inferior types as well as the bacterial enemies so often prevalent in ordinary spawn. Our Mushroom spawn is sold in bricks that weigh about 1½ lbs. each, and will plant from 8 to 10 square feet of bed. Price 35c per brick, postpaid—or 10 bricks for \$2.00 by express, the purchaser to pay transportation.

Mushrooms

Chas. C. Navlet Co's Re-Selected Strains

ONION
PRIZE TAKER

NOTE OUR BARGAIN PRICES

The Prizetaker attains the enormous size of the famous Spanish Onion, and its mildness and tenderness are unequalled even by the Bermuda varieties. It attains its colossal size under exactly the same conditions that are necessary to the cultivation of other Onions. It yields an abundant supply of young plants for early use in salads, and may be used continuously throughout the season. When matured in the fall, the outer skin is of a pale brownish-yellow color. The bulb is solid and heavy—almost round and without a neck—and the flesh is white and crisp. Per packet 5c—ounce 15c, quarter pound 50c, half pound 90c, pound \$1.65.

Australian Brown Onion

After a thorough test this Onion has proven to be not only the very earliest to ripen, but also the longest keeping variety now cultivated. It matures two or three weeks sooner than the earliest of the old sorts. Its keeping qualities are truly phenomenal, being found solid and in good condition one year after being harvested. The bulbs are of medium size, with small hard necks, and a clear amber brown in color. Per packet 5c—ounce 15c, quarter pound 35c, half pound 60c, pound \$1.00.

Extra Early Pearl

A very early variety, skin white, coarse grain, and mild flavor. Onion flat and unsurpassed for early sets or pickling. Per packet 5c—ounce 25c, quarter pound 65c, half pound \$1.25, pound \$2.25.

Yellow Flat Danvers Onion

Many growers prefer this to the Globe Danvers, as ordinarily it is a very heavy cropper. It is a fine Onion, one you are sure to be pleased with. A heavy yielder, a splendid keeper, of beautiful appearance, and sells readily in all markets. Per packet 5c—ounce 15c, quarter pound, 40c, half pound 70c, pound \$1.25.

Ohio Yellow Globe

One of the best yellow skin sorts, bright, glossy orange yellow, flesh white, finely grained. Onions uniform in size and shape, and very firm. One of the best varieties for keeping and shipping. Per packet 5c—ounce 20c, quarter pound 65c, half pound \$1.25, pound \$2.00.

Southport Yellow Globe

A popular orange yellow.. Globe shape. Late variety, of most beautiful appearance. For keeping and market purposes it is a grand variety. Per packet 5c—ounce 20c, quarter pound 50c, half pound 90c, pound \$1.65.

White Portugal or Silverskin

A splendid white Onion for general culture. The bulbs grow to a good size, ripening early and quite evenly. It is a good keeper. The flesh is mild and sweet and the skin is a clear silvery white. Largely used when young for salads and pickling. Per packet 5c—ounce 25c, quarter pound 75c, half pound \$1.40, pound \$2.25.

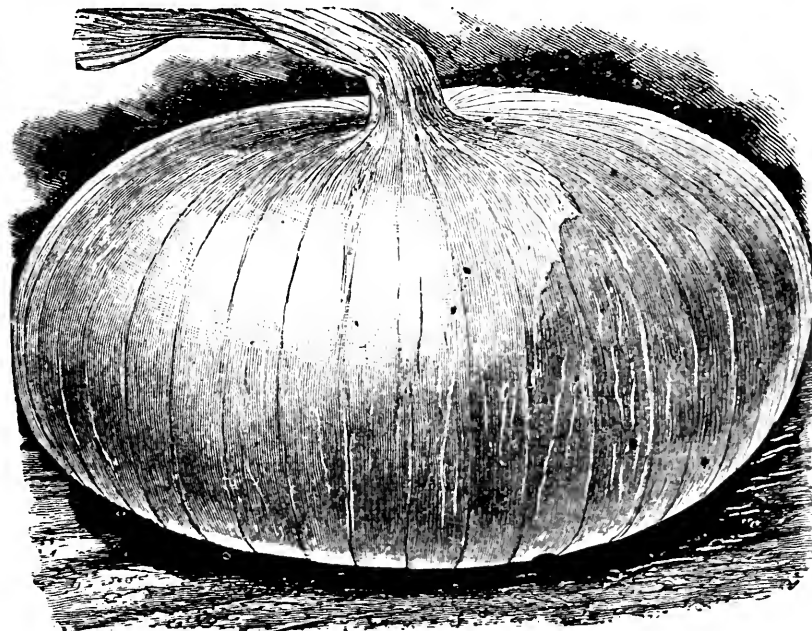

White Barletta Onion

White Barletta Onion

The prettiest little onion imaginable. Small, flat and silver-skinned. So mild in flavor it can be eaten like a stalk of Celery. Leaves almost no odor on the breath. For pickling the White Barletta is far ahead of any other variety. Three weeks earlier than any other Onion. Per packet 5c—ounce 20c, quarter pound, 60c, half pound \$1.10, pound \$2.00.

White Bermuda

A very early variety, used largely in the South, and is an early market Onion, when the seed is sown in the fall and the onions harvested in the spring. It is mild and of particularly fine flavor. The color is a pinkish straw color and the shape is flat. The seed we offer is grown in Teneriffe, Canary Islands, and is a fine, pure strain. This is the principal variety shipped in crates from Texas and Imperial Valley in the early spring. Per packet 5c—ounce 35c, quarter pound \$1.00, half pound \$1.75, pound \$3.25. Plant Onions from November to May.

White Portugal or Silverskin Onion

Remember this! We sell you six 5c packages of Vegetable Seed or Flower Seed for 25c, or three 10c packages of Vegetable Seed or Flower Seed for 25c, or \$1.25 worth of seed packages (Vegetable or Flower) for \$1.00.

Chas. C. Navlet Co's Re-Selected Strains

ONIONS

Yellow Globe Danvers

An Immensely Popular Onion That Combines Extreme Reliability in Ripening with Large Yield.

We take unusual precautions to maintain the highest degree of perfection in our stock, and can confidently claim superiority for it. The shape is round, a little depressed at top and bottom. The color is a rich brownish-yellow, making a most attractive bulb. It is medium in size, but remarkably solid and heavy, producing as much weight per acre as any variety grown. It can be used to great advantage from the earliest date to the last, as it is one of the surest keepers, and is delicious even when in its youngest stage. Per packet 5c—ounce 20c, quarter pound 60c, half pound \$1.15, pound \$2.00.

Red Bermuda

A very early flat variety, used largely in the South for planting in the fall and marketing in the spring. It is mild of flavor and a good shipper but not a winter-keeping variety. The color is a pale red. The best stock is imported from Teneriffe, Canary Islands, and we offer only this stock. Large packet 5c—ounce 35c, quarter pound \$1.00, half pound \$1.75, pound \$3.25.

Large Red Wethersfield A Wonderful Onion

A leading variety from ocean to ocean. Produces colossal crops of enormous Onions—All clean, solid, heavy, perfect and entirely free from scallions or thicknecks. A sure cropper, a long keeper and a splendid shipper. Though well flattened, the Onions are thick through. The outer skin is a deep rich purplish-red, smooth and glossy. The flesh is white, lightly tinged with pinkish-rose, and is mild in flavor as many varieties with skin of lighter coloring. There is no better strain of the true Large Red Wethersfield in cultivation today than offered by us. Per packet 5c—ounce 20c, quarter pound 50c, half pound 90c, pound \$1.50.

White Globe Onion

A very handsome silvery-white ball-shaped Onion of large size. Flesh firm, fine grained, of mild flavor, and an excellent keeper. Its even, regular size and globular form, combined with the clear silvery whiteness of the skin, make it one of the handsomest Onions grown. Owing to its large size, it is later in ripening than the White Portugal (or Silver-skin), the latter being of flattened form. We have, by years of careful selection and breeding, developed a strain of White Globe Onion which has no equal for uniformity and beauty of shape and color. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

New White Queen

Remarkable for its earliness and very mild flavor; it is small and white skinned. The general favorite with pickle manufacturers. Per packet 5c—ounce 25c, quarter pound 65c, half pound \$1.25, pound \$2.25.

Extra Early Flat Red Onion

The first to ripen and one of the handsomest of the red sorts. It yields abundantly, keeps well, is of mild flavor, and the bulbs are very uniform in shape and size. Excellent for boiling, slicing or pulling young for use in salads. It will form Onions in mucky soils where other varieties frequently fail to ripen. Recommended especially for sections where the seasons are short and cool. In rich soils it frequently grows almost as large as the Large Red Wethersfield. Its earliness makes it a very desirable Onion to raise for market. Per packet 5c—ounce 20c, quarter pound 50c, half pound 90c, pound \$1.50.

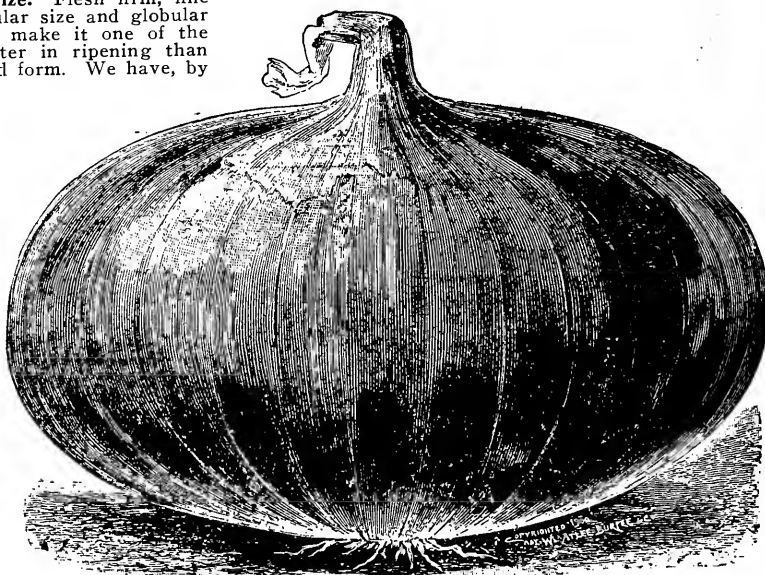

Plant Onion Seed November to May.

Leek

Member of the Onion Family.

Large American Flag—Hardy—Excellent. The favorite variety with market gardeners. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Large Flag—or London. The sort usually cultivated. Hardy and vigorous. Per packet 5c—ounce 10c, quarter pound 30c, pound \$1.00. Plant Leek from February to April.

Large Red Wethersfield Onion

Onion Sets

White or Yellow

Onion Sets are miniature Onions grown from seed. When grown from Sets the Onions can be used in the green state or ripened off for large Onions. Onions grown from Sets are fully 6 weeks earlier than when raised from seed.

White—30c per pound, postpaid; 20c pound, by express.

Yellow—25c per pound, postpaid; 15c pound, or 2 pounds 25c, by express.

Garlic—Pound 35c, postpaid—Pound 25c, by express.

Potato Onion

Potato Onion—Produces a quantity of young bulbs on the parent root, which should be planted early in spring in rows 18 inches apart, 6 inches apart in the row, and covered one inch deep. They should be earthed up like potatoes as they continue to grow. Pound 35c, postpaid. Pound 25c, by express.

Read how you may buy seed for a Vegetable Garden on page 8.

Chas. C. Navlet Co's Parsnips

While highly appreciated for the table, the great value of the Parsnip for stock feeding it but little known. The roots are very rich in saccharine food, adding to the richness of the milk when freshly dug and fed to cows.

Hollow Crown

Root white, very tender, with a smooth, clean skin. The variety is easily distinguished by the leaves growing from a depression on the top or crown of the root. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

Long Dutch Sugar

Roots very long, white, smooth, tender and of most excellent flavor. Very hardy and will keep through winter without protection. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25. Plant from July to October and January to May.

Chas. C. Navlet Co's Peppers

Anaheim Chili

After four years in general use this Pepper yet grows in popularity. As it becomes more widely known it is more appreciated. The stalk grows from two to three feet high and supports the Peppers well off the ground and every plant bearing thirty to forty large Peppers from six to ten inches long. Per packet 5c—ounce 15c, quarter pound 55c, pound \$2.00.

Chinese Giant

This monstrous fruiting variety averages 12 to 15 inches in circumference, and notwithstanding its immense size, it is very early and prolific, the stocky, well-branched plants, about 2 feet high, carry so many Peppers that in places they seem bunched together. The flesh is thick, tender, mild, sweet, and unexcelled when sliced as salad, or for stuffing for "mangoes." When ripe the surface is of a brilliant glossy scarlet. Per packet 5c—ounce 35c, quarter pound \$1.25, pound \$4.50.

Large Bell or Bull Nose

Our stock of this well-known variety, which is sometimes called Sweet Mountain, is a great improvement on the best stock obtainable only a few years ago. Plant vigorous, compact, very productive, ripening its crop uniformly and early. It is one of the most popular and desirable sorts. Fruit large, cylindrical, with thick, mild flesh. Of excellent quality for use in salads and pickles. Color, bright red when ripe. Per packet 5c—ounce 25c, quarter pound 60c, pound \$2.00.

Long Red Cayenne

A favorite variety having a slim, pointed pod about four inches long, and when ripe of a bright red color. Extremely strong and pungent flesh. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Chili

A late variety, used in the manufacture of pepper-sauce. The bright, rich red pods are about two inches long, one-third to one-half inch in diameter at the base, tapering to a sharp point and exceedingly pungent when ripe. The plants should be started quite early in hot beds. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Squash or Tomato Shaped

One of the earliest and most certain to mature. Fruit large, flat, Tomato-shaped, more or less ribbed. Skin smooth and glossy. Flesh mild, thick meated, pleasant to the taste, although possessing more pungency than the other sorts. Very productive and a fine variety for pickling. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Chinese Giant Pepper

Long Dutch Sugar Parsnip

Sweet Spanish

Plant very vigorous, upright growing with moderately large leaves. The fruit does not ripen until very late. It is very large and long, often eight inches or more in length by two in diameter, very smooth and handsome, being, when nearly mature, of a bright deep green color, and when fully matured of a rich red. Flesh very thick, sweet and mild flavored. Well suited to use as a stuffed pickle, and especially when green in making pepper salad. Per packet 5c—ounce 25c, quarter pound 60c, pound \$2.00.

Golden Dawn

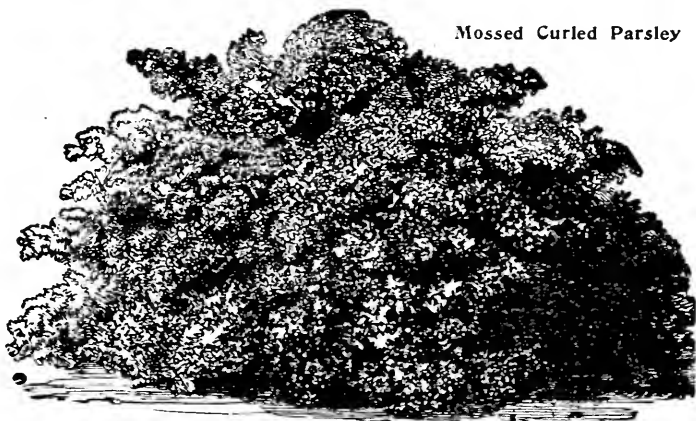

A short, thick, variety, similar to Large Bell, or Bull Nose, in shape, but a rich golden-yellow, with a mild sweet flavor. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Red Cherry

An ornamental as well as useful variety, the plant being tall and bearing profusely small, bright red fruit. The fruit is small, round very hot, and is largely used for pickles. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Ruby King

The beautiful plants are crowded with large, handsome fruits of a bright ruby-red, which grows from four to six inches long by three to four inches through. They are so mild in flavor that they can even be sliced and eaten with vinegar like Tomatoes or Cucumbers. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50. Plant Pepper Seed from February to May.

Mossed Curled Parsley

PARSLEY

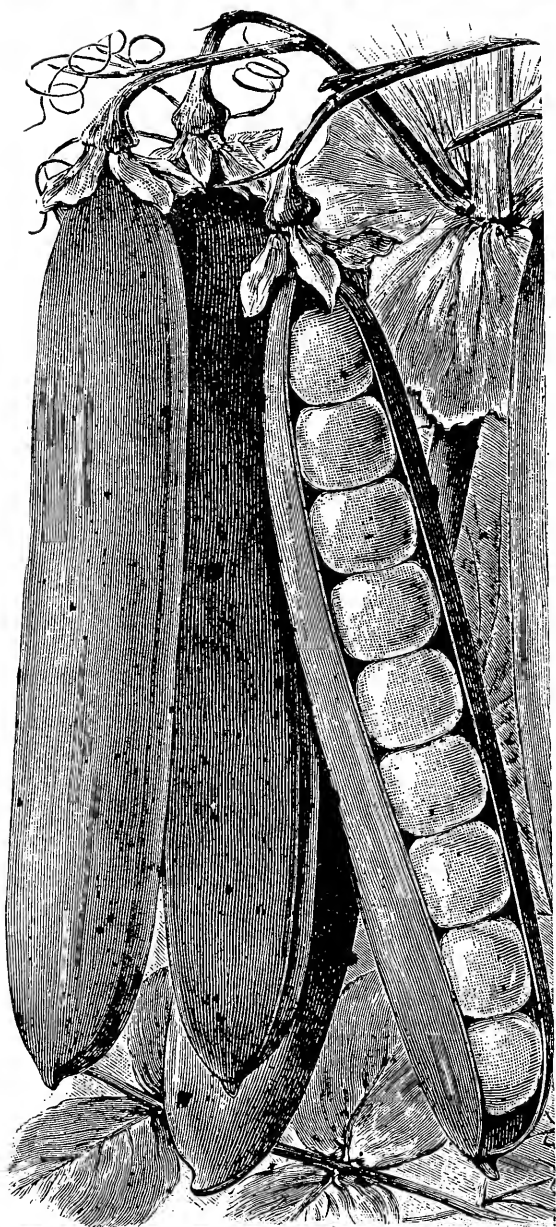

Very useful for flavoring soups and stews and for garnishing. The green leaves are used for flavoring or they may be dried crisp, rubbed to a powder and kept in bottles until needed.

Moss Curled

A compact, growing, finely curled and densely cut variety, of a deep green color. Owing to its fine color and handsome foliage, it is one of the most popular sorts. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c.

Fine Triple Curled

Distinct in appearance from any other variety. The leaves are beautifully crimped and curled. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c. Plant Parsley all year around.

Yorkshire Hero Peas

Late Telephone Pea (Late)

One of the leading Peas with market gardeners whose trade appreciates fine appearance and high quality. Vine vigorous and produces an abundance of very large pods, filled with immense Peas which are tender, sweet and of excellent flavor. It is one of the best sorts for either home or market. Per packet 5c—pound 20c, 10 pounds for \$1.50, 100 pounds \$12.00.

Stratagem (Late)

Seeds green, wrinkled; middle crop, one of the best Peas ever sent out, grows a vigorous and showy vine of branching habit, heavily laden with immense pods containing 10 to 12 peas of large size. Per packet 5c—pound 20c, 10 pounds for \$1.50, 100 pounds \$12.00.

Premium Gem, or Little Gem (Late)

Very popular dwarf, wrinkled variety, with the market gardener. Pods good size and filled with six to eight light, sweet-flavored Peas. Grows about fifteen inches high. Per packet 5c—pound 20c, 10 pounds \$1.50, 100 pounds \$12.00.

Edible Podded Pea

Sweet—delicious—tender—A class of pea little known in this country, but very popular abroad. They are used in the same way as Snap or String Beans, and can be made ready for the table in ten or fifteen minutes. The pods are very large, sweet, brittle and extremely tender. Per packet 5c—pound 25c, 10 pounds \$2.00.

Large White Marrowfat Pea (Late)

Cultivated quite extensively for canning. Pods large, cylindrical, rough, light colored and well filled. It is excellent for summer use, and one of the most productive of the garden varieties. Per packet 5c—pound 15c, 10 pounds \$1.25, 100 pounds \$10.00.

Plant Peas at any time.

The complete Vegetable Garden on page 8 will interest you.

Chas. C. Navlet Co's Re-Selected Strains PEAS

The Varieties of Greatest Merit for the Family Table and the Market Gardener

Yorkshire Hero, or Alameda Sweet Pea (All the Year)

A most popular and extremely productive early and late variety, growing two and a half feet in height. The haulm or vine is close-jointed and thickly hung with round well-filled pods. Peas are of good size, tender, and of very sweet flavor. From its short, stocky growth and great productiveness it is also one of the most profitable varieties to plant in the field for market. Per packet 5c—pound 15c, 10 pounds for \$1.25, 100 pounds \$10.00.

Alaska, or Earliest of All (Extra Early)

A very early, tall variety, vines two to two and one-half feet, with smooth, small peas, green seeded, of good quality and short, well-filled pods. The crop matures practically all at one time, and is very popular with canners and market gardeners. This variety will not rot in the ground if planted in very cold, wet soil, and so is recommended for the very earliest planting. Per packet 5c—pound 15c, 10 pounds for \$1.25, 100 pounds \$10.00.

Gradus, also Called "Prosperity Pea" (Extra Early)

This popular new large-podded wrinkled Pea of finest quality matures pods only two or three days later than the small-podded, round-seeded extra earliest. It produces uniformly large pods, measuring from four to four and one-half inches in length, nearly round and well-filled with very large, handsome Peas of the finest flavor. The Peas remain tender and sweet for some time after they are large enough to use. Per packet 5c—pound 20c, 10 pounds \$1.50, 100 pounds \$12.00.

American Wonder Pea (Extra Early)

Earliest Wrinkled Pea—This variety is unexcelled in flavor and quality. It is a hybrid of fixed habit between the well-known Champion of England and the Little Gem, and possesses the merits of both, with additional points of excellence. The vine grows 10 to 12 inches high, and is very prolific in pods in striking form and size. It is of finest flavor. In maturing it is among the first, being the first of the wrinkled sorts. Adapted for family use, as it requires no brush or other support. Per packet 5c—pound 20c, 10 pounds for \$1.50, 100 pounds \$12.00.

Burpee's Best (Extra Early)

Burpee's Best Extra Early—We offer the introducer's prize strain. The best early Pea of the smooth-seed varieties, is very much sweeter than Alaska and also earlier. The vines make a very quick growth, about 18 to 20 inches in length, and the pods ripen practically all at one time. Per packet 5c—pound 20c; 10 pounds for \$1.50, 100 pounds \$12.00.

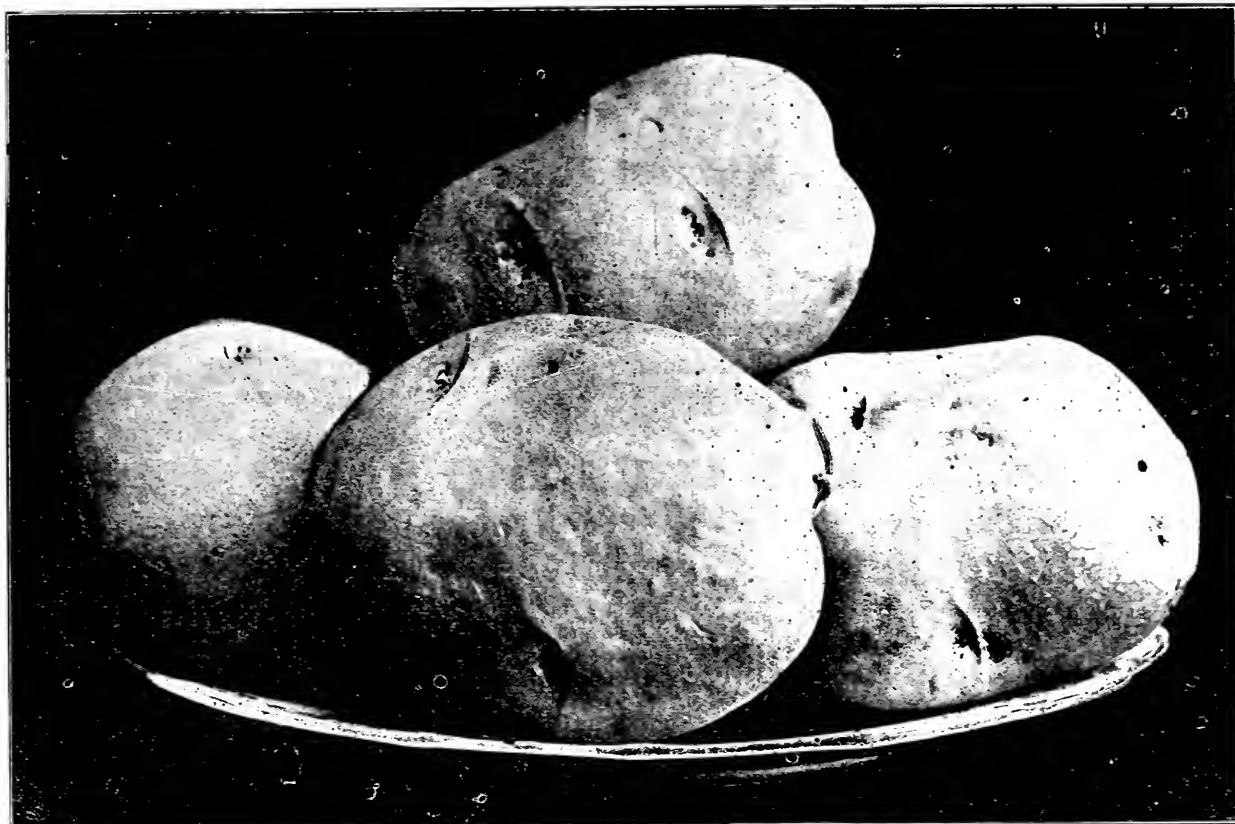

Champion of England Pea (Late)

Very productive, and one of the richest and best flavored Peas. Equal in quality to any Pea in cultivation, and one of the best of its season, either for the amateur or market gardener. Our stock is unequalled. Per packet 5c—pound 20c, 10 pounds for \$1.50, 100 pounds \$12.00.

Gradus Peas

Chas. C. Navlet Co's Re-Selected Strains Gold Coin, the Earliest Early POTATO

Gold Coin Potatoes

Why Gold Coin is the Best

- 1st—Three Weeks Earlier
- 2d—Largest Yield
- 3d—Most Profitable
- 4th—Quality; White, Dry, Mealy
- 5th—An All-Season Variety
- 6th—Handsome Appearance and Large Size

The Most Profitable Potato that Farmers and Market Gardeners Can Plant

The remarkable success of the Gold Coin Potato as introduced by us had led many people to offer inferior stock and in many cases Potatoes of similar appearance as the genuine. If you get genuine Gold Coin Re-selected Strains from us you will be sure of getting the best. Poor seed of any kind is a bad investment, but this is particularly true of Potatoes, especially if it is the main crop, as it is found out too late to rectify. Better buy from us and be sure.

The Gold Coin Potato has proven itself to be an all-season Potato. Planted in the same field in the same soil, with same conditions in every respect, it was three weeks earlier in the market than any other extra early variety.

Gold Coin is the hardest, most vigorous in growth, most productive, and the best in table quality of all Potatoes. It has proven to be absolutely unequalled. The vines are strong, with exceptionally luxuriant deep green foliage, making a healthy growth when other varieties are cut down by blight. The tubers are all of good size and lie closely together in the hill. While the vigorous growth and great productiveness will commend the Gold Coin to all Potato planters, the handsome appearance and superior quality are equally important. In form the tubers are slightly oblong, rather broad and quite thick through—see illustration at top of page. The eyes are small and there is but little waste in paring. The skin is thin, smooth and glossy, of a light golden tint, having just sufficient coloring to distinguish it from the white-skinned varieties. The flesh is fine grained, of a pure pearly whiteness, and cooks to a dry floury whiteness. Unlike most potatoes, which need to be well dried out before they will cook properly, the Gold Coin, even when freshly dug, cooks dry and mealy. Its vigorous growth and great productiveness make it the most profitable variety for the planter, and its great solidity, smooth, regular form, and unequalled table quality will make it the most popular and quick selling Potato on the market. Per pound 10c—4 pounds for 30c, 100 pounds for \$4.00. Purchaser to pay transportation.

We assure you that the seed Potatoes we send out will not only be the best we can supply but the best to be had from any source at any price. To that end they will not be only strictly true to name, but hand-sorted, selected stock such as anyone will be proud to plant.

Planting Directions—The soil best suited to the Potato is a rich, sandy loam, but it seems to thrive in almost any soil or climate. The Potato being a gross feeder, requires a liberal application of manure; if stable manure is to be used, it should be well-rotted, and not allowed to come in contact with the tubers. On no other crop are the results from the use of phosphates so manifest as on the Potato, almost invariably the tubers are smoother, brighter and freer from rust and the destructive influence of wire worms. The best fertilizers are super-phosphate of lime and bone-dust. After the Potatoes are cut they should be spread out, allowing the starch to dry. This forms a callous. Potatoes treated this way grow quicker and are not so liable to rot as if planted immediately after being cut. Plant in rows 3 feet apart and 12 to 16 inches apart in the rows, dropping two or three pieces in each hill, covering about 4 inches. The ground should be plowed, fertilized and hoed four times during the season. Should be thoroughly cultivated so as to retain the moisture, otherwise the result will be small potatoes of inferior quality. Hoe the earth towards the plants as they advance in growth.

By changing seed every year, better results are obtained. Potatoes reset on same soil year after year degenerate.

PLANT POTATOES FROM FEBRUARY TO MAY.

King of the Mammoths Pumpkin

Chas. C. Navlet Co's
Re-Selected Strains

Mammoth Pumpkin

King of the Mammoths or "Jumbo"

This is the very best genuine strain of the true Mammoth Pumpkin, which is offered under so many various names by different seedsmen. Fruits grow to enormous size, reaching two feet or more in diameter and from one hundred to two hundred pounds or even more in weight. Salmon-orange skin. Very thick, bright yellow flesh, which is fine-grained, tender and of excellent quality for pies. To raise the largest Pumpkins, vines should be allowed ample room in which to grow. Per packet 5c—ounce 15c, quarter pound 45c, pound \$1.50.

Connecticut Field Pumpkin—or Large Yellow—the hardiest of all Pumpkins. Produces enormous crops. Cultivated mainly for feeding stock. Per packet 5c—ounce 10c, quarter pound 15c, pound 50c. Plant Pumpkins from March to June.

Radishes

Early Long Scarlet

A standard and superior sort, either for private gardens or the market. The roots grow half out of the ground, are very uniform in shape, smooth, and very bright red in color, and continue crisp and tender until fully matured, when they are about 6 inches long. Per packet 5c—ounce 10c, quarter pound 15c, pound 50c.

Early Half-Long Brightest Scarlet

A hardy and very desirable variety. The roots are medium size, half long, and of a brilliant, rich red color, tipped with white. The flesh is very white, crisp, tender and mild, and holds its juiciness well. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early Scarlet Turnip Rooted

One of the most popular Radishes. Medium in size and a handsome bright scarlet in color. Clear, smooth root, with a small top. Grows quickly and is very mild and delicious in flavor. Extremely early and largely used for both growing under glass and outdoors. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Mammoth White China or California

First introduced into this country by the Chinese in California. It is pure white, about one foot long and two or three inches through and tapers regularly to the tip. The flesh is tender, crisp, mild and juicy. Keeps well through the winter. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early Long Scarlet Radishes

Scarlet Turnip-White Tip Radish

Scarlet Turnip White Tip

For outdoor growing this is one of the best Radishes in our list. Skin scarlet—flesh white and very palatable. Our stock of this variety is very superior. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early Olive Shaped or Half-Long Scarlet Olive

Root olive-shaped or a little longer. Skin scarlet—neck small—flesh white, tender, and of finest flavor. Per packet 5c, ounce 10c, quarter pound 20c, pound 60c.

Early White Turnip Rooted

A medium-size Radish, grown very largely for summer use. It takes about 30 days to mature and remains fit for use a long time after reaching edible size. Less pungent than many of the varieties. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

French Breakfast

A quick-growing, medium-size Radish, rather oblong in shape. Color a beautiful scarlet, except near the tip, where it is pure white. A fine variety for the table on account of its excellent quality and attractive color. Per packet 5c—ounce 10c, quarter pound 20c, pound 65c.

Long Black Spanish

One of the latest as well as the hardiest of Radishes. A superior variety for fall and winter use. Roots of medium size, oblong and black. The flesh is firm and crisp. Greatly relished by the Germans. Per packet 5c—ounce 10c, quarter pound 25c, pound, 75c.

Icicle

A handsome white variety, about 5 inches long, with sloping top and pointed root. Quick-growing, brittle, and mild in flavor. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c. Plant Radish Seed all the year round.

Remember This!

WE SELL YOU SIX 5c PACKAGES OF VEGETABLE SEED OR FLOWER SEED FOR 25c, OR THREE 10c PACKAGES OF VEGETABLE OR FLOWER SEED FOR 25c, OR \$1.25 WORTH OF SEED PACKAGES (VEGETABLE OR FLOWER) FOR \$1.00.

French Breakfast Radish

Burbank's Crimson Winter Rhubarb

The Greatest Vegetable of the Century

Spinach, a Splendid Vegetable Bloomsdale Savoy Leaved

The earliest variety and one of the best to plant in autumn for early spring use. Plant of upright growth, with pointed leaves which are crimped like those of Savoy Cabbage. It grows rapidly to a suitable size for use and is quite hardy. Per packet 5c—ounce 10c, quarter pound, 15c, pound 40c.

Round Summer Thick Leaved

This variety is generally preferred for early spring sowing and is the most popular with our market gardeners. The leaves are large, thick and fleshy. It stands exposure very well and possesses the valuable quality of standing a long time before running to seed. Per packet 5c—ounce 10c, quarter pound 15c, pound 40c.

Extra Late Prickly Winter

An exceedingly hardy variety and will withstand severe weather with only a slight protection of leaves or straw. The seed is prickly and the leaves are oblong or arrow shaped. Adapted for fall sowing. Per packet 5c—ounce 10c, quarter pound 15c, pound 40c.

Sow Spinach August to February.

Mammoth Sandwich Island Salsify or Oyster Plant

One of the most delicious of winter vegetables, and also one of the most nutritious. The flavor is sweet and highly esteemed whether served boiled with butter or other suitable sauce, or sliced and fried, or used in soup.

This new variety, where known, is entirely superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in spring produces large, fine roots that may remain in the ground all winter, or may be dug and stored in sand or earth in November, thus keeping them plump and sweet, or be used as desired during the winter. Per packet 5c—ounce 20c, quarter pound 50c, pound \$1.50. Plant from February to May.

The Crimson Winter or Every-Ready Rhubarb is the earliest of all Rhubarb by a long way and fit for use not only in the spring, but all through the summer and fall. As fast as stalks are pulled, fresh ones will take their place. In the Southern and Pacific States it may be used all the year round, requiring only water in dry localities to keep it growing. It is particularly fine in winter. In quality this Rhubarb is simply superb, fully equal in flavor to the finest berries. The stalks are not so bulbous, soft and watery as most other kinds, and the skin is so thin and tender that it is not necessary to remove it, and when cooked a beautiful crimson-colored sauce is the result. Flavor sprightly and refreshing.

It is a rapid and perpetual grower, forming new crowns continually and is rapidly increased by division. Robust and perfectly hardy everywhere. It will stand frosts which will destroy any other sort. This new Rhubarb has qualities which will make it as freely used as any of our standard fruits or vegetables. Large fortunes will be made in growing it for market, and those who start first will reap the greatest harvest. Per packet 10c—ounce 50c, quarter pound \$1.75, pound \$6.00.

Crimson Winter Rhubarb Roots—15c each—\$1.25 per dozen—delivered free.

Victoria Rhubarb—Very large leaf stalks—Skin thick and red stained. Pulp quite acid. Surprisingly productive. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

Linnaeus Rhubarb—A remarkably early Rhubarb—Tender and fine flavor. Per packet 5c—ounce 15c, quarter pound 40c, pound \$1.25.

Plant Rhubarb Seed from February to May.

Prices of Rhubarb—Victoria or Linnaeus Rhubarb Roots—15c each \$1.25 per dozen—delivered free.

Much valuable time can be saved by buying Rhubarb Roots instead of the Seed, and the big demand for Burbank's Crimson Winter Rhubarb has caused us to grow a big stock of the Roots. Listed on page 43.

Chas. C. Navlet Co's Re-Selected Strains

SQUASHES

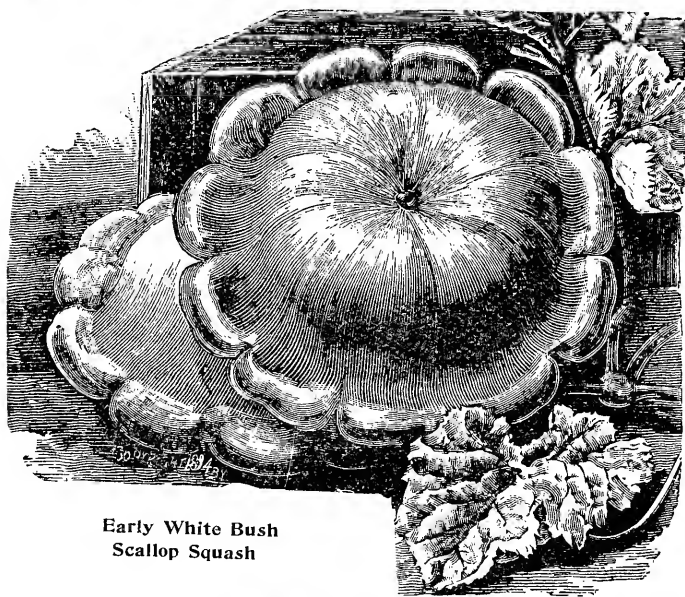

SUMMER VARIETIES

Golden Summer Crookneck

Early and prolific. One of the most popular Squashes for the table and market. The fruit is of the crookneck type, heavily warted, and light golden-yellow in color. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early White Bush Scallop

The White Patty Pan or "Cymling" of the South. One of the earliest varieties of Squash and grown almost exclusively for first crop. Of dwarf habit and upright growth. The fruit is a handsome creamy-white, tender and delicately flavored, and from the hard texture of the rind is well suited for shipping. Per packet 5c—ounce 10c, quarter pound 25c, pound 75c.

Early White Bush
Scallop Squash

Perfect Gem

A strong-growing Squash—Equally desirable either as a summer, autumn or winter variety. Very productive—as many as 24 Squashes having been produced on a single vine. The fruit is 4 inches in diameter and of a creamy-white. Per packet 5c—ounce, 10c, quarter pound 20c, pound 75c.

Hubbard

A Superior Winter Squash

Flesh bright orange-yellow, fine-grained, very dry, sweet and rich flavored. Keeps well through the winter. Boils or bakes exceedingly dry, and is esteemed by many to be as good baked as the Sweet Potato. Our stock is most carefully selected. Per packet 5c—ounce 10c, quarter pound 20c, pound 75c.

Hubbard
Squash

Golden Summer Crookneck Squash

Boston Marrow

A Large Fruited Squash

For fall and winter use.. Fruit is of oval form. The skin is thin, and when ripe a bright orange with a netting of light cream-color. The flesh is fine grained and of excellent flavor, but not as dry as the Hubbard. We have an unusually good stock of this sort. Per packet 5c—ounce 10c, quarter pound 20c, pound 65c.

Mammoth

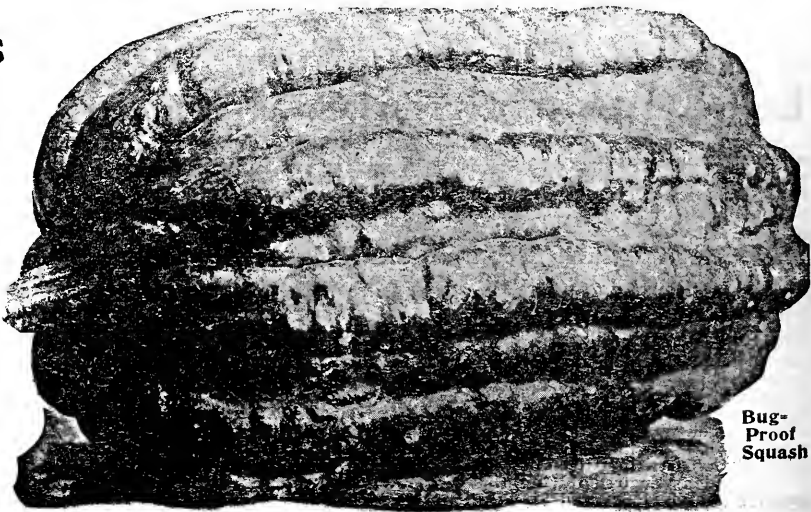

For Stock Feeding

This is the "Jumbo" of the Squash family and attracts great attention wherever grown or placed on exhibition. The Squashes grow from two and a half to three feet in length, under good cultivation often attain more than 100 pounds in weight. The skin is of a light orange and the firm, solid flesh is a beautiful orange-yellow, and of excellent quality. Per packet 5c—ounce 10c, pound 25c, 10 pounds \$2.25, 100 pounds \$20.00.

Chas. C. Navlet Co's Bug-Proof

This is unquestionably the grandest Squash on earth. It has taken more first premiums than any other six vegetables combined. It grows strongly and rapidly. It defies the attacks of bugs. In some sections it is impossible to grow Squash on account of bugs. We guarantee this Squash to be bug-proof. It produces colossal crops. It keeps in perfect condition for a whole year. The fruits—of oblong shape—have very rough and very hard shells, and weigh about 40 pounds each on an average. The flesh is a rich yellow in color, very thick, fine grained, sweet, dry and of surpassing flavor, either roasted, boiled, steamed, baked or in pies. It is also one of the finest Squashes for feeding to stock. We are sure that those who plant Bug Proof Squash this season, whether for family use or market, will appreciate its unequalled merits as thoroughly as we do. Per packet 5c—ounce 10c, quarter pound 25c, half pound 45c, pound 75c.

Plant Squash from March to June.

Bug-
Proof
Squash

Chas. C. Navlet Co's Re-Selected Strains Ponderosa Tomatoes

It is massive in size, ponderous in weight, perfect in shape, smooth as glass, solid and meaty as beefsteak, prodigiously prolific and succeeds everywhere. It is free from watery cavities—almost seedless—and ripens thoroughly from center to skin, its glowing crimson color permeating the flesh to the heart. Toothsome and rich when sliced—savory and delicious when canned. Unaffected by drought and does not blight or rot. First ripe fruits are often picked in ten weeks from seed sowing, while late fruits may be gathered until frost. Per package 5c—ounce 30c, quarter pound \$1.00, pound \$3.50.

Earliana

A Very Early New Tomato
Earliana is not only extremely early but of particularly fine quality, which is very rare in an early Tomato. The flesh is remarkably solid and it has few seeds. It has the habit peculiar to many early sorts of setting the bulk of its fruit close to the center of the plant, so that they are exposed to the sun and thus ripen early. These qualities make it particularly useful for a first crop variety. Per packet 5c—ounce 25c, quarter pound 90c, pound \$3.00.

Golden Queen

The finest of the large yellow Tomatoes. The superior flavor of the yellow varieties is bringing them into favor as table fruit, and those who think of a yellow Tomato as the rough fruit of the old yellow sorts will be surprised at this smooth, beautiful fruit which, though large, is as smooth and well-shaped as the best of the red varieties, and of a fine and distinct flavor. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

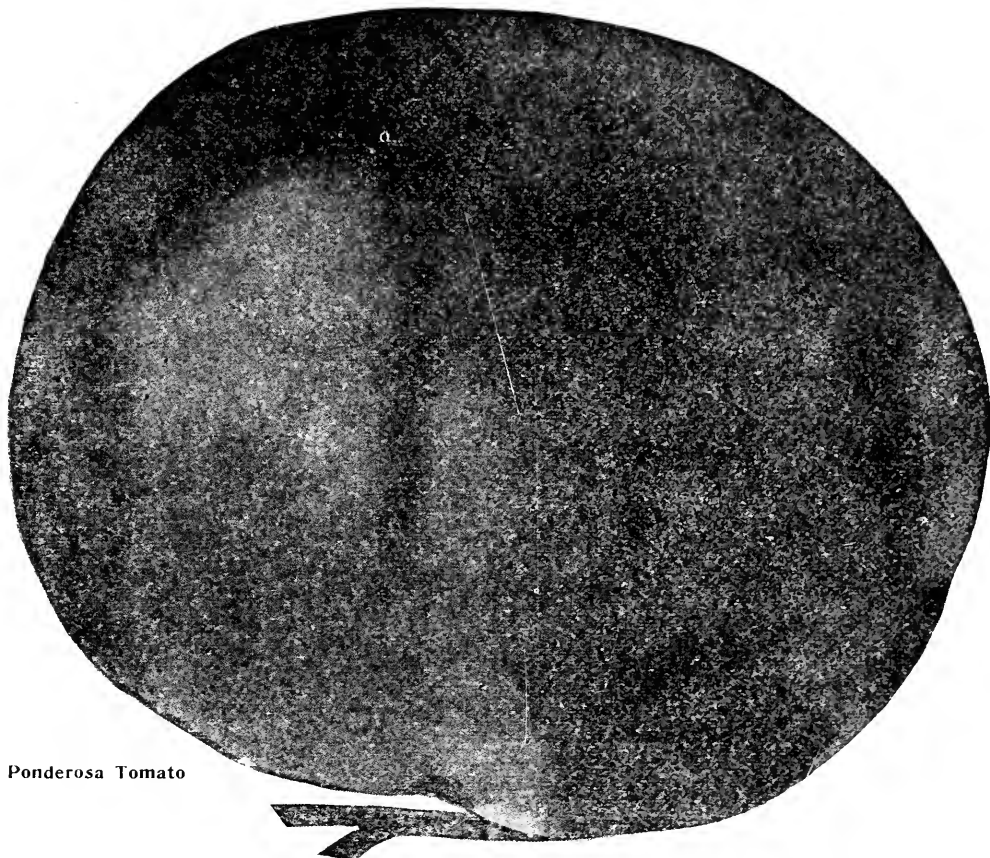

Trophy—A Large and Delicious Tomato

The trophy was the first of the modern improved Tomatoes. It was of superior color, size and solidity, but lacked smoothness and regularity. By most careful breeding and selection, an improved strain has been developed and the Trophy now combines all its original good qualities, with smoothness, regularity and symmetry of fruit. Vine strong-growing, vigorous and productive. Fruit very large, very solid, fine flavored and a beautiful deep, rich red in color. Per packet 5c—ounce 20c, quarter pound 60c, pound \$2.00.

Red Pear Shaped

As the name implies, the fruit is shaped like a pear—small at the stem and enlarged at the top. It is small, being about 2 or 3 inches long. It is bright scarlet, is of fine flavor, and makes delicious preserves for salad. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Ponderosa Tomato

Yellow Pear Shaped

A small fruited golden yellow variety. Is very useful for salad—when the fruit is simply cut in two lengthwise. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Livingston's Perfection

A standard early Tomato. The fruit is almost round, very solid and rich in flavor, and ripens clear up to the stem. The skin is both thin and tough, making it a good shipper, while its clear and handsome blood-red color makes it most attractive in appearance and a sure seller. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.25.

New Stone

A GRAND TOMATO

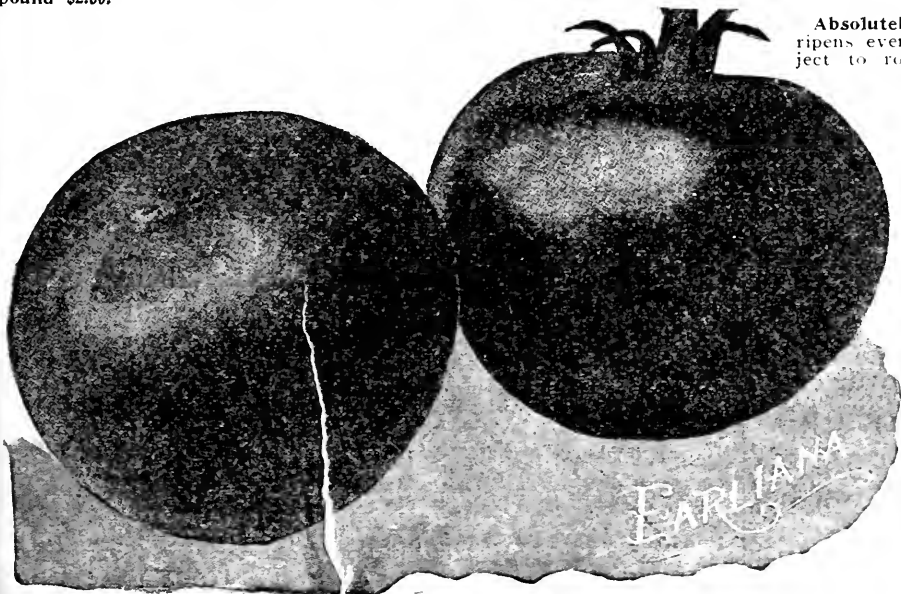

Absolutely the best of its type in every respect. It ripens evenly to the stem without a crack, and is not subject to rot. Vine vigorous and very productive. Fruit round, apple-shaped, very large, very deep red in color and astonishingly heavy. Our stock is distinctly superior to most of that offered under this name—being more uniform, better colored and larger. Per packet 5c—ounce 20c, quarter pound 60c, pound \$2.00.

Dwarf Champion

FINE FOR HOME GARDENS

A purple-fruited variety which forms very stout plants about two feet high. The branches are short, making a bushy plant that stands quite erect. This sort is often sold as Tree Tomato. Fruit smooth, medium sized. Color purplish-pink. Fairly solid, but has no hard core and is of good flavor. As early as any purple-fruited Tomato. Very popular, particularly for home use. The dwarf habit of the vine makes it very desirable for forcing, as it can be planted closer to the glass, and more closely on the bench than the tall growing kinds. Our stock is a very superior strain with larger, smoother fruit than the original. Per packet 5c—ounce 25c, quarter pound 75c, pound \$2.50.

Plant Tomatoes from February to May.

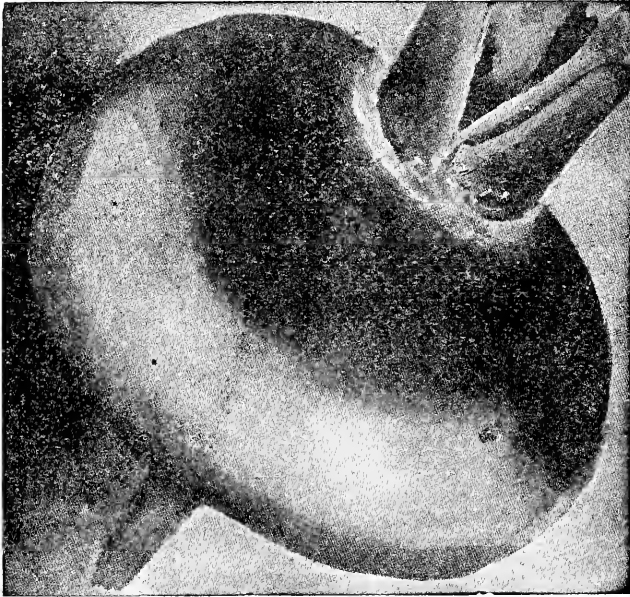

Chas. C. Navlet Co's Re-Selected Strains

Garden Turnips

Purple Top White Globe

A globular-shaped Turnip of beautiful appearance and most excellent quality. Equally desirable for table or stock. It is a good keeper and fine market sort. Per packet 5c—ounce 10c, quarter pound 20c, pound 50c.

Purple Top—Strap Leaved Turnip

Early White Flat Dutch

STRAP LEAVED

A most excellent table variety. Very early, sweet, tender and of tempting appearance. Root medium size, flat in shape, and a clear ivory-white in color. Per packet 5c—ounce 10c, quarter pound 20c, pound 50c.

Extra Early Purple Top Milan

The earliest of the whole Turnip family. The smooth, flat, symmetrical roots are a beautiful purple-red above ground and a clear white underneath. The flesh is white, crisp and tender. All in all, the Purple Top Milan leaves nothing more to be desired in the way of an early extra table Turnip. Per packet 5c—ounce 10c, quarter pound 25c, pound 80c.

Purple Top

STRAP LEAVED

An early Turnip that ranks high in favor as a table variety. It is flat in shape, but thicker than Purple Top Milan and of medium size. Color dark purple above the ground and white below. Flesh white, fine-grained and tender. Per packet 5c—ounce 10c, quarter pound 20c, pound 50c.

Large Yellow

OR AMBER GLOBE

One of the best Turnips for general crop. It is a good cropper and keeps well until late in the spring. The roots are of medium size, smooth skinned and of pale yellow color. The flesh is crisp, tender and of fine quality. The most popular yellow Turnip for table use and equally good for feeding stock. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c.

White Egg

A small oval-shaped variety with pure white skin and white, fine-grained flesh. A handsome variety and very early. Large packet 5c—ounce 10c, quarter pound 25c, pound 65c.

Seven Top—For Greens

Cultivated for its leaves; cooked same as spinach and mustard. The root is small and not used. Large packet 5c—ounce 10c, quarter pound 20c, pound 60c.

Purple Top Flat Dutch—Strap Leaf

An early flat variety. White, with purple top. Probably the most popular and generally used garden variety. Large packet 5c—ounce 10c, quarter pound 20c, pound 60c.

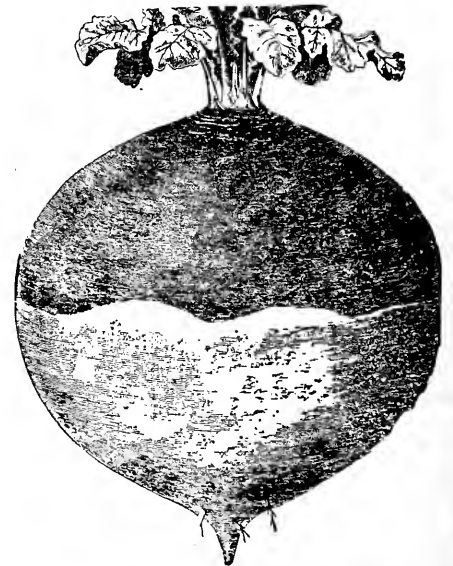

Ruta Bagas or Swedes

Purple Top Swede

A very large, hardy and productive variety. Flesh yellow, of solid texture, sweet and well flavored. Color deep purple above, bright yellow under the ground. Fine for table use and the best yellow-fleshed sort for stock-feeding. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c.

Sweet Russian—or White Ruga Baga

An immense and heavy yielding sort. Flesh white, solid, brittle, sweet and rich. An excellent keeper and a most desirable variety, either for the table or for stock. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c. Plant Turnips all the year round.

Purple Top—Ruta Baga Turnip

Tobacco

Connecticut Seed Leaf

The best known and most widely used variety throughout the middle and northern States and Canada. Is the hardest variety in cultivation. Large packet 5c—ounce 20c, quarter pound 80c, pound \$3.00.

Havana (Domestic)

Large packet 10c—ounce 25c, quarter pound \$1.00, pound \$3.50. Plant Tobacco from February to April.

Extra Early Purple Top Milan

Remember if you select \$1.00 worth of Vegetable Seeds by the packet we give you 25c worth free, or \$1.25 worth for \$1.00.

Chas. C. Navlet Co's Selected Vegetable Plants

These Prices are for Plants full of Vitality—They may be Depended Upon to Grow

Burbank's Crimson Winter Rhubarb

Rhubarb Roots, Burbank's—Crimson Winter—Very fine flavor, and a few roots will grow enough pie plant in a surprisingly small space and time to satisfy almost anyone. Why not grow your own Rhubarb, pick it fresh and get the full natural flavor? 15c each—12 for \$1.25. Delivered free.

Victoria Rhubarb Roots—15c each—12 for \$1.25. Delivered free.

Linnaeus Rhubarb Roots—15c each—12 for \$1.25. Delivered free. For descriptions see Vegetable Seeds.

All Rhubarb ready for immediate delivery.

Selected Tree Seeds

All 10c per Package, Except Where Otherwise Specified.

Acacia—A small, handsome flowering Tree. Highly recommended for street planting. Per ounce 60c—pound \$6.00.

Eucalyptus (Blue Gum)—Well known. Very useful. Imported seed 50c per ounce—\$6.00 per pound. California-saved seed 50c per ounce—\$5.00 per pound.

California Fan—The well-known Palm Tree. Very hardy. Per ounce 10c—per pound \$1.00.

California Privet—One of the most rapid growing and satisfactory hedge plants in existence. Per ounce 10c—pound \$1.00.

Date Palm—Lives to a great age, and yields the date fruit of commerce. Per ounce 10c—pound \$1.00.

E. Edullus—A rapid-growing Palm, with bright green fan-shaped leaves. Hardy. Per 10 seeds 15c—100 seeds \$1.00.

Madrone—A hardwood native of California. Per packet 25c.

Manzanita—An attractive low-growing Tree or Shrub. Produces white blossoms and beautiful berries. Per packet 25c.

Monterey Cypress—Useful for hedges and wind breaks. Height 50 feet. Per ounce 10c—pound \$1.00.

Monterey Pine—A rapid grower. Succeeds in any kind of soil. Height 100 feet. Per ounce 25c—pound \$2.50.

Phoenix Canariensis—A very elegant and hardy variety of Date Palm. Per 10 seeds 10c—100 seeds 50c.

Pepper—A handsome shade tree, with feathery foliage and scarlet berries. Height 50 feet. Per ounce 10c—pound \$1.00.

Eucalyptus (Red Gum)—Highly esteemed. Per ounce 60c—pound \$5.00.

Sequoia Gigantea—"California Big Tree." The biggest of all Trees, and the longest lived. Per ounce 75c—pound \$7.50.

Sequoia Sempervirens—"California Redwood." Wood light and brittle, but very durable. Ornamental for lawns and parks. Height 200 feet. Per ounce 50c—pound \$5.00.

Washington Robusta—A robust Fan Palm. Per ounce 25c—pound \$2.50.

Wild Cherry—A native of California. Resembles Holly, and makes a beautiful hedge. Per ounce 25c—pound \$2.50.

Palmetto Asparagus

Many people who want a few vegetables and do not desire to raise them from seed prefer to buy the plants from us and thus save considerable time and trouble. This Vegetable Plant Department of ours has grown to immense proportions and our stock for this season will be more than twice as large as last year, so we are fully prepared to supply your every want in this direction. It is very gratifying to us to find on our books the same old friends this year that have bought from us each previous season. It is our aim and endeavor to supply nothing but the best and our many friends may rest assured that we will continue to maintain the same high standard in future as in the past.

No matter how small your garden is you should find room for a few of each of the following vegetable plants. They will save many trips to market, will supply you with fresh vegetables at small cost; and, besides, think of the difference between picking them fresh in your own garden as compared with what you buy that is old and stale, full of dirt and dust, tasteless and non-appetizing.

Asparagus Roots—Palmetto or Conover's Colossal—the two most popular varieties of Asparagus. A little corner in your garden planted to Asparagus will give you enough for your needs. For description see Vegetable Seeds. 25c per dozen—\$1.50 per 100. Postpaid. 100 by express \$1.00. Ready for immediate delivery.

Artichoke Plants—Large Green Globe, the most popular variety. A few plants will cover up an unsightly fence and give you more than plenty of Vegetables for your family and friends. For description see Vegetable Seeds. 20c each, \$1.25 a dozen. Postpaid. \$1.00 per dozen by express. Ready for delivery all the year round.

Cabbage Plants—All the best varieties of Summer and Winter Cabbage. We grow nothing but the best standard varieties—ship nothing but strong, sturdy plants. See description of Vegetable Seeds. 15c per dozen. Postpaid. 70c per 100. Ready for delivery all the year round.

Cauliflower Plants—Our Cauliflower Plants are in big demand on account of their reliability. We list none but those that have proven the best. For description see Vegetable Seeds. 20c per dozen. Postpaid. \$1.00 per 100. Ready for delivery all the year round.

Celery Plants—A dozen plants will give you all the Celery for greens and table use that an ordinary family would want, and besides is a good deal handier in the garden than having to send to the store every time a little soup greens are needed. 20c per dozen Postpaid. \$1.25 per 100. Ready for delivery all year round.

Chives—Fine for seasoning soups, salads and stews. One square foot is all the ground needed for this useful Vegetable Plant, and 15 cents' worth will last for many months. 15c per clump, postpaid, \$1.00 per dozen. Ready for delivery all year round.

Egg Plants—Very easy to raise. Take up little room, and a few plants will give you an abundance of this toothsome Vegetable. 30c per dozen, postpaid—\$2.00 per 100. Ready for delivery in March.

Horse-Radish Sets—Will grow in any old corner anywhere. Can be grated fresh as wanted and far better than when bought from most vegetable stands, as a little goes a long way. 40c per dozen, postpaid—\$2.00 per 100. Postpaid. Ready for delivery December to May.

Mint Roots—Mint is one of the hardest things to find in most stores. A few roots will supply your wants for mint sauce for a whole year; takes up so little room that every garden should contain some. 10c each, postpaid—50c per dozen, \$4.00 per 100. Ready for delivery all the year.

Parsley Plants—Parsley is used so much for dressings, garnishings, etc., and is so much better when picked fresh that it is surprising how few people plant it. Grows like weeds. 10c per clump—75c per dozen. Postpaid. Ready for delivery in February.

Pepper Plants—Chinese Giant, Sweet Spanish, Chili, Bell and Cayenne. A dozen plants are more than enough to supply the "pepper" needs of two or three families. 25c per dozen, postpaid—\$1.00 per 100. Ready for delivery in March.

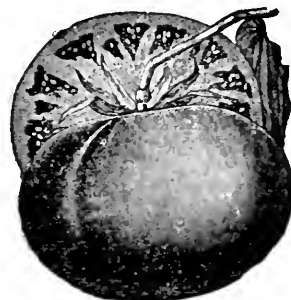

Sage Plants—Sage is usually wanted when not obtainable. Two or three plants are all that are necessary to give you all the fresh and dried Sage needed. 15c per plant—\$1.00 per dozen. Postpaid. Ready for delivery in March.

Sweet Potato Plants—Good Sweet Potatoes are hard to buy, and yet everyone with a little patch of ground can grow all that can be eaten. Plant a few and see how much better they taste than those bought in the markets. 20c per dozen, postpaid—\$1.00 per 100. Ready for delivery in April.

Tarragon, or Estragon—For flavoring. 25c per plant—\$2.50 per dozen, postpaid. Ready for delivery in March.

Thyme—Used for seasoning. 10c per plant—\$1.00 per dozen, postpaid. Ready for delivery in March.

Tomato Plants—At a cost of only 20 cents any small family can, with very little care and attention, raise sufficient Tomatoes for their every need. All season long a few plants will supply more than can be eaten, and will produce enough to can for winter use, too. If you pick your own Tomatoes you may be sure they are fresh and sweet and will be finer tasting than anything it is possible to buy. The best varieties for the table or canning: Ponderosa, Stone, Trophy and Earliana. 20c per dozen, Postpaid. \$1.00 per 100. Ready for delivery in March.

Trophy Tomato

REMEMBER THIS! We sell you six 5c packages of Vegetable Seed or Flower Seed for 25c, three 10c packages of Vegetable Seed or Flower Seed for 25c, or \$1.25 worth of Seed packages (Vegetable or Flower) for \$1.00.

Alfalfa

Also called Lucerne, Eternal Clover and Wonder Clover.

This is truly the farmer's friend. It stands drought and dampness, and succeeds during hot and dry weather when many other Clovers and Grasses fail entirely. Heavy rains or snows have no damaging effect whatever, and simply make it flourish more than ever. As a fertilizing, land-enriching crop it is unequalled. The roots sink down into the earth searching for nourishment and bringing to the surface the chemicals and fertilizing materials that have been stored 10 to 15 feet deep. One seeding stands for years. All cattle are fond of it. If possible sow with Oats at the rate of 20 pounds per acre, or if the land is very poor sow 3 pounds more. The first season the growth will be very light. But don't be worried if the plants are small and several inches apart, for that means the next season you will probably get from 3 to 5 tons per acre, and it increases for several years. It should be cut when in full bloom, but don't cut too early, and be careful not to allow it to become water soaked after cutting, as it greatly reduces its value for feeding. Don't feed hungry stock on it when green, as it is likely to bloat them, for they invariably over-eat. Per pound, postpaid, 40c—by express, 25c, 100 pounds for \$20.00.

Mammoth Red, or Sapling Clover

Grows much larger and lasts longer than the common red Clover. Fifteen pounds required for an acre. Per pound, postpaid, 45c—by express, 35c—100 pounds for \$30.00.

Burr Clover

The native forage plant of California. Easily cultivated. Grows all winter and well into summer. We offer only "Hulled Seed," which is much easier to sow than in the burr. Per pound, postpaid, 35c—by express 25c—100 pounds \$17.50.

Kaffir Corn

Especially desirable for planting where the summers are hot and dry. The stout stalks grow stiffly erect—from 6 to 10 feet in height, according to location and richness of the soil. The stalks and blades cure into good fodder and are also desirable to furnish green forage during the summer months. Per pound 20c, postpaid—100 pounds for \$6.00.

Australian Rye Grass—Lolium Perenne

Grows rapidly, and makes a good showing within a month from time of sowing. 100 pounds required per acre. Per pound, postpaid, 25c—by express, 15c—100 pounds for \$12.00.

Bermuda Grass

Valuable for warm climates, as it withstands hot, dry summers, It germinates slowly. Per pound, postpaid, 75c—100 pounds for \$65.00.

Italian Rye Grass—Lolium Italicum

Thrives in almost any soil, and yields early and abundantly. Sown in the fall, will produce an excellent hay crop the following season, but lasts only one year. Fifty pounds required for an acre. Per pound 25c, postpaid—by express 15c—100 pounds for \$12.00.

Orchard Grass—Dactylis Glomerata

One of the most valuable of all pasture grasses, produces an immense quantity of forage, and well adapted for growing in orchards or under trees. Thirty-five pounds required for an acre. One pound 35c, postpaid—100 pounds \$25.00.

Tall Jersey Kale

Native of Europe, produces a tremendous mass of beautifully cut and curled leaves which are eagerly sought and eaten by chickens, sheep, horses and cattle. For poultry raisers this is positively the best green feed known. Bears enormous crops, furnishes shade for the chicks and plenty of nourishing food, too. By pulling off the lower leaves and letting them remain on the ground the tops will grow faster and the chickens will eat what has been stripped off. Grows to a height of three or four feet, the roots penetrating to a great depth in the sub-soil and is not affected by drought. It grows with wonderful rapidity after being fed off and flourishes in all kinds of soil. Per packet 5c—ounce 10c, quarter pound 20c, pound 60c, postpaid.

Canadian Field Peas

For Fodder and Green Manuring. Whether for fodder, in mixture with Oats—sown at the rate of two bushels each per acre—or the Peas sown alone at the rate of three bushels per acre for plowing under, there is no crop that we can so strongly recommend. Sowing should be done in March or early April, and they will be ready for cutting the latter part of June. Per pound 20c, postpaid—100 pounds for \$6.00.

Cow Peas—Black Eye

Used largely for green manure. It is also valuable if allowed to mature the seed, when the dry vine can be plowed under and the seed used to grind as feed for stock. If for green manure, sow broadcast, using 80 pounds per acre. If for seed or fodder, sow in rows 3 feet apart, using 40 pounds per acre. Per pound 20c—100 pounds \$10.00.

Rape—Dwarf Essex

A plant of inestimable value to poultry farmers and sheep raisers. It is easily grown on any land that will raise Turnips or Corn, and there is no other plant that will give as large a yield of succulent, rich and nutritious winter food for chickens at such a small cost. Its cultivation would add immensely to the profits of poultry raisers. It also makes a most valuable food for lambs and sheep. Per pound 25c, postpaid—10 pounds for \$1.00, 100 pounds for \$8.00. Sow any time from May to August.

Australian Salt Bush

A most valuable plant for soils containing alkali and for all regions subjected to prolonged drought. The plant needs some little moisture to start it into growth. Seed should be sown early, so that the plants may become established before the hot, dry weather. Per ounce 15c—quarter pound 35c, pound \$1.00, postpaid.

Sugar Cane—Early Amber

All kinds of live stock relish it. A heavy cropper and very nutritious. Can either be sown in drills or broadcast, and fed green or dried. If cut when 2 feet high, it will give several cuttings during the season. Sow 10 pounds of seed per acre in drills, and 25 pounds broadcast. Per pound 20c, postpaid—100 pounds for \$6.00.

Sunflower—Mammoth Russian

An excellent and cheap food for fowls. Three pounds of seed will plant an acre. Yields from 50 to 70 bushels per acre. Sow as soon as ground is warm. Per pound 20c, postpaid—10 pounds for 80c, 100 pounds for \$7.00.

Timothy—Phleum Pratense

Grows in any location, but does best in moist, deep soils. Exceedingly productive. Relished by all kinds of stock. 15 pounds required for an acre. Per pound, postpaid, 25c—by express, 15c—100 pounds \$14.00.

Spring Vetches or Tares

Exceedingly nutritious—much more so than Clover—and may be fed with safety to all kinds of stock. It is perfectly hardy and remains green all winter. It should be sown during August and September, mixed with Rye, which serves as a support for the plants, or in spring with Oats or Barley. Per pound 20c, postpaid—100 pounds for \$5.00.

Saved from the Choicest Selected Flowers

Annuals attain full growth from seed, flower and die in one year. Biennials grow from seed one year, blossom and die the next. Perennials last for several years, blooming annually after the first season.

The ordinary commercial grades of flower seeds, such as are usually sold, can be and are sold at very low price.

They are grown and harvested in large crops, much like grain. They are produced cheaply, sold cheaply, and are, in fact, cheap in every sense of the word—and those who sow them have no right to complain at their poor quality. They cannot possibly be anything but poor. Seed of high quality can be produced only by thorough, careful, painstaking and expensive methods. We do not offer our customers the ordinary commercial grades of seeds. Our stocks are special strains of special varieties bred up to the highest mark of perfection and selected with great care.

Think It Over

GROCERY AND DRUG STORE SEED—Perhaps you have noticed pretty boxes in many corner Grocery and Drug Stores where Flower and Vegetable seeds are sold at five and ten cents per package. Now figure what one dollar will buy from them and figure what one dollar will buy from us. You get twenty packages at five cents per packet from them—you get twenty-five packets from us. Or you get ten packets at ten cents from others, you get twelve ten-cent packets from us and a five-cent packet besides. In other words, if you buy one dollar's worth of Flower Seed by the single packet from us you may select twenty-five cents' worth of either Flower or Vegetable Seed extra without charge. Nor is that all. You buy the **BEST SEED** when you buy from us. We are never just "out of it" when you want to plant. Our Seed is all clean Seed, carefully selected, nothing but the best, and is reliable for the reason that it has been tested. We maintain an experiment station to try out all seed before it is offered to our customers. We have built up our reputation on the quality of our Seeds, Plants, etc., and it will be maintained.

Why not buy from the grower? You will surely get **THE BEST**.

Abronia—A Pretty Trailing Annual

Thrives in dry locations. The pink flowers are produced in Verbena-like trusses. **Choice Mixed—Large packet 10c.** Plant from February to April—or in September or October.

Abutilon—Flowering Maple

Abutilon

As indispensable for the window or greenhouse as the Petunia is for flower garden. Will stand more abuse and neglect than almost any other house plant. Grows rapidly from seed and is soon in bloom. Leaves are very ornamental and are often beautifully variegated. The lovely bell-shaped flowers are borne the year round. Tender Perennial.

Fine Mixed—All Colors—Large packet 10c. Plant from February to May—or in September and October.

Acroclinium Everlasting Flower

Half hardy annual, producing white and rose-colored Daisy-like flowers. Much used for wreaths and winter decorations. Flowers should be gathered when young to be preserved. **Mixed—Large packet 5c.** Plant from February to May.

Ageratum—For Beds and Borders

One of the most useful and profuse blooming plants known. Its very name, "Ageratum"—meaning ever young—refers to its ever being in bloom and to the long time each flower remains in beauty. A single head of Ageratum will remain fresh and perfect for a month in the open air, and from six weeks to three months in the window or greenhouse, where not exposed to storm and wind. This makes the Ageratum almost indispensable for house or garden. **Annual. Light Blue—Large Packet 5c. Snow White—Large packet 5c. Mixed—Large packet 5c.** Plant from February to May.

Alyssum—A Favorite Annual

Produces an abundance of sweet-scented blossoms. As easy to grow as any weed, and blooms from early summer until severe freezing weather. Sow seed very early in the open ground. Dainty little plants for hanging baskets or small pots. Fine for cutting or button-hole bouquets. **White—Large packet 5c.** Plant from February to May—or in September to November.

Amaranthus—Beautiful Foliage Plant

Our warm summers suit admirably the varieties of Amaranthus cultivated for ornament. These are plants which are striking on account of their foliage or peculiar mode of bloom. In rich ground the plants and leaves are of larger size, but the coloring is apt to be less bright. The seed can be sown in the house, in a hotbed, a cold frame, or in a seedbed in the garden, and the plants trans-

planted into place. Or the seeds can be sown where the plants are to stand, if the soil is fine and the spots protected. They should be given sufficient space to develop on all sides. Fine in borders of tall plants or for center of large beds. **Annual. Mixed—Assorted Colors—Large packet 5c.** Plant from February to May.

Anagalis Ornamental Trailer

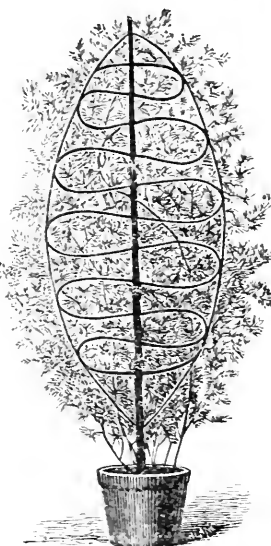

In bloom all season. Excellent for bedding, the conservatory or house culture. **Choice Mixed—Large packet 10c.** Plant from February to May—or in September or October.

Asparagus Decorative Perennial

Sprengeri—A new variety with the finest ornamental qualities. For hanging pots or bracket pots; when the masses of rich foliage can droop in its natural grace, it is one of the loveliest objects it is possible to find for window decorations. For cutting it lasts weeks in water. Plants also blossom freely and bear large red berries which add greatly to the beauty of the wavy foliage. Nothing finer for decorating or for bouquet making. **Large packet 15c.**

Plumosus Nanus—Fine lace-like foliage, compact and most exquisite. **A grand foliage plant. Large packet 25c.**

Plant from February to May—or from August to November.

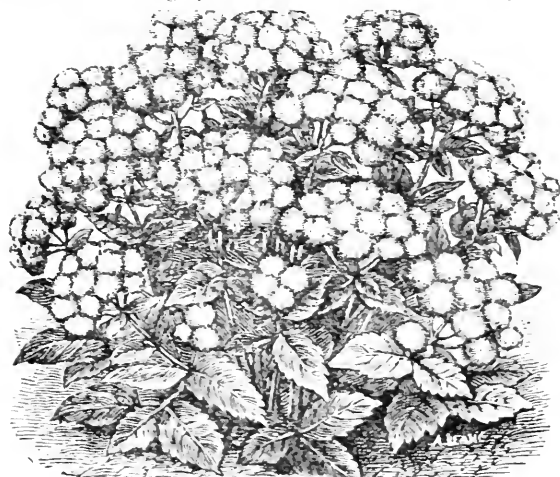

Sprengeri Asparagus

Australian Pea Vine—Fine Climber

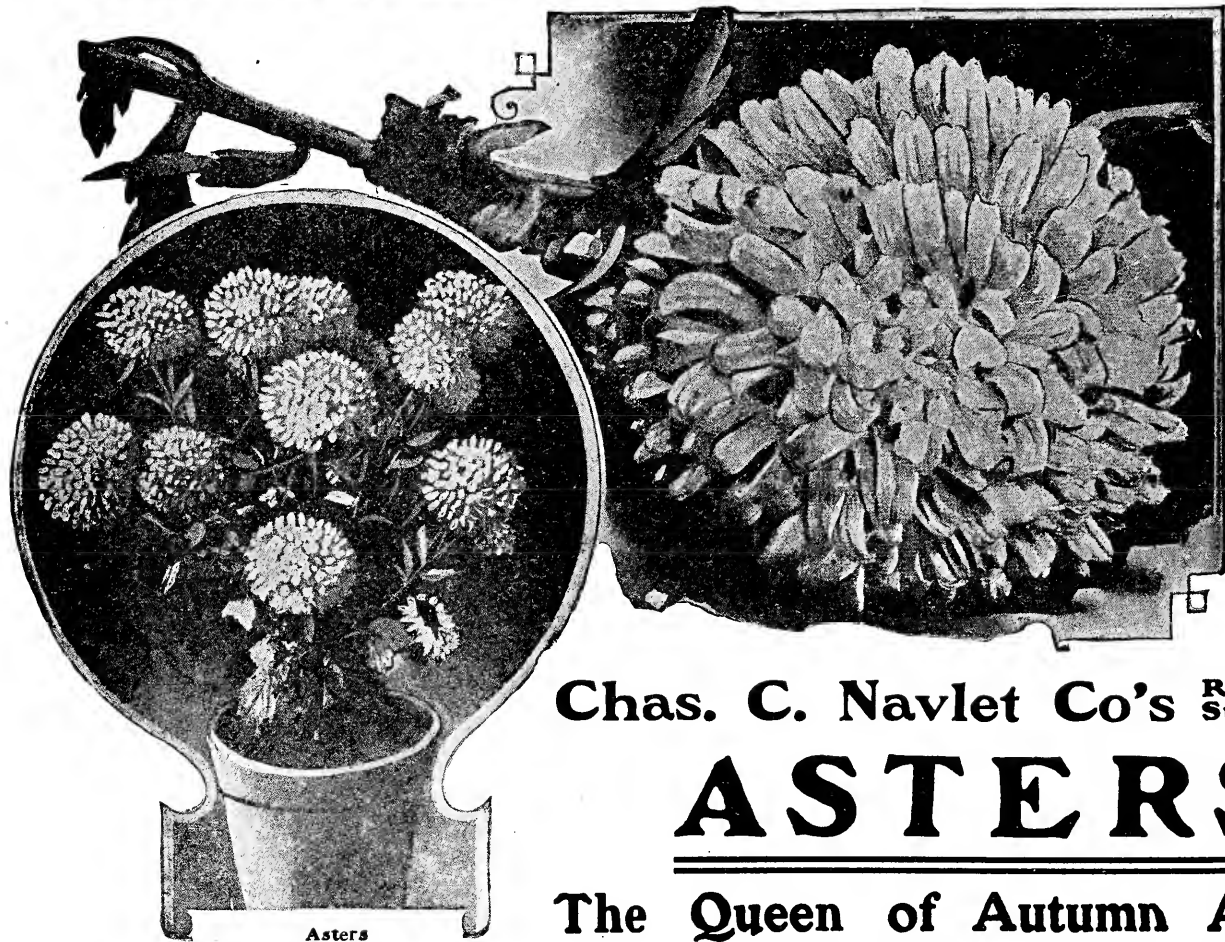

Very desirable for covering arbors, trellises and unsightly places. Flowers freely in large clusters of rose and purple blossoms. See the magnificent illustration in Climbing Plant and Vine Department. **Large packet 10c.** Plant from February to May or in September to October.

Australian Star Flower

A very attractive, everlasting or star-flower, introduced into America by Luther Burbank. It is a hardy annual, easily grown, and produces beautiful clusters of small, light-pink, star-shaped flowers. The dwarf plant is literally covered with these flowers and is most attractive, but the stems of the flower when dried are even more beautiful, and really bear out Mr. Burbank's description of them as a "fadeless flower." **Large packet 10c.** Plant from February to May.

Ageratum.

Asters

Chas. C. Navlet Co's Re-Selected Strains

ASTERS

The Queen of Autumn Annuals

The Aster is indispensable for the flower garden—fine as a show plant for fairs and exhibitions—and charming when grown in pots. It requires no skill to raise the finest flowers from the varieties offered below. No other plant makes such a magnificent display during the summer and fall months.

Giant Branching Comet Asters—It would seem as if the highest possible perfection has been attained in these truly grand Asters. They win enthusiastic admiration from all who see them. The flowers are of immense size—often six inches across—and composed of long, wavy, twisted petals, gracefully formed into loose, yet densely double half globes. The plants are of luxuriant growth, attaining a height of fifteen inches, and each plant bears from twenty to thirty magnificent flowers on long stems, which gives them an added value for cutting for vases.

Carmine—Large packet 10c. **White**—Large packet 10c. **Rose Pink**—Large packet 10c. **Lavender**—Large packet 10c.

Seiple's Branching Asters—A magnificent, strong-growing American strain. It forms broad, handsome bushes which are covered with large, long-stemmed and long-petaled flowers that are extremely graceful and feathery in effect.

White—Large packet 10c.
Cardinal—Large packet 10c.
Crimson—Large packet 10c.
Lavender—Large packet 10c.

Pink—Large packet 10c.
Rose—Large packet 10c.
Purple—Large packet 10c.
Mixed—Large packet 10c.

Truffant's Paeony Flowered Perfection Asters—A giant flowering type. Grows stiffly erect and about two feet tall. Remarkable for its immense, richly colored and very double Paeony-shaped flowers. Colors—White, Lilac, Crimson, Rose and Scarlet. **Mixed**—Large packet 10c.

Queen of the Market Aster—A new early Aster, of graceful spreading habit. Usually in full bloom three weeks before other sorts begin to flower. **Mixed**—Large packet 10c.

Dwarf Comet Aster—Of low, compact growth. Rich, heavy flowers with a wonderful depth and brilliancy of color. Especially valuable for garden beds and borders, but very desirable for pot culture. **Mixed**—Large packet 10c.

Boltze's Dwarf Bouquet Aster—An exceedingly dwarf variety, growing but three or four inches high, and containing a great variety of colors. **Mixed**—Large packet 10c.

Cocardeau or Crown Aster—A tall variety, grows from 14 to 16 inches high. Upright habit, with medium-sized blossoms. The center of the flower is usually white with a bright-colored outer edge. **Mixed**—Large packet 10c.

Hohenzollern Aster—A new variety of the Comet kind, with blossoms much larger than the old variety. The petals are very long, somewhat like some varieties of Chrysanthemums. Plants about 16 inches high. **Mixed**—Large packet 10c.

Ostrich Plume Aster—A medium tall variety of the comet type. Petals long, narrow and curly, and the effect of individual blossoms and branches is beautiful. **Mixed**—Per packet 10c.

Improved Victoria Aster—Magnificent flowers, massive and showy, with regular overlapping petals double clear to the center. The flowers measure four to five inches across, and the colors include many extremely delicate and some gorgeous shades. The plants grow very evenly, about eighteen inches high, and carry from twenty-five to forty flowers on a plant. **Mixed colors**—Large packet 10c.

Plant from February to May

Giant Comet Asters

Read the Bargain Offer—"A Complete Flower Garden"—On Page 7

We give 25c worth of seeds free for every dollar's worth of seeds if bought by the packet. \$1.25 worth for \$1.00.

The World's Best Flower Seeds

Double Balsams

Begonia—A Popular Plant

One of the most beautiful of all window plants, handsome in foliage and bearing great quantities of lovely flowers of wax-like texture and exquisitely soft, delicate shades. Seeds are very fine and need care in sowing, but the flowers repay all care given. Seedlings bloom in from five to eight months' time. **Tuberous-Rooted Begonias—Fine Single Mixed—Large packet 25c. Choice Double Varieties Mixed—Large packet 25c.**

New Vulcan Begonia—Best bedding variety. Produces beautiful violet-scarlet flowers and highly ornamental foliage. **Large packet 25c.** Plant Begonias from February to May.

Boston Ivy—Ampelopsis Veitchii

The finest hardy Climber. The young growth is a dark, purplish-green, changing in the fall to the brightest tints of scarlet, crimson and orange. **Large packet 10c.** Plant from February to May—or in September or October.

Browallia

A half hardy annual, making a fine bedding plant. Blooms profusely. The flowers are bright ultramarine blue, and also sky blue with white center. Will bloom freely all winter if seed is sown in August. **Large packet 5c.**

Byronopsis—Annual Climber

Grows to 10 feet in height, producing yellow flowers that are followed by green cherry-like fruits, which change to red marbled with white. **Large packet 5c.** Plant from March to June.

Cactus—Curious and Ornamental

The flowers—very showy and very handsome—are produced in wonderful variety. **Finest Mixed—from a large collection—Large packet 15c.** Plant from February to May—or from August to October.

Cactus

worth for \$1.00.

Calceolaria

A GORGEOUS PLANT

Especially fine for greenhouse and window decoration. The immense pocket-shaped flowers are uniquely spotted and blotched, and borne in the greatest profusion through spring and summer. **Mixed—choicest colors—Large packet 25c.** Plant from February to May—or from August to October.

Calendula

POT MARIGOLD

A fine, showy, free-flowering, hardy annual. It grows in any good garden soil, and produces a charming effect in beds or mixed borders. It is also valuable for pot culture, as it blooms freely in winter and early spring.

Cape Marigold—Easily grown and in continuous bloom until very late in autumn. Flowers are large, double and very showy. **Large packet 5c.**

Oriole—A large flowering variety. Produces very double flowers of an intense bright golden-yellow color. **Large packet 5c.** Plant from February to May—or from August to October.

Select \$1.00 worth of Flower Seeds by the packet and we will give you 25c worth extra free, or \$1.25

Baby's Breath

Gypsophila

Everyone who is fond of bouquets ought to grow this hardy annual. It produces long, mist-like sprays of tiny white flowers that are one of the finest things in the world for cut flower work. They soften all hard lines, tone down all glaring colors and give the finish to a bouquet that filmy lace does to a rich dress. It is easily grown, blooms early and succeeds in any garden soil. **Large packet 10c.** Plant from February to May—or from August to November.

Bachelor's Button

(Cornflower)

Flowers from our seed are extra fine and very bright in color. **Blue, Rose, White or Mixed—Large packet 5c.** Plant from February to May—or in September and October.

Balloon Vine, or Love-in-a-Puff

Climbing annual, with small, inferior flowers. The seed pods are curiously swelled or puffed, and are quite attractive. **Large packet 5c.** Plant from February to June.

Balsam, or Lady's Slipper

A tender annual, with brittle stems and foliage. Grows about 12 inches high. Flowers both single and double, in bright colors and variations, are wax-like and very attractive. The individual blossoms floating in a dish of water exhibit their beauty to the best advantage.

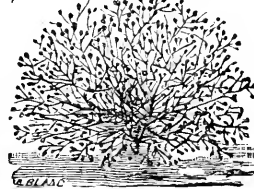

Salmon-pink—Large packet 10c. Scarlet—Large packet 5c. Light Yellow—Large packet 5c. Violet—Large packet 5c. White (Alba)—Large packet 5c. Perfection—Large packet 10c. Dwarf—Mixed Colors—Large packet 5c. Tall Mixed—Large packet 5c. Plant from February to May or September and October.

Bartonia Aurea

(Golden Bartonia)

A hardy annual, growing about two feet high and bearing golden-yellow flowers, which have a metallic luster when the sun shines on them. Is a native of California. Sow the seeds where the plants are to remain, since it does not transplant easily. **Large packet 5c.** Plant from February to May.

Baby's Breath

Scarlet Runner Beans

Scarlet Runners—A great favorite in England and Europe, not only as an ornamental climber, but for the delicious edible beans which succeed the bright scarlet sprays of pea-shaped blossoms. **Large packet 5c.** Plant from March to August.

Begonias

Chas. C. Navlet Co's Re-Selected Strains of Flower Seeds

Calliopsis—Large Flowering

One of the showiest and most easily grown of garden annuals. The plants form perfect little bushes about 10 inches high by 1 foot across, and are a perfect mass of bloom from early summer until cut down by frost. The flowers average nearly 2 inches across, and range through yellow, golden and crimson colors, usually with a garnet eye. **Choice Mixed—Large packet 10c.** Plant from February to May—or from August to October. Seeds should be soaked in water for several hours before planting.

Canary Bird Vine—Annual Climber

A dainty vine with beautiful cut leaves and pretty, delicate flowers of a clear canary yellow. From the color of its blossoms and also from a fancied resemblance of their shape to a bird with wings expanded, the plant obtains its common name. A pretty vine for the window. **Large packet 10c.** Plant from February to May.

Candytuft—A Good Old Annual

Candytuft has been a garden favorite for more than three hundred years. It is of the easiest culture and flowers profusely throughout the entire season. It is a fine edging plant and good for cutting. **Pure White—Large packet 5c. Crimson—Large packet 10c. Royal Purple—Large packet 5c. Giant Mixed—Large packet 10c. Dwarf Mixed—Large packet 5c.** Plant from August to November or February to June.

Canna—Wondrously Beautiful

THE CANNA is known as the King of Bedding Plants, and it richly deserves the title. It also makes a very ornamental screen or hedge, and is very valuable for placing along fences, walls, driveways and porches. The dazzlingly brilliant flowers—produced in every imaginable color except blue—are either plain, dappled, edged, striped or variegated, and the green or bronze foliage is often striped like that of some rare tropical plant. Begins to bloom by the end of June and never stops till frost. **Choicest varieties—Large packet 5c.** Plant from February to June.

Catchfly—A Hardy Annual

Yields for a long time a profusion of umbels of bright hued flowers. Plant is covered with a glutinous moisture, to which flies adhere. Hence its name. **Choice colors—Large packet 5c.** Plant from February to March—or from August to October.

Carnation

Extra Choice Double Flowering—Mixed—Large packet 25c. Plant from February to May—or from August to November.

Castor Bean—A Stately Plant

Produces beautiful bronze or glossy green foliage. By planting either singly or in groups a striking effect is produced on lawns and pleasure grounds. **Assorted colors—Large packet 10c.** Plant from March to June.

Celosia—Picturesque Annual

The old Cockscomb of our mother's garden, but vastly improved of late years. Its huge combs—from six inches to more than a foot across—are of the most fiery, gorgeous hues. Fine for late summer, and largely used by the best parks for autumn bedding. Also splendid for pot culture. Plant from March to June.

Ostrich Plume—A new Celosia which bears feathery plumes of bloom, more like ostrich feathers or Pampas Grass than anything else. These magnificent plumes are one to two feet in length, and of all colors from sulphur-yellow to deep rich crimson, rose pink, scarlet, yellow and orange. A plant in bloom is one of the very brightest and showiest of garden ornaments. **Large packet 10c.**

Fire-Feathered—Plant grows three feet high and the main stem puts forth thirty to thirty-five branches, crowned with feathery flower heads of an intense scarlet color. **Large packet 10c.**

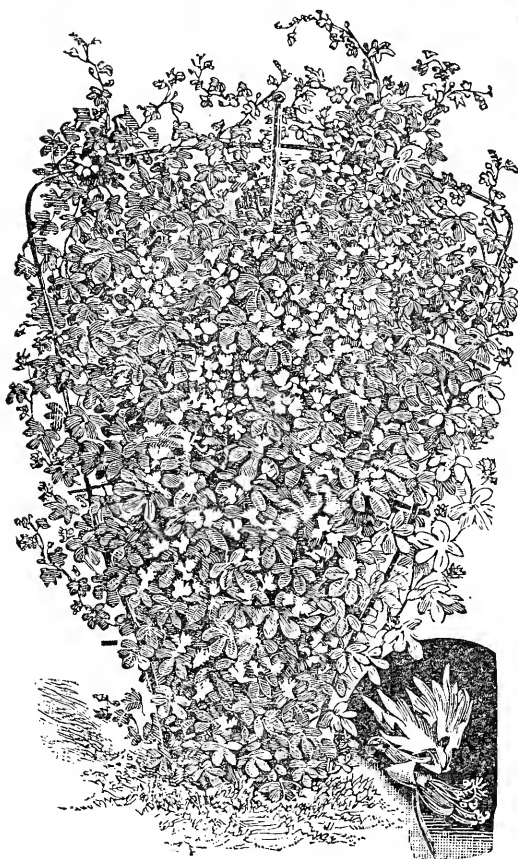

Glasgow Prize—Immense, showy dark crimson combs. **Large packet 10c.**

Variegata—Variegated and striped with crimson, orange and green in the most brilliant hues. **Large packet 10c.**

Centaureas Imperialis or Sweet Sultans

Imperialis—Hardy annual. For an early garden flower nothing surpasses this superb new Cantaurca. Each plant produces scores of exceedingly graceful flowers, which are borne on long, wiry stems. The flowers—2 to 3 inches in diameter—are of the most exquisite texture and delightful fragrance, and will keep in good condition for several days. For cutting—for vases—and for corsage wear there is no finer flower. The plant grows as luxuriously as a weed, and in any situation. **Pure White—Large packet 10c. Deep Lavender—Large packet 10c. Brilliant Rose—Large packet 10c. Mixed Colors—Large packet 10c. Yellow—A novelty.** **Large packet 15c.** Plant from February to May.

Candidissima—Dusty Miller. Silvery leaved. Entire plant silvery-white. Leaves much divided. Purple flowers. Fine for bedding, vases, hanging baskets and pots. Hardy annual. **Large Packet 10c.** Plant from February to May.

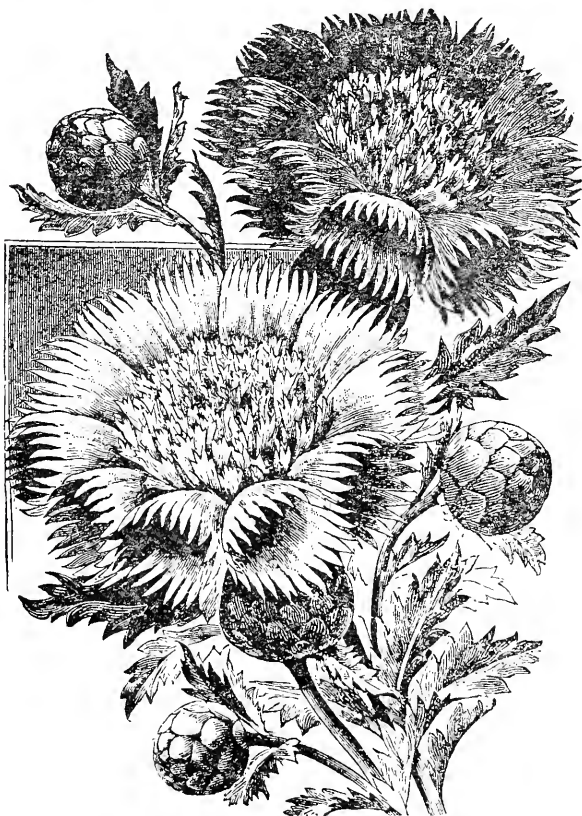

Canary Bird Vine

Candytuft

Canterbury Bells—Campanula

This is unquestionably the finest type of this old-fashioned and much prized garden plant. It differs from the ordinary type in having an extra large calyx, which is of the same color as the flower giving the appearance of a cup and saucer. Effective either in the garden or grown in pots for conservatory or table decoration. Perennial. The increasing demand has induced us to offer the strain in separate colors as well as in mixture. **White, Blue, Purple or Mixed—Large packet 5c.** Plant from February to May—or from August to November.

Centaureas Imperialis

[The] World's Best

Flower Seeds

Cineraria—Tender Perennial

Fine for the conservatory and summer garden. The rich and vivid colors of the blossoms range through all the shades of blue, purple, crimson and pink. Most of the varieties have a well-defined white eye. **Mixed—Large packet 25c.** Plant from February to May.

Clematis Paniculata—Hardy Climber

A clean, thrifty, robust growing vine of graceful habit. It produces attractive glossy green foliage, and is covered in August and September—when nearly all other vines have ceased blooming—with a sheet of clustered snow-white flowers of the most delicious fragrance. No other vine so completely covers itself with blossoms. An arbor or portico over which one of these vines is trained is literally a wall of white during the flowering season. **Large packet 10c.** Plant from February to May—or from August to November.

Cobea Scandens Elegant Rapid-Growing Climber

Attains a height of 20 to 30 feet in a single season. A prolific bloomer—the flowers being large and bell-shaped. **Blue—Large packet 10c.** **White—Large packet 10c.** **Mixed—Large packet 10c.** Plant from February to May.

Coleus—A Beautiful Foliage Plant

The leaves—which often measure ten inches in length and eight inches in width—are heart-shaped and handsomely crimped, toothed and frilled. The color combinations are remarkably rich and include all the reds, metallic greens and yellows. One of the easiest plants to grow from seed. **Large packet—assorted—25c.** Plant from February to May—or from July to November.

Clematis Paniculata

Coreopsis—"California Sunbeams"

Hardy perennial. A very attractive plant. Flowers are about three inches in diameter and in some of them the petals are broad with plain, round edges—in others they are toothed and fringed. They vary in color from light pale yellow to orange yellow, some being darker around the eye. **Large packet 10c.** Plant from February to May—or from August to October.

Cosmos—The Glory of Autumn

A grand fall flower—the only rival to the Dahlia and Chrysanthemum. Sow seed early in the spring and plants will bloom from July to November. The feathery dark green foliage forms a charming setting for the hundreds of graceful, daisy-like flowers that make each plant like a huge bouquet. The pure white, soft pink and deep crimson shades are exquisite, and for cutting or wearing they have no superior. Plant from February to May.

Early Dawn—Dwarf. More bushy than other varieties and grows only about three feet. The flowers are large, pure white with a tinge of rose. The petals are broad, which causes the flowers to appear round. Commences to bloom in July. **Large packet 10c.**

New Early Blooming—This early flowering strain will produce blooms from July to November. Flowers are white, pink, crimson or rose purple. **Finest Mixed—Large packet 10c.**

Mammoth Perfection—Very large and perfectly round flowers. The foliage is one mass of feathery emerald green. **Pure White—Large packet 10c.**

Pink—Large packet 10c. **Red—Large packet 10c.**

Mixed—Large packet 10c.

Cypress Vine—Annual Climber

One of the prettiest vines imaginable. Fine for training to small trellises or to run up poles or strings. **Mixed Colors—Large packet 5c.** Plant from February to May.

Cosmos

Dahlia—An Ornamental Favorite

Anyone who can raise a Zinnia or a Morning Glory can grow Dahlias from seed. They are remarkably easy to germinate, and from the very seed leaf the plants are stocky and sturdy. Seed sown in the house in February or March will produce flowering plants the following summer. Some of the finest, largest Dahlias, and the richest colors we have ever seen, were among seedlings. Give good soil and never let the plants suffer for water. Out of a large paper of seed no two plants will be alike in flower, while there will be every color represented, from snow-white to blackish maroon. Don't transplant until all danger from frost is over.

Single Varieties
Mixed—Very large flowers in a rainbow variety of colors. **Large packet 10c.**

Double Varieties
Mixed—Will produce large flowered varieties of great beauty. **Large packet 10c.**

Imperial Cactus—Will produce large, double fantastic flowers in very brilliant colors. **Large packet 10c.** Plant from February to May.

If you buy \$1.00 worth of seed by the packet we will allow you 25c worth extra, free, or \$1.25 worth for \$1.00.

Dahlias from Seed

Coleus

Chas. C. Navlet Co's Re-Selected Strains of Flower Seeds

Delphinium

Fine border plants, that are always in flower. They bloom quickly from seed, and are extra good for cutting. They also make fine plants for winter blooming in pots. Flowers large and double like roses, and very profusely borne at all times of the year. Habit dwarf and compact. Hardy perennial.

Aureum—Golden Feather.

A beautiful gold-leaved bedding variety. Used largely for ribboning. Large packet 10c.

Roseum Hybrida Grandiflorum—Very showy and ornamental. Grows erect and strong. Foliage is fine and feathery and the flowers—four inches in diameter—are a most beautiful combination of pink and carmine. Large packet 25c.

Pyrethrum Atrosanguineum—Elegant foliage. Rich deep red flowers. Large packet 10c. Plant from February to May and August to September.

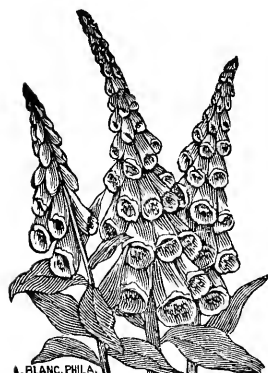

Forget-Me-Not—Myosotis

This pretty plant will bloom in eight weeks after sowing, and will bring forth its lovely blossoms throughout the whole summer and fall and continue through the winter if taken up and potted.

The small star-like flowers are borne in clusters on long, stout stems. Forget-me-nots will, like other plants, respond to good treatment, but they succeed best with moisture and a somewhat shaded position. Hardy perennial. Light blue or white—Large packet 10c. Assorted Colors—Large packet 10c. Plant from February to May—or from August to September.

Four O'Clock—Marvel of Peru

The funnel-shaped flowers are white, red, yellow or striped with these colors. They open about four o'clock in the afternoon, remain open all night, and generally perish before noon the next day. The abundance of new flowers produced daily affords a constant succession of fine bloom. The French call it Belle de Nuit, "Beauty of Night." Hardy annual. Choicest Mixed—Large packet 5c. Plant from February to May.

A. BLANC, PHILA.
Foxglove

Foxglove—or Digitalis

Hardy perennial. One of our special favorites. This, with the double Hollyhock and the Delphinium, form a stately trio of tall growing plants, of which nothing finer can be chosen for back-grounds, center of wide borders or interspersing with shrubbery. If plants are not allowed to seed they are crowned for months by long pyramidal spikes of lovely pendant thimble-shaped bells in snow white, rosy blush or exquisitely shaded or spotted. The blooms are nearly or quite two inches in length, and lap each other with utmost regularity. Choicest Colors Mixed—Large packet 5c. Plant from February to May or August to October.

Gaillardia

Gaillardia—Blanket Flower

Splendid showy annuals. Remarkable for the profusion, size and brilliancy of their flowers. In bloom from early summer until November. Excellent for beds and borders or for cutting. Plant from February to May—or from August to November. Single Varieties—Packet 5c. Double Varieties—Large packet 10c.

Grandiflora Superba—Annual. This is aptly called the Chrysanthemum Gaillardia. The flowers—enormous in size and perfectly double—are borne in great profusion all summer, and the colorings and variegations are the most brilliant and beautiful imaginable. As a pot plant it is also fine. Large packet 15c.

Daisy—The Poet's Favorite

Plants will bloom first summer and will continue to flower for years if given slight protection during the winter. They are very pretty when in bloom, and deserve to be grown much more than they are. They commence blooming in April and continue to bloom until summer. They are not very particular as to soil, but should be grown where they have partial shade.

Snowball—A very large and double pure white daisy. The flowers—borne on long, stiff stems—are excellent for cutting. The best double white daisy. Perennial. Large packet 10c.

Longfellow—Very large double dark rose flowers. Long and stiff stems. Perennial. Large packet 10c.

Double Daisies in Best Mixture—Including Snowball and Longfellow. Large packet 10c. Plant Daisies from February to May.

Datura—Horn of Plenty

A majestic and easily grown garden plant, with a very tropical appearance. The flowers are trumpet shaped, very large, very showy, very sweetly perfumed, and produced in abundance. Tender annual. Choicest Colors Mixed, including white, golden-yellow and purple. Large packet 10c. Plant from February to May.

Delphinium—Hardy Larkspur

One of the choicest perennials known—a plant that increases in beauty each year. Tall, stately growing, with immense spikes of brilliant flowers that can be seen from a long distance. Sow seed in autumn or very early in spring, and plants will very often bloom the first summer. Very hardy.

Tall Rocket—Mixed Colors. Large packet 5c.

Emperor Larkspur—Brilliant rose and white flowers. Mixed—Large packet 10c.

Cardinal—A true scarlet Larkspur. Produces its showy bright flowers in great abundance. Large packet 15c.

Zalil—A lovely shade of sulphur-yellow. Large packet 10c.

Grandiflora—Finest double flowers—great variety of charming colors. Mixed—Large packet 15c.

Dwarf Rocket—Finest Mixed. Large packet 5c.

Formosum—Beautiful spikes of large blue flowers with white centers. Large packet 5c. Plant from February to May—or from August to October.

A. BLANC
Daisy

Garden Pink—or Dianthus

An indispensable garden plant. A flower fitted equally to adorn the poor man's garden or the spacious grounds of the millionaire. Never out of place in any situation. Succeeds in any soil. Stands neglect, heat and cold, and is as near iron-clad as a plant can be.

Like its near relative—the Carnation—The Dianthus is superlatively beautiful, many varieties possessing a radiant-like fire that is impossible to describe. A grand flower for cutting or flower work and succeeds well in pots for winter bloom if treated like Carnations. Sow early either in house or open ground, and plant will not only bloom all summer and fall, but will survive the winter and bloom the next season. Never sow any but the best seed of Dianthus, if you would have the choicest flowers. Hardy annual.

Chinensis—Double Chinese Pink—The flowers are produced in clusters and in great variety of colors. Large packet 5c.

Laciniatus—Double fringed and striped Japanese Pink. Finest Colors Mixed—Large packet 10c.

Dwarf Diadematus—or Diadem Pink. Flowers are double and magnificently colored. Mixed—Choicest Colors—Large packet 10c. Plant from February to May—or from August to October.

Double Fringed Garden Pink (Dianthus)

Chas. C. Navlet Co's Re-Selected Strains Flower Seeds

Godetia—Hardy Annual

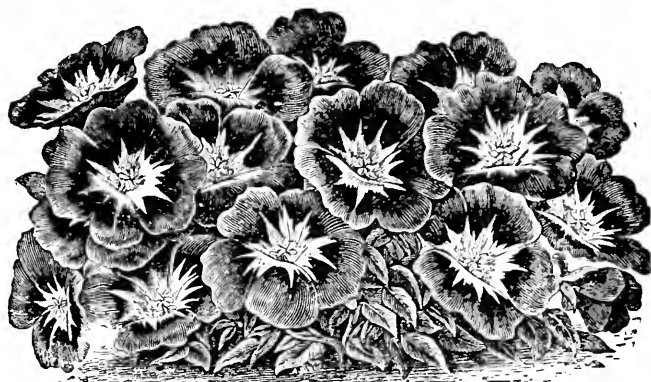

A handsome plant, and particularly useful because it will grow in shady places where so few really fine flowers can be grown. It blooms for a long time and so profusely that the foliage is almost hidden by the large, open-wide flowers of shiny, satiny texture and most delicate and lovely colors. **Finest Colors Mixed—Large packet 10c.** Plant from February to May—or from August to October.

Golden Rod

Solidago Canadensis—Our national flower. The well known yellow favorite. Plant from February to May. **Large packet 5c.**

Gourds—Curious and Ornamental

These well-known climbers producing the most fantastic and grotesque fruit imaginable. Fine for covering sheds, training over fences or brush piles, and always sure to attract attention of the children, who love to play with the pretty striped and oddly crooked fruits. Keep perfect for years. **Mixed Sorts—All sizes, shapes and colors.—Large packet 10c.** Plant from April to June.

Godetias

Helichrysum—Everlasting Flowers

A free flowering, hardy annual, growing four to five feet high and bearing beautiful straw-like flowers in a great variety of shades and colors. The stems are long and the blossoms large. It is the best and most satisfactory of the everlasting flowers and makes a very handsome dried bouquet. **Mixed—Large packet 5c.** Plant from February to May.

Heliotrope—Half-Hardy Perennial

The small flowers—borne in graceful clusters—are very fragrant. Forms a large plant, and requires a roomy situation. **King of the Blacks.**—Dwarf purple, almost black—**Large packet 10c.** **Queen Marguerite.**—Purple blue—**Large packet 10c.** **White Lady.**—Pure white—**Large packet 10c.** **Finest Mixed—Large packet 10c.** Plant from February to May.

Hollyhock—Superb Perennial

Hollyhocks are like good friends—the longer you know them the better you like them. The stately, imposing plants are unsurpassed for backgrounds, screens, center of wide borders, etc. They grow from four to six feet high and bear pyramid spikes of large, rosette-like flowers of every shade and color, from pure white to almost black. The yellow, magenta, rose and black are intensely pure and deep, while the white, pale lemon, soft pink and lavender shades are exquisitely soft and delicate. The pearly blooms of the white Hollyhock are as fine for all floral work as the best double Rose or Camelia. If seeds are started very early, the plants often bloom by fall. **Choicest Mixed—Large packet 10c.** Plant from February to May—or from August to October.

Honeysuckle, or Columbine

Hardy Climber. One of the best plants for rockwork, or growing under trees. **Choicest Mixed—Large packet 10c.** Plant from February to May—or in September and October.

Hop Vine

Japanese—This hardy vine is not a new plant, but it is not as largely planted as its merit deserves. It is one of the most rapid growing vines known. It is also very ornamental—the foliage being very dense and a beautiful bright lively green in color. **Large packet 10c.** Plant from February to May.

Variegated Hop—An annual Japanese Hop that grows with wonderful quickness and vigor. Very ornamental. The leaves are beautifully marbled and splashed with silvery white, light and dark green. As with the green-leaved variety, it is never injured by insects or affected by heat. **Large packet 10c.** Plant from February to May.

Hyacinth Bean—Climber

Tender annual. The handsome purple or white flowers—produced in clusters—are followed by ornamental seed pods. **Choice Mixed—Large packet 10c.** Plant from February to June.

Kudzu Vine

To this must be awarded first place as the fastest-growing hardy climbing plant. It will grow 8 to 10 feet the first year from seed, and after it becomes established there seems to be no limit to its growth, 50 feet in a single season being not unusual. Its foliage is large and covers well; it bears small racemes of rosy-purple, pea-shaped blossoms towards the close of August. A splendid subject for covering permanently verandas, dead trees, etc. **Packet 10c.** Plant February to May.

Lantana—A Tender Perennial

Seed will produce fine flowering plants in **two or three months** and the plants will continue to flower most profusely all summer and fall in the garden and all the year round in pots. Habit, dwarf, compact, and bushy, loaded down with bright blossoms all the time. Colors white, crimson, orange, yellow, rose and pink. Very easily grown in any soil, climate or situation. **Mixed—Large packet 10c.** Plant from February to May, or from August to October.

Lantana

Larkspur—Well-Known Annual

Noted for its great beauty and rich colors of its flowers. Grows from one and a half to two feet high. **Dwarf Rocket—Mixed Colors—Large packet 5c.** **Emperor—Double flowers—Mixed Colors—Large packet 5c.** **Single Varities—Large packet 5c.** Plant from February to May or from August to October.

Chas. C. Navlet Co's Re-Selected Strains of Flower Seeds

Lavender—Aromatic Medicinal Herb

Bears pretty spikes of pale blue flowers that yield, when dried, a delightful perfume. Large packet 5c. Plant from February to May, or from August to October.

Lobelia—A Quick-Growing Plant

Charming little plants that bloom very quickly from seed and continue gay with flowers all through the season. For beds, edgings, baskets and pots there is nothing prettier. Liquid manure given while they are in bloom greatly improve the flowers. Hardy perennials. Plant from February to May.

Prima Donna—Large, velvety crimson or maroon flowers. Large packet 10c.

White Gem—Forms a perfect ball of snow-white flowers. Large packet 10c.

Golden Queen—Makes a striking contrast with its bright, golden-yellow leaves and brilliant red flowers. Large packet 15c.

Crystal Palace Compacts—Very dwarf, blue flowers. Large packet 10c.

Gracilis—Great Spreader—Grand for baskets. Blue flowers. Large packet 10c.

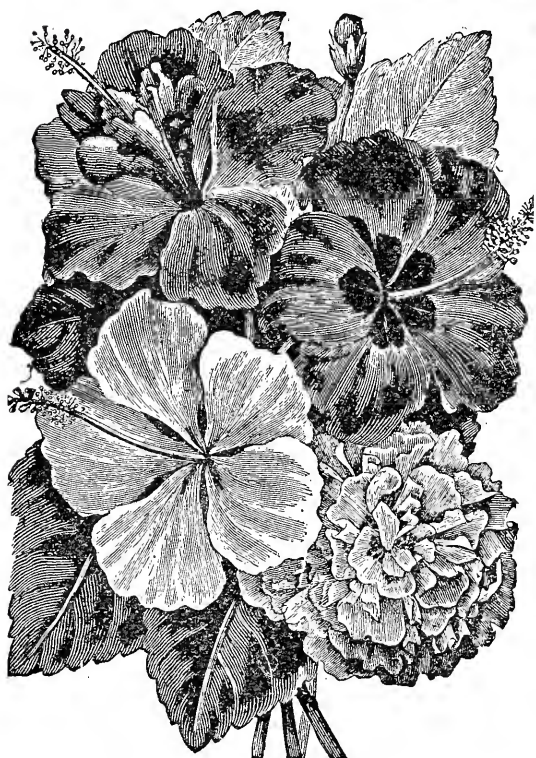

Choice Mixed Colors—Large packet 10c. Plant from February to May.

Lupin—Conspicuously Ornamental

Hardy annual. Produces long and exceedingly beautiful spikes of variously colored pea-shaped flowers. Very valuable for mixed flower borders and beds. Of the easiest culture. **Mixed Colors**—Large packet 5c. Plant from August to November—or from February to May.

Mallows—Hibiscus Hybridus

A fast-growing perennial that in one season attains the height and dimensions of a shrub. Exceedingly fine for clumps or to produce an ornamental hedge or screen. The enormous flowers—as large as tea saucers—come in white, blush, pale and deep pink rose and other colors, and are borne for weeks. Most of the flowers have a deeper-hued eye. Spring-sown seed will bloom in September. Large packet 5c. Plant from February to May.

Mallows

Mandeville Suaveolens

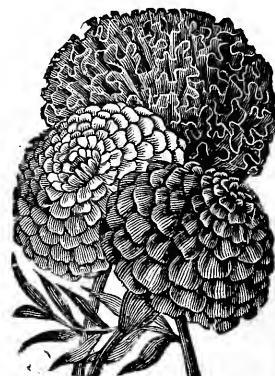

Fine summer climbers with great clusters of large, waxy star-shaped yellow blossoms, exquisitely fragrant, resembling the single tuberose in shape. Large packet 10c. Plant from February to May.

Marguerite—Painted Daisy

A fine perennial of great beauty and usefulness. Of easy culture. It succeeds in almost any kind of soil, and is a great favorite wherever grown. The large double and semi-double flowers are star-shaped, and the foliage is beautifully cut. Large packet 10c. Plant from February to May.

Marguerite Carnations

The Beautiful Marguerite—The most abundant bloomer of all Carnations. It is in blossom throughout the year, and the calyx never bursts. The plant is of dwarf, compact and pretty habit, branching closely above the ground and producing vigorous stalks that need not be supported by sticks. It grows easily everywhere—both in sandy soil and heavy loam—and the blossoms begin to appear in from three to four months after sowing the seeds. The large and perfect flowers are of various colors—white, pink, scarlet, purple, red striped, flaked, and variegated. Thrives equally well in pots or gardens. Ours is the prize strain of California seeds. **Choice Mixed Colors**—Large packet 10c. Plant from August to November—or from February to May.

Marigold

Marigold—Dwarf and Taller Sorts

Petted by our grandmothers and neglected by our mothers, this hardy annual is now once more on the top crest of popularity. It needs only the slightest care to do well, and its showy flowers will light the garden with a bright glitter of yellow far into the frosts of autumn. Plant from February to May or August to November.

El Dorado—Flowers are very large and double. The colors run through all the shades of yellow. Large packet 10c.

Legion of Honor—or Little Brownie. The handsomest of all dwarf Marigolds. Flowers are golden yellow marked with large blotches of velvety brown. Large packet 5c.

Pride of the Garden—Immense flowers—densely double. Color, golden yellow. Dwarf habit, forming dense bushes. Large packet 10c.

Maurandia—Giant Flowering

Beautiful climber for either garden or greenhouse decoration and for hanging baskets; gemmed with Gloxinia-shaped flowers of rich purple, white and rose, fully double the size of the older, well known sorts. **Mixed**—Large packet 10c. Plant from February to May.

Mina Lobata—Half Hardy Annual

A charming Mexican Climber, with tube-shaped flowers, produced in the greatest profusion. In color they are particularly attractive, the buds being first of a bright red, but changing through orange-yellow to creamy-white when fully expanded. The foliage is very handsome, dense and luxuriant. Of vigorous growth. Attains a height of 12 feet. Large packet 10c. Plant from February to May.

Marguerite Carnations

Chas. C. Navlet Co's Re-Selected Flower Seeds

Mignonette—The Sweet Favorite

Mignonette—A Hardy Annual

Mignonette is the French word for "Little Darling." No more expressive words could be well found for the sweet, homely flower that by its merits alone has won its way as the favorite of all. No garden is complete without its plot of Mignonette—no nosegay finished without its sprig of this sweet-smelling flower. We pride ourselves on our choice strains of this popular flower, and know that no finer seed can be procured anywhere. Sow early in the ground for summer blooming, and in pots any time for the window.

Allen's Defiance—Spikes from twelve to fifteen inches long. Spikes have been kept three weeks after cutting, retaining their fragrance and grace. **Large packet 10c.**

Golden Machet—Plants are of strong, compact habit, bearing long, massive spikes of golden-yellow blossoms. **Large packet 10c.**

Pure Machet—Well adapted for pot culture. Dwarf pyramidal growth, bearing numerous flower stalks. Highly colored and very fragrant. **Large packet 10c.**

Giant Pyramidal—A mammoth variety. Large, full spikes. **Large packet 5c.**

Common Sweet or Reseda—One of the most popular varieties. Very attractive and exceedingly sweet. **Large packet 5c.** Plant from August to November or February to May.

Monkey Flower—Mimulus Tigrinis

A hardy, handsome perennial. Produces large, brilliantly hued flowers that are spotted or striped in many odd ways. Thrives best in rather moist situations. If sown early will bloom the first year. **Assorted Colors—Large packet 10c.** Plant from February to May.

Moonflower—Tender Annual Climber

This is the most popular, quick-growing vine in cultivation. Its rapid, luxuriant growth—its thick, overlapping, glossy foliage—and its nightly scores of impenes silky blooms of rare fragrance, are merits that cannot be overestimated. By actual count a strong vine will bear from one to three thousand of its superb flowers in a season. Very fine for piazzas.

Ipomea Grandiflora—Showy and very fragrant, waxy-white flowers—6 inches in diameter. **Large packet 10c.**

Ipomea Heavenly Blue. Immense flowers—a beautiful sky blue in color. **Large packet 10c.** Plant from February to May.

Morning Glory—Hardy Annual

The Morning Glory is as lovely now as when it was the pet of our grandmothers. Give the dear old vine a place. It is well worth it. Plant from February to May.

Giant Imperial Japanese—The flowers—of exquisite beauty and enormous size—range in color from pure white to rose crimson and carmine through blues and purples to almost black—some being mottled, striped, penciled and bordered in enchanting ways. The foliage is also often richly marbled and variegated. **Large packet 10c.**

Tall Morning Glory—Produces an abundance of foliage and gay blossoms. **Mixed**—An almost endless variety of colors—**Large packet 5c.**

Dwarf Morning Glory—Flowers are about two-thirds the size of other varieties and remain open all day, if pleasant. **Large packet 5c.** Plant from February to May.

Mourning Bride, or Scabiosa

One of the finest bouquet flowers in our entire list. Also fine for masses and clumps in the flower garden. Each flower bears a profusion of rich, velvety, glowing flowers of bewitching beauty. Hardy annual. **Mixed—Large packet 5c.** Plant from February to May—or from August to November.

Musk Plant, or Moschatus

Fragrant plant, with small yellow blossoms, spotted lightly with brown. **Large packet 5c.** Plant from February to May.

Nigella—Love in a Mist

Hardy annual. Showy in foliage, flowers and seed pods. The singular appearing flowers are surrounded and partially hidden by a delicate wreath of needle-like fibers. **Assorted Varieties—Large packet 5c.** Plant from February to May.

Oxalis

Small Free-Flowering Plant

Half hardy perennial. Produces brightly colored clover-like leaves, and is thickly starred with small flowers. Suitable for greenhouse, rock-work or out-door culture. **Alba**—White flowers—**Large packet 10c.** **Rosea**—Rose-colored flowers—**Large packet 10c.** **Tropaeoloides**—Deep yellow flowers—**Large packet 10c.** Plant from February to May.

Pampas Grass—Erianthus Ravenna

The exquisite blooms resemble the Pampas. Flowers the first season if sown early. **Large packet 5c.** Plant from February to May.

Morning Glory

Bargain Offer No. 9—A Complete Flower Garden will be Found on Page 7—Be Sure to Read it.

Chas. C. Navlet Co's Re-Selected Strains of Nasturtium Seed Giant Flowering Dwarf Nasturtiums

These Grand Bedding Nasturtiums have been developed through years of careful hybridization, culture and selection under conditions thoroughly congenial to the highest development of this popular garden annual. Not only have the flowers increased wonderfully in size, often measuring 3 inches across, but a great variety of new and charming combinations of colors have been produced, while the brilliancy and velvety richness of the self-colored sorts have been greatly enhanced. For summer flower beds nothing can surpass them.

Giant Flowering Nasturtiums

King Theodore—Rich, red flowers—dark bluish foliage. Packet 5c—ounce 15c, quarter pound 45c.

King of Tom Thumbs—Glowing scarlet flowers—dark green foliage. Packet 5c—ounce 10c, quarter pound 30c.

Aurora—Rich deep yellow flowers, veined with purplish-carmine. Packet 5c—ounce 10c, quarter pound 30c.

Cloth of Gold—Brilliant scarlet flowers—bright golden-yellow foliage. Packet 5c—ounce 10c, quarter pound 30c.

Crystal Palace Gem—Rich sulphur-yellow flowers, spotted with carmine. Packet 5c—ounce 10c, quarter pound 30c.

Scarlet—Beautiful bright red flowers—attractive foliage. Packet 5c—ounce 10c, quarter pound 30c.

Golden King—Golden-yellow flowers—rich dark foliage. Packet 5c—ounce 15c, quarter pound 45c.

Vesuvius—Salmon-rose flowers—rich dark leaves. Packet 5c—ounce 15c, quarter pound 45c.

Pearl—Light lemon-yellow flowers, fading to a faint primrose. Packet 5c—ounce 10c, quarter pound 30c.

Empress of India—Deep Crimson flowers—purplish-green foliage. Packet 5c—ounce 15c, quarter pound 45c.

Mixed—From the above varieties. Packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Hybrids of Madam Gunther

For richness and variety of colors these Hybrids have no equal among Nasturtiums. They grow from five to six feet, and are covered with large and brilliant sweet-scented flowers all summer and autumn. The colors are very beautiful and include many different shades of white, rose, pink, salmon, purple, maroon, golden-yellow and deep orange, as well as the most fanciful striped, mottled and variegated combinations. Large packets 5c each—ounce 15c, quarter pound 45c—postpaid.

Giant Flowering Tall Nasturtiums

The climbing Nasturtiums are ideal ramblers, and when pegged down to the ground make a very gorgeous bed. They grow to a considerable height, but will need some attention in the way of tying, as they do not readily adhere to support, being natural ramblers.

In flower they are showy and profuse and their foliage is always clean and refreshing.

Jupiter—New California strain. One of the most beautiful Nasturtiums ever originated. The rich golden-yellow flowers measure from $3\frac{1}{4}$ to $3\frac{1}{2}$ inches. The petals are large, overlapping and exquisitely crinkled like crepe. A fine climber and a great bloomer. Packet 5c, ounce 20c, quarter pound 60c.

King Theodore—Deep red flowers. Packet 5c—ounce 15c, quarter pound 45c.

Pearl—Light lemon—nearly white. Packet 5c—ounce 10c, quarter pound 30c.

Edward Otto—Brownish-lilac flowers. Packet 5c—ounce 15c, quarter pound 45c.

Dunnett's Orange—Bright orange flowers. Packet 5c—ounce 15c, quarter pound 45c.

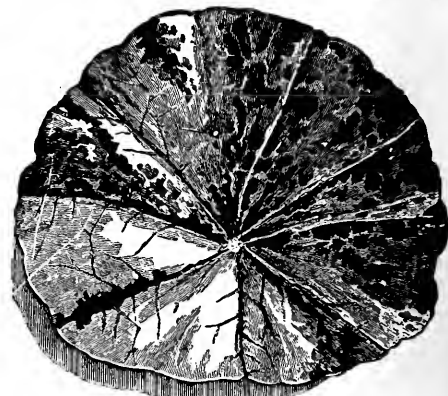

Regelianum—Violet-Crimson flowers. Packet 5c—ounce 20c, quarter pound 60c.

Mixed—From above varieties. Packet 5c—ounce 10c, quarter pound 30c, pound \$1.00.

Variegated Nasturtium

A TALL OR CLIMBING VARIETY

The leaves of this new Nasturtium are beautifully variegated with yellow, white and green, rendering it very ornamental even when not in flower. When in bloom the effect is doubly enhanced. It is a superb plant for garden culture. The flowers are a rich scarlet-maroon in color, being deepest in color at base of petals. Comes entirely true from seed. Large packet 10c—ounce 35c.

Variegated Leaf Nasturtiums

Plant Nasturtiums on Thin Soil, from February to May

Turn to Pages 6, 7, 8, 9, 10, 11 and 12, and you will note some surprising offers

The Cream of The World's Best Pansy Seed

Imported From The Most Noted German Pansy Specialists

The Pansy is everywhere and with everybody a very popular flower. Its modest and innate sweetness endears it in the heart of young and old alike. It gives an abundance of bloom until after severe frosts, endures hard winters with safety, and greets us in the early spring with a profusion of bright blossoms. Pansy seed may be sown in the hotbed or open ground. If sown in the spring, get it in as early as possible, so as to secure flowers during the early rains. Seed sown in a cool place in May or June, and well watered until up, will produce fall-flowering plants. To have good flowers, the plants must be vigorous, and make a rapid growth, as they will in rich, moist loam. Young plants give the largest flowers. The old, worn-out plants should be replaced. If the plants come into bloom in the heat of summer, the flowers will be small at first, but as the weather becomes cooler they will increase in size and beauty. They will flower better in mid-summer if planted where it is somewhat shaded from the hot sun, and especially if furnished with a good supply of water. But in almost any situation will give fine flowers in the spring and autumn.

Chas. C. Navlet Co's Giant Ruffled Pansy Seed Large Packet 50c, Postpaid

A remarkable strain of Giant Pansies, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and fluted from center to circumference, not unlike "frilled" velvet. The unusual substance of the flowers, aided by these corrugations, thus enables them to present bold, open and handsome faces, even during windy or dry summer weather, when other Pansy flowers flop or wilt. The flowers are extraordinarily large, and are borne on strong stems, well about the foliage, and contain rich combinations of coloring, including some new tints and blendings not met with in other Pansies. The plants are vigorous and large, and flower abundantly.

Incomparable Pansy Seed Mixture All Giant Flowering—Better than Ever Large Packet 25c, Postpaid

We have boasted for many years past that this Mixture of Giant Flowering Pansies was unapproachable; that, in fact, no grower has yet succeeded in producing Pansies so fine in color, delicate in penciling, and so uniformly large in size as these. After repeated trials with samples from well-known specialists in Pansy growing, we are satisfied that this mixture still retains its superiority.

The Pansy experts at home and abroad are constantly developing new types and making improvements in the markings and colors of these popular flowers; and to this already matchless mixture we are continually adding the latest German novelties. Our incomparable Pansy Seed Mixture is one of the specialties that established the reputation of our Seeds, and you can readily see why it is our most earnest endeavor to keep making it better and better. If you want the world's best mixture of Pansy Seed, you MUST get this.

Masterpiece The New Giant Curled Pansy

This is a new strain of the Giant Five-Spotted class. The general habit of the plant is strong and compact. The enormous flowers are borne well above the foliage, on strong stems, possess greater substance, are perfectly round, and the color variegations and combinations are unique and very beautiful. Mixed Colors—Large packet 25c.

Giant Trimardeau Pansies—A superior and distinct race. It is impossible to do justice to these lovely flowers in a printed description. Plants are compact and bushy, and produce great quantities of flowers, borne well above the foliage, on strong stems. Owing to its vigor, this strain withstands the hot and dry weather better than any other variety, and produces its great, beautiful blossoms in profusion all summer. We offer this wonderful strain in separate colors and mixture. **Pure White**—Large packet 25c. **Yellow**—Large packet 25c. **Blue**—Large packet 25c. **Striped**—Large packet 25c. **Mixed**—Large packet 25c.

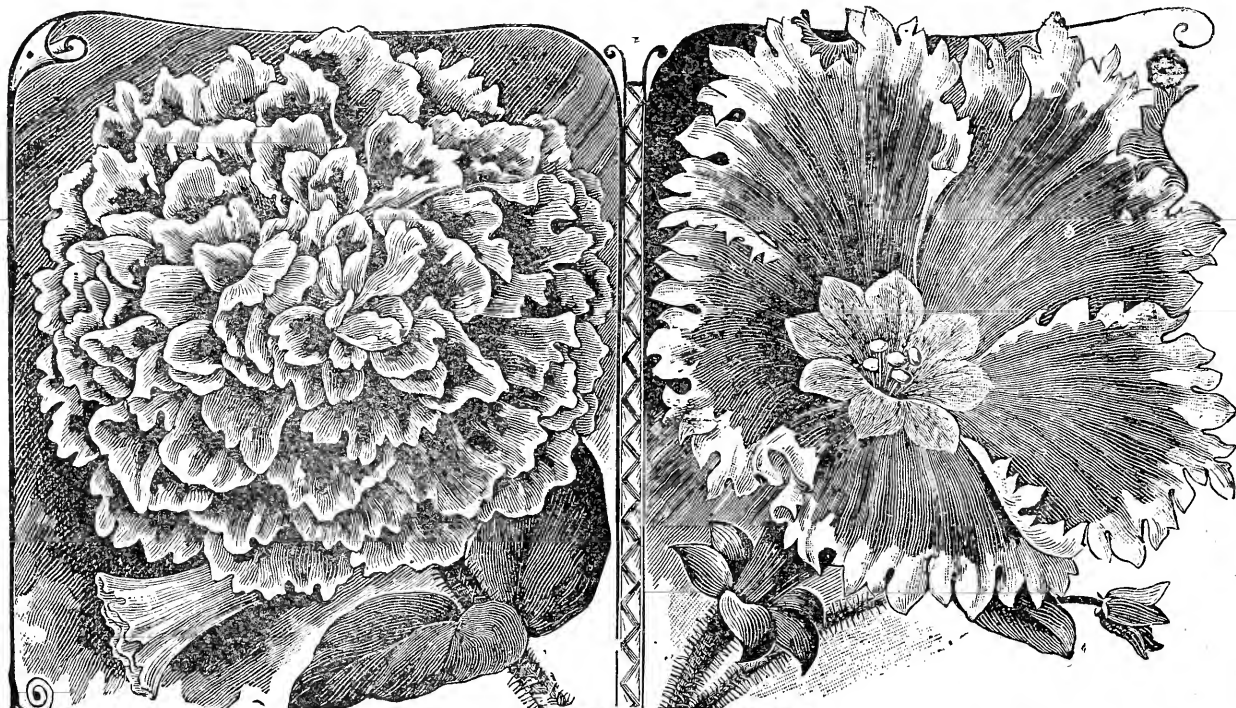

Chas. C. Navlet Co.'s Peerless Pansy Seed Mixture—This splendid mixture includes many rare and expensive varieties. For immense size, perfect form, freedom and durability of bloom and gorgeous colorings the Peerless stands second only to our Incomparable Mixture. **Large packet 10c.**

Fine Mixed Pansy Seed—This is the best low-cost mixture on the market. The flowers are large and beautifully colored. **Large packet 5c.** Pansies may be planted the year round.

Read the Bargain offers on pages 6, 7, 8. You will find something that will interest you.

For every dollar's worth of seed, bought by the packet you may select 25c worth extra, free, or \$1.25 for \$1.00.

Chas. C. Navlet Co's Re-Selected Strains of FLOWER SEEDS

Double and Single Flowering Petunias

Petunias--Tender Perennial

Few plants can compare with the Petunia for beauty, and not half a dozen other flowers on our list are as showy in beds or masses. The smallest yard or the finest park is not complete without these butterflies among flowers, that mind neither heat, drought or rain, but bloom in profusion until the winter is almost upon us. The seed is best started in the house, and the young plants transplanted to open ground one foot apart. But if the soil is made very fine seed can be sown in open ground and covered lightly.

Double-Flowering Petunias—Our new fancy flowering strain. This is unquestionably the finest and most valuable strain of Petunias in existence. Every year the crop is graded to a certain high type, and the minute seeds carefully gathered by hand. The cost of production is so great that the crop is actually worth more than the same weight of gold. The colors range from pure white through the delicate shades of rose to deep pink. Our mixture is made with care, so that a fine collection of distinct varieties, double and fringed, can be raised from a single packet. Sure to satisfy. **Mixed packet 25c.**

Ruffled Giants of California—This strain is of incomparable size, luxuriance and beauty. Nearly all the flowers are ruffled or fringed, and measure from four to five inches across. The great variety of colors, blotchings, stripings and veinings make fantastic and beautiful combinations—some with deep throats of yellow, white, black, green or maroon, running off into intricate veins. Some of the colors run to delicate shades, while others are deep, rich and gorgeous. **Mixed—Large packet 15c.**

Superfine Mixed Petunias—Magnificent varieties for bedding. Flowers are of large size and come in all the colors known to Petunias. **Large packet 5c.** Plant Petunias in the open ground from February to May.

Phlox

Fringed Chinese Primrose--Primula Sinensis

One of the finest spring blooming pot plants. Easy to grow, pretty in leaf, handsome in flower, and continuously in bloom for months at a time. These merits alone would earn a place in every window; but when we add that it is one of the plants never attacked by insects and that it will bloom in a sunless window—where a Geranium or Heliotrope would never show a bud—it is clear that the smallest collection would never be complete without it. Our seed is saved from the choicest strains and can be relied upon to produce the largest flowers and finest colors. **Mixed—Large packet 25c.** Plant from February to May.

Garden Primrose

(Polyanthus)

Showy, early spring free-flowering plants. Exceptionally fine for borders. **Single Flowering—Assorted Colors—Large packet 10c.** Plant from August to November—or from February to April.

Phlox

The Dazzling Flame Flower

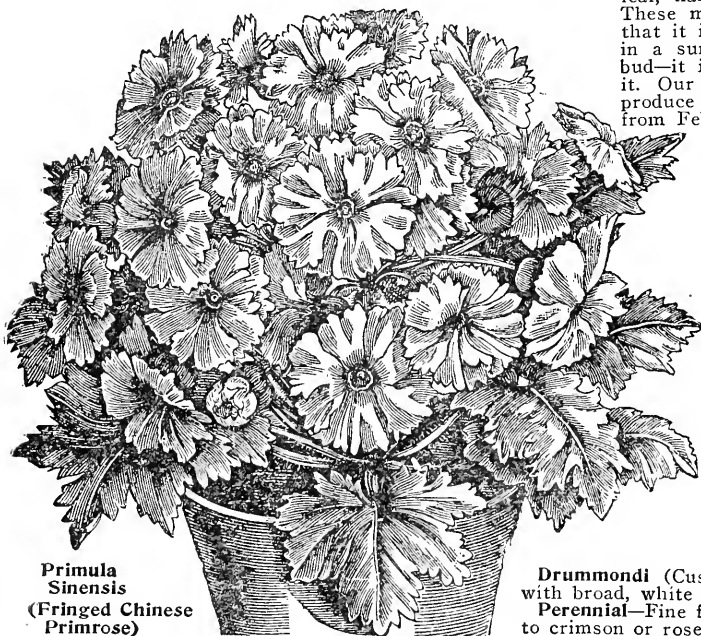

Our friends who remember the old-fashioned Perennial Phlox of our grandmother's garden would hardly recognize the beautiful varieties grown today as bearing any resemblance to them. The improvement has been truly wonderful. Instead of the small, dull-hued flowers of olden times, we now have immense trusses, all bright and showy, the individual flowers three times the size of the old varieties, and the colors ranging from purest white to violet. With Phlox a show of brilliant flowers can be had from June until November, as they are perpetual bloomers. Perfectly hardy. Plant from February to May—or from August to November.

Fire Ball—Flaming scarlet flowers. Very, very handsome. Flowers are large and heads massive. **Large packet 10c.**

Snowball—Pure white flowers. Perfectly hardy, and when once established will bloom year after year with little or no attention. **Large packet 10c.**

Drummondii (Cuspidata)—Of dwarf habit. The flowers have a regular star-like form, with broad, white margins. **Large packet 10c.**

Perennial—Fine for a permanent flower bed. Some of the flowers range from pure white to crimson or rose, while others are striped, mottled or blotched. **Large packet 10c.**

Primula Sinensis (Fringed Chinese Primrose)

The World's Best Flower Seeds

Passion Flower

Passion Flower—Passiflora

A hardy perennial climber, shedding its leaves in winter. Grows luxuriantly either from cuttings or seed. A very satisfactory climber for immense growth, as it will cover a porch or small cottage in one summer. Pink—Large packet 10c. Blue—Large packet 10c. White—Large packet 10c. Plant from February to May.

California Poppy—Eschscholtzia

This is the State Flower of California. It is one of the hardiest and most easily grown of our annuals. It is also a very showy one, growing rapidly and coming into bloom soon after the plants are above the ground. The silver foliage is finely cut and handsome, and the flowers exceedingly showy, large and freely produced. Mixed—Various tints of yellow and orange—Large packet 5c. Plant from February to May—or from August to October.

Poppy—Glorious Hardy Annual

Poppies have been universal garden favorites from the days of our grandmothers. There is nothing more graceful than the silky blooms of single Poppies, nodding at the apex of their long, wiry stalks, like so many tropical butterflies that a passing zephyr might wait from their airy perch. There is nothing more gorgeous than the double Poppies, bursting with fullness, glowing with color, and like great Paeonies or Snowballs in size. There are few flowers easier to grow—if the precaution is taken to sow early and cover lightly—and none more useful to light up

ESCHSCHOLTZIA

dark masses of shrubbery, mixed borders, or dull bits of landscape. Do not wait for warm weather to sow your seed—but sow very early in spring, that the plants may have their growth made, ready to bloom at the coming of warm weather.

Tall Shirley—Silk or Ghost Poppies. Large flowers, exceedingly graceful and elegant. Colors range from blush, white rose, delicate pink and carmine to bright sparkling crimson. Large packet 5c.

Dwarf Shirley—Bushy little plants, with bright green foliage that becomes all ablaze with beautiful flowers as the season advances. Large packet 5c.

Oriental—Enormous flowers of flashing scarlet with a black blotch on each petal. Very showy. Hardy perennial. Large packet 5c.

Maid of the Mist—A new and exquisitely beautiful Poppy. The immense and elegantly fringed flowers are borne on slender, nodding stems. Large packet 5c.

Double Carnation—One of the most brilliant Poppies. Beautifully fringed flowers. Sure to grow and make a gorgeous blaze of color. Large packet 5c.

Double Poppies Mixed—Poppies grow so rapidly and flower so quickly that they may be planted anywhere for a showy mass or for cutting. For this purpose we supply a Large packet of Poppies, Mixed, at 5c.

Iceland—A graceful, delicate variety with flowers that range from sulphur-yellow through different shades of yellow to chamois and salmon rose. Although hardy perennials, these Poppies bloom the first season from spring-sown seed. The fragrant, elegant, crushed satin-like flowers are produced in never-ceasing succession from the beginning of June to October. Sow in the fall, where plants are to remain, and thin. Mixed Colors—Large packet 5c.

Prickly Poppy—Argemone

Showy, free-flowering plants, with prickly leaves and large, Poppy-like flowers of satiny texture. Choice Mixed Colors—Large packet 5c. Plant from February to May—or in September and October.

Portulaca—Tender Annual

The Portulaca will stand more abuse than almost any other flower. They do not like deep shade, or wet, damp soil, but in any other situation they only ask the sowing. The dryer the weather and the hotter the sun, the more they flourish, carpeting the ground with their mat of succulent foliage that during the fore part of the day is almost hidden by clouds of gay blossoms in every color of the rainbow. Fine for bordering walks, rock work and bedding. Can be transplanted even in full bloom. Single Flowering—Mixed—Large packet 10c. Double Flowering—Mixed—Large packet 10c. Plant from February to June.

Red Hot Poker Plant—Tritoma Hybrida

Equals the finest Cannas in attractiveness and brilliancy. Blooms incessantly from August until November, and the plant shows from 6 to 10 flower stalks all the time—each holding at a height of 3 feet a great cluster of flowers—the two finest varieties. Color deep orange. Plant from February to May. Large packet 10c.

Double Carnation Poppy

Shirley Poppy

Salvia—Flowering Sage

Tender perennial, blooming the first season from seed. The Salvia is now a standard bedding plant, and well does it deserve the honor. It stands heat and drought remarkably well, and its colors are very showy and intense. Seed is best started under glass, though self-sown seed frequently comes up in great numbers where a bed of these plants has been the year previous. Cuttings are easily rooted and make fine winter-blooming plants.

Splendens—Large flowering scarlet. This "flame-colored beauty" is one of the most gorgeous of all plants. Produces great spikes of bloom, which completely conceal the foliage. Large packet 10c.

Bonfire—One of the finest Salvias ever introduced. Its erect spikes of brilliant scarlet stand clear above the bright green foliage and completely cover the plant. Large packet 10c.

New Golden—The brilliant scarlet spikes being large and full, make a striking contrast to the golden foliage. Large packet 15c. Plant from February to May.

Scarlet Flax or Linum

A hardy annual of slender and graceful appearance. The bright red flowers—borne on smooth stems—are produced with great liberality. Thrives well in good soil. Large packet 10c. Plant from February to May.

Large Crinkled, Giant Flowering Sweet Peas

The very Cream of the World's Best in this collection of Seven Varieties of Rich Colors, White, Pink Cream, Red, Lavender, Yellow and Variegated. All Varieties 10c per Packet, 3 for 25c, or the Collection of Seven Varieties for 50c, or 25c per ounce, postpaid. Others charge 50 per cent more than we do.

Search as long and as diligently as you will, in all the world you'll find no other Sweet Peas as fine as these. They are no more like the older sorts than a red Rose is like a white one—than day is like night. No other varieties compare with them in beauty, size and quality of bloom—in daintiness of form—in fragrance—or in purity of color. They are simply entrancing. The plants are of healthy and vigorous growth, and produce in greatest profusion long-stemmed flowers of splendid substance and truly gigantic in size. The wings are large and gracefully poised—the standards stand boldly upright and are round, full and delicately crinkled or waved. Usually three and often four of the queenly blossoms are borne on a stem. If you want to ornament your garden with the largest, prettiest, showiest and choicest Sweet Peas the world has yet seen, order the following Sweet Pea Novelties:

Princess Alice Spencer—A delicate and lovely shade of lavender. Immense flowers of exquisite form. Unexcelled for vigor, growth and freedom of bloom.

Florence Morse Spencer—A regal variety. Delicate blush, edged with pink. Enormous flowers of the finest wavy form. Especially fine for cutting.

Mrs. Joseph Chamberlain Spencer—A peerless gem. The grand white flowers are heavily flaked or marked with bright rose.

Paradise—Countess Spencer type. A strikingly beautiful novelty. Color—the most pleasing shell-pink we have ever seen. Huge, bold flowers.

Princess Catherine Spencer—Very large, beautiful and fragrant, pure white flowers.

Primrose Spencer—A grand acquisition to the orchid flowering type. Color—a pronounced primrose, or creamy-yellow. Imposing, showy flowers.

King Edward Spencer—As the name implies, this is a Spencer form of the bright crimson scarlet of the famous Sweet Pea, King Edward VII. Until the advent of this discovery, King Edward VII was indeed the king of all red Sweet Peas. The color is the gorgeous and brilliant red of our old-fashioned Firefly, and is the most popular of all shades of red for florists' use.

SPECIAL—One large packet of each of the above varieties of Sweet Peas—seven in all—will be sent postpaid for 50c.

SPECIAL—One large packet containing a mixture of all the above varieties will be sent postpaid for 25c.

California Sweet Peas are the finest in the world—this is a generally conceded fact—and we claim that ours are the best produced in the State. They are grown on our own seed farms, which are located in the marvelously fertile Santa Clara Valley—"The Valley of Sunshine and Flowers"—and repeated tests have proven them to be Superior to all others in Germinating Power—Healthy, Vigorous Growth—Abundance of Bloom—Size of Flowers—Elegance of Form—Beauty of Color—and Fragrance.

Chas. C. Navlet Co's Giant Flowering Sweet Peas

All varieties 5c per Packet or 15c per Ounce, 50c per Quarter Pound.

25 extra large packets of California Sweet Peas 75c, 12 for 40c. Our selection from varieties listed below—Every Packet different, postpaid.

Admiration—Rosy Pink. Mammoth flowers.

America—Striped—Blood red on white ground.

Apple Blossom—Bright rose and pink. Exquisite.

Blanch Burpee—The finest pure white in existence. Fine forms.

Blanche Ferry—Pink and white. Extra early. Persistent bloomer.

Dora Bradmore—Standard buff and primrose—wings light primrose.

Large. Hooded form.

Emily Eckford—A peculiar and delicate reddish-blue with shaded mauve wings.

Emily Henderson—White—for forcing. Broad.

Golden Rose—Primrose, delicately striped and mottled with light pink. Very large. Wings and standard quite wavy. Fine.

Hon. Mrs. E. Kenyon—Beautiful rich primrose. Giant flowers. Long stems. Very choice.

Jesse Cuthbertson—Primrose, striped with light pink. Large flowers. Very free bloomer.

Janet Scott—Clear and deep but bright pink, showing buff at top of standard, with the upper or top blossom and bud a lighter pink and deeper buff. Large size. Wings stand upright and curl, giving the flower an unusual and attractive appearance.

Katherine Tracy—Soft, but brilliant pink.

King Edward VII—Bright red or crimson-scarlet. Almost self-colored. Very large. Open form.

Lady Mary Currie—Best orange pink. Immense flowers.

Lady Grisell Hamilton—Pale lavender. Strong grower.

Lovely—Soft shell pink. Often four flowers on a stem.

Maid of Honor—White, edged with blue. Large flowers.

Miss Willmot—Orange-pink, showing veins of a deeper shade.

Very large. Stems long. Plant vigorous. Best of its color.

Modesty—White, with tint of pink. Medium size.

Mrs. Dugdale—Deep rose, overlaid with crimson rose.

Mrs. Eckford—Primrose yellow at first, changing to nearly white at maturity.

Mrs. Joseph Chamberlain—Rose, striped with white.

Mrs. Walter Wright—Rose purple, changing to a slightly bluish-purple as it fully matures. Very large. Hooded form.

Navy Blue—Deep violet blue. Large flowers of graceful form.

New Countess—Lavender—distinct and beautiful shade.

Othello—Solid deep maroon. One of the darkest and deepest rich crimson varieties.

Prima Donna—Fine light pink. A real gem.

Prince of Wales—Scarlet and rose. A grand variety.

Queen Alexandra—Intense scarlet. Flowers are of fine form, grand texture, and will not burn in the sun. Long stems. Very free flowering. Must have plenty of room.

Queen Victoria—Primrose yellow. Extra large.

Ramona—Light pink stripes on white. Larger than medium.

Royal Rose—Deep rose pink. Large hooded flowers.

Shahzade—Deep purple. Heavily rolled wings. Extra fine.

Sue Earl—Blossoms open a clear primrose, but the lower and second ones turn to a light mauve that grows deeper as the season advances. The general effect is primrose. Medium size.

Sun Proof Salopian—Best scarlet. Strikingly beautiful flowers.

Venus—Salmon buff pink. A beautiful and distinct variety.

Cupid Sweet Peas

10c per packet, ounce 25c

These dainty members of the Sweet Pea family are used for very beautiful effects for borders or solid beds. Unlike other sweet peas that seem to wish to climb into the sky, these modest flowers are content to assume lowly proportions. They are of a low-growing or dwarf variety and usually grow from six to nine inches in height and spreading to about 24 inches in diameter. Foliage is dark green and the stems are short, generally from three to six inches long. The blossoms usually are somewhat larger than the tall varieties.

Countess of Radnor—Delicate lavender. **Firefly**—Bright scarlet. **Primrose**—Light yellow. **Prima Donna**—Pink. **White**—Pure white.

Mixture of all of above varieties and many others not included in above descriptions—Per packet 10c—ounce 25c, quarter pound 50c, pound \$1.50.

Christmas Flowering Sweet Peas

A distinct class that has become very popular; used by most every florist for forcing. If grown in the garden they are very early, on long stems. The flowers are a trifle smaller than other varieties of Sweet Peas—growing to a height of 2 to 3 feet.

Plant Sweet Peas from September to June

Chas. C. Navlet Co's Giant Flowering Sweet Peas

5c PER PACKET, 15c PER OUNCE, QUARTER POUND 50c, POSTPAID

The Sweet Peas described below are very, very fine.

Mont Blanc—The earliest free-flowering pure white Sweet Pea in existence. One of the first to bloom; should be in every garden. Large flowers. Long stems.

Black Michael—Different from all other dark colors. Color—a peculiar shade of plum, almost a self. Very beautiful.

Bolton's Pink—A rich, soft pink. Immense in size and faultless in form.

Countess Spencer—The largest Sweet Pea in the world. Also one of the most beautiful. The standard is both broad and tall, stiffly erect and boldly expanded—the wings are broad and well spread. Color—Silvery-white, suffused and tinted with soft rose pink, which deepens at the outer edge. Flowers come in threes and fours on a long, stiff stem. Simply entrancing.

Coral Gem—A decided novelty. Color—Light coral, a new shade in Sweet Peas. Flowers are large, and the standards are thrown well back and rolled in a very novel manner.

Dorothy Eckford—A beautiful, large, pure white, free-flowering Sweet Pea. Flowers are of immense size, and the stems very long. Often 4 flowers to a stem. Can be planted early or late. One of the best commercial varieties, and grown by almost every florist.

Earliest White—In full bloom 45 days from seed growing. Plant is from 16 to 20 inches high, and carries a profusion of flowers.

Eric Hinton—A beautiful shade of delicate rose-pink. Wavy standard and broad wings. Generally 4 blossoms to each stem. Very large flowers. Very choice.

Frank Dolby—Beautiful light lavender. Flowers are immense in size, and of a wavy type. Grown by all the leading florists. A handsome and pleasing variety.

Helen Pierce—A Gloxinia-flowered type. Color—A very bright blue, mottled on white. It bears 3 and often 4 flowers on a stem, all of which turn one way—a mark of high merit. Unusually long stems.

Helen Lewis—Beautiful orange-pink. Flowers are of immense size and charmingly crumpled and waved. Exquisite in form and color. Robust, free-flowering. Very decorative.

Lord Nelson—An improved and very attractive navy blue, being much deeper and richer than any other navy blue in cultivation. Should be in every garden.

Phenomenal—A very beautiful variety. White, tinged with rosy-lavender. The standards—produced in pairs—are full and wavy.

Shasta—A grand new white Sweet Pea. Standards and wings are large and wavy at the ends. Bears 4 blossoms to the stem—mostly facing one way. Long, strong stems. Should be a favorite with florists as well as with the public generally.

Chas. C. Navlet Co's Incomparable Sweet Pea Mixture

Absolutely the Finest Mixture of Sweet Peas that can be made, and it will give unbounded satisfaction.

This mixture will give unbounded satisfaction to our customers. It is as different from the ordinary mixtures on the market—most of which are jumbled together in bulk and very imperfectly mixed—as day is remote from night. Every packet is mixed separately and contains an equal quantity of each of the leading varieties. No matter what price you pay for a Sweet Pea Mixture, you cannot beat this. We sell more of this than several hundred dealers combined, and our sales double from year to year as a result of giving such big values. In this collection you will find many of the Spencer Sweet Pea Novelties, and comprises 20 of the leading varieties. Among the colors will be found new shades of rosy-orange, chamois, pearly-pink, straw, silvery-lilac, blood-red, cerise and blush. Some of the sorts are self-colored—others are blended—still others are mottled, speckled, flaked or striped in untellable attractive ways. You'll have many delightful surprises as the unexpected colors, shades and combinations unfold. Mammoth Packet 25c, Postpage Prepaid.

The Unwin Hybrid Sweet Peas

5c Per Packet, 15c Per Ounce, 50c Per Quarter Pound, Postpaid.

This splendid giant-flowering race originated with the introduction of the famous pink "Gladys Unwin," from which the other varieties are selections or hybrids containing Unwin blood. All are distinguished by unusually large, open, round, prettily-waved standards.

Gladys Unwin—A striking and sterling novelty. Color—a very beautiful pale rosy pink. The large, bold flowers are borne on very long stems, fully three-fourths of which carry four blossoms.

Phyllis Unwin—A giant among Sweet Peas. It has all the good points of Gladys Unwin—the same crinkled and wavy standard and broad wings—but produces even larger flowers. The long, stout stems carry three and four blossoms. Color—A deep rosy-carmine. Quite sun-proof and perfectly fixed.

Nora Unwin—Immense, wavy, white flowers. Extra long stems. Very free flowering. One of the choicest and handsomest Sweet Peas in cultivation.

Sweet Peas are among the prettiest, sweetest and most satisfactory flowers you can have in your garden. They do well everywhere. No flowers are easier to cultivate or more certain to give pleasure. They bloom very quickly and yield abundantly. The blossoms last a long time after cutting and are highly prized for house and table decorations, as well as for corsage and button-hole wear.

Plant Sweet Peas from September to June.

Gilt Edge Sweet Pea Mixture

5c per packet, postpaid, 15c per ounce, 50c per one-quarter pound.

This splendid mixture will give grand results. It is composed of many large flowering, strong-growing and bright-colored varieties—the different colors being blended in suitable proportions.

Surprise Sweet Pea Mixture

Big Packet 10c, Postpaid

Our Surprise Sweet Pea Mixture is very popular and is made up by mixing together even quantities of each of 12 choice varieties of Sweet Peas in a big bin.

It is from this mixture that these packets are filled, and you can depend on getting good value every time.

Plant Sweet Peas from September to June.

Chas. C. Navlet Co's Re-Selected Strains of Flower Seeds

Salpiglossis—The Velvet Flower

This half-hardy annual is exceedingly beautiful, and an extra fine and brilliant bedder. Its large, lovely, velvety-textured, funnel-shaped blossoms of many pleasing colors—are marked in varied and fantastic ways. The staining, penciling and blending of the colors is wonderfully fine. Some of the flowers have the appearance of being sprinkled with gold dust. **Mixed—Large packet 10c.** Plant from February to May—or from August to October.

Sensitive Plant—Annual

A curious plant, with delicate fern-like leaves that fold closely together if touched, as though they were wilted by a hot blast. In a short time they again revive. It is a very beautiful plant and furnishes endless amusement. **Large packet 5c.** Plant from February to May.

Burbank's New Shasta Daisy—Alaska

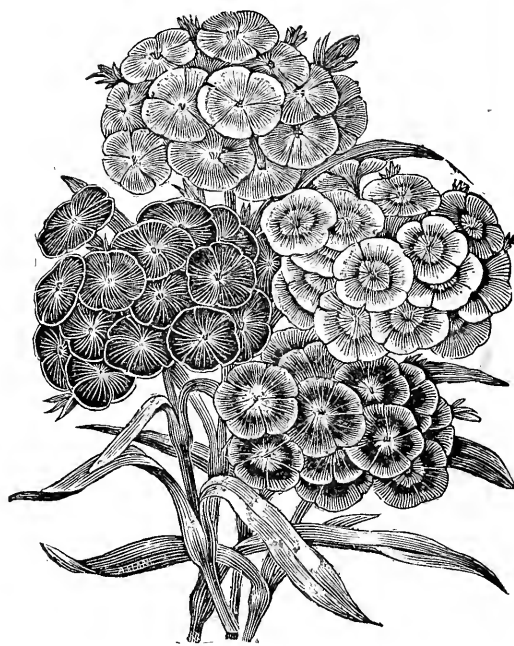

Mr. Burbank has brought the Shasta Daisy up to marvelous size and long-blooming period. The flowers are pure white and very large. It is one of the grandest hardy perennials for any garden, blooming well the first summer from seed started early. Several grand new forms have recently appeared, some with enormous flat petals, others with quilled, and still others with curled and twisted petals. We offer a mixture of all these splendid new forms, some of which have hardly been introduced yet. Do not miss them. **Large packet 10c.** Plant from September to December.

Smilax—Climbing Perennial

Largely used for decorating. Much esteemed for its long, delicate sprays of bright green and glossy foliage. **Large packet 5c.** Plant from February to May, or August to November.

Snapdragon, or Antirrhinum

Half hardy perennial. The flowers are oddly shaped and apparently closed, but by pressing the sides together can be made to open like a dog's mouth. **Tall Varieties—Great variety of colors—Large packet 5c. Dwarf Varieties—Many colors—Large packet 5c.** Plant from February to May—or from August to November.

Sweet Williams

Statice—Sea Lavender

Among the most recent introductions Statice is one of the grandest everlasting flowers, on account of its long stems and free-flowering qualities. Blooms from midsummer until late in the fall. Hardy perennial. The stalks are covered with panicles of minute flowers, which can be dried and used in vases in the winter. **Large packet mixed 10c.**

Stevia—Tender Perennial

Produces a multitude of small, white, fragrant blossoms. Fine for summer or winter blooming. **Large packet 10c.** Plant from February to May.

Ten-Weeks Stock—Gilliflower

To our notion we do not catalogue a finer flower than the Ten-Weeks Stocks. It has every merit of a perfect plant. It is of compact habit—easily grown—highly fragrant—and possesses rare beauty. The many and long spikes of blooms are closely set—as double as a rose—and vary in color from snow-white to dark maroon brown. It is a grand bedder and a fine pot plant, blooming the winter through. It requires rich, mellow soil, and must never be allowed to suffer for water. Our seed is extra fine, and has been brought up to its high standard by breeding and high cultivation. Hardy annual. **Pure white—Large packet 10c. Brilliant Rose—Large packet 10c. Brilliant Lilac—Large packet 10c. Crimson—Large packet 10c. Blood red—Large packet 10c. Canary Yellow—Large packet 10c. Dark Blue—Large packet 10c. Light Blue—Large packet 10c. Brompton Assorted—Large packet 10c. All Varieties Mixed—Large packet 10c.** Plant from February to May—or from August to November.

Sunflower—Stately Decorative Plant

Sunflower plants can be placed here and there throughout the garden with telling effect. Their golden-yellow disks are like sunbursts among the shrubbery, and for backgrounds and screens nothing could be finer. Hardy annuals.

Chrysanthemum Flowered—A new variety of an old favorite. The very double bright orange-yellow blossoms resemble large Chrysanthemums. **Large packet 10c.**

Cucumerifolius Miniature—Of a pyramidal growth. Covered with hundreds of bright orange, small, single flowers. Large packet 5c.

Globosus Fistulosus—Large, round, double flowers. Grows to an average height of six feet. Large packet 5c. Plant from February to May.

New Miniature Mixed—A multitude of new varieties have been raised from our popular Miniature Sunflower mixture. The prevailing colors are pale yellow, golden-yellow and creamy-white—some with black centers. Large packet 10c.

Orion—A very handsome new variety, with petals twisted like those of the best Cactus-shaped Dahlias. Large packet 10c.

Perkeo or Cut and Come Again—A charming variety of the Miniature Dwarf. The plants form compact bushes about 12 inches high by 14 inches through. Large packet 15c.

Stella—The plant of this fine variety is well branched and bushy. The flowers are of purest golden-yellow with black disks, and are borne on long stems. Large packet 5c. Plant from February to May.

Swan River Daisy—Brachycome

A hardy annual, growing from 6 to 10 inches high, and producing an abundance of pretty blue and white flowers. **Large packet 5c.** Plant from February to May.

Sweet William—A Favorite Hardy Perennial

For many years the Sweet William has been esteemed as one of the finest of our hardy garden plants, being of easy culture—thriving in any good garden soil—and lasting indefinitely. The plants grow about a foot high and form fine clumps. Our improved strain produces very large florets in a great variety of rich colors, including blood-crimson, salmon, pink, white and cerise. Many of the flowers have large white eyes, and all are sweetly scented. **Single Flowering Mixed—Large packet 10c. Double Flowering Mixed—Large packet 10c.** Plant from February to May—or from August to October.

\$1.00 worth of Flower Seed by the Packet entitles you to 25c worth extra free.

Chas. C. Navlet Co's Re-Selected Strains Flower Seeds

Trumpet Vine—Bignonia

This is one of the most superb Climbing Vines in existence. It is absolutely distinct, both in foliage and flower. Grows with rapidity. Is perfectly hardy everywhere.

Its large, showy flowers are produced in the most amazing profusion. For covering unsightly places, dead walls, stumps, fences, or for training over a porch or trellis—in fact, wherever a beautiful Climbing Vine is needed—it is unsurpassed. The flowers are trumpet-shaped, large size, fully 3 inches long, and are borne in clusters of 25 to 35 each for several weeks during the growing season. The color is warm orange-red. Large packet 10c. Plant from February to May.

Umbrella Plants

Cyperus Alternifolius—Excellent for growing in water or damp places. Makes a very ornamental house plant, always presenting a green and attractive appearance. Large packet 10c. Plant from February to May—or from August to November.

Verbena—Half Hardy Perennial

Like the Pansy—the Aster—and the Petunia—the Verbena is a favorite with everybody, both for the garden and house culture. For constant and profuse flowering, and for brilliancy and beauty of colors, it is the equal of any plant in cultivation. Start seed early under glass, if possible, that good, strong plants may be had for transplanting in the garden. They will commence blooming in June and continue until after severe frosts, and during the entire time nothing in the garden will attract more attention. In August cuttings may be taken from some of the best ones and potted up for winter blooming. Our prize strain are the finest Verbenas in the world.

Mammoth Auricula Flowered—Various colored flowers with large white centers. Mixed—Large packet 10c.

Italian Striped—Very beautiful—Large packet 10c.

Mammoth Purple, Pink, White or Red—Each color in a separate packet—Large packet 10c.

Fordhook—A lovely variety; will spread over the ground like a carpet, and produce large heads of beautiful flowers. Mixed—Large packet 10c. In the garden, plant from February to May.

Virginia Creeper—Ornamental Climber

The leaves turn to crimson and yellow in the autumn. Large packet 10c. Plant from February to May.

Wallflower—Half Hardy Perennial

A fine, old-fashioned flower. Will bloom the first year from seed. Grows from 1 to 2 feet high, and bears long stems of graceful flowers. It is best to renew the plants every two to three years by resowing the seed. Plant early in boxes and transplant. **Double Flowering Mixed**—Large packet 10c. **Single Flowering Mixed**—Large packet 5c. Plant from February to May or August to October.

Whitlavia—Attractive Hardy Annual

Easily grown and produces small, violet-blue, cup-shaped flowers. Plants grow one foot high. Sow seed in open ground from February to May, and thin the young plants. Large packet 10c.

Violets

Wistaria—A Splendid Climber

In the early spring this favorite vine is covered with massive, gracefully drooping clusters of lovely pea-shaped flowers. May also be trained to grow in erect bush form. **Assorted Varieties**—Large packet 25c. Plant from February to May.

Zinnia—Youth and Old Age

The Zinnia is a robust, free-growing plant that furnishes an abundance of large, double, brilliantly colored flowers of various colors during the entire summer and fall. Each flower keeps perfect for weeks before fading, and each plant is a mass of bloom all the time. Seed should be started inside or sown in the garden from February to May.

TALL DOUBLE SCARLET, Large packet 10c.

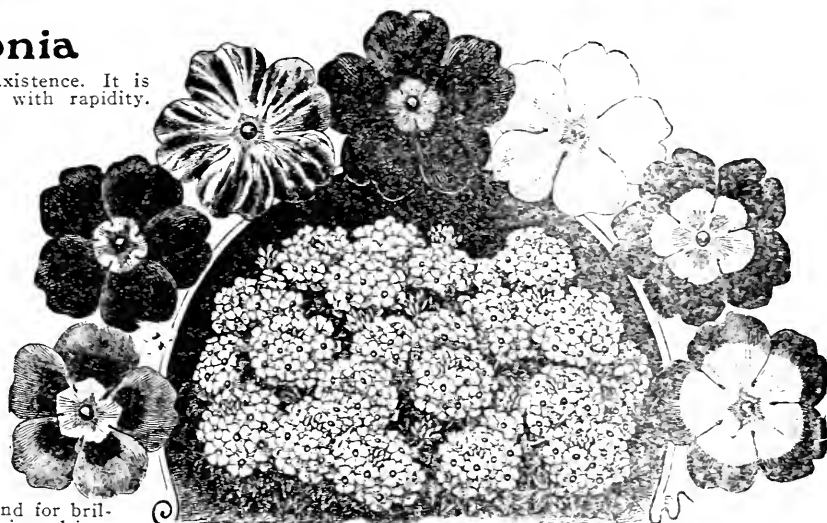

TALL DOUBLE PURPLE, Large packet 10c.

TALL WHITE, Large packet 10c.

TALL DOUBLE SALMON, Large packet 10c.

TALL DOUBLE GOLDEN YELLOW, Large packet 10c.

MIXED COLORS, Large packet 10c.

Mammoth Verbenas

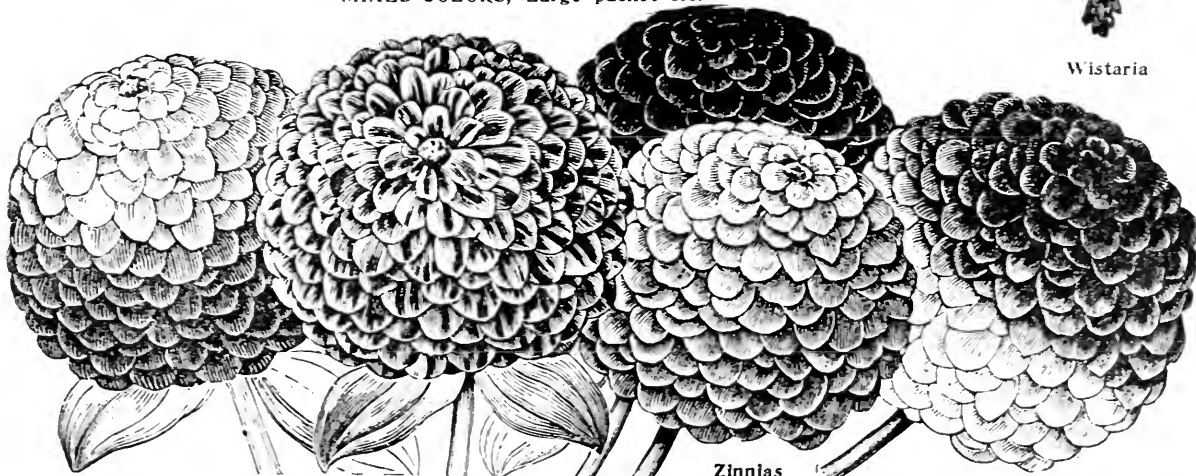

Violet

"Sweetest Flower That Grows"

Rich in modest beauty and famed for its enchanting fragrance, the Violet continues to increase in popularity. With the last snows of winter still about it, the gentle flower shyly appears from out its icy bed, heralding the coming of spring. Sturdily it grows and sweetly it blooms, and all the world loves it. Violets are perfectly hardy and enjoy shady situations, where a light covering of leaves or litter during the winter will prove beneficial. Seed takes a long time to germinate. Plant from February to May. Large packet 10c.

Zinnias

1914 Condensed Planters Guide

and Encyclopedia of Useful Information

Frequent requests for information by many of our customers have induced us to print on this and the six following pages much useful information—in condensed form. This department first appeared in our 1910 book, and has become so popular we have added a great deal of information for the benefit of our friends.

We present it in brief for the reason that the busy man or woman does not care to read a long-winded treatise containing all the reasons why certain things should be done in a certain way; why seed should be planted at a given time, etc., being satisfied to know definite facts. This information is accurate and is offered here so you will readily know where to look for it when you need it.

Hang this catalogue on a nail in some convenient place—save it until planting time and you will find in it much that will be useful. Further than this. Remember we employ an army of expert gardeners and nurserymen, and if you are in doubt concerning what is best to plant, when to plant it, etc., or are confronted with any problem regarding your garden, farm, orchard, or vineyard, write to us and we will gladly answer your questions without charge. Each year we receive and answer many thousands of letters, and we take great pleasure at all times in giving any aid or information within our power. We have correspondents who can write you in French, German, Spanish, Italian or Portuguese.

FLOWER AND VEGETABLE GARDEN GUIDE

A Monthly Almanac of Useful Information Designed for California Gardens

While this Guide is primarily intended for California conditions, it can also be easily adapted to the Northern States by making suitable allowance for climatic conditions. In most instances a few weeks later than the planting times given here is sufficient.

If you desire a succession of Vegetables and Flowers it is advised that only a portion of any particular seed be planted at one time. If intervals of a week or two are allowed between plantings it will permit of continuous crops during the seasons. The planting of early and late varieties will in many instances add to the length of the season.

January

Flower Garden—As next month will be a busy month it is well to get everything ready, seeds selected and the ground all spaded up. Have a definite plan of what you are to plant and where it is to be planted. In other words, lay out your garden in detail before beginning to sow your seeds. When beds are to be made use well-rotted manure and work well into the soil. Some of the Bulbs planted in the fall should be blooming during this month; in fact, a January garden is mainly dependent on this form of flowers. Commence planting the following bulbs: Dahlias, Dielytra, Gladiolus, Gloxinia (house plant), Tuberose, Japanese Iris, Caladium, Madeira Vine Root, Cinnamon Vine, Spirea Japonica and Mystery Bulb. Continue planting the following bulbs: Agapanthus, Amaryllis, (Belladonna), Anemones, Crocus, Cyclamen, Freesia, Daffodil, Hyacinths, Roman Hyacinths, Ixias, Jonquil, Japanese Lilies, Tiger Lily, Easter Lilies, Calla Lily, Narcissus, Peonies, Ranunculus, Snowdrops, Sparaxis, Spanish Iris, Tulips, Lily of the Valley. If Sweet Peas are planted this month the roots will be stronger and the blossoms more profuse than if planted later. All deciduous shrubs and evergreens can now be planted.

Vegetable Garden—Some few vegetables, such as Beets, Parsley, Peas, Radishes and Turnips may be planted all the year round. During this month begin planting Broccoli, Early Cabbage, and Kale. Commence setting out Rhubarb Roots, Brussels Sprouts. Near the end of the month, in sunny situations, all early Potatoes, including Gold Coin, may be planted. Gold Coin Potatoes will mature three weeks earlier than any other extra early varieties. Beds already planted should be dressed with about 3 inches of manure well rotted. During the latter part of the month Tomatoes, Melons, Peppers, Squashes and Egg Plant may be sown under glass for planting later.

Continue to plant Cauliflower and Spinach, Onion Sets, Onion Seeds and Parsnips. Clean up the garden, as next month is a busy one.

February

Flower Garden—Commence planting Amaryllis (Johnsonii) and Tuberose Begonia Bulbs, continue planting Agapanthus, Amaryllis (Belladonna), Anemones, Crocus, Cyclamen, Dahlias, Dielytra, Gladiolus, Gloxinia, Hyacinths, Japanese Lilies, Tiger Lily, Easter Lily, Calla Lily, Narcissus, Peonies, Ranunculus, Snowdrops, Sparaxis, Tuberose, Daffodil, Japanese Iris, Spanish Iris, Tulips, Caladium, Madeira Vine, Cinnamon Vine, Lily of the Valley, Spirea Japonica and Mystery Bulbs.

For spring, summer and autumn flowers this month should find you busy beginning to sow flower seeds, including the following: Abronia, Abutilon, Acrolinium, Ageratum, Agrostis, Alyssum, Aramanthus, Ammobium, Anagallis, Argemone, Decorative Asparagus, Asters, Australian Pea Vine, Australian Star Flower, Bachelors Button, Ballon Vine, Balsam, Bartonella Aurea, Scarlet Runner Bean, Begonia, Bignonia, Boston Ivy, Brachycombe, Cactus, Calendula, Calceolaria, Calliopsis, Campanula, Canary Bird Vine, Candytuft, Canna, Carnation, Centaurea, Clematis Paniculata, Clarkia, Cobaea Scandens, Coleus, Coreopsis, Cosmos, Cubhea, Cyperus Alternifolius, Cypress Vine, Datura, Dahlia Seed, Daisies, Delphinium, Dianthus, Eschscholtzia, Feverfew, Forget-Me-Not, Gaillardia, Godetia, Golden Feather, Golden Rod, Gypsophila, Helichrysum, Heliotrope, Hollyhock, Honeysuckle, Hop Vine, Hyacinth Bean, Ipomea, Job's Tears, Kudzu Vine, Lantana, Lavender, Larkspur, Lobelia, Lupin, Marguerite, Marigolds, Maurandia, Mignonette, Mimulus, Mina Lobata, Moon Flower, Morning Glory, Musk Plant, Nasturtium, Nigella, Oxalis, Pampas Grass, Passion Flower, Petunias, Pansies, Phlox, Pinks, Poppies, Portulaca, Primrose, Rhodanthe, Salpiglossis, Salvia, Scabiosa, Scarlet Flax, Sensitive Plant, Smilax, Snapdragon, Stocks, Sunflower, Sweet Sultan, Sweet William, Tritoma, Verbena, Violet, Virginia Creeper, Wallflower, Whitlavia, Wistaria, Zinnia. Sweet Peas should be planted plentifully this month. The planting of evergreens and shrubs should be completed as soon as practicable.

Vegetable Garden—During February and March most varieties of vegetables are planted. Early in February the ground should be well worked and the main crop of potatoes planted. Begin planting Asparagus, Artichoke, Chicory, Collards, Cress, Water Cress, Celery, Egg Plant, Kohl Rabi,

Leek, Mustard, Peppers, Rhubarb Seed, Salsify and Tomatoes. Continue the planting of Beets, Broccoli, Brussels Sprouts, Early Cabbage, Carrots, Kale, Lettuce, Mushroom Spawn, Onion Sets and Onion Seed, Peas, Parsley, Parsnips, Radishes, Rhubarb Roots, Spinach, and Turnips. Thin out Carrots, Turnips and other root crops requiring it. Hill up where required and attend to weeding.

March

Flower Garden—Continue planting bulbs as follows: Agapanthus, Amaryllis, Tuberose Begonia, Cyclamen, Dahlias, Dielytra, Gladiolus, Gloxinia, Japanese Lilies, Tiger Lily, Easter Lily, Calla Lily, Peonies, Tuberose, Japanese Iris, Caladium, Madeira Vine, Cinnamon Vine, Lily of the Valley, Spirea Japonica and Mystery Bulb.

It is now time to commence planting the following flower seeds: Byronopsis, Castor Bean, Celosia, Cockscorn, Globe Amaranth and Ice Plant. Besides this continue planting Annual, Biennial and Perennial Flower Seeds which are included in directions for the February flower garden, all of which may be planted during the month of March. Look after slugs, bugs and weeding.

Vegetable Garden—All vegetable seed can be planted freely during this month, and it is best to begin transplanting vegetables grown under glass during January and February. Begin planting Pole and Bush Beans, Corn Salad, Sweet Corn, Dandelions, Endive, Okra, Pumpkin and Squash, Cucumbers, Muskmelons, and Watermelons. Continue planting Asparagus, Artichoke, Beets, Broccoli, Brussels Sprouts, Early Cabbage, Chicory, Collards, Cress, Water Cress, Carrots, Celery, Kale, Egg Plant, Kohl Rabi, Leek, Lettuce, Mustard, Mushroom Spawn, Onion Sets and Onion Seed, Peas, Parsley, Parsnips, Peppers, Potatoes, Radishes, Rhubarb Seed, Rhubarb Roots, Salsify, Spinach, Turnips and Tomatoes.

Do not set out Tomato Plants, Egg Plants, and Peppers until all danger of frost is over. See that your garden is kept clean, weed often, hill up rows and watch out for insects and slugs.

During this month many vegetable plants may be bought ready to transplant instead of raising them from seed. In many instances it will save trouble and perhaps expense.

April

Flower Garden—There are still quite a goodly number of bulbs that may be freely planted during this month, and are: Agapanthus, Amaryllis (Johnsonii), Tuberose Begonia, Dahlias, Dielytra, Gladiolus, Gloxinia, Peonies, Tuberose, Caladium, Madeira Vine, Cinnamon Vine, Lily of the Valley and Spirea Japonica.

Among the flower seeds that you should commence planting are the different ornamental Gourds. Nearly all flower seeds may be planted during April; in fact, all of those listed under the February Calendar, except Centaurea. Watch for the bugs and keep the weeds down. Watch your Rose Bushes, and if troubled with green aphids use tobacco wash freely.

Vegetable Garden—Continue transplanting Egg Plant, Pepper, and Tomatoes. Set out Sweet Potato Plant. Continue planting Asparagus, Artichoke, Pole and Bush Beans, Beets, Broccoli, Early Cabbage, Chicory, Collards, Cress, Water Cress, Carrots, Celery, Corn Salad, Dandelion, Kale, Corn, Cucumbers, Egg Plant, Endive, Kohl Rabi, Leek, Lettuce, Muskmelon, Watermelon, Mustard, Mushroom Spawn, Okra, Onion Sets, Onion Seeds, Peas, Parsley, Parsnips, Peppers, Potatoes, Pumpkin, Radishes, Rhubarb Seed, Rhubarb Roots, Salsify, Spinach, Squash, Tomatoes and Turnips. Hill up and cultivate well. Look out for insects and slugs. Attend to weeding.

May

Flower Garden—This month you may still continue planting Tuberose Begonia, Dahlias, Gladiolus, Gloxinia, Peonies, Tuberose, Caladium, Madeira Vine, Cinnamon Vine and Spirea Japonica Bulbs. All flower seeds given in the February calendar should be planted except Acrolinium, Centaurea, Phlox and Rhodanthe. Gourds may be planted this month.

When Hyacinths, Tulips and other bulbs die down, dig them up and store away in a cool dry place until fall, when they may be replanted. The vacant places thus created should be filled with Dahlias, Petunias, Pansies, Salvias and other flowering plants.

Vegetable Garden—Continue to plant Asparagus, Artichoke, Pole and Bush Beans, Beets, Broccoli, Celery, Chicory, Collards, Carrots, Corn Salad, Sweet Corn, Cucumbers, Dandelion, Endive, Kohl Rabi, Lettuce, Muskmelon, Watermelon, Mustard, Mushroom Spawn, Okra, Onions, Peas, Parsley, Parsnips, Peppers, Potatoes, Pumpkin, Radishes, Rhubarb Seed, Spinach, Salsify, Squash, Tomatoes and Turnips. Cultivate well and kill off all insects and slugs.

(Continued on Page 63)

GARDEN GUIDE—Continued from Page 62

June

Flower Garden—Continue planting Dahlias, Gladiolus, Peonies, Tuberoses, Caladium Bulbs, Madeira Vine and Cinnamon Vine Bulbs. But very few flower seeds should be planted during this month, these few including Gourds, Hyacinth Bean, Portulaca, Sweet Peas, Byronopsis, Scarlet Runner Beans, Candytuft, Canna, Castor Bean, Celosia and Cockscomb.

Vegetable Garden—During this month the following vegetable seeds may be sown: Most varieties of Pole and Bush Beans, Beets, Carrots, Corn, Cucumbers, Dandelion, Endive, Kohl Rabi, Lettuce, Muskmelon, Watermelon, Mushroom Spawn, Spinach, Okra, Peas, Parsley, Pumpkin, Radishes, Squash and Turnips. Hill up growing crops, stick tall peas and Pole varieties of Beans. Watch the slugs and insects. Clean up ground where crops have matured.

July

Flower Garden—No bulbs may be planted during July, and flower seeds should be confined to the planting of a few Scarlet Runner Beans and Coleus.

Vegetable Garden—Begin planting Winter Cabbage, Cauliflower, Brussels Sprouts, Kale and Parsnips. Continue planting Beets, Carrots, Corn, Dandelion, Endive, Lettuce, Mushroom Spawn, Peas, Parsley, Radishes, Turnips, and most varieties of Beans. Cultivate between rows. Clean up and kill off slugs and insects.

August

Flower Garden—Preparations should now be made to plant winter blooming bulbs and a little time spent on a few choice bulbs will be amply repaid by strong blossoms later in the year when other flowers are scarce. This month is a good time to commence planting Cyclamen, Freesia, Roman Hyacinth, St. Joseph and Calla Lilies. There are many varieties of flower seeds that can be planted this month, including Coreopsis, Cyperus Alternifolius, Delphinium, Dianthus, Eschscholtzia, Forget-Me-Not, Feverfew, Foxglove, Gaillardia, Godetia, Golden Feather, Gyphosphila, Hollyhock, Phlox, Pansies, Pinks, Polyanthus, Salpiglossis, Scabiosa, Smilax, Snapdragon, Stocks, Sweet William and Wallflower, Asparagus (decorative), Cactus, Calendula, Calceolaria, Calliopsis, Campanula, Candytuft, Carnation, Catchfly and Celosia. Caterpillars are plentiful this month, and should be kept off plants and flowers.

Vegetable Garden—Sow Corn Salad for second crop. Plant Spinach. Continue planting most varieties of Beans, Beets, Brussels Sprouts, Winter Cabbage, Carrots, Cauliflower, Dandelion, Kale, Endive, Lettuce, Mushroom Spawn, Peas, Parsley, Parsnips, Radishes and Turnips. Cultivate growing crops.

September

Flower Garden—Commence planting Amaryllis (Belladonna), Anemones, Crocus, Ixias, Jonquils, Narcissus, Daffodil and Spanish Iris Bulbs; also continue planting Cyclamen, Freesia, Roman Hyacinths, St. Joseph Lily and Calla Lily. All flower seeds given in August calendar may be freely planted during September, besides which commence planting Columbine, Daisies, Honeysuckle, Abronia, Abutilon, Alyssum, Anagallis, Argemone, Australian Pea Vine, Bachelors Button and Boston Ivy. If Sweet Peas are planted during September, October, November and December they will have a good bottom growth in the spring and will carry more and bigger blossoms than if planted later.

Vegetable Garden—Begin planting Collards and Kohl Rabi. Continue planting Beets, Brussels Sprouts, Winter Cabbage, Carrots, Cauliflower, Corn Salad, Kale, Endive, Lettuce, Mushroom Spawn, Peas, Parsley, Parsnips, Radishes, Spinach and Turnips. Transplant Cauliflower and Cabbage plants sown in July. Hill up where necessary.

October

Flower Garden—Bulbs should be planted heavily this month, and it is an ideal time to commence planting Agapanthus, Hyacinths, Japanese Lilies, Easter Lilies, Peonies, Ranunculus, Snowdrops, Sparaxis and Tulips; also continue planting Amaryllis (Belladonna), Anemones, Crocus, Cyclamen, Freesia, Roman Hyacinths, Ixias, Jonquils, St. Joseph Lily, Calla Lily, Narcissus, Daffodil and Spanish Iris.

All flower seeds mentioned in the August and September calendars may be planted during this month except Forget-Me-Not and Feverfew.

Vegetable Garden—Continue transplanting Cabbage and Cauliflower plants. Continue to sow Beets, Brussels Sprouts, Collards, Winter Cabbage, Carrots, Cauliflower, Corn Salad, Kale, Endive, Kohl Rabi, Lettuce, Mushroom Spawn, Peas, Parsley, Parsnips, Winter Radishes, Spinach and Turnips. Hill up and cultivate round crops and clean up unused ground.

November

Flower Garden—Commence planting Tiger Lily Bulbs and continue planting all bulbs listed in October calendar. Continue planting Alyssum, Asparagus (decorative), Campanula, Candytuft, Carnation, Canterbury Bells, Coleus, Cyperus Alternifolius, Daisies, Godetia, Golden Feather, Gyphosphila, Hollyhock, Phlox, Pansies, Polyanthus, Scabiosa, Smilax, Snapdragon, Stocks and Sweet Peas. Plant Rose Bushes, Evergreens and deciduous shrubs. Make new lawns and renovate the old ones.

Vegetable Garden—Begin sowing Onion Seed. Continue sowing the following vegetable seeds: Beets, Carrots, Cauliflower, Lettuce, Mushroom Spawn, Peas, Parsley, Radishes, Spinach and Turnips. Dig up or plow all ground not occupied by crops. Work in well-rotted manure to prepare the ground for spring planting.

December

Flower Garden—To the bulbs listed from November planting may be added Lily of the Valley, which will give a complete list of all the bulbs to be planted during December. (See above.)

But very few Flower Seeds may be planted during this month, only Daisies and Sweet Peas being among those recommended.

Vegetable Garden—Continue sowing Onions, Beets, Carrots, Cauliflower, Lettuce, Mushroom Spawn, Parsley, Radishes, Spinach and Turnips. Clean up and burn all rubbish. Work over the ground already dug up and manured and plan for next year's garden.

Snails

Snails are probably one of the worst pests in most gardens, but a simple remedy that is most effective can be used anywhere.

The cowboys, in sleeping on the plains, coil a hair lariat on the ground all around them. This prevents rattlesnakes from crawling near them while asleep, as no snake will crawl under or over a hair lariat.

In the same way if a piece of bale rope is coiled around a bed of flowers, foliage, Sweet Peas, vines, or, in fact, any vegetation, the snail will not crawl over it. The little, sharp fibers in the rope are too sharp for the gelatine-like bodies of the snails.

How to Set Out and Care for Lawns

Lawns can be made in California any month in the year, but if made from September to May it will require less care and water. The ground should be well prepared. The soil should not be too rich, as at the start a rapid growth is not wanted from Grass sowed for Lawns.

After the ground is thoroughly worked, roll the soil before seeding to prevent the soil from settling uneven. After the soil is rolled, then rake the surface lightly. Sow the seed so as to cover the ground thoroughly with seed. After seeding cover seed lightly with soil. Then roll again so as to press the seed in firmly. If you have no roller, use boards and tramp on them so as to pack the ground firmly. A roller is preferred. If you do not pack the ground firmly the seed will grow in spots, and the mower will ruin the Lawn on account of the soil being loose.

Grass Seed will germinate in from 8 to 15 days, according to the weather. If a Lawn is made during the summer, after the seed has been rolled, the ground should be covered lightly with straw or grass so as to retain the moisture. New Lawns should not be allowed to dry out, not even for half a day. For the first 15 days the Lawn should be watered twice a day if it is required.

A Lawn should be fertilized after the first cutting. If these directions are carried out, the seed will quickly produce a firm, deep, velvety and elastic turf, with no tendency to stool or grow in clumps. It roots deeply and holds its beautiful emerald-green color throughout the season. To keep this beautiful color Lawns should be fertilized with Lawn dressing twice a year. If stable manure, which is often full of weed seeds, is used, it will cost more to remove the weeds than to put in a new lawn.

Good Lawns can be made from pure Kentucky Blue Grass, or Perennial Rye Grass or White Clover, or a mixture of Blue Grass and White Clover. One pound of Grass Seed will seed 225 square feet.

Lawn dressing is more effective when used after sundown and immediately watered, so as to force the dressing to the roots of the grass. If lawn dressing is put on during the heat of the day and not immediately watered, the Lawn will be damaged by the chemical which is contained in the dressing. If you follow these directions you will have a beautiful Lawn. Use 5 pounds of Lawn Dressing to 225 square feet.

Eucalyptus Trees

In transferring from the box to the field, one side of the box should be taken off and each plant should be cut out with a square of earth. The following day, or as soon as the soil has dried out sufficiently, hoe around each plant, reducing the soil to the finest condition of silt. Far better to water by hand the first two times than to attempt to run the water by means of ditches to plants. Watering of the plants should be made, unless rain intervenes, every ten days, followed by hoeing.

During the active growing season, which is, of course, the late spring and summer months, the rapid growth of the plants should be maintained by irrigation when required and thorough cultivation so that the seedlings may attain as large growth as conditions will warrant, for it is the stocky, sturdy seedling, with an abundance of foliage, which will be the best resister of frost. Above all things, never prune up the lateral branches for the first two seasons, as it will cause the seedlings to grow spindling, and they will not withstand heavy winds like plants having branches close to the ground to brace them up. Furthermore, the more top growth that is allowed to brace, the better will be the root system. After the second year all the leaders which grow parallel to the main stem should be cut out. The laterals may also be trimmed off if it is found necessary to cultivate. In case they are not cut off they will finally dwindle away of their own accord and drop off.

The distance apart varies from 5 x 8 feet to 10 x 10 feet.

Claims

Should your plants reach you in poor condition, caused by the crushing of the package in the mail, kindly return the part of the wrapper which states, "Received in poor condition," and we will gladly refill your order. Should the plants reach you in poor condition through delay in transit, return same at our expense; we will refill the portion which was in poor condition. Under no conditions will we refill orders unless the wrapper or plants are returned to us within five days after receipt of goods.

Planters Guide and Useful Information

Hot Beds

Good hot-beds can be made by digging down about three feet and filling the excavation with rather fresh horse manure in which there is a good deal of bedding straw. About 18 inches of this manure is sufficient, and then fill in one the top of it with about one foot of good soil mixed with sand. This manure pile will be compressed, and will soon begin to ferment, and will then keep the top soil warm and cause the seed to sprout quickly, and the young plant will grow very fast. It is best to enclose the hot-bed with boards, making what is called a cold-frame; this is done by running the length of the bed east and west and by making the north side about two feet high and the south side not more than six inches. The ends also should be enclosed and a sash of glass should be hung on hinges at the highest end. This sash should be raised for ventilation during most of the day, since the bed gets very warm and the atmosphere very close if kept too tightly closed for too long a time. As the plants grow, the sash should be left up longer each day to harden them and prepare them for final transplanting.

The hot-bed should have a very sunny location near a hedge or some building, well protected from the prevailing wind.

The object of the cold-frame is to make an artificial heat, and to protect the plants from frost during winter. Seed may be started any time during the winter, and the plants can be ready to set out just as soon as danger of frost is over.

As the sun gets too hot it is necessary to shade the bed, and the glass should be whitewashed or covered with sacking if necessary. Too much heat is fatal to the tender young plants.

Carnation Cultivation

The carnation is one of the most popular flowers; it is found in almost every garden, but we regret to state that there is not one garden in fifty where Carnations are properly grown. They are allowed to trail on sticks or frames, permitting the plant to grow from two to four feet high. This ruins the plant and the flowers that grow on such plants are so small that they are not fit to use in a bouquet.

Carnations will thrive in almost any soil. Use one-quarter of decayed manure worked well in the soil 12 inches deep. The young plants should not be set out any closer than 2 feet apart. Press the soil firmly around the roots so as not to allow air to reach the roots; water freely. Mulch, or cover, the ground with a layer of decayed manure from 1 to 2 inches thick. This application will keep the soil moist and prevent the hot sun from injuring the roots.

Stopping the growth of the young plants by pinching off the leading shoots is one of the most important operations connected with Carnation culture. By stopping the shoots the result is to produce a greater number of growths and make a bushy plant.

To get the largest blooms and long, stiff stems you should pinch off all the buds except the leading top bud.

The best time to water Carnations is in the morning.

Time to Plant—The best time to plant Carnations is from November to June, although they can be planted all the year round. Carnation plants generally become exhausted in two years, and should be replenished.

By following these culture directions, any one can grow the choicest of Carnations.

Dahlia Cultivation

Soil and Location—The Dahlia loves open, sunny situation, and for convenience and ease in cultivation a rich, mellow soil is preferred. The Dahlia possesses a happy and easy-going disposition, and readily adapts itself to almost any soil or situation, except dense shade and wet, sour soil. Dahlia plants or bulbs can be set as soon as danger of frost is over. Young plants or divided bulbs produce larger and finer flowers than large undivided clumps of bulbs.

Dahlia bulbs should be taken out of the ground and divided every year to obtain the best results. In dividing Dahlia bulbs one should be very careful and not pull them apart, but use a knife and be sure to cut part of the stem with the bulb so as to have an eye on the bulb, otherwise the bulb will not grow.

In preparing the soil use well-decayed manure, mixed thoroughly with the soil before planting. Dahlias do not do well if overfertilized.

To obtain large blooms or Exhibition flowers, select the largest bud on each stock and pinch off all the rest; by so doing the flowers reach an enormous size. If all the buds are allowed to remain the flowers will be smaller.

Chrysanthemum Cultivation

How to Plant—Chrysanthemums are one of the easiest plants to grow. They thrive in almost any soil, and require a sunny exposure.

To prepare the soil, use one-quarter of decayed manure and work it in thoroughly about 12 inches deep. The young plants should be set out about 2 feet apart, the ground pressed around the roots, and watered freely.

To Get Large Blooms—After the young plants have grown 12 inches, pinch them back about 4 inches, then each plant will send out from 3 to 4 stems. In order to give strength to the flowers, mulch, or cover, the ground with a layer of from one to two inches of decayed manure. As soon as the buds appear on stems, let the largest remain and pinch off all others. Water freely in the morning.

Strawberry Culture

The ground should be prepared by digging or plowing about twelve inches deep. The soil should be well enriched with thoroughly rotted stable manure or ground bone, or any other good fertilizer and worked thoroughly in the soil. Make the beds about 3 feet wide, so as to accommodate 3 rows of plants. The plants should be set 15 inches apart each way. Don't allow runner plants to set closer than 4 inches apart after the plants begin to send out runners.

The plants must have ample room to build up. Keep the soil around young plants well loosened and never allow the soil to get hard around the young plants. Hoe often.

Rose Cultivation

Unpacking—Should plants, when received, have a withered appearance, caused by an unusual delay in transit (which seldom occurs), soak them in water for an hour or more, so as to restore their vitality.

Time to Plant—Roses should be set out when the plants are dormant or when the leaves begin to fall. Planting season begins about November 15th.

How to Plant—The rose delights in an open, airy situation; all types are partial to clay loam, but will succeed in any ordinary soil if enriched with decayed manure. Dig up the soil thoroughly to a depth of twelve or fifteen inches. When the bush is planted press the soil firmly over the roots. Make a basin around the plant, and water freely to exclude air, and settle the earth.

Pruning—This operation is best performed during the dormant season. Most roses do better if moderately pruned. We usually remove from one-third to two-thirds of the past year's growth, and all weak or decayed wood should be entirely cut out. As a rule, the more vigorous the variety the less it should be pruned. It is always the new growth which gives the most flowers.

DISEASES AND REMEDIES

Aphis, or Green Fly—This is a small louse that attacks the young and tender shoots and buds. Tobacco dust powdered on the bushes in early morning will kill them or make a wash from old cigar stubs, tobacco dust, tobacco stems or tobacco leaves. Also spray with whale oil soap solution.

Mildew—This attacks the leaves and they become covered with a whitish mold. If not attended to, mildew will greatly retard the growth of the plant and impair the quality of the flower. Sprinkle with powdered sulphur or spray with a weak solution of potassium sulphide. If powdered sulphur is used early in the morning, when the dew is on the leaves, the remedy will be most effective. Otherwise spray with water before using the sulphur so it will adhere to the leaves.

Rose Bug—This little rogue is about the size of a house fly and crawls out of the ground in early spring; powdered white hellebore, or a solution of whale oil soap are the best remedies.

Rose Slug—This pest is about an inch long and of a grayish color. It appears early in the spring and feasts upon the opening buds and flowers. About the only thing that can be done is to pick them off by hand.

Fruit Trees

Planting—The holes should be dug at least eight inches to one foot larger in every direction than required by the roots when spread out in their natural position; top soil should be broken down from the edge, and raised to a cone in the center of the hole to set the tree on, and the roots then brought to their natural position; then carefully shovel in the top soil (which should be made quite fine) between the roots until covered; then tramp firmly as the filling up progresses; when nearly all filled in, place two inches of fine soil on top.

Time to Plant—Generally speaking, last half of December, all of January and February is the best time, but good results are obtained from March and even April planting. Depends on the rainfall in early fall and late spring.

Fertilize—If soil requires it, use fertilizers, the safer way being to use a mulch, or scatter on surface after planting; then cultivate in if a commercial fertilizer is used. In no instance put manure in the hole when planting, as it will burn the roots.

Protect Trees—The "Yucca palm fiber" tree protectors are the best, as they are easily put on and will last a long time. Most orchardists advise use of some protection around young trees when planting out.

Pruning—The tops should be shortened in more or less, depending on size, variety and condition of the trees. In commercial orchards one-year-old trees are cut down to from 18 inches to 2 feet above ground, and all the side limbs are cut to one or two buds; two-year-old trees with formed tops should be shortened in from 6 inches to 1 foot of main stem. No summer pruning should be done the first year; strong growing side limbs on lower part of the tree can be shortened in from 6 inches to 1 foot from stem, so that the leaves left will shade the trees.

Culture of Blackberries, Raspberries, Etc.

Each year, after the leaves have fallen, and have left the canes bare, cut off the canes that have fruited during the summer so they will be level with the surface of the ground, and mark each plant with a stake, then new canes will sprout out. After they have grown 4 to 6 feet high, prune off or pinch the tips of each cane to force out the laterals (side branches). It is the new growth that produces the choicest fruit. If the old canes are left on the plants they will produce inferior fruit.

If you intend to tie the canes to stakes or a trellis, let the plant attain a height of 5 to 6 feet before pinching or pruning off the tips of the new cane growth. If you intend to teach the plants to stand alone, pinch or prune off the tips when 2 to 4 feet high.

All old cane and other debris should be removed from the rows after pruning. Blackberries require a rich ground, and plenty of well-rotted stable manure, or compost, should be applied as soon as the patch is cleaned up. Blackberries should be planted in rows from 6 to 8 feet apart, and the plants 3 feet apart in each row, as they have a constant tendency to spread themselves in the rows.

Culture of Currants and Gooseberries

Culture of Currants and Gooseberries consists in cleaning them of the dead wood in winter and thinning the new shoots in the spring, as may be desired. They should be grown in rows from 5 to 6 feet apart, and the plants should be planted in rows 2 to 3 feet apart.

Treatment of the soil is the same as for Blackberries.

Planters Guide and Useful Information

Grape Culture

Soils for the Grape—Grape Vines will thrive in almost any soil that is fertile.

Distance of Planting—Plant 8 to 10 feet apart. If for raisins and you want to dry the grapes on trays in the fields, then plant vines 4 1/4 ft. in rows, and rows 11 ft. apart; double team can be used for cultivating and plowing when planted this way.

In planting great care should be taken; the holes should be carefully dug. If the ground is dry, pour water in the hole; thoroughly soak. Before planting all the dead or injured roots should be trimmed. Plant Vines from December to March.

Staking—In autumn or winter following the planting the vines should be staked either before or after pruning; in any case some time before the buds start in the spring.

The stakes used depend on the variety of the vine and method of pruning to be ultimately adopted.

Good, strong stakes, about 5 to 6 feet long and 1 3/4 to 2 inches square should be used and driven far enough into the ground, at least two feet, so they will stay firm and prevent them from being loosened by the force of the wind on the vine, which is tied to the stake. The stake should extend two or three inches above the

height at which the vine is intended to head. The stakes should be placed 1 to 2 inches from the vine on the side opposite to the prevailing heavy winds.

Pruning the Vine—The vines may be pruned at any time after the leaves have fallen. All the canes are removed entirely except the strongest, and these are cut back to two buds from the joint and the canes tied to the stake. It is very important that these canes should be straight. The top cut is made through the bud.

Diseases of the Vine—One of the most prevalent diseases is caused by fungus, which affects leaves, canes and berries, and which is locally known as "Mildew." This disease is recognized by grayish white coloring of the affected leaves, which, as the disease progresses, shrivel and dry up. The young cane also blackens and dies, and the individual grapes show whitish patches, which become darker colored and they crack open. The usual remedy is finely ground or sublimed sulphur, and applied several times during the season.

The Bordeaux Mixture and other copper preparations are sometimes useful upon grape vines.

How to Spray

Generally speaking, the bucket pump and knapsack sprayer are only adapted for use in the garden. The hand power barrel or tank pump is suitable for all kinds of spraying. Power sprayers, operated by gasoline engine, compressed air or other motive power are desirable where large orchards or trees are to be sprayed. The spray nozzles used should be capable under sufficient pressure of throwing a very fine spray.

Fungicides and Insecticides Are Effective Only When Properly Used.

The best results can only be obtained when the operator is thoroughly informed as to the object of spraying and the best methods to employ in combating fungous diseases and insects. One spraying in season is more effective than a dozen out of season. Old solutions should not be used. A spray pump with a good agitator, capable of maintaining a high pressure, and a nozzle delivering a fine spray are prime requisites in spraying fruit trees or potatoes.

SPRAY MIXTURES
Sprays for Fungous Diseases.

Bordeaux Mixture
Copper sulphate or blue vitriol..... 5 pounds
Quicklime 5 pounds
Water 50 gallons

Make a thin paste of the lime by slaking it with water, strain, place lime paste and Paris green in a bottle or jug and shake vigorously until thoroughly mixed; then add to full quantity of water. For potato beetles the proportions of poison may be increased to one pound to 125 gallons of water.

Strong Copper Sulphate Solution.
Copper sulphate 1 pound
Water 25 to 50 gallons

Weak Copper Sulphate Solution.
Copper sulphate 1 pound
Water 150 to 300 gallon

Ammoniacal Copper Carbonate
Copper carbonate 5 ounces
Ammonia (26° Beaume) 3 pints
Water 45 gallons

Potassium Sulphide.
Potassium sulphide (liver of sulphur) .4 ozs.
Water 5 gallons

Dissolve the sulphide in warm water and dilute in spraying strength. The solution loses its strength quite rapidly and should be used only while fresh.

SPRAYS FOR SUCKING INSECTS.
Lime-Sulphur Mixture.
Unslaked lime 15 to 25 pounds
Flower of sulphur 15 pounds
Water 50 gallons

Kerosene Emulsion. (Stock Solution)
Kerosene 2 gallons
Whale-oil soap..... 1/2 pound
or Soft Soap 1 quart
Water 1 gallon

To use, take kerosene emulsion 3 1/2 gallons, rain water 50 gallons. (Break with lye if rain water is not available).

Slice the soap finely and dissolve in water by boiling; add the boiling solution (away from the fire) to the kerosene, and stir or churn violently for from 5 to 8 minutes, until the mixture assumes a creamy consistency. If a spray pump is at hand, pump the mixture back upon itself with considerable force for about five minutes. If no soft-soap or whale-oil soap is at hand, use one pound common soap, dissolved in boiling water.

Kerosene and Milk Emulsion.
Kerosene 2 gallons
Milk (sour) 1 gallon

No heating is necessary in this case. Thorough churning or pumping as directed above will effect the emulsion. This emulsion is valuable where hard water must be used; no breaking with lye necessary.

VEGETABLE GARDEN PESTS—THE CAUSE AND CURE				
PLANT	INJURY	CAUSE	NAME	REMEDY PREVENTIVE
Asparagus	Shoots eaten...	Beetle and grub...	Asparagus beetle...	Poison grubs (Use paris green)
Asparagus	Shoots rusted...	Rust	Asparagus rust...	Bordeaux
Bean	Leaves eaten...	Grub	Bean beetle.....	Poison or Kerosene emulsion
Bean	Leaves and pods spotted	Plant disease.....	Anthranose	Bordeaux
Beet	Leaves spotted...	Plant disease.....	Leaf spot.....	Bordeaux
Cabbage	Leaves lousy...	Plant lice.....	Cabbage aphid.....	Kerosene emulsion or Whale-oil soap
Celery	Yellowish spotted leaves.....	Fungus	Celery blight.....	Bordeaux
Cucumber	Gnawed leaves..	Black and yellow beetle	Striped cucumber beetle	Poisoned Bordeaux
Cucumber	Lousy tips.....	Aphis	Aphis	Tobacco solution
Cucumber	Mildewed leaves.....	Fungus	Downy mildew.....	Bordeaux
Potato	Black leaves.....	Plant disease.....	Potato blight.....	Bordeaux
Potato	Scabby potatoes..	Plant disease.....	Potato scab.....	Corrosive sublimate solution
Squash	Mildew leaves...	Fungus	Mildew	Bordeaux
Squash	Lousy tops.....	Plant lice.....	Aphis	Tobacco solution
Tomato	Black leaves.....	Plant disease.....	Tomato blight.....	Bordeaux

SPRAYS FOR CHEWING INSECTS
FOR FRUIT TREES.
Paris green 1 pound
Lime 3 pounds
Water 150-200 gallons

FOR POTATOES.
Paris green 1 to 2 pounds
Lime 3 pounds
Water 100 pounds

Arsenate of Lead.
Arsenate of soda..... 4 ounces
Acetate of lead..... 12 ounces
Water 16 ounces

Dissolve each salt in 8 quarts of the water. Pour them together and let them stand over night. In the morning a white precipitate of arsenate of lead will have formed which should be dissolved in 50 gallons of water.

Arsenate of Soda.
White arsenic (crystals) 2 pounds
Carbonate of soda (washing soda) .4 pounds

White Hellebore.
Fresh white hellebore..... 1 ounce
Water 3 to 5 gallons

Arsenate of Lime.
White arsenic 2 ounces
Sal soda 1/2 pound
Fresh lime 4 pounds
Water to make..... 50 gallons

Boil arsenic and soda in small quantity of water in an iron pot not used for other purposes, until all the arsenic is dissolved. Slake the lime, making a thin paste of it, strain and add to full quantity of water; then add soda and arsenic solution and stir for a few minutes.

SPRAYS FOR SCALE INSECTS.
Hot water..... 1 gallon
Whale-oil soap..... 1 to 2 pounds

This Formula Is Useful for Plant Lice in Summer
Hot water..... 6 to 9 gallons
Whale-oil soap..... 1 pound

SPRAY FOR POTATO SCAB
Formalin (Formaldehyde).
Formalin 1 pint
Water 30 gallons

A Good Remedy for Pests in the Soil.
Vaporite.—Can be successfully used for the destruction of most underground insects and pests. It is not used on the plants or trees, but distributed in the soil and the vapor arising from same kills the vermin, etc. Used to destroy Wireworms, Cutworms, Leatherjacket Grubs, Eelworms, Centipedes, Millipedes, Woodlice, Beetles, Ants (including White Ants), Slugs, Borers, Snails and all similar insects in the soil.

SPRAY FOR THRIP
CHAS. C. NAVLET CO.,
San Jose, Cal.

In reply to your favor asking about the result of using Fuller's Carbolic Tree Spray for Thrip, I beg to say that I used Fuller's Carbolic Tree Spray for Thrip. One gallon of Carbolic Tree Spray to 40 gallons water, thoroughly dissolved, to be sprayed on trees just as buds begin to swell, and after an intermission of from 3 to 4 days give second spraying.

Cost of Tree Spray
1 gal. of Fuller's Carbolic Tree Spray....50c
40 gals. of water.....00c

41 gals. of Tree Spray.....50c

It will take from 2 to 3 gallons of spray for a tree, depending on size of tree. The Spray will cost about 1 1/4c per gallon.

With a power spray you can spray from 5 to 7 acres per day.

Last year off of 8 acres of French Prunes I took 11 tons of fruit, and this year, after using Fuller's Carbolic Tree Spray, I took 47 tons of green fruit from the same 8 acres.

Signed, FRANK STEVENS.
No. 16. 1910. Coyote, Santa Clara Co., Cal.

When and How to Prune Fruit Trees

CHERRY

The Cherry Tree may be pruned the same as any other deciduous fruit tree, until it is about five years old; after that the less pruning the better, except when necessary to cut out a dead or crossing branch.

APPLE AND CRABAPPLE

Bearing trees should not be allowed to carry too many branches, and pruning will largely consist of thinning out surplus shoots and removing interference between branches. It is not desirable to shorten-in the Apple, as is done with the Apricot and Peach.

PEACH AND NECTARINE

The Peach, fruiting only on wood of the previous year's growth, bears fruit farther away from the body of the tree each year, and the small shoots of from one-eighth to three-sixteenths in diameter begin to decline when the fruit is removed; to have healthy growth, all of these small branches must be removed.

PEAR

Prune straggling branches; thin out so that the branches will not wind around each other, but don't cut the top. The more you cut the more wood you get, and after the tree comes into full bearing it is plenty of time to head back.

PLUMS AND PRUNES

The annual growth must be shortened in every winter from one-half to two-thirds, and all laterals and fruit spurs must be cut back at every pruning.

APRICOTS

The practice is to remove half or two-thirds of the new growth and thin out by removing entirely enough new and old wood to prevent the tree from becoming thick and bushy.

	Time to Bear After Planting	Paying Crop
Apple	3 Years	7 Years
Apricot	2 "	4 "
Almond	2 "	5 "
Cherry	3 "	6 "
Chestnut	3 "	8 "
Currant	1 "	3 "
Fig	1 "	5 "
Grapes	1 "	3 "
Grape Fruit.	2 "	6 "
Lemons	2 "	6 "
Oranges	2 "	6 "
Peach	2 "	5 "
Pear	2 "	8 "
Plum	2 "	6 "
Persimmon	3 "	7 "
Pomegranate	5 "	10 "
Prunes	2 "	5 "
Quince	2 "	4 "
Walnut	2 "	7 "

All Trees will produce fruit the second year after planting, but not a paying crop.

Apples	30 or 40 feet each way
Apples, dwarf	10 or 15 "
Apricots	16 or 20 "
Almonds	20 or 24 "
Cherries	16 or 25 "

Pear, dwarf.	10 or 15 "
Plums	16 or 20 "
Persimmon	20 or 25 "
Pomegranate	20 or 25 "
Quince	8 or 14 "
Walnut	35 or 40 "

ALMONDS

The tree should be headed low and pruned during the first three years to secure a shapely, strong tree. After the third year little pruning is required except to thin out objectionable branches by winter pruning.

FIGS

After getting the general shape of the tree, there is little need of pruning except to remove the defective branches or those will cross and interfere with each other. It is better to remove branches entirely than shorten them, or, in shortening always cut to a strong lateral. Stubs left in pruning are very undesirable.

WALNUT

All the pruning needed is to obtain the general shape. Whenever shoots are killed back by frost or by sunburn, they should be cut off cleanly below the black mark which shows how far the injury has extended. If this is done, the die-back down the branches is usually prevented.

ORANGE-LEMON-POMELO

The Orange tree is more disposed naturally to assume a good form than most other trees, and for this it requires as little pruning as possible. Overcome the tendency of the young trees to run long shoots, which obviate a weeping habit, which interferes with irrigation and cultivation. Remove defective branches and those which will cross and interfere with each other.

CHESTNUT-PERSIMMON-POMEGRANATE-QUINCE

Require practically no pruning excepting to remove defective branches and those which interfere with each other.

Planters Guide and Useful Information

When Flower Seeds Should be Planted

We have taken the greatest of care in making this list practical when flower seeds should be planted, from the experience of the most successful florists and ourselves, and if the seed is sown in proper time with a little care success can be assured.

Abnoria.....	Sept. to Oct. and Feb. to May
Abutilon.....	Sept. to Oct. and Feb. to May
Acroclinium (everlasting flower).....	Feb. to May
Ageratum.....	Feb. to May
Agrostis (ornamental grasses).....	Feb. to May
Alyssum (sweet).....	Sept. to Nov. and Feb. to May
Amaranthus.....	Feb. to May
Ammobium.....	Feb. to May
Anagallis.....	Sept. to Oct. and Feb. to May
Argemone.....	Sept. to Oct. and Feb. to May
Asparagus (Decorative).....	Aug. to Nov. and Feb. to May
Asters.....	Feb. to May
Australian Pea Vine.....	Sept. to Oct. and Feb. to May
Australian Star Flower.....	Feb. to May
Baby's Breath.....	Aug. to Nov. and Feb. to May
Bachelor's Button.....	Sept. to Oct. and Feb. to May
Balloon Vine (Love in a Puff).....	Feb. to May
Balsam.....	Sept. to Oct. and Feb. to May
Bartonia Aurea (Golden Bartonia).....	Feb. to May
Bean (Scarlet Runner).....	March to Aug.
Begonia.....	Feb. to May
Bignonia.....	Feb. to May
Boston Ivy.....	Sept. to Oct. and Feb. to May
Brachycombe.....	Feb. to May
Browallia.....	August
Bryonopsis (Orn. climber).....	March to June
Cactus.....	Aug. to Oct. and Feb. to May
Calceolaria.....	Aug. to Oct. and Feb. to May
Calendula.....	Aug. to Oct. and Feb. to May
Callopsis.....	Aug. to Oct. and Feb. to May
Campanula.....	Aug. to Nov. and Feb. to May
Canary Bird Flower (pretty vine).....	Feb. to May
Candytuft.....	Aug. to Nov. and Feb. to June
Canna.....	Feb. and June
Canterbury Bells.....	Aug. to Nov. and Feb. to May
Carnation.....	Aug. to Nov. and Feb. to May
Castor Bean.....	March to June
Catchfly (Silene).....	Aug. to Oct. and Feb. to May
Centaurea (Dusty Miller).....	Feb. to May
Centaurea (Sweet Sultan).....	Feb. to May
Cleosia.....	March to June
Clematis Paniculata.....	Aug. to Nov. and Feb. to May
Cineraria.....	Feb. to May
Clarkia.....	Aug. to Oct. and Feb. to May
Cobea Scandens (climber).....	Feb. to May
Cockscomb.....	March to June
Coleus.....	July to Nov. and Feb. to May
Columbine.....	Sept. to Oct. and Feb. to May
Coreopsis.....	Aug. to Oct. and Feb. to May
Cosmos.....	Feb. to May
Cuphea.....	Feb. to May
Cyperus Alternifolius.....	Aug. to Nov. and Feb. to May
Cypress Vine.....	Feb. to May
Datura.....	Feb. to May
Dahlia.....	Feb. to May
Daisies.....	Sept. to Dec. and Feb. to April
Delphinium.....	Aug. to Oct. and Feb. to May
Dianthus.....	Aug. to Oct. and Feb. to May
Eschscholtzia (Cal. poppy).....	Aug. to Oct. and Feb. to May
Feverfew.....	Aug. to Sept. and Feb. to May
Forget-me-not.....	Aug. to Sept. and Feb. to May
Four-o'clock.....	Feb. to May
Foxglove.....	Aug. to Oct. and Feb. to May
Galliardia.....	Aug. to Nov. and Feb. to May
Globe Amaranth.....	March to May
Godetia.....	Aug. to Oct. and Feb. to May
Golden Feather.....	Aug. to Oct. and Feb. to May
Golden Rod.....	Feb. to May
Gourds.....	April to June
Gypsophila (bouquet grass).....	Aug. to Nov. and Feb. to May
Heichrysum.....	Feb. to May
Heliotrope.....	Feb. to May
Hollyhock.....	Aug. to Nov. and Feb. to May
Honeysuckle.....	Sept. to Oct. and Feb. to May
Hop Vine.....	Feb. to May
Hyacinth Bean.....	Feb. to June
Ice Plant.....	Mar. to May
Ipomea.....	Feb. to May
Job's Tears.....	Feb. to May
Kudzu Vine.....	Feb. to May
Lantana.....	Aug. to Oct. and Feb. to May
Lavender.....	Aug. to Oct. and Feb. to May
Larkspur.....	Aug. to Oct. and Feb. to May
Lobelia.....	Feb. to May
Lupin.....	Aug. to Nov. and Feb. to May
Malvues.....	Feb. to May
Marguerite.....	Feb. to May
Marigolds.....	Aug. to Nov. and Feb. to May
Marigold (African tagetes).....	Feb. to May
Maurandia (climber).....	Feb. to May
Mignonette.....	Aug. to Nov. and Feb. to May
Mimulus.....	Feb. to May
Mina Lobata.....	Feb. to May
Moon Flower.....	Feb. to May
Morning Glory.....	Feb. to May
Musk Plant (house plant).....	Feb. to May
Nasturtium (tall and dwarf).....	Feb. to May
Nigella.....	Feb. to May
Oxalis.....	Feb. to May
Pampas Grass.....	Feb. to May
Pansy Flower.....	Feb. to May
Petunia.....	Feb. to May
Pansies (for spring flowering).....	Aug. to Nov.
Pansies (for summer and late blooming).....	Feb. to May
Phlox.....	Aug. to Nov. and Feb. to May
Pinks (China or Dianthus).....	Aug. to Oct. and Feb. to May
Poppy.....	Feb. to May
Polyanthus.....	Aug. to Nov. and Feb. to April
Portulaca.....	Feb. to June
Primrose (Mexican).....	Feb. to May
Primula (Chinese Primrose).....	Feb. to May
Rhodanthe (everlasting).....	Feb. to April
Salpiglossis.....	Aug. to Oct. and Feb. to May
Salvia.....	Feb. to May
Scabiosa.....	Aug. to Nov. and Feb. to May
Scarlet Flax.....	Feb. to May
Sensitive Plant.....	Feb. to May
Smilax.....	Aug. to Nov. and Feb. to May
Snapdragon.....	Aug. to Nov. and Feb. to May
Stocks.....	Aug. to Nov. and Feb. to May
Sunflower.....	Feb. to May
Sweet Peas.....	Sept. to June
Sweet William.....	Aug. to Oct. and Feb. to May
Tritoma.....	Feb. to May
Verbena.....	Feb. to May
Violet.....	Feb. to May
Virginia Creeper.....	Feb. to May
Wallflower.....	Aug. to Oct. and Feb. to May
Whitlavia.....	Feb. to May
Wistaria.....	Feb. to May
Zinnia.....	Feb. to May

WHEN BULBS SHOULD BE PLANTED

From our experience and that of other first-class florists, bulbs planted according to our list of months when they should be planted will give the best results.

Agapanthus.....	Oct. to April
Amaryllis (Belladonna).....	Sept. to March
Amaryllis (Johnsonii).....	Feb. to April
Anemones.....	Sept. to Feb.
Tuberous Begonia.....	Feb. to May
Caladium.....	Jan. to June
Cinnamon Vine.....	Jan. to June
Crocus.....	Sept. to Feb.
Cyclamen.....	Aug. to March
Daffodil.....	Sept. to Feb.
Dahlias.....	Jan. to June
Dielytra (Bleeding Heart).....	Jan. to April
Freesia.....	Aug. to Jan.
Gladiolus.....	Jan. to June
Gloxinia (house plant).....	Jan. to May
Hyacinths.....	Oct. to Jan.
Roman Hyacinths.....	Aug. to Jan.
Iris, Japanese.....	Jan. to March
Iris, Spanish.....	Sept. to Feb.
Ixias.....	Sept. to Jan.
Jonquils.....	Sept. to Jan.
Lilies (Japanese variety).....	Oct. to March
St. Joseph Lily.....	Aug. to Nov.
Tiger Lily.....	Nov. to March
Lily of the Valley.....	Dec. to April
Lilies, Easter.....	Oct. to March
Lilies, Calla.....	Aug. to March
Madeira.....	Jan. to June
Mystery Bulb.....	Jan. to March
Narcissus.....	Sept. to Feb.
Peonies.....	Oct. to June
Ranunculus.....	Oct. to Feb.
Snowdrops.....	Oct. to Feb.
Sparaxis.....	Oct. to Feb.
Spirea Japonica.....	Jan. to May
Tuberoses.....	Jan. to July
Tulips.....	Oct. to Feb.

QUANTITY OF SEED REQUIRED TO SOW AN ACRE OF GROUND

	Pounds
Alfalfa or Lucerne.....	20 to 30
Barley—Broadcast.....	125 to 130
Beans—Dwarf or Bush—Hills.....	40
Beans, Dwarf or Bush—Drills.....	80
Beans, Tall or Pole—Hills.....	25
Beet, Garden—Drills.....	10
Beet, Field—Drills.....	8 to 10
Broom Corn—Drills.....	12
Buckwheat—Broadcast.....	45
Cabbage, in beds, to cover an acre after transplanting.....	1/4
Carrot—Drills.....	3
Clover, Alsike—Broadcast.....	6 to 8
Clover, Red—Broadcast.....	12 to 15
Clover, White—Broadcast.....	8 to 10
Corn, Sweet or Field—Hills.....	115
Corn, to cut gren, for fodder—Drills or Broadcast.....	125
Cucumber—Hills.....	2
Flax (when wanted for seed).....	30
Flax (when wanted for fibre).....	50
Grass, Kentucky Blue (for pasture).....	30 to 50
Grass, Kentucky Blue (for lawns).....	80 to 100
Grass, Orchard.....	40
Grass, English or Australian Rye for meadow.....	50
Grass, English or Australian Rye for lawns.....	75 to 100
Grass, Indian Rye.....	50
Grass, Red Top.....	30
Grass, Timothy.....	20
Grass, Meadow Fescue or English Blue.....	35
Grass, Mesquite in the chaff.....	25 to 30
Grass, Hungarian.....	25 to 30
Grass, Millet for pasture.....	25 to 30
Grass, Millet for seed.....	15
Grass, Mixed Lawn.....	60 to 65
Grass, Stainfain.....	40 to 50
Grass Mixture for Clover.....	8
Hemp—Broadcast.....	40 to 50
Melon, Water—Hills.....	2 to 3
Melon, Musk—Hills.....	2 to 2 1/2
Oats—Broadcast.....	80 to 90
Onion, Black Seed—Drills.....	5 to 6
Onion, Top Sets—Drills.....	250
Onions, Black Seed, for bottom sets.....	50 to 60
Parsnips—Drills.....	5 to 6
Peas—Drills.....	100
Peas—Broadcast.....	200
Potatoes—Hills.....	500
Pumpkin—Hills.....	5 to 6
Radish—Drills.....	8 to 10
Rhubarb.....	4 to 5
Rye—Broadcast.....	100
Sage—Drills.....	8
Spinach—Drills.....	10
Squash, Bush Varieties—Hills.....	4
Squash, Running Varieties—Hills.....	3
Sugar Cane.....	4 to 5
Tomato—In Beds, to transplant.....	1/4 to 1/2
Turnip and Ruta Baga—Drills.....	1 1/2 to 2
Turnip and Ruta Baga—Broadcast.....	3
Vetches.....	80
Wheat—Broadcast.....	80 to 100
Wheat—Drills.....	70 to 80

Of the above all are planted out of doors except Egg Plant, Peppers and Tomatoes, which should be started early in frames or in the house and transplanted out of doors about the first of May.

Table for Planting Vegetable Seeds and Plants

Quantity of seed, or number of plants required to produce a given number of plants, or sow a certain quantity of ground, with distances to plant, depth of planting, times for planting and period required for production of crop.

IN USING THIS TABLE IF YOU DO NOT USE PLANTS, DROP TWO OR THREE SEEDS THE DISTANCE APART AS GIVEN BELOW IN TABLE, IF MORE THAN ONE SEED GROWS, THIN OUT.

Kind of Vegetable	Quantity of Seed Required to Produce a Given Number of Plants or Sow a Certain Quantity of Ground	Distance Apart for Plants to Stand			Depth of Planting (Note—See below)	When to Plant	Ready for Use After Planting
		Rows Apart Horse Cultivation	Rows Apart Hand Cultivation	Plants Apart in Rows			
Artichoke, Globe	1 oz. to 500 plants	4 to 6 ft.	3 to 4 ft.	2 to 3 ft.	1 to 2 in.	January to May	Seed 15 months Plants 6 to 8 mos.
Artichoke, Jerusalem	2 qts. tubers to 100 ft. of row	2 to 4 ft.	1 to 2 ft.	1 to 2 ft.	2 to 3 in.	February to May	6 to 8 months
Asparagus, Seed	1 oz. to 60 ft. of drill	2 to 3 ft.	1 to 2 ft.	3 to 5 ft.	1 to 2 in.	February to May	3 to 4 years
Asparagus, Plants	50 plants to 100 ft. of row	2 to 5 ft.	2 to 3 ft.	2 to 3 ft.	3 to 5 in.	February to May	1 to 2 years
Beans, Bush	1 lb. to 50 ft. of drill	30 to 36 in.	18 to 24 in.	12 to 18 in.	1 to 2 in.	March to August	40 to 65 days
Beans, Pole	1 lb. to 75 hills	3 to 4 ft.	3 to 4 ft.	2 to 3 ft.	1 to 2 in.	March to August	50 to 80 days
Beets, Table	1 oz. to 50 ft.	30 to 40 in.	18 to 24 in.	6 to 12 in.	1 to 2 in.	All year round	60 to 80 days
Beet, Swiss Chard or Sea Kale	1 oz. to 50 ft. of drill	30 to 40 in.	18 to 24 in.	6 to 12 in.	1 to 2 in.	All year round	60 to 80 days
Broccoli	1 oz. to 2,000 plants	3 to 4 ft.	30 to 36 in.	24 to 36 in.	1 to 2 in.	January to May	100 to 130 days
Brussels Sprouts	1 oz. to 2,000 plants	3 to 4 ft.	30 to 36 in.	24 to 36 in.	1 to 2 in.	Jan. to Apr., July to Oct.	90 to 120 days
Cabbage, Early	1 oz. to 2,500 plants	3 to 4 ft.	30 to 36 in.	24 to 36 in.	1 to 2 in.	Jan. to Apr., July to Oct.	90 to 130 days
Cabbage, Late	1 oz. to 2,500 plants	3 to 4 ft.	30 to 36 in.	24 to 36 in.	1 to 2 in.	Jan. to Apr., July to Oct.	90 to 130 days
Carrot	1 oz. to 200 ft. of drill	30 to 40 in.	18 to 24 in.	3 to 6 in.	1 to 2 in.	All year round	75 to 110 days
Cauliflower	1 oz. to 2,500 plants	3 to 4 ft.	30 to 36 in.	24 to 36 in.	1 to 2 in.	July to January	100 to 130 days
Celeriac	1 oz. to 4,000 plants	30 to 40 in.	18 to 24 in.	6 to 12 in.	1 to 2 in.	February to May	100 to 150 days
Celery	1 oz. to 4,000 plants	3 to 4 ft.	18 to 24 in.	18 to 24 in.	1 to 2 in.	Feb. to May, Sept. to Oct.	120 to 150 days
Chervil	1 oz. to 100 ft. of row	30 to 40 in.	18 to 36 in.	3 to 6 in.	1 to 2 in.	February to May	5 to 6 months
Chicory Root, Seed	1 oz. to 100 ft. of drill	30 to 40 in.	18 to 24 in.	3 to 6 in.	1 to 2 in.	February to May	5 to 6 months
Citron	1 oz. to 30 hills	8 to 10 ft.	6 to 8 ft.	6 to 8 ft.	1 to 2 in.	March to June	100 to 130 days
Collards	1 oz. to 2,500 plants	3 to 4 ft.	30 to 36 in.	24 to 36 in.	1 to 2 in.	Sept. to Oct., Feb. to May	90 to 120 days
Corn Salad	1 oz. to 100 ft. of row	30 to 40 in.	18 to 24 in.	4 to 8 in.	1 to 2 in.	Mar. to May, Aug. to Oct.	60 to 90 days
Corn, Sweet	1 lb. to 150 hills	36 to 42 in.	30 to 36 in.	30 to 36 in.	1 to 2 in.	March to July	60 to 100 days
Cress	1 oz. to 100 ft. of drill	3 to 4 in.	18 to 24 in.	4 to 8 in.	1 to 2 in.	February to April	50 to 60 days
Cress, Water	Sow broadcast around springs	or on banks	of running	water	surface	February to April	60 to 70 days
Cucumber	1 oz. to 75 hills	4 to 6 ft.	4 to 6 ft.	4 to 6 ft.	1 to 2 in.	March to June	60 to 80 days
Dandelion	1 oz. to 100 ft. of row	30 to 40 in.	18 to 24 in.	4 to 8 in.	1 to 2 in.	March to August	3 to 6 months
Egg Plant	1 oz. to 1,500 plants	30 to 40 in.	24 to 30 in.	18 to 24 in.	1 to 2 in.	February to April	100 to 140 days
Endive	1 oz. to 200 ft. of drill or 3,000 plants	30 to 36 in.	18 to 24 in.	8 to 12 in.	1 to 2 in.	March to October	90 to 180 days
Horse Radish	100 roots to 100 ft. of row	30 to 40 in.	24 to 30 in.	12 in.	3 to 4 in.	January to May	9 to 12 months
Kale or Borecole, Dwarf	1 oz. to 2,000 plants	30 to 36 in.	24 to 30 in.	18 to 24 in.	1 to 2 in.	Jan. to Apr., July to Oct.	90 to 120 days
Kale or Borecole, Tall	1 oz. to 2,000 plants	36 to 48 in.	30 to 36 in.	30 to 36 in.	1 to 2 in.	Jan. to Apr., July to Oct.	90 to 120 days
Kohl-Rabi	1 oz. to 2,000 plants	30 to 36 in.	18 to 24 in.	4 to 8 in.	1 to 2 in.	Feb. to June, Sept. to Oct.	60 to 80 days
Leek	1 oz. to 200 ft. of drill	30 to 36 in.	14 to 20 in.	4 to 6 in.	1 to 2 in.	February to April	120 to 180 days
Lettuce	1 oz. to 3,000 plants	30 to 36 in.	18 to 24 in.	6 to 12 in.	1 to 2 in.	All year round	60 to 90 days
Melon, Muskmelon	1 oz. to 75 hills	8 to 10 ft.	4 to 6 ft.	4 to 6 ft.	1 to 2 in.	March to June	120 to 150 days
Melon, Watermelon	1 oz. to 30 hills	8 to 12 ft.	8 to 12 ft.	8 ft.	1 to 2 in.	March to June	100 to 120 days
Mustard	1 oz. to 50 ft. of row	30 to 36 in.	18 to 24 in.	2 to 3 ft.	1 to 2 in.	February to May	60 to 90 days
Okra or Gumbo	1 oz. to 50 ft. of drill	3 to 4 ft.	2 to 3 ft.	24 to 30 in.	1 to 2 in.	March to June	90 to 140 days
Onion, Seed	1 oz. to 150 ft. of drill	30 to 36 in.	20 to 24 in.	4 to 6 in.	1 to 2 in.	November to May	4 to 8 months
Onion, Sets	1 lb. to 30 ft. of drill	30 to 36 in.	20 to 24 in.	2 to 4 in.	1 to 2 in.	November to May	30 to 60 days
Parsley	1 oz. to 200 ft. of drill	30 to 36 in.	18 to 24 in.	3 to 6 in.	1 to 2 in.	All year round	90 to 120 days
Parsnip	1 oz. to 200 ft. of drill	30 to 40 in.	18 to 24 in.	3 to 6 in.	1 to 2 in.	July to Oct., Jan. to May	125 to 160 days
Peas	1 lb. to 200 ft. of drill	3 to 4 ft.	30 to 36 in.	4 to 6 in.	1 to 2 in.	All year round	40 to 80 days
Pepper	1 oz. to 1,500 plants	30 to 36 in.	18 to 24 in.	15 to 18 in.	1 to 2 in.	February to May	100 to 140 days
Potato	5 lbs. to 100 ft. of row	30 to 36 in.	24 to 36 in.	12 to 16 in.	4 in.	February to May	80 to 140 days
Potato, Sweet	3 lbs. or 75 slips to 100 ft. of row	4 to 6 ft.	3 to 5 ft.	14 in.	3 in.	February to May	140 to 160 days
Pumpkin	1 oz. to 40 hills	8 to 12 ft.	8 to 12 ft.	8 ft.	1 to 2 in.	March to June	100 to 140 days
Radish	1 oz. to 100 ft. of drill	24 to 36 in.	12 to 18 in.	2 to 3 in.	1 to 2 in.	All year round	30 to 60 days
Rhubarb, Seed	1 oz. to 100 ft. of row	36 to 40 in.	30 to 36 in.	6 to 8 in.	1 to 2 in.	February to May	12 to 18 months { Crimson winter others 2 to 3 yrs.
Rhubarb, Roots	33 roots to 100 ft. of row	4 to 5 ft.	3 to 5 ft.	3 ft.	4 in.	January to April	6 to 12 months
Ruta-Baga	1 oz. to 100 ft. of row	30 to 40 in.	18 to 24 in.	4 to 6 in.	1 to 2 in.	All year round	60 to 90 days
Sage	1 oz. to 200 ft. of drill	30 to 40 in.	18 to 24 in.	3 to 6 in.	1 to 2 in.	February to May	4 to 6 months
Salsify	1 oz. to 60 ft. of drill	30 to 36 in.	18 to 24 in.	2 to 4 in.	1 to 2 in.	February to May	20 to 180 days
Spinach	1 oz. to 100 ft. of drill	30 to 36 in.	12 to 18 in.	4 to 6 in.	1 to 2 in.	August to June	60 to 90 days
Squash, Early	1 oz. to 50 hills	4 to 6 ft.	3 to 4 ft.	3 to 4 ft.	1 to 2 in.	March to June	60 to 80 days
Squash, Late	1 oz. to 15 hills	6 to 7 ft.	6 to 7 ft.	3 to 4 ft.	1 to 2 in.	March to June	120 to 160 days
Thyme	1 oz. to 200 ft. of drill	30 to 40 in.	18 to 24 in.	3 to 6 in.	1 to 2 in.	February to May	4 to 6 months
Tobacco	1 oz. to 10,000 plants	36 to 42 in.	30 to 36 in.	30 to 36 in.	1 to 2 in.	February to April	5 to 7 months
Tomato	1 oz. to 4,000 plants	4 to 6 ft.	3 to 4 ft.	3 to 4 ft.	1 to 2 in.	February to May	4 to 6 months
Turnip	1 oz. to 250 ft. of drill	30 to 40 in.	18 to 24 in.	4 to 6 in.	1 to 2 in.	All year round	60 to 80 days
Vegetable Marrow	1 oz. to 40 hills	8 to 12 ft.	8 to 12 ft.	8 to 9 ft.	1 to 2 in.	April to June	110 to 140 days

NOTE—Roots, Plants or Seed should be covered with soil to the depth indicated in column Depth of Planting.

In many instances much time and trouble can be saved by buying Vegetable Plants instead of seed.

Germination of Seeds

The number of days as first indicated apply to Seed planted in hot beds or protected places.

Asparagus	about one month
Beans	8 to 10 days
Beets	6 to 10 days

A Corner of Our Office Where Mail Orders Are Entered and Acknowledged

View Showing a Portion of Our Retail Seed Store—the Largest of Its Kind on the Pacific Coast.

PLANT DEPARTMENT

It is no idle boast for us to say that we do the largest plant mailing business of its kind in the world, and the reasons therefor are not hard to find. In the first place, our prices are much lower than any other house; usually one-half what others charge; and a comparison of our prices with others will prove this statement to be a fact. Others charge extra for packing. This is quite an item of expense and should be taken into consideration when comparing our prices with others. You may safely figure on getting from us for one dollar what would cost elsewhere twice as much.

All Plants bought by the hundred are sent by express at the purchaser's expense. All plants that are Postpaid, or Delivered Free at the prices marked are plainly indicated and unless otherwise mentioned are sent by express, the purchaser to pay transportation charges. When plants are sent by express we are enabled to send larger plants and when convenient with a good ball of earth around the roots. For this reason plants thus shipped take hold a little quicker than ordinary.

A Corner of Our City Salesyard.

Ageratum Plants

Dwarf Varieties: Heavenly Blue, Snowball and Pure White.

Tall Varieties: Giant Mexican Light Blue.

50c per Dozen, Postpaid—100 for \$3.00—Worth Double

READY FOR IMMEDIATE DELIVERY

The Ageratum is a very handsome and easily cultivated plant, and one of the very best for bedding purposes. It begins to flower in early spring and until the first frost is literally a sheet of feathery bloom.

Important

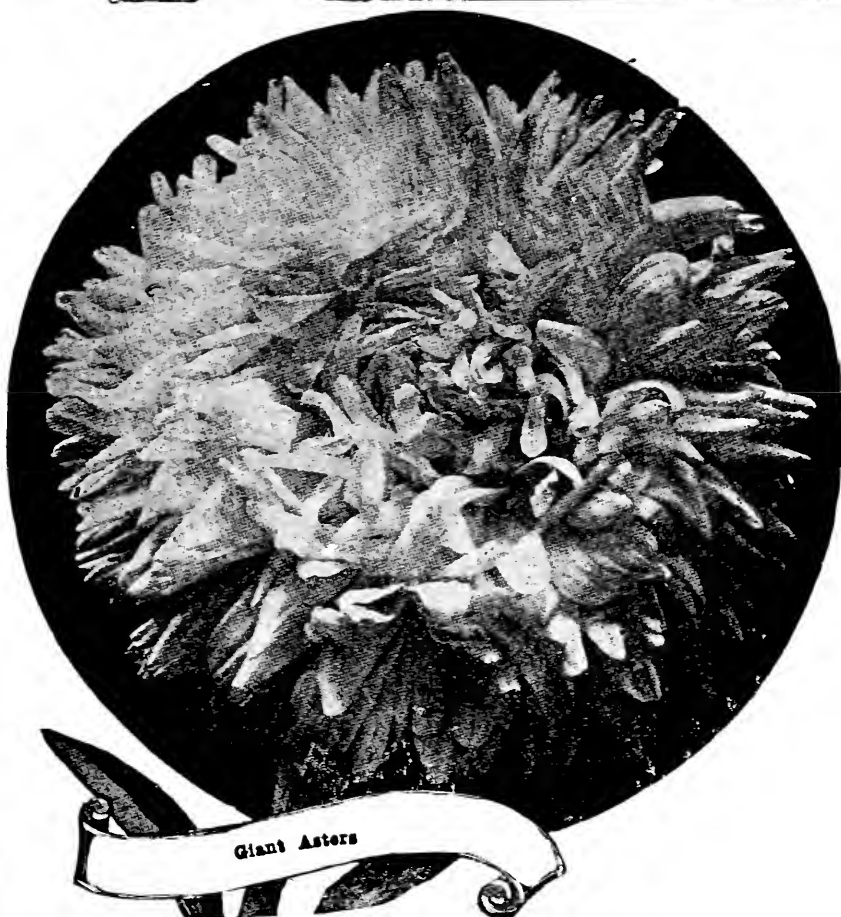

Plants sent by mail should be set out immediately on their arrival. All our plants are strong, healthy and hardy. Grown under perfect conditions. They are packed by expert packers and we guarantee them to arrive in first-class shape. Remember, we guarantee safe arrival and absolute satisfaction or money refunded.

Please Note

All plants are in perfect condition when shipped. You cannot buy better ones anywhere else. QUALITY counts, and ours are the best. The phenomenal growth of this department has made it again necessary to increase our capacity this year nearly 100 per cent over last year.

Ageratum

Giant Asters

Giant Aster Plants

Pure White, Silvery Lavender, Royal Purple, Bright Pink, Glowing Crimson

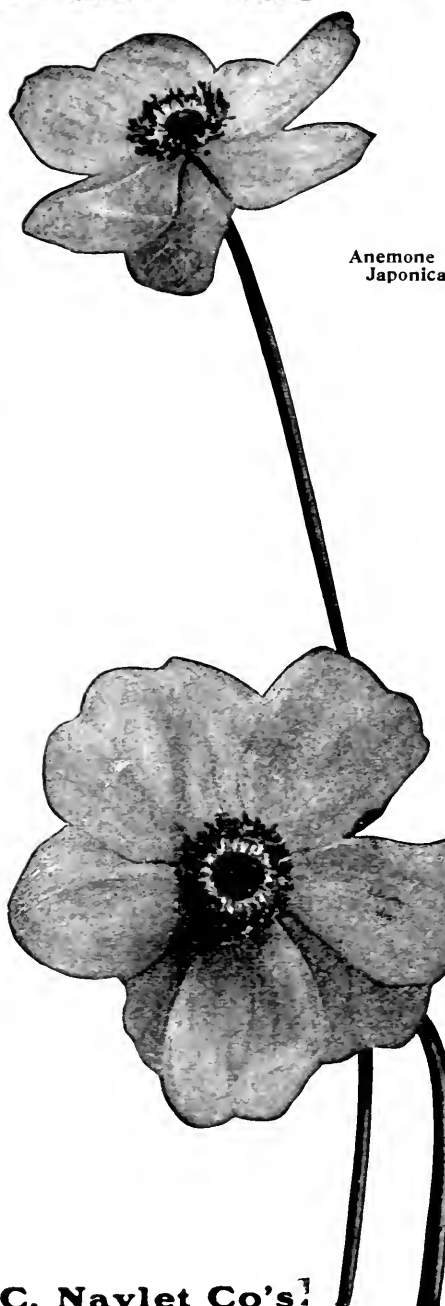

12 for 35c postpaid, 100 plants for \$2.00

READY FOR DELIVERY MARCH 1ST

These Asters are a superior race in every way. The plants are of very healthy, robust, branching growth and produce—gracefully poised on extra long, strong and well leaved stems—exceedingly double flowers of massive size, great substance and magnificent beauty. They are wonderfully prolific bloomers—each plant carrying from twenty-five to forty perfect flowers—and are continuously in bloom from early summer until long after the other garden favorites have been killed by frost. As cut flowers these Asters rival Chrysanthemums, and when grown in masses or grouped in beds their decorative effect is unapproachably gay and enlivening.

Begonia Vernon

Anemone Japonica

Chas. C. Navlet Co's! Anemone Japonica Plants (WIND-FLOWER)

READY FOR IMMEDIATE DELIVERY

Anemone Japonica, Rosea 25c each. Anemone Japonica, Alba, Pure White, 25c each. Anemone Japonica, Rubra, Red, 25c each, \$2.50 per dozen.

DELIVERED FREE

One of the most beautiful of all the hardy perennials. They commence blooming in August and increase in beauty until frost. The flowers are produced on long, wiry stems and completely covered with blossoms in the Fall when there are but few other flowers in the garden. There is nothing more beautiful than these flowers for house or church decorations; they last a long time in water. They are fine for borders or groups in half shady places.

Chas. C. Navlet Co's Begonia Vernon Plants

SEMPERFLORUM HYBRIDA

15c per plant, \$1.00 per dozen, Postpaid, \$5.00 per 100.

READY FOR IMMEDIATE DELIVERY

A charming new variety, distinguished by the splendid coloring of its foliage and flowers. The latter are bright orange-carmine, and contrast beautifully with the foliage, which, when exposed to the sun, changes into a deep olive-green that is shaded and edged with bronze. Grows to a height of 18 inches. Splendid for bedding and pot culture. 15c per plant, \$1.00 per dozen, postpaid, \$3.00 per 100.

Chas. C. Navlet Co's Single Vernon Plants

15c per plant, \$1.00 per dozen

DELIVERED FREE

READY FOR IMMEDIATE DELIVERY

This well-known plant is very popular. Its cheerful aspect and perpetual-blooming qualities make it a charming plant. Colors—delicate pink, pure white and bright red. 15c per plant, \$1.00 per dozen, postpaid, \$5.00 per 100.

Chas. C. Navlet Co's Canna Roots THREE GORGEOUS CANNAS

Large Roots, Our Price Now 25c Each, 3 For 60c Postpaid, 12 For \$1.50

READY FOR IMMEDIATE
DELIVERY

Cannas

The Canna is known as the King of Bedding Plants, and it richly deserves the title. It also makes a very ornamental screen or hedge, and is very valuable for placing along fences, walls, driveways and porches. The dazzlingly brilliant flowers — produced in every imaginable color but blue—are either plain, dappled, edged, striped or variegated, and the green or bronze foliage is often striped like that of some rare tropical plant. Begins to bloom by the end of June and never stops until frost. Easily grown.

Alsace

A new Canna of marvelous beauty. It is an early, continuous bloomer and produces densely crowded spikes of splendidly formed bright, lemon-yellow flowers, that change to almost snow-white without a spot. The foliage is massive in size and a beautiful light green in color. There are many rich orange and yellow Cannas, but none to compare with Alsace.

King Humbert

A stately new Canna that produces large trusses of immense, brilliant orange-scarlet flowers, with bright and red shadings and rich bronze foliage. Of all the wonderful flowering and foliage plants yet introduced, King Humbert takes the lead for size, color and habit. A cross between the Orchid flowering and the French or Crozy families, it combines the best features of both—the large flowers of one with the free-blooming character of the other. It has taken the highest awards whenever shown in competition with other Cannas, and is bound to become a universal favorite. Be sure and include this novelty in your order.

Orion

A magnificent shell-pink Canna of entrancing beauty. The flowers borne in huge clusters, are of very large size, and the foliage is a very pleasing light bronze in color. It is a very ornamental lawn plant. It is easily the finest Canna of its color. We know that you will be delighted with these new Cannas, formerly selling for 50 cents each. Now we offer them for 25c each, 3 for 60c, postpaid; 12 for \$1.50.

A BARGAIN IN CANNAS

To those of our customers who wish massive beds or quantities to plant along drives, we make the following special offer: Our selection from varieties listed on this page in lots of 25 or more, \$5.00 per 100.

Gorgeous Cannas

Giant Flowering—Ever-Blooming

Note the low price per Root, 15 cents each, Postpaid. 12 for \$1.25. Half what others ask. Ready for immediate delivery.

Allemania—A magnificent Orchid flowered variety. The outer petals of the flowers are bright scarlet with a broad yellow border, the latter dotted with orange-red spots—the inside colors are scarlet and dark red, beautifully mottled and variegated.

Austria—A golden-yellow Orchid flowered Canna of enormous size. A vigorous grower and free bloomer, each stalk being surmounted by tall flower spikes that stand upright like immense Lilies.

Burbank—A gigantic Orchid flowered Canna, with very shiny green leaves of thick, leathery texture. The flowers are a beautiful canary-yellow, with a few carmine spots at throat. Upper petals frequently measure 6 or 7 inches.

Madame Crozy—Beautiful flaming scarlet flowers with a rich gold border encircling each wide and broadly rounded petal. Luxuriant foliage. Very dwarf.

Egandale—The best of all dark-leaved Cannas for bedding. The currant-red flowers are borne in compact heads and in great profusion. Different from any other variety.

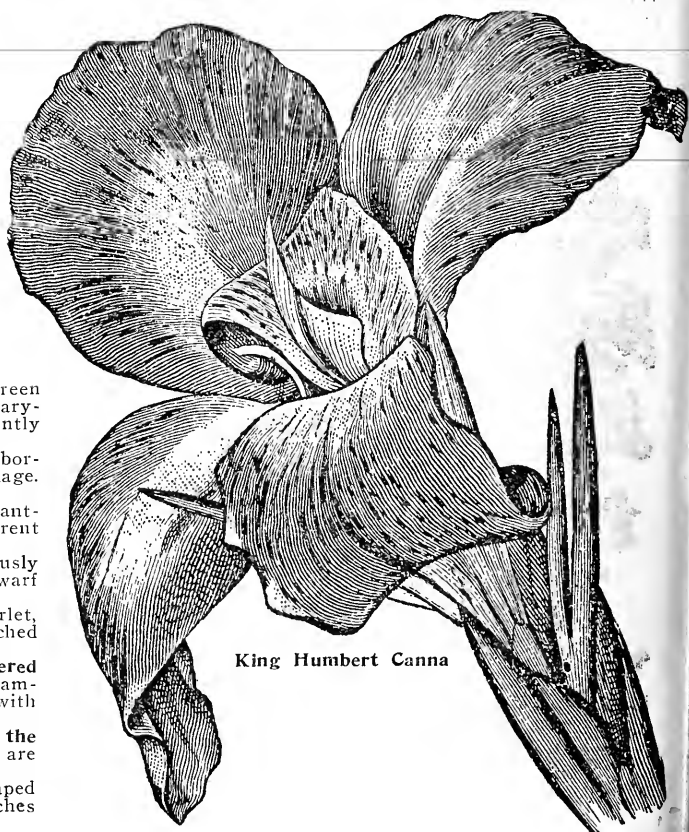

Charles Henderson—A royal Canna of largest size. Color is wondrously rich crimson, with pencilings of gold in the center. Owing to its dwarf habit, this variety makes a perfect pot plant.

Italia—A gilt-edged Orchid flowered variety. Center brilliant scarlet, petals widely bordered with bright orange-yellow—a combination approached in beauty by no other Canna. Immense flowers.

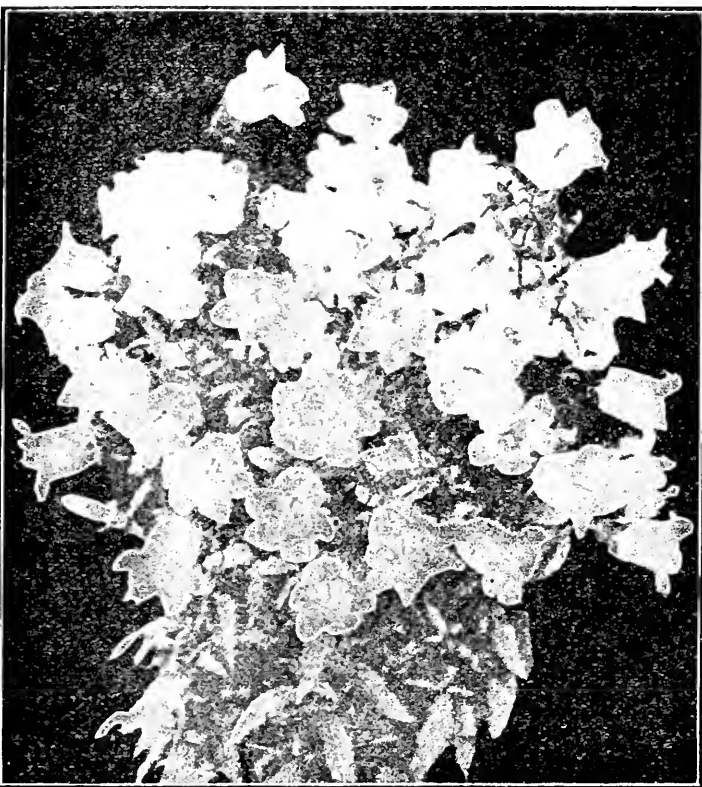

Pennsylvania—The only pure deep scarlet among the Orchid flowered Cannas. The flowers are of imposing size—often 6 inches or over in diameter, with single petals 2½ inches wide. Plants grow 5 to 6 feet high, with the bloom carried well above the bright green foliage.

Florence Vaughn—This, the most famous of all Cannas, still remains the best type of the new French Cannas. The rich golden-yellow flowers are thickly dotted with brightest red.

Martha Washington—A truly wonderful pink Canna. The finely shaped flowers—a clear and very bright rosy-pink in color—often measure 5 inches across. All 15 cents Each, Postpaid; 12 for \$1.25.

King Humbert Canna

Canterbury Bells

**Chas. C. Navlet Co's
Selected**

Canterbury Bells Plants

(Campanula)

**15c per Plant, Postpaid
\$1.25 per dozen**

READY FOR IMMEDIATE DELIVERY

This is unquestionably one of the finest and much prized of garden plants. It is effective in either the garden or grown in pots for conservatory or table decorations. These fine old plants are rich in color, profuse in bloom, and, when planted in quantity, they are glorious. Require little care, and are perennials. They are one of the summer blooming plants that continue to flower from early spring until late in the fall. We recommend these to be very satisfactory garden plants.

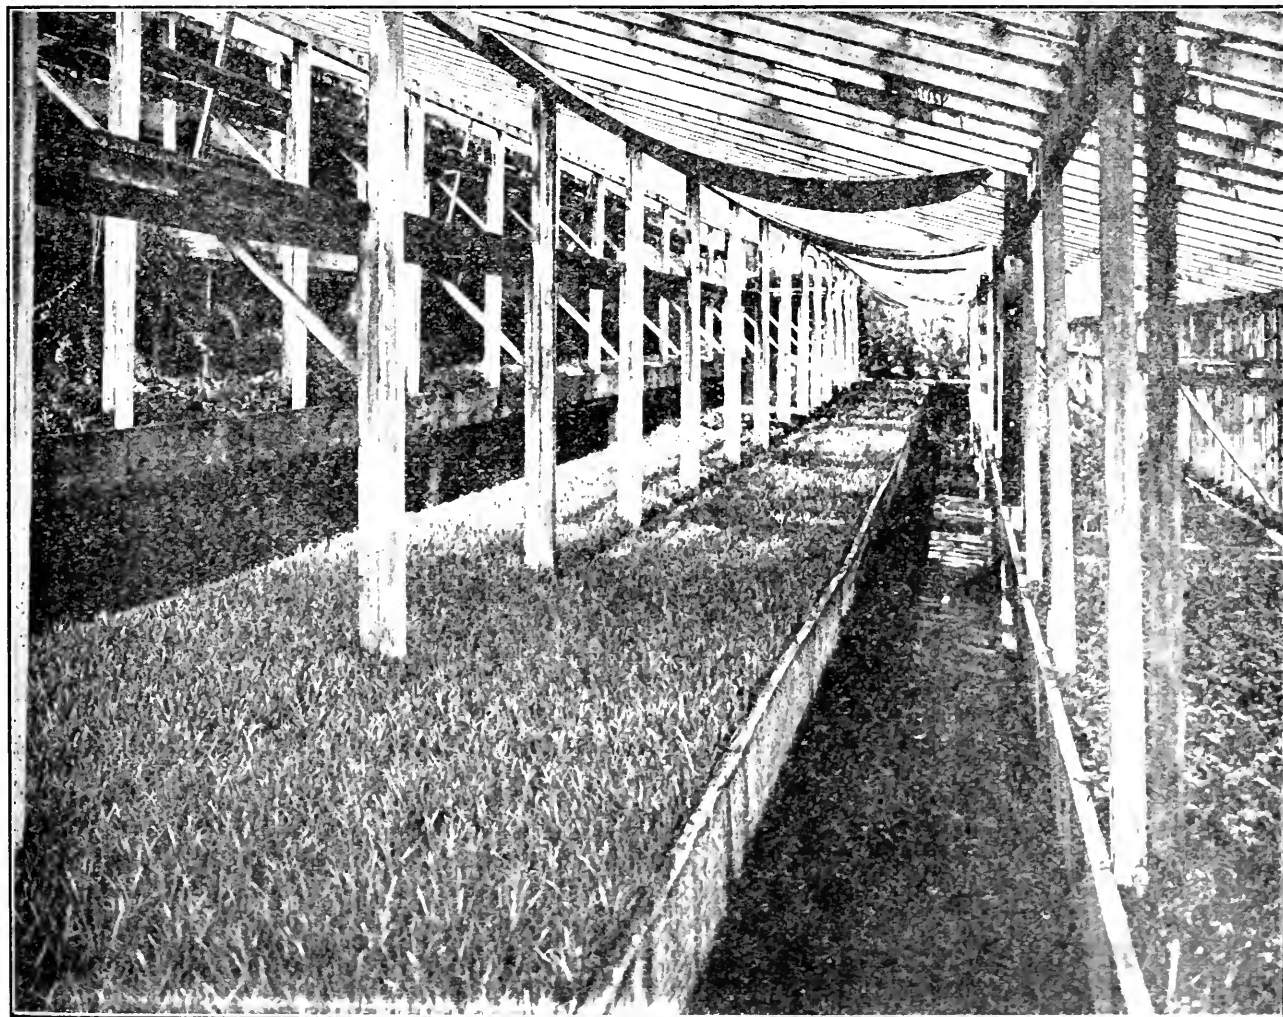

Pure White (worth 25c)—Our price 15c each, postpaid—\$1.25 per dozen.

Blue (worth 25c)—Our price 15c each, postpaid—\$1.25 per dozen.

Rose Pink (worth 25c)—Our price 15c each, postpaid—\$1.25 per dozen.

Assorted Varieties (worth 25c)—Our price 15c each, postpaid—\$1.25 per dozen.

We guarantee our stock to arrive in good condition or money refunded.

Section of One of Our Propagation Houses, Showing 50,000 Carnation Cuttings, Being Rooted for the First Planting. We Root and Sell Over 250,000 Carnation Plants Every Year.

Chas. C. Navlet Co's Blue Ribbon Carnation Plants

All Prize Winners

Carnation plants should be in every garden. There is no flower that is loved by so many as the Carnation, on account of its being easily grown. They bloom profusely almost the entire year. Used for bouquet and floral decorations they are unsurpassed. They are grown in all shades of white, pink, yellow, red, variegated, mottled, and in endless shades and markings.

There is no flower that is so fragrant as the Carnation. We offer the finest varieties in existence; there are none better. We guarantee every plant that we send to be true to name. In price and quality we have no competition. We grow hundreds of thousands of Carnations for our floral Department.

Every variety listed in this catalogue has been selected from over 300 varieties that we have experimented with and we have selected those that have proven to be the hardiest plants, most free blooming, mammoth flowers, long stems and of sweetest fragrance. We guarantee all the varieties listed in this catalogue to be the choicest in existence. For the cultural directions for Carnations see Planters Guide.

The Season's Novelties and Specialties

These Carnations are the ones that have won the prizes at all recent flower shows.

Delivered Free

Ready for delivery all the year round. No premium given with Carnations

Portola (Pink)—A prize winner at the 1913 State Floral Show in San Francisco. Color, a beautiful satiny-pink. The flowers are large and full and borne on stiff stems. One of the best garden varieties.

Mrs. Alma Ward (White)—A beautiful pure white carnation, very fragrant, of immense size. Wonderful bloomer. It is occasionally shaded with delicate pink which adds greatly to its beauty. This variety is also very strong grower and the blooms are borne on long stiff stems.

Hannah Hobart (Shell Pink)—(Still the queen of the Pink Carnations)—Color—A rich, beautiful pink. The enormous flowers, averaging 4 to 4½ inches across, are very fragrant. The long stems are stiff enough to carry the blooms perfectly erect. This variety is of ideal growth—strong, healthy, rapid-growing—and its flowers are produced very early, very free and continuously.

Pink Delight (Shell Pink)—Waxy shell pink. Has a holding color, comes on long stems, and is early, very free and continuous flowering.

Alvina (Dark Pink)—This Carnation is a remarkable strong grower and free bloomer. It is specially adapted for pot culture. Color—Dark, glowing pink. Good stiff stem, and can be had with 20 or more flowers at one time.

O. P. Bassett (Bright Red)—(Introduced by a Chicago specialist)—Color—Pure bright red; flower 3½ inches across. Free bloomer. Calyx never bursts. Stems long and stiff, 18 to 24 inches. Entirely free from disease and as easy to grow as Lawson. The O. P. Bassett has been a prize-winner wherever shown.

Hannah Hobart

Loraine (Bright Red)—A beautiful, bright red Carnation, with a spicy perfume. Large flowers. Long, wiry stems. Extra free bloomer.

Edna Brown (Crimson)—Nature's Crimson Masterpiece. Its flowers—a deep and entrancingly beautiful crimson in color—are as large as those of Hannah Hobart, and it produces them even more freely than that famous variety. Introduced by ourselves.

Andrew Carnegie (Scarlet Harlowarden)—The only scarlet that blooms from early in the season until the end, giving you a continuous cut of high grade blooms the whole season.

White Enchantress (White)—A free-blooming white beauty. The flowers are of great size, and have broad and massive petals. Extra fine for florists as well as garden culture. Introduced 4 years ago.

Winona (Light Pink)—The true pink; at Indianapolis in Class A; blooms of light pink; lighter in color than Lawson. It was first in size of entries. This variety has made good and has come to stay.

Washington (Cerise)—This is a grand variety, a sport from Enchantress, a very free bloomer. Flowers of immense size and very double. Color, a beautiful cerise; robust grower. Flowers are borne on long stiff stems.

Dotty (Scarlet)—Of immense size; flowers very fringed and clove fragranced. Color, glaring scarlet. Extremely free bloomer. One of the most robust growers and freest flowering of its color. Flowers borne on long stiff stems; free from disease. A few of these plants will add beauty and perfume to your garden.

Gorgeous

(**Crimson**) is a strictly high class variety and has been termed by many "The American Beauty" among Carnations

If its robust, healthy, and vigorous growth is considered, it certainly merits the distinction, for it is a veritable "Giant" among Carnations, but, unlike the American Beauty Rose, it produces a flower on every shoot. Its color (as its name implies) is superb, and may be described as a rich glowing crimson, suffused with brilliant vermillion, shading out on the edges to rose madder.

When viewed in full sunlight the petals reflect a glittering shimmer, as if fine gold dust was scattered over their surface. Under artificial light it looks scarlet and with age softens to a beautiful carmine.

Victory (Scarlet)—Brilliant scarlet; flowers very large, borne on long stems; vigorous in habit and very free in bloom. Considered the best scarlet ever introduced.

Crusader (Scarlet)—A bright and very pleasing scarlet. The very double and slightly fringed flowers are always perfect in form. Strong stems, 20 to 30 inches long. Robust, and quick grower.

Meteor (Red)—A magnificent, glowing red Carnation. Introduced for the first time in 1909. The huge flowers are borne on long, stiff stems, and they will hold their beauty from 6 to 10 days after they are cut from the plant. We have given the Meteor a thorough test the past four years, and guarantee that it will give complete satisfaction.

Fire Ball (Light Red)—Still another of our introductions. Immense and delightfully fragrant light red flowers. Long stems. Very effective in the garden.

Harlowarden (Crimson)—The largest, handsomest and best crimson Carnation. Stems are four feet long and very strong. A wonderfully free bloomer.

Windsor (Bright Pink)—A strikingly beautiful bright pink Carnation. Mammoth flowers. Long stems. Free bloomers. Introduced three years ago.

Rose Pink Enchantress (Rose Pink)—A grand rosy-pink Carnation. The flowers are of large, immense size—have broad and exquisite petals. Introduced four years ago, and now a great favorite with florists.

Princess Boni (Pale Rose)—A fine Carnation. Color—Pale rose, mottled with deep shade of pink. Large flowers; free bloomer.

White Perfection (White)—The peerless white Carnation. Introduced in 1908. Immense long-stemmed flowers. Very liberal bloomer.

White Lawson (White)—Pure white. A "sport" from Mrs. Thomas W. Lawson, the most famous Carnation in the world. Differs from its parent only in color. Perfect flowers.

Mrs. M. A. Patten (Variegated)—White, with distinct red stripes. The massive flowers are borne on long, wiry stems, and are spicily perfumed. Of grand constitution and very prolific.

Variegated Lawson (Variegated)—Pure white, striped with carmine. Immense spreading flowers. Identically the same as Mrs. Thomas W. Lawson, except in color.

Sunset (Variegated)—A superb novelty. The broad, saw-edged, golden-yellow petals have wide carmine stripes running through the center, and are also flaked with carmine. The flowers—of mammoth size—are borne on long, stiff stems, and will last from 10 to 15 days after cutting. A wonderfully free bloomer. Easily grown and very attractive in the garden. No other Carnation has such heavy markings or such a rich golden color.

No Premiums With Carnations

Mrs. Thos. W. Lawson (Dark Pink)—The world-famous Carnation. Color—a rich, dark pink—which illuminates splendidly under artificial light. Large, deep perfect flowers. Long, strong stems.

William Scott (Pink)—A delicate pink. Large flowers. Long stems. Deliciously fragrant.

Enchantress (Pink)—One of the finest. Color—a delicate day-break pink, deepening toward the center. Flowers are of matchless form and measure $3\frac{1}{2}$ inches and over. Very early. Needs no special culture to develop its magnificent blooms.

Madame Joost (Pink)—A very delicate pink. Large flowers. Very fragrant. Free bloomer.

Ethel Crocker (Shell Pink)—A dainty shell pink. Very large flowers. Fragrant. Free blooming.

America (Light Red)—Light red; large; beautiful. Fine for hot weather.

Estelle (Scarlet)—The finest scarlet imaginable. Magnificent flowers, massive in size and with a very strong clove fragrance.

Gov. Wolcott (White)—The grandest white. Mammoth in size—richest in perfume—freest bloomer—long, stiff stems. 2 to 3 feet.

Flora Hill (White)—Snow white. The flowers grow to an immense size, and have long, stiff stems. A very free bloomer.

Queen Louise (White)—Clear, snowy white. Large flowers. Long, wiry stems. Exquisitely perfumed.

Chicot (White)—Flowers measure from 2 to 3 inches across. Very free bloomer. No garden should be without this splendid variety.

Boston Market (White)—Ivory white. Long stems. A reliable and profuse bloomer.

Reliance (White)—One of the grandest white Carnations. Extra free flowering. Long, well-poised and very strong stems.

Prosperity (Variegated)—Pure white, overlaid with pink mottles that deepen in color toward the center. One of the largest of the Carnation family. We have grown plants from this variety that produced flowers $3\frac{1}{2}$ inches in diameter, with strong stems 30 inches long.

Pres. Roosevelt (Variegated)—A deep and intensely vivid crimson-scarlet, heavily shaded with maroon. The large, full and symmetrical flowers average $2\frac{1}{2}$ inches in diameter, and have strong stems from 2 to 3 feet long.

El Dorado (Variegated)—A beautiful, clear, golden-yellow, finely penciled with red. Lovely full flowers. Delightfully perfumed.

Armazindy (Variegated)—Pure white, edged and penciled with red. Flowers range from $2\frac{1}{2}$ to 3 inches in diameter.

For Carnation Culture See Page 64

Chas. C. Navlet Co's "Class A" Chrysanthemum Plants

**"Every One A
Majestic
Beauty"**

We are the largest house in our particular line, and one of our specialties is Chrysanthemum Plants. We have more varieties of proven merit than anyone else. We have the prize-winners from all over the world, and yet our prices are lower than others. The varieties of Chrysanthemums described on this and the following pages are the choicest varieties introduced in the floral shows throughout the country. We secure a few plants of the varieties that are awarded prizes and grow them in our trial grounds, and when we find a variety which we consider very beautiful and a free bloomer, we add it to our list of prize-winners.

All varieties listed in this Catalogue can be depended upon as being free bloomers, mammoth flowers and the choicest Chrysanthemums ever offered. You do not have to test our Chrysanthemums to ascertain the good ones, as we discard those that do not come up to our high standard—the best.

**READY FOR DELIVERY
FEBRUARY 1st**

Mary Mason (Red)—A gigantic bronzed-red of Japanese variety. A Chrysanthemum that should be in every garden on account of its rich color, immense flowers, which make it a favorite with everyone.

Crimson Pocket (Crimson)—A grand novelty, vigorous grower, beautiful mammoth crimson flowers with golden reverse, borne on long stems; good for cut flowers.

F. E. Nash (Pink)—Another grand variety. Flowers splendid shade of pink with long, hanging petals; vigorous grower, mammoth flowers, produced on long stems.

Mrs. T. W. Pocket (Yellow)—Bloom in immense heads of long, gracefully drooping florets; deep canary-yellow in color. Dwarf and bushy growth.

F. S. Vallis (Yellow)—The best of this type; a dwarf grower and easy to manage. An immense Japanese flower, yellow, deepening to a fine citron shade. Long petals, twisting and reflexing into a broad, deep bloom as large as Mme. Carnot. Extra fine.

Golden Wedding (Yellow)—Nothing finer among yellows; shines like burnished gold; the standard for measuring color.

Golden Eagle (Yellow)—One of the most valuable yellow Chrysanthemums ever offered, and we feel sure that it will prove as great a favorite as Mr. Dorner's Bonaffon has done. At the last Indianapolis show it was the dominant variety, the large vases of it attracting unusual attention and taking place of finest yellow in each of its entries. The color is as deep a yellow as Golden Wedding; the form a compact incurve, the stem is perfect, holding the flower quite erect. A seedling from Appleton (see illustration on page 79.)

Dolly Dimple (Yellow)—Extra good yellow of large size, unusually fine form, a rather in-rolling incurve of great spread. Fine stems and foliage.

Mt. Shasta (Snowy White)—One of the largest Chrysanthemums that has ever been introduced. It will measure 36 inches in circumference when grown with proper care. This plant was imported from Australia and on account of being a mammoth flower and snowy white it is entitled to this name. Another advantage that this Chrysanthemum has is that it is an extra strong grower, and the flowers are supported by can-like stems about 4 feet long. A few flowers will fill a large vase.

Our Chrysanthemum Girl

Lynwood Hall (White)—A glorious new Chrysanthemum, glistening snow-white, of the largest size, perfectly incurved, of elegant finish and with stiff stems and beautiful foliage. Was awarded the Smith Cup over all competitors at the New York Show. The blooms carried in perfect condition from Philadelphia to Richmond, showing it a fine traveler; has fine color, massive build, and excellent keeping qualities.

President Taft (White)—A Japanese incurved; petals of the purest, which closely incurve, forming a huge, glistening ball. Stem stiff and foliage ample.

Virginia Poehlmann (White)—Poehlmann's White Sport, from Mme. Paul Schut. The flower is almost pure white, of good size, incurved, full petals, overlaying each other in center, making a perfect bloom of very easy culture; a good keeper.

Mrs. Hunter (Lilac)—A beautiful incurved Chrysanthemum of immense size. Petals rich dark lilac; reverse side of petals a very light lilac. Late bloomer, fine strong stems. A variety grown by every nurseryman in and around San Francisco. This flower is a favorite with the florists on account of its color and keeping qualities.

Jack Rose (Strawberry)—A beautiful incurved variety, medium size, late bloomer; color crushed strawberry; a good keeper.

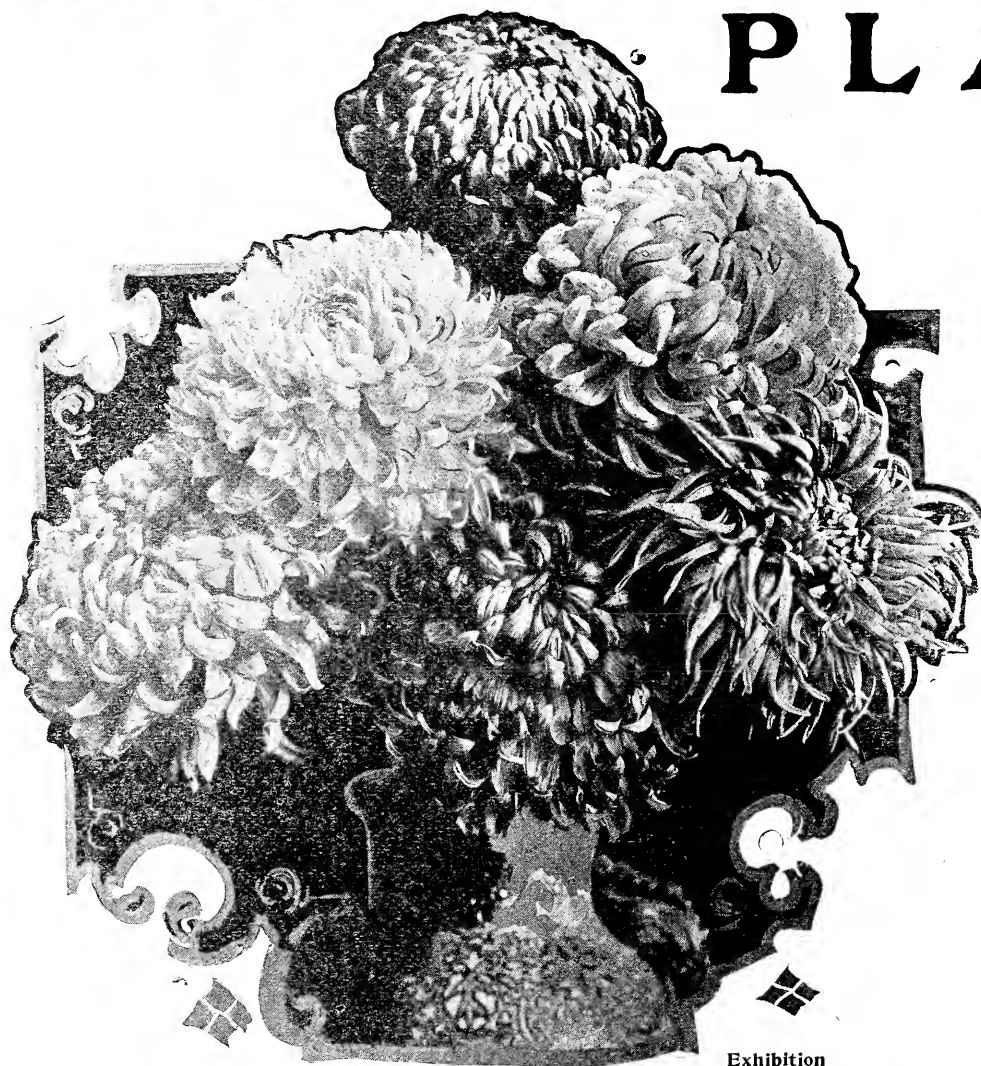

C. H. Totty (Variegated)—Chestnut and scarlet. A great variety for exhibition. Stem and foliage perfect.

Yellow Queen (Straw)—Beautiful straw color. Same habit as White Queen. Large flowers and good keeper.

Golden Chadwick (Bronze)—Golden Bronze, large, loosely incurved flowers, fine in stem, foliage and form.

Edmond Albe (Satin Pink)—A large, globular incurved, with short neck, beautiful, dark, medium-sized foliage; stiff stem that is quite self-supporting; the variety perfects fully 95 per cent of its blooms; round and compact without drooping florets.

Mrs. W. E. Kelly (Yellow)—A very bright yellow Japanese with fine stem and foliage. First prize for six blooms, dark yellow, in both Commercial and Exhibition Classes at National Flower Show.

Monrovia (Yellow)—A bright yellow, early Japanese variety as big as the very best; grand stem and foliage, and splendid shade of yellow. The earliest yellow Chrysanthemum, being fully three weeks earlier than any other yellow variety.

Kioto (Yellow)—One of the deepest yellow Chrysanthemums. The ball-shaped flowers are shaggy and of mammoth size.

Col. D. Appleton (Yellow)—One of the finest yellows. A mammoth Japanese incurved variety. Long, graceful stems.

Gold Mine (Yellow)—A very rich golden-yellow. Reflex petals. Splendid for late shows and Thanksgiving Day sales.

Major Bonnaffon (Yellow)—A rich, incurved canary-yellow. An abundant bloomer—the flowers growing to an immense size, with long stems.

Mrs. J. J. Mitchell (Cream)—Japanese. Color—A clear, satiny cream. The flowers have irregular, incurving petals. Very unique.

Phillips Roger (Bronze)—An incurving variety of enormous size. Color—A very rich metallic bronze. Grand for decorations and exhibition purposes. In perfection during mid-season.

Mrs. Coombs (Rose)—An exquisite light rose. Enormous reflexed flowers, with broad petals. Very early.

Mad. Perrin (Pink)—A fine commercial pink. Of sturdy growth, producing an abundance of foliage. Incurved variety.

Helen Bloodgood (Pink)—Incurved. Color—Clear pink. Very large, deep flowers. A fine commercial variety.

Mad. Marie Leger (Pink)—A deep pearl pink. Incurved. Perfect stems and foliage.

Gloria (Extra Fine Pink)—A seedling of October Frost, producing double flowers from any bud. Produces large blooms of a beautiful light pink. Stem and foliage unsurpassed.

O. P. Bassett (Red)—Incurved. Color—An extremely rich wine. Large, bold flowers—round and full. Long stems. A very late variety.

Aquidneck (Red)—One of the finest bright red Chrysanthemums ever produced. Unfading. Grand flowers.

Buff Globe (Buff)—Buff flowers. Immense in size. Excellent stems and foliage.

Phillips Roger.

White Bonnaffon

Golden Eagle—See Page 77

Mrs. Lewis (White)—Rich creamy-white. Very showy flowers with broad, reflexed petals. Stately grower.

The Queen (White)—Pearl white. Very large flowers with incurved petals. The earliest Chrysanthemum grown, being three weeks earlier than any other variety. It is grown by all florists on account of its early blooming, mammoth flowers and lasting qualities.

Mrs. Robinson (White)—Mammoth flowers with beautiful incurved petals.

White Bonnaffon (White)—A mammoth white incurved variety. Long stems.

Maud Deane (White)—Snow white. Extra large flowers.

Mrs. Jerome Jones (White)—White flowers with incurved petals. Flowers cut from this variety will last two weeks. Late bloomer.

Arline (White)—Medium size pure white flowers. Extra long stems. Free bloomer.

Western King (White)—Pure white, Incurved. Stems and foliage fine. Good keeper. One of the best commercial varieties.

Nevius (White)—Large white flowers. Strong, free grower. One of the earliest bloomers.

Timothy Eaton (White)—One of the largest white incurved varieties. Stout, stiff stems. Healthy foliage.

King of Chrysanthemums (Variegated)—A unique slightly incurved variety. The petals of the extra large semi-double flowers are red on top and bronze underneath. Very ornamental.

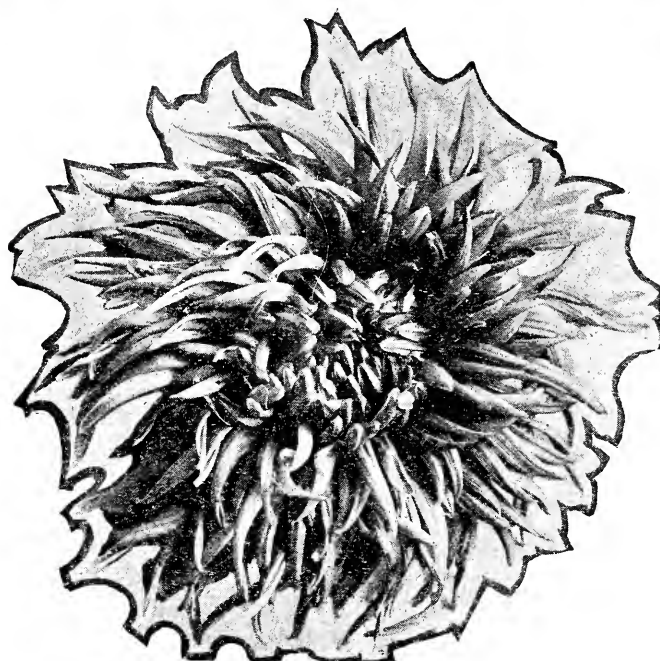

Maud Deane (Variegated)—Deep rose, shading to light pink on the outer petals. Incurved. Extra large flowers. Free bloomer.

Sunstone (Variegated)—Light yellow shaded with rich bronze. Incurved petals. Of tall growth.

T. Carrington (Variegated)—Japanese incurved. Color—A rich carmine-rose, with silvery reverse. The huge flowers are of exquisite form and finest texture.

Delivered Free**

Ready for Delivery February 1st

Jeannie Nonin (White)—Globular white flowers. Without a rival for Thanksgiving Day and later. Winner of the silver cup at Chicago.

Maude Jeffries (White)—Huge incurved white flowers, almost as round as a ball. Fine stems. Good keeper.

Nellie Pocket (White)—An Australian beauty. Mammoth white flowers of elegant form. Free bloomer.

Black Hawk (Crimson)—Magnificent dark crimson flowers. Very free bloomer.

S. T. Wright (Crimson)—King of the crimson 'Mums. Great, grand flowers. Fine stems. Free bloomer.

Henry Barnes (Crimson)—Deep, vivid crimson flowers, showing a rich golden reverse. Loosely incurved form—broad, massive petals.

Mrs. William Duckham (Yellow)—Huge incurved, brilliant yellow flowers. Extra long stems. A prize-winner at every show.

Kate Bromhead (Yellow)—Massive golden-amber flowers. Long, strong stems. Great prize-winner.

Dr. Enguehart (Pink)—Tremendous deep pink flowers. Especially brilliant under artificial light. Long stems.

Wm. Duckham (Pink)—Immense incurved pink flowers. Wondrously beautiful. Very long stems.

Ben Wells (Flesh)—Grand 10-inch flowers. Delicate flesh. Tremendous grower.

Vivian Morel (Rose)—Deep rose. The flowers grows to a great size.

Ostrich Plume Chrysanthemum Plants

The following list of Ostrich Plume Chrysanthemums includes the very best varieties of this charming class. We make the price as low as possible, so that all may give them a liberal trial. The curious hairy flowers of the Ostrich Plumes are always greatly admired.

Some protection from early frosts is very desirable in exposed situations.

**15c Each
The Set of Six 50c
Delivered Free**

Ready for Delivery February 1st

Wm. Falconer (Rose)—An exquisite shade of rosy blush, changing to a delicate flesh-pink as the flowers advance in age. Flowers are of the largest size, and borne on strong stalks.

Enfant des Mondes (Cream)—A strong, free-growing creamy-white variety. Fine for cut flowers or specimen pot plants.

Midnight (Crimson)—A rich crimson-lake. The large flowers are densely covered with hairs.

F. J. Taggart (Yellow)—A striking novelty. The most wonderful of the hairy varieties. Color—A beautiful light yellow. Incurved.

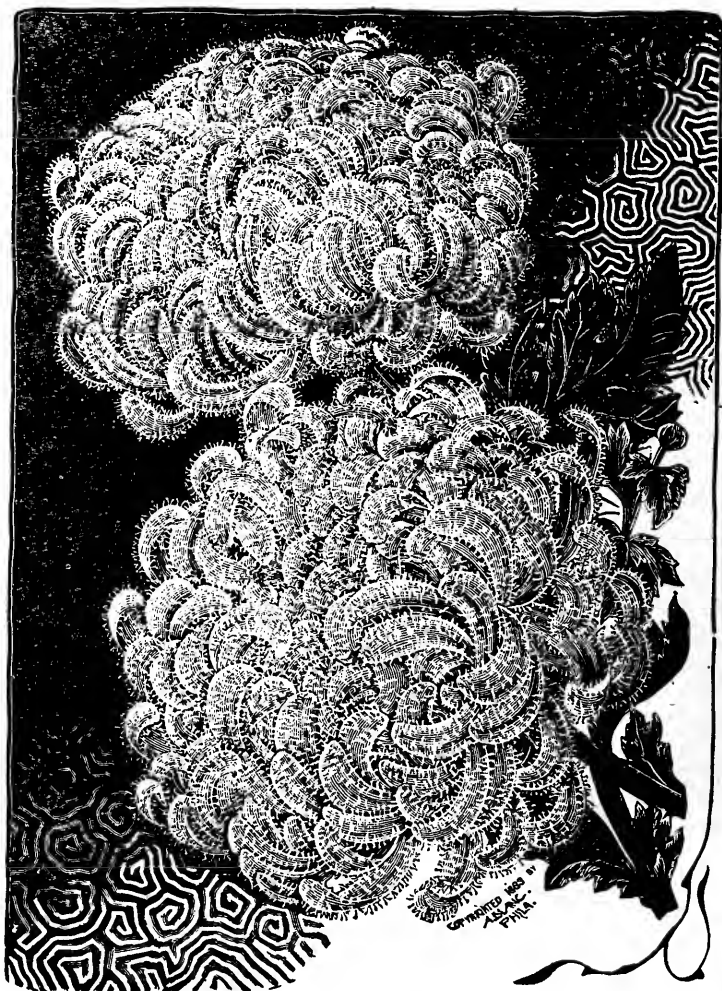

C. B. Freeman (Apricot)—Apricot mottled with a very handsome red. Very hairy. One of the choicest.

Mrs. Higginbotham (Pink)—Enormous bright pink flowers, with wide incurving petals. Extremely hairy.

Ostrich Plume 'Mums

Chas. C. Navlet Co's Mammoth Flowering Cineraria Plants

The Largest Flowering Varieties

15c per Plant, 12 for \$1.25, Postpaid

Ready for Immediate Delivery

Magnificent and indispensable flowering plants for spring decoration in the conservatory or window garden. Also fine for planting outdoors in shady places. Require very little care. The flowers measure 2 to 3 inches across, are of white, blue, violet and crimson shades, and usually two or more colors are shown in one flower. The blossoms cover the plant with a sheet of bloom.

Coleus Plants

Our Selection Assorted Colors 10c each, 6 for 50c, 12 for 75c,

Separate Colors 15c each, 12 for \$1.50. Postpaid

Ready for Immediate Delivery.

A beautiful class of well-known and popular ornamental foliage plants of rich velvety appearance. The leaves have fringed and scalloped edges. The colors range from bright golden yellow to the darkest maroon and some are nearly black. They are margined, veined and splashed in a variety of styles with white, green, rose, crimson, etc. Such combinations and contrasts it is hard to imagine. The coleus is one of the few plants that are always showy from the time the first leaves are formed. They are very popular for pot culture, and almost indispensable for enlivening rockeries and shady nooks in the garden.

- No. 1—Red and green blotched.
- No. 2—Green margin—yellow center.
- No. 3—Red and green mixed—fringed with red.
- No. 4—Purple fringe—extra large variety.
- No. 5—Deep purple. Simply gorgeous.
- No. 6—Velvety green—shading into yellow.
- No. 7—Red center, encircled with green.
- No. 8—Yellow, very showy.
- No. 9—Deep red. Huge leaves. Very striking.
- No. 10—Green and white—beautifully blended.
- No. 11—Pink, edged with maroon—yellow center.
- No. 12—Dark crimson. Ruffled leaf. Finest bedding sort.

Christmas Gem Coleus

Grandest of all. The mammoth, finely scalloped leaves are of heavy velvety texture of Xmas Red and average 10 inches long by 8 inches wide. 25c each—\$2.50 per dozen. Delivered free.

Large Flowering Cineraria

Centaurea Imperialis

(Sweet Sultans)

10c per Plant, 12 for 75c, Postpaid

READY FOR DELIVERY FEB. 1st.

This magnificent new Sweet Sultan possesses the superb bearing of the Chrysanthemum, the lasting qualities of the Aster, is unrivaled as a cut flower, and produces a gorgeous showing of continuous bloom. It is an annual of the easiest culture and thrives everywhere. The large sweetly perfumed flowers are borne on long, graceful stems, and come in pure white, and the most ravishing shades of purple and pink. They are very tenacious of life, and if cut when about to open will last more than a week in water. The plants form clumps three to four feet high and are continuously in bloom from July until cut down by heavy frost. No garden can afford to be without this matchless new mammoth flowering hybrid.

Cosmos Plants

Mammoth Flowering

The Glory of the Autumn Garden—White, Pink, Red or the Three Colors Mixed.

35c per Dozen, Postpaid
100 for \$2.00

Ready for Delivery from March 1st to July 1st.

For cutting the Cosmos is unsurpassed. The long stems and graceful, feathery foliage lend themselves to artistic arrangements, and the flowers retain their freshness and beauty for several days if kept in water. The Cosmos is a late bloomer and will enliven the garden long after the more tender flowers have succumbed to frost.

"Picking Dahlias for Mamma"

We Are Proud of Our Dahlias

This also is one of our specialties, and in price and quality we stand alone. If you have ever bought Dahlias of others and note well our prices, you will understand why we sell more than several dealers combined. This is the coming flower for show; florists are demanding them for decorative purposes. The plants last for years and multiply. This year we have four times the stock of previous years, and the tubers are stronger than ever. The call for Dahlias last year was something phenomenal, but we can meet every demand on receipt of order. Later in the season, if our stock of bulbs is exhausted, we will fill orders with strong, rooted plants.

For several years back we have made a specialty of this popular flower, and our collection now includes the very finest varieties in cultivation. Our varieties are the latest introductions and have proven of immense size and beautiful colorings. If the public knew how useful and beautiful the Dahlia is, they would be planted in every garden in the country. They require little or no attention, and succeed in almost any soil or location. Their flowers are produced in splendid profusion at a time of the year when flowers of all kinds are very scarce—in the fall. Many of them equal the finest Chrysanthemums in form, while others resemble Roses and Paeonies. No class of plants presents more magnificent colors, almost every tint being shown in them. After blooming the roots can be taken up and stored away in a dry cellar, like potatoes, where they will keep safely through the winter. Plant them freely, as one makes no mistake in ordering any variety of Dahlias listed in this catalogue; every one is beautiful and satisfaction is assured.

Meadow Gold Dahlia (See page 83)

New Paeony Flowered Dahlias

Paeony—Flowered—The newest type of Dahlia; originated in Holland and comes to us with the endorsement of all Europe. The blossoms are semi-double, of enormous size; the color is most brilliant and beautiful. They come in several pleasing forms, generally with three to five rows of petals, which are long and broad, sometimes being beautifully curled and twisted.

Geisha, (Paeony) Yellow—The showiest and most attractive of this type yet introduced; of strong growth, with richly colored flowers standing well above the foliage. These are original in form; consisting of peculiarly twisted and curled petals of an effective and rich combination of scarlet and gold, the center being yellow, which becomes suffused with and deepens to scarlet at the center of the petals, shading off lighter at the edges. **Either green plants, ready for delivery May 1st, or strong roots, ready for immediate delivery. 50c each, postpaid.**

Magnet, (Paeony) Cerise—Beautiful in color, white ground, center suffused with light cerise and broad stripes running to the end of petals of bright cerise, making it a most striking flower. The petals are broad and tubular towards the tips and more or less curled or twisted; a wonderful keeper as a cut flower. **Green plants, ready for delivery May 1st, 50c each, postpaid.**

Marie, (Paeony) Salmon—Semi-double Dahlia; one of the most beautiful and striking colored Dahlias that has ever been produced. The color is a lovely rosy-flesh, suffused with Salmon and lightly pencilled with Bronze. **Strong roots, ready for immediate delivery, 50c each, postpaid.**

Queen Wilhelmina, (Paeony) White—Immense fluffy flowers of pure white with yellow center. Very graceful and free-flowering; one of the finest garden Dahlias. **Only green plants sold. 50c each, postpaid. Ready for delivery May 1st.**

Dr. K. W. Van Gorkom, (Paeony) White—White, shaded with rose; a free bloomer and a very handsome variety. **Either green plants, ready for delivery May 1st, or strong roots, ready for immediate delivery. 50c each, postpaid.**

Chas. C. Navlet Co's 1914 Choice Selections of Dahlia Novelties and Specialties

50c Each—Delivered Free

Meadow Gold, (Decorative) Yellow—One of the very finest decorative Dahlias. Its immense flowers are produced in profusion from early to late in the season. This one has a fine long stem that holds the flower quite erect, so that it shows to full advantage. The plant makes a strong, sturdy growth to a height of about four feet. The color is fine—a primrose yellow, faintly tinged with delicate pink, changing in late fall to clear lemon yellow. We offer this new Dahlia in full confidence that it will please. **Green plants, ready for delivery May 1st.**

Gold Medal, (Fancy) Yellow—A grand new early and continuous bloomer, color dandelion yellow, streaked and splashed with Oriental red; a most bizarre effect; frequently instead of being striped the red appears as a tip to the petals; beautiful in either form. **Strong roots.**

Thais, (Hybrid Cactus) White—Broad petals, which are loosely arranged, making up an informally shaped flower, which, on account of its color, a pure white with a soft mauve suffusion, makes it one of the most delicately colored sort which we have ever offered. **Green plants only, ready for delivery May 1st.**

Yellow Colosse, (Show) Yellow—Flowers of very large size, of perfect form, pure primrose-yellow; the best of its color and valuable for all purposes. **Green plants only, ready for delivery May 1st.**

Riese Von Stuttgart, (Giant Decorative) Red—Probably the largest Dahlia of this type; a seedling of Souvenir De Gustav Doazon, which it exceeds in size, frequently measuring eight inches and over in diameter; in color a bright blood-red, shading deeper to the center; a variety which attracts universal attention. **Strong roots.**

Governor Hiram Johnson, (Decorative) Maroon—A glowing velvety maroon of beautiful form; occasionally some flowers will bloom with a white center, suffused with wine color. **Green plants only, ready for delivery May 1st.**

Fluffy Ruffles, (Decorative) Semi-double, immense flowers, eight to nine inches in diameter. Color orange, striped with red, center covered with curved petals; stem medium length; a free bloomer. A Dahlia classed by itself. **Strong roots.**

Strong Roots, 35c Each

DELIVERED FREE. READY FOR IMMEDIATE DELIVERY.

Jeanne Charmet, (Decorative) Rose—This Dahlia has a delicate color arrangement. Soft rose with the thread of deeper tint at the edges of the petals. Flowers of mammoth size and perfect build. The petals are very broad and flat, and build up into a bloom of great depth. A superb variety. **Bulbs.**

Delice, (Decorative) Rose—Its beautiful, soft, yet lovely color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, which hold the flower well above the foliage, and the fact that when cut it retains its freshness for a long time, makes this one of the sorts for the garden. **Green plants only, ready for delivery May 1st, 35c each, postpaid.**

Princess, (Cactus) Mauve—A perfect Cactus Dahlia of a bright mauve color. The petals are narrow, long and incurved and of immense size.

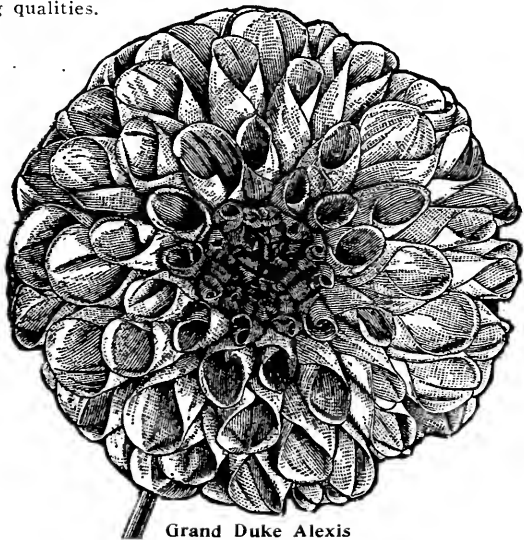

Professor Mansfield, (Decorative) Red—Flowers very large, but stems rather short. Color a combination of yellow, bronze and red, sometimes producing solid flowers of one color.

Carnation Dahlia, (Decorative) White—A miniature decorative form, fully double and of purest white. Its wonderful freedom of bloom, pure color and chaste form places it at once at the head of the list as a florist's flower. At a little distance it would be pronounced a carnation, which it resembles both in size and form.

Strong Roots, 25c Each—\$2.50 per Dozen
DELIVERED FREE. READY FOR IMMEDIATE DELIVERY.

Brunhilde, (Cactus) Maroon—A true Cactus Dahlia of a bright maroon color. A grand variety to add to your list of Cactus varieties.

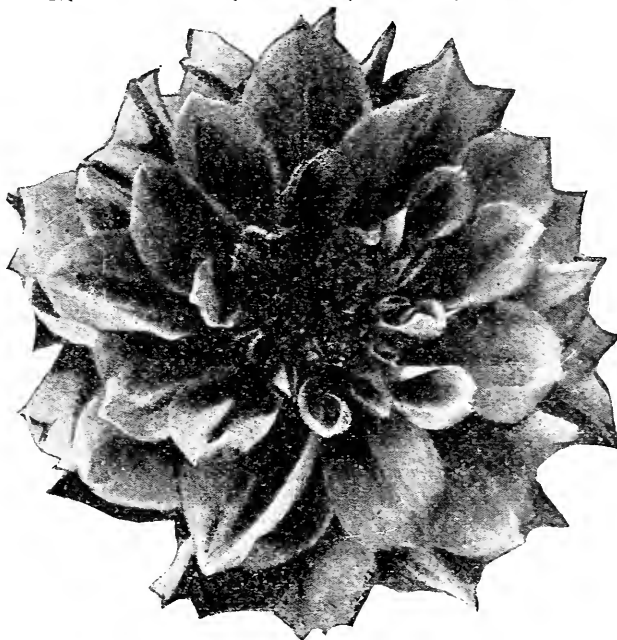

Mrs. W. W. Kettlewell, (Decorative) Crimson—Light, velvety crimson; good grower of branching habit and very early and profuse bloomer. The best cut flower of its color, the plants being continually covered with finely shaped and large blooms on erect stems. A popular variety in San Francisco florists' stores on account of its lasting qualities.

Grand Duke Alexis

Souvenir de Gustav Doazon Dahlia
The largest Dahlia in the world.

Chas. C. Navlet Co's | Blue Ribbon Selection of Dahlia Roots Strong Roots

25c Each- 12 for \$2.50

DELIVERED FREE. READY FOR IMMEDIATE DELIVERY.

Souvenir de Gustav Doazon (Decorative) Red—This is the largest Dahlia in the world today. Can you imagine a Dahlia nine to ten inches across? As large as a dinner plate. Simply a monster, yet it is not coarse, but has such elegant refinement that it impresses every lover of flowers with its grace, beauty and charm and never fails to make friends. These immense flowers are borne in profusion from the earliest moment of blooming until the very last; it improves with the season and grows more perfect. Flowers full to the center. Color a rich orange-red. A dozen of these roots planted in masses or a hedge makes one of the most effective displays. These plants often obtain the height of five feet, and when covered with their mammoth flowers make an irresistible display.

Mrs. Roosevelt (Decorative) Pink—Is of exceedingly graceful form; has splendid long stems; keeps well when cut; flowers are perfectly double, of remarkable size, 6 to 7 inches in diameter; color a delicate pink shading of soft pink; very free bloomer.

Stern (Cactus) Yellow—A beautiful flat-petaled, star-shaped flower of pure lemon-yellow; a good grower and exceptionally free-flowering; showy either in the garden or as a cut flower.

Grand Duke Alexis (Show) White—A perfect Dahlia of large size and perfect form. Color—Pure white, overspread with delicate lavender when grown in bright sunlight. The petals of its flowers are beautifully quilled, which gives them a very unique appearance.

Pink Grand Duke Alexis (Fancy) Pink—Introduced by ourselves last season for the first time. Habit and size the same as its parent—the Grand Duke Alexis.

The Yellow Grand Duke Alexis (Show) Yellow—A novelty introduced by ourselves. Color a beautiful canary-yellow. A strong grower and very free bloomer. This Yellow Grand Duke, when mated with the Pink Grand Duke and its parent, Grand Duke Alexis, which is pure white, overlaid with delicate lavender, makes a beautiful showing.

For other varieties of Blue Ribbon Dahlias see page 84.

Chas. C. Navlet Co's Dahlia Roots

Blue Ribbon Selection of

Strong Roots 25c Each, 12 for \$2.50 Delivered Free. Ready for Immediate Delivery.

Gen. Buller (Cactus) Variegated—Rich, velvety crimson, nearly black at the base, each floret having a pure white tip, those in the extreme center showing a tinge of plum color. A very remarkable and perfectly distinct flower. Long, erect stems; very free.

Giant or Tree (Decorative) Maroon—This Dahlia is a vigorous grower, obtaining the height of eight or nine feet. Immense flowers of a vivid maroon, seven to eight inches in diameter, and are borne on stiff stems 24 to 36 inches long. This Dahlia is a wonderful bloomer, being covered with its showy flowers from early in the spring until late in the fall. For cut flowers it is unexcelled, the blooms lasting from 8 to 10 days.

Golden West (Show) Apricot—A magnificent Show Dahlia. The color is a deep apricot that shades lighter at the tips. Its habit is splendid. It grows vigorously and produces an astonishing number of long-stemmed flowers.

Chas. C. Navlet Co.'s Novelty (Decorative) Maroon—Introduced by us. The flowers are perfectly enormous in size—8 to 9 inches—and of faultless form. For decorative purposes it is absolutely unrivaled, as the color of its flowers—a bright velvety maroon—fairly sparkles and shimmers under artificial light.

Manitou (Decorative) Amber—A regal Decorative Dahlia of imposing size and faultless form. The huge flowers are uniformly even in outline and always full to the center. The color is both unique and pleasing, being an amber bronze with distinct shade of pink.

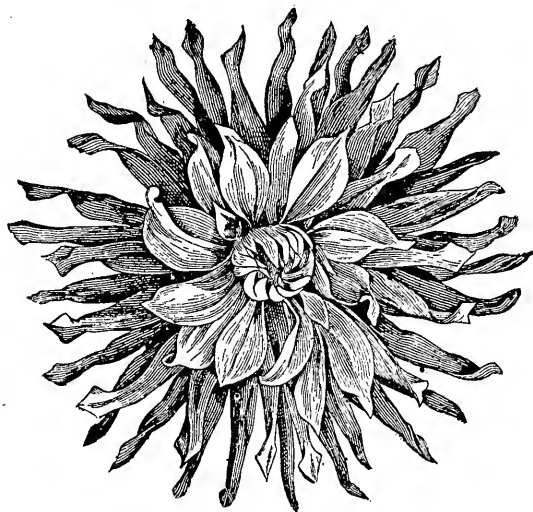

Frau Hermine Marx (Cactus) Rose—This is one of the best cut flower varieties. The flowers are of medium size, and when fully developed almost identical in color with the La France Rose; that is, a silvery Rose of a most pleasing color.

Country Girl (Cactus) Yellow—Base of petals golden-yellow, suffused with salmon-rose, which is deepest at the points; a bright and striking combination of colors, which is difficult to describe; the flowers are of a very large size, with broad, pointed petals.

Prince of Yellows (Cactus) Yellow—Mammoth flowers of a rich canary-yellow; the best yellow for cutting.

Lawine (Cactus) White—Pure white, with just a suggestion of blush as the flower ages. It is of large size, a fine, full flower, early and free, with strong stems, holding the flowers erect.

Mrs. Mawley (Cactus), Yellow—Free bloomer, canary yellow, strong grower.

Kriemhilde Dahlia (See Page 85)

Joe Thompson (Decorative) Red—A truly magnificent bright red decorative Dahlia. The plant is of a branching habit, and attains an immense size, sometimes growing to 7 feet in height, and the flowers measure 7 inches or more in diameter, and are borne on straight stems that average 3 to 4 feet in length. This Dahlia is grown extensively by every nurseryman in and around San Francisco on account of its beautiful coloring and free-blooming qualities.

Roland von Berlin (Cactus) Red—A magnificent, brilliant Dahlia of large size, of an intense geranium red, with deeper shadings, and full of fire. The flowers are produced most profusely on stiff stems.

Field of Dahlias at Our Garden Villa Nurseries

Chas. C. Navlet Co's Dahlia Roots

Strong Roots. 20c Each--12 for \$2.00-- Delivered Free Ready for Immediate Delivery

Floradora (Cactus) Crimson—A splendid Cactus Dahlia that is continually in bloom. Color a dark velvety crimson. Fine for cutting, as the flowers are borne on long, erect stems and keep for a long time. The plant is of medium height, branching in habit, and an exceedingly early and profuse bloomer.

Progenitor (Cactus) Cardinal—A wonder of the Cactus type. The petals of the very large flowers are quilled and cleft at the ends—like a stag-horn fern—which gives them a very unique and effective appearance. Color a beautiful rich, dark cardinal. A heavy bloomer.

Mrs. Hartong (Decorative) Pink—Light fawn, delicately suffused with pink. The flowers are full to the center, of fine form, and measure from 6 to 8 inches across. A charming decorative Dahlia.

Madam Van Den Dael (Decorative) Pink—Soft pink with deeper markings, shading to pure white in the center. One of the most attractive decorative Dahlias ever introduced. The long-stemmed flowers measure from 5 to 6 inches across, and last from five to six days after cutting. A very liberal bloomer.

Navajo (Decorative) Red—A new decorative Dahlia that has no rival for richness of color. Its bold, elegantly formed flowers—of intense red, with violet shading—are the admiration of all that see them. Its strong, healthy foliage is also very attractive.

Lady Mildmay (Fancy) Lilac—A very beautiful fancy Dahlia. The very large, full and exquisite flowers have a white ground that shades to a lovely pale lilac. Free bloomer.

Floradora Dahlia

Mrs. Winters (Fancy) White—Pure waxy-white, which shows no tint or variation even in the strongest sunlight; blooms very freely, producing 5 to 7-inch flowers with beautifully pointed petals. Never shows an open center. The plant grows to a height of four feet.

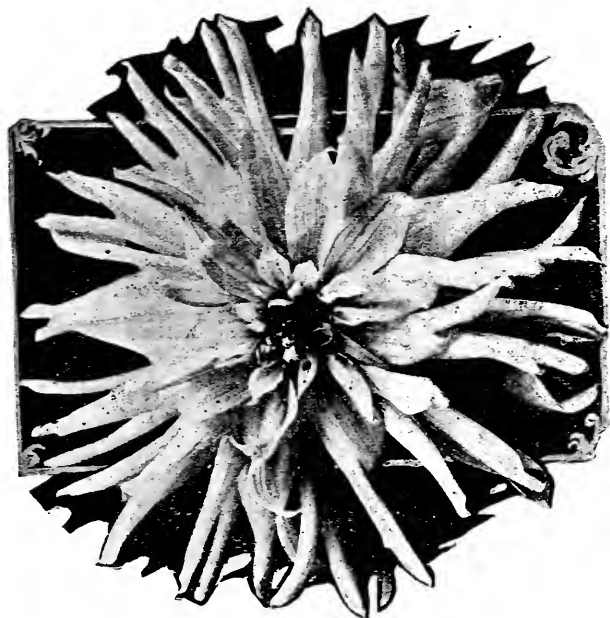

Papagai (Cactus) Yellow—A pretty fancy or variegated variety, the ground color being yellow, with bright rosy-red variegations, extending almost to the lemon-colored tips.

King of the Blacks (Cactus) Maroon—A deep velvety maroon, almost black; fancy Dahlia. Elegantly formed flowers, with long stems. Free-flowering.

Lavender Beauty (Decorative) Lavender—A remarkably fine decorative Dahlia. Color a clear, soft shade of lavender. The flower is quite flattened in form, and of splendid substance. Excellent for cutting.

Kriemhilde (Cactus) Pink—An exquisite shell Pink, shading to white toward the center. Unquestionably the finest and most perfect Cactus Dahlia of its color, and as a cut flower likely to supersede all the other pink sorts. Free bloomer. Flower 5 inches in diameter on stiff, wiry stems.

Catherine Duer (Decorative) Scarlet—A Newport variety. Color a most beautiful glowing scarlet, without markings. The exquisite flowers—7 to 8 inches in diameter—open out flat and show no center. Petals wide and rounding. Long, wiry stems. Robust grower.

Mrs. Alexander Dahlia

Twentieth Century (Single Dahlia) Rose—Early in the season an intense rosy-crimson, shading gradually to almost white on the edges and a light halo around the disc. As the season advances the flowers become lighter, changing almost to pure white, suffused with soft pink. Was a great favorite in the San Francisco market the past season.

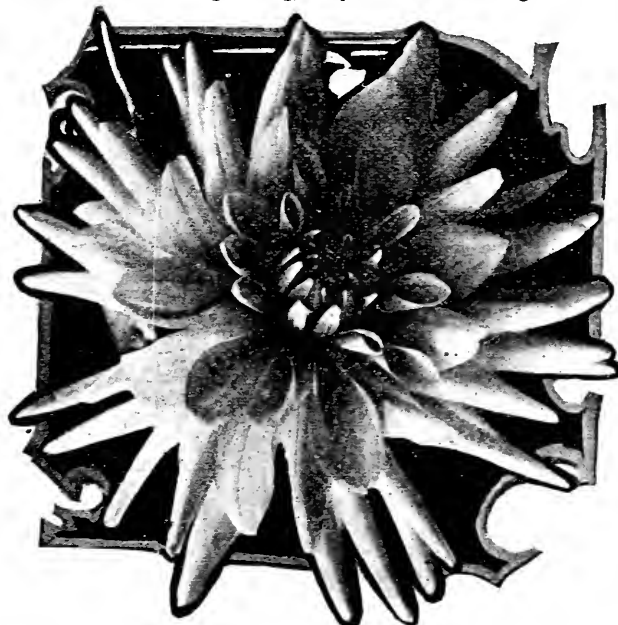

Mrs. Alexander (Decorative) Flesh—A grand decorative Dahlia. The flowers of large size and beautiful form—are flesh colored, shading to a rich dark rose. Both plant and foliage are of a strong and thrifty nature. A great favorite.

Countess of Lonsdale (Cactus) Salmon—The freest flowering of all Cactus Dahlias, and one of the most beautiful. The flowers are simply perfect in form. Color—A rich salmon, with just a suspicion of apricot at the base of the petals. Towards the tips the color deepens gradually to the softest carmine-pink.

Mrs. Turner (Cactus) Yellow—Beautiful bright lemon-yellow. Very large, heavy flowers, 6 to 8 inches in diameter, with long, pointed petals, and full to the center.

Ingeborg Egeland (Cactus) Scarlet—One of the grandest new Cactus Dahlias. A strong grower with bright green foliage, which presents a picture of wonderful richness when combined with the large, deep scarlet blossoms. Very free-flowering.

Badenia (Cactus) Yellow—An exceedingly choice variety. The first really variegated Dahlia in the Cactus section. Color a clear, bright orange, striped and flecked with flashing red. Petals are very long and curved towards the center. Flowers are large. Plant robust grower.

Mrs. Turner Dahlia

Quilled Daisy Plants

12 for 50c, Postpaid, \$3.00 for 100

READY FOR DELIVERY ALL THE YEAR ROUND

A new, unique and most striking novelty. The only Quilled Daisy in existence larger than a silver dollar. This wonderful plant is a free and continuous bloomer. Flowers early in the spring and is in blossom all season.

Mammoth Double-Flowering Daisy Plants

White, Pink or Assorted

50c per Dozen Postpaid, \$3.00 per 100

READY FOR DELIVERY ALL THE YEAR ROUND

The seeds from which these plants were grown were imported from an English Daisy specialist. The individual flowers are larger than a silver dollar, grow on long, stiff stems and plants are covered with a mass of blooms the entire season. Mammoth white and mammoth pink.

Delphinium Plants (Hardy Larkspur)

Assorted Colors

20c Each—\$2.00 per Dozen, Postpaid

READY FOR IMMEDIATE DELIVERY

One of the most beautiful decorative plants for home gardens and parks. The flowers are borne on massive stocks, which are covered with hundreds of magnificent blooms. The plants we offer in our assortment have been raised from seeds gathered from some of the English novelties which we have lately imported at the cost of from \$1.50 to \$2.00 per plant.

Delphinium has been so developed that there are now many single and semi-double varieties in shades of white, turquoise blue, sky-blue, the individual flowers resembling a Cineraria. There are others of Cambridge blue, with opalescent, rosy-mauve centers; deep blue with large white eyes, and many other beautiful colors. These plants produce stocks from 4 to 10 feet high.

There is no plant more easily raised and grown than Delphinium. It revels in full sunshine and a deeply worked, rich soil, with plenty of water during dry spells. If given these, it will fill your heart with joy and gladness in the richness and profuseness of bloom.

Delphinium will begin to bloom in early summer, and, by cutting the plants close to the ground as soon as each crop of flowers has faded, a second and third crop of flowers will succeed until late in the fall. Each time the plants are cut, a small amount of fertilizer should be worked in around the plants.

The assortment of Delphinium we offer includes all the above colors.

Foxglove Plants

(Digitalis)

15c Each, Postpaid

\$1.25 per Dozen

Ready for Immediate Delivery

Red (Gloxinia-flowering)—15c each, postpaid—\$1.25 per dozen

Pink (Gloxinia-flowering)—15c each, postpaid—\$1.25 per dozen.

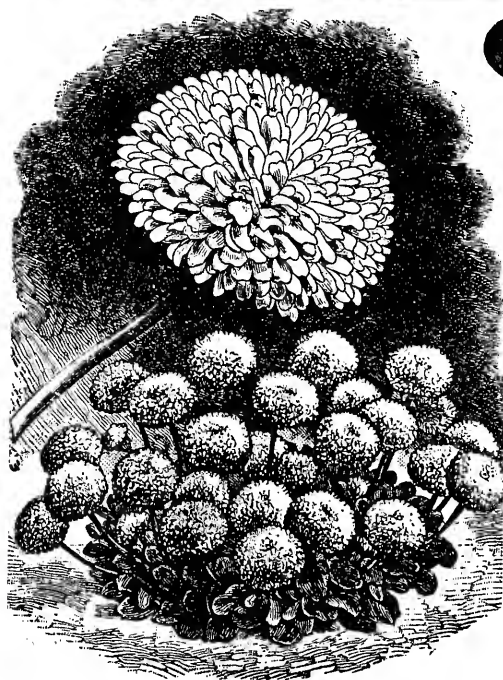

White (Gloxinia-flowering)—15c each, postpaid—\$1.25 per dozen.

Assorted Varieties (including the above)—15c each, postpaid—\$1.25 per dozen.

These improved flowers are very showy, hardy plants for the garden, or massed beds, or very effective for borders in driveways and parks. They are easy to grow and produce long stocks, standing from 3 to 5 feet high, well furnished with large Gloxinia-like flowers of various colors, including white, pink, purple and many other beautiful shades, all of which have beautiful throat markings, spots and blotches of purple and maroon. They are more robust than ordinary garden Foxglove, have stouter stems and larger flowers.

These plants will give a wealth of bloom during the entire season. No garden should be without a few of these popular plants. They bloom freely and will thrive in almost any soil.

ORDER \$1.00 WORTH OF PLANTS LISTED ON THIS PAGE, BY THE SINGLE PLANT OR DOZEN, AND WE WILL GIVE YOU YOUR SELECTION OF 25 CENTS' WORTH OF PLANTS, FREE, OR \$1.25 WORTH FOR \$1.00.

Pelargonium Plants

Lady Washington Geraniums

Pelargoniums

- No. 12—**Lord Dumpece**—Lower petals maroon, shading to crimson; very large; a choice variety.
- No. 13—**Radiance**—Brilliant crimson, lightly feathered with darker shade on lower petals, upper petals heavily blotched black.
- No. 14—**Princess Maud**—Full light carmine flowers, broadly margined with white, large white center, surrounded with violet; upper petals feathered with maroon.
- No. 15—**Glory of Paris**—Rosy magenta, very free in bloom.
- No. 16—**President Taft**—Deep carmine, upper petals blotched with maroon, very large, bold flowers.
- No. 17—**Mad. Violet**—Ground color, rose, almost covered with brilliant black maroon blotches, light center and edges.
- No. 18—**Blue Mabel**—Identical with well-known Mabel, except color, which is of a rich plum shade. A beauty.
- No. 19—**Rose Queen**—Rosy pink, feathered with purple.
- No. 20—**Zella de Lussan**—Large white flowers, upper petals feathered with deep carmine, petals crinkly. Another choice variety.
- No. 21—**Lady Primrose**—Beautiful tint of blush rose, distinct blotch on upper petals; dwarf and spreading habit.
- No. 22—**Mabel**—Upper petals brilliant dark maroon, under petals soft rosy-pink, large white center.
- No. 23—**Mad. Thibaut**—The queen of pelargoniums; blotched and marbled rose on white ground; upper petals marked with maroon; large white center and edges of petals also white.
- No. 24—**Duke of Manchester**—Light salmon petals edged with white, upper petals feathered with maroon.
- No. 25—**Captain Raikes**—Flowers very large and full; color dark fiery crimson; petals, crispy and of great substance.
- No. 26—**E. G. Hill**—A remarkable bold flower, of grand substance, extraordinary size, brilliant dark maroon, shaded scarlet; lower petals lighter in shade, with large white center, upper petals grandly feathered deep crimson; lower petals lighter; flowers of a perfect round form.
- No. 27—**Beauty of Oxtan**—The upper petals a very rich maroon, darkly blotched, under petals very dark crimson, light centers, all the petals margined white.
- No. 28—**Maud Hooper**—Flowers of a delicate rose-blush, deepening toward center of flower; upper petals feathered deep rose, beautifully fringed and undulated. A very free bloomer.
- No. 29—**Princess Maud**—Full light carmine flowers, broadly margined with white; large white center surrounded with violet; upper petals feathered with maroon.
- No. 30—**Victor**—Crimson blotched with maroon.
- No. 31—**Amazement (Variegated Leaf)**—In this Pelargonium we have a true variegated white and green leaf, in decided contrast. The flowers are large, with black maroon blotches on fiery red ground, and are edged with rose. A beautiful ornamental house plant.
- No. 32—**Sweet Scented Pelargonium**—The plant is hardy, profuse bloomer, flowers are large. Color, delicate shade of pink. Upper petals blotched and striped with dark carmine. Leaf large and crinkled, and sweet scented as the Rose Geranium. This is a grand novelty and should be found in every garden.

Pelargoniums are the most beautiful of the Geranium family. Their showy flowers are produced with the greatest liberality, and come in the richest and most fascinating colors that Nature can paint. Some of the blossoms are fringed—others are double. All are marked or blended in untellable picturesque ways. There is nothing in the floral kingdom more easily cultivated—nothing more certain to give pleasure and satisfaction.

Strong Plants

25c Per Plant, Postpaid
12 for \$2.00

Ready for Immediate Delivery. No premium

No. 1—**Adelia Brandt**—Perfectly rounded, but fluted, forming fine trusses of a deep carmine rose shade, flushed with purple. Petals of flowers beautifully edged with white, also center of flower white, upper petals with crimson colored feather.

No. 2—**Duke of Fife**—A regal variety in the way of Mad. Thibaut, but with much deeper colored flowers and of fuller appearance.

No. 3—**Bride of Lammermoor**—A large white, with purple blotches in upper petals.

No. 4—**Countess**—Very large flowers of a distinct shade of cerise salmon; large, white throat; upper petals splashed with maroon.

No. 5—**Mrs. Robert Sandiford**—The flowers are pure white and perfectly double and very free in bloom.

No. 6—**Varigata**—White, lightly streaked or marked pink.

No. 7—**Pansy**—Rounded satiny, exquisitely marked and colored. This variety is truly pansy flowered. Its colors range from a large crimsoned chocolate center through pink to white at the edges. Growth characterized by compactness and sturdiness.

No. 8—**Franciscana**—Somewhat like old Empress of India, but larger flowers. Color, rich salmon pink; upper petals blotched deep carmine; edge of petals white; also the center.

No. 9—**Gaiety**—Blooms of immense size, white ground veined and carmine.

No. 10—**Crimson King**—Intense crimson, one of the best market varieties.

No. 11—**Countess of Crew**—Attractive, satiny rose; fine bold flowers of beautiful crumpled petals.

An interesting and valuable plant. The flowers are double and from four to five inches in diameter; light, soft, clear pink, deep crimson blotch in center. It blooms abundantly and continuously, even on small plants, during the entire summer and fall months.

Double Hollyhock Roots

LARGE TWO-YEAR-OLD ROOTS

25c Each, Postpaid—12 for \$2.50

READY FOR IMMEDIATE DELIVERY

Hollyhocks are old inhabitants of our gardens, but under our special culture and hybridization they have been greatly improved in doubleness and enlarged in size. For backgrounds and screens—for planting in lines or clumps—they are simply invaluable. The flowers—which measure from 3 to 4 inches across and are as elegant in shape as the Camelia—form perfect rosettes of the most lovely shades of crimson, yellow, pink, white and other colors, as well as charming combinations. Hollyhocks require a deep, rich soil, and will repay in quantity and gorgeousness of bloom any extra care. Colors, crimson, pink, yellow and white.

Hollyhock Roots

15c Each, Postpaid—\$1.50 per Dozen

READY FOR IMMEDIATE DELIVERY

These plants were raised from the choicest of Imported Double Hollyhock Seed. Will bloom profusely this summer. Charming shades of pink, yellow, white and crimson.

DELIVERED FREE—Others Charge Double
Ready for Immediate Delivery

Chas. C. Navlet Co's. Exhibition Collection of the Most Beautiful Pansies in Existence

These Pansies Are All True Giant-Flowering Varieties of the Most Highly Developed New Types

A remarkable strain of Giant Pansies, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and fluted from center to circumference, not unlike "frilled" velvet. The unusual substance of the flowers, aided by these corrugations, thus enables them to present bold, open and handsome faces, even during windy or dry summer weather, when other Pansy flowers flop or wilt. The flowers are extraordinarily large, and are borne on strong stems well above the foliage, and contain rich combinations of coloring, including some new tints and blendings not met with in other Pansies. The plants are vigorous and large, and flower abundantly.

Masterpiece Pansy

Oriental Poppy Plants

15c Each—12 For \$1.50, Postpaid

Ready for Delivery All the Year Round

For a gorgeous display of bright scarlet flowers nothing can equal the Oriental Poppy. Their flashing scarlet flowers with black cloth on each petal makes a gorgeous display during the summer months, at which time they are at their best.

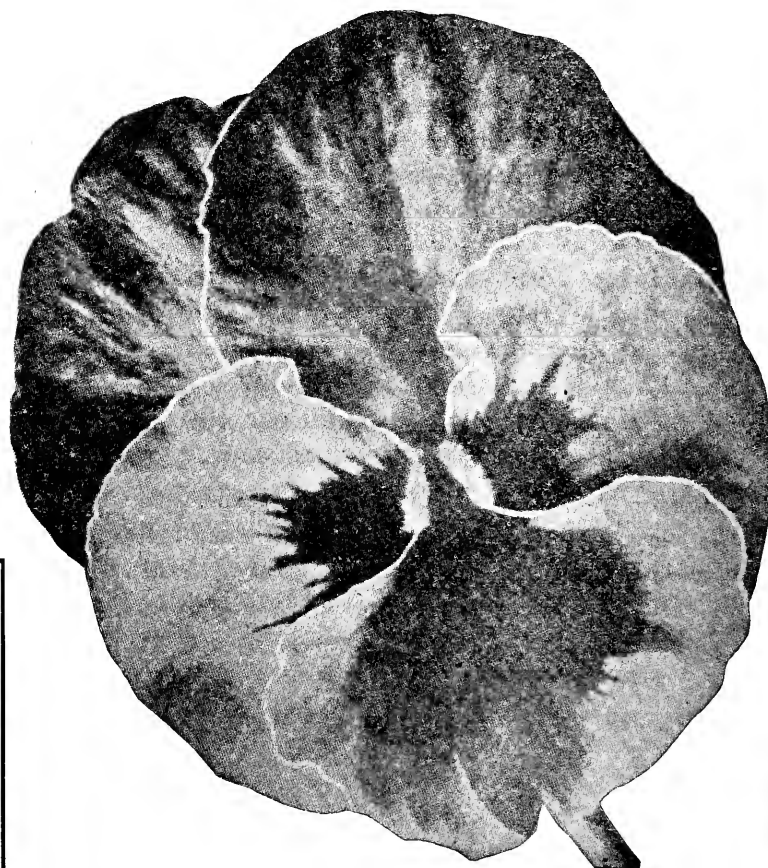

Plant a few of these Poppies in your garden and you will be delighted with the flowers.

Matillija Poppy Plants

Well Established Plants \$1.00 Each, Postpaid

Specimen Plants \$2.50 to \$3.00 by express. Will bloom the first season. Ready for delivery all the year round.

A California native flowering shrub, and commonly known as the queen of the native flowers. It is a vigorous grower and often attains a height of 4 to 6 feet. The foliage is a beautiful silvery green, and the large flowers, with their silky white petals and bright yellow center, make it one of the most attractive shrubs grown. The stems are long and stiff, making it very useful for cut-flower purposes. This magnificent plant should be in every garden.

Exhibition Pansy

Giant Flowering Marguerite Plants

15c Each—6 For 75c, Postpaid—12 For \$1.00

READY FOR DELIVERY ALL THE YEAR ROUND

The Marguerite is one of the showiest of plants; requires less care than any plant grown. Superb for solid beds clumps and hedges.

White—Well-known free-blooming plants. When planted in masses with Geraniums, Salvias, and Cannas the display is nothing short of magnificent.

Yellow—A rich, beautiful color. Same habit as the white Marguerite.

Blue—Elegant. Grows to a height of 18 inches. When planted together, the varieties make a sight that is beyond the power of printer's ink to describe.

Improved White Marguerite Plants

15c Each, Postpaid—12 For \$1.00

READY FOR DELIVERY ALL THE YEAR ROUND

Coronation—Double row of petals. Free-blooming plants. Large white flowers. Very beautiful.

Matillija Poppy

Remember this! We sell you six 5c packages of vegetable seed or flower seed for 25c, or three 10c packages of vegetable seed or flower seed for 25c, or \$1.25 worth of seed packages (vegetable or flower) for \$1.00.

Single Petunia Plants

The Most Superb Strain in Existence

Well Rooted Plants—Sure to Bloom Quickly

15c Each, Postpaid—\$1.25 for 12—100 for \$5.00

READY FOR IMMEDIATE DELIVERY

These Single Petunias are unrivaled for beauty, size and luxuriance. Most of the flowers are exquisitely ruffled or fringed on the edges, and are of enormous dimensions—literally as large as saucers. They come in a tremendous variety of colors, markings, veinings, blotchings, and stripings, and in the most beautiful and grotesque combinations. Some are rich and gorgeous—others are lovely and delicate.

Royal Purple Petunias—A new and strikingly beautiful single Petunia of a royal velvety purple color. 15c each, 12 for \$1.25, 100 for \$5.00.

Double Petunias

GIANTS OF CALIFORNIA

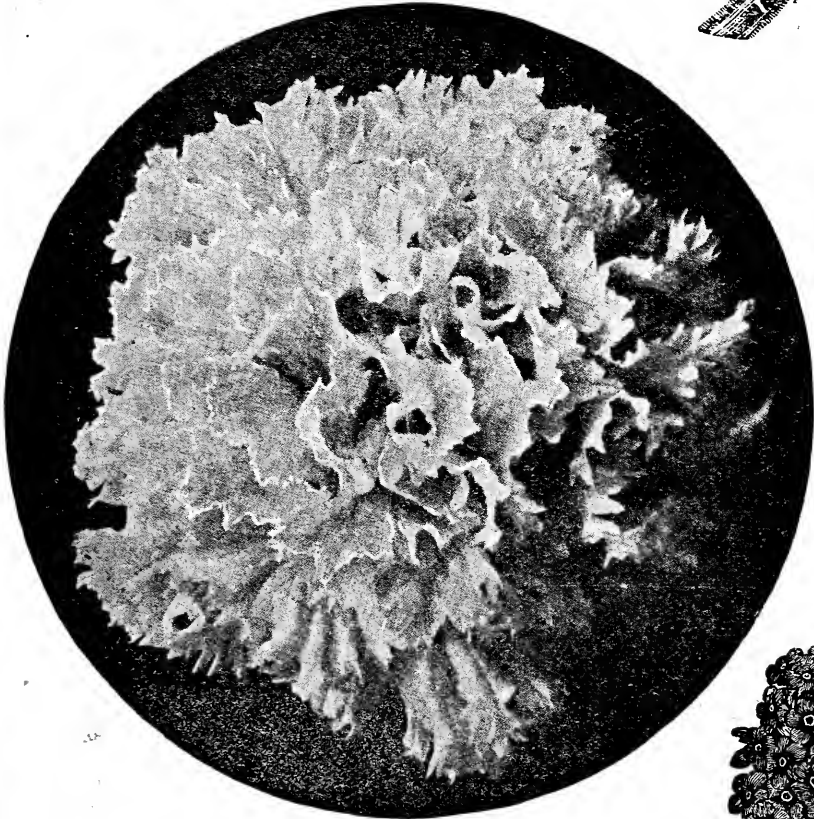

Raised From Plants of Imported Novelties

Well Rooted Plants—Sure to Bloom Quickly

20c Each, Postpaid—\$1.50 for 12—100 for \$6.50

READY FOR IMMEDIATE DELIVERY

The flowers of these wonderful Double Petunias are as large as Hollyhocks and as double as double can be. Their petals are fluted and crinkled in ways that intensify and vary the colors with high lights and dark shadows, and give the flowers the richness and appearance of crumpled velvet. Some are in self-colors—others are veined, blotched and margined. Try them.

Double Petunia

Poinsettia Plants

35c Each, Postpaid—Large Plants 50c to \$1.50, by Express.

READY FOR IMMEDIATE DELIVERY

A Poinsettia Plant in full bloom is one of the most gorgeous and stately objects in the California garden at Xmas time. The branches are crowned with floral bracts—of the most intense bright red—that measure from 5 to 18 inches across. The bracts remain fresh and bright for several weeks, and are in great demand for Xmas decorations. The Poinsettia is also an extra fine pot plant.

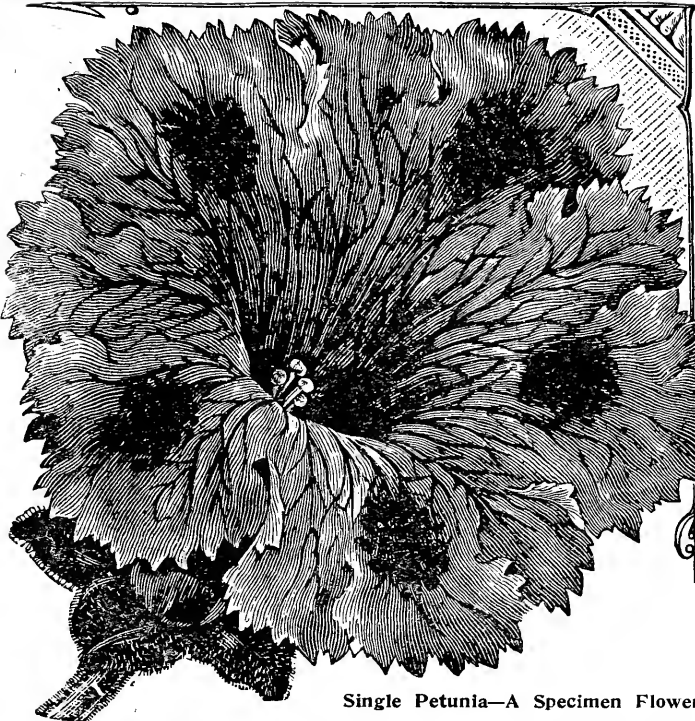

Polyanthus Plants

(CWSLIP) OR GARDEN PRIMROSE

12 for \$1.00, Postpaid—100 for \$5.00

READY FOR IMMEDIATE DELIVERY

A truly grand spring flowering plant for the garden or house. The flowers are daintily edged and laced, and come in fine range of beautiful colors. Strong Plants—grown from a selected strain of imported seed.

Single Petunia—A Specimen Flower

Hardy Phlox Plants

ASSORTED COLORS

15c Each—\$1.50 Dozen, Postpaid

READY FOR IMMEDIATE DELIVERY

Among the hardy perennial plants, no class is of more importance or is more in public favor today than the Hardy Phlox, embracing as they do a wider range of attractive colors than can be found in any other hardy plant, while their gorgeous masses of color are unrivaled by any other summer flower. We have eliminated from our collection all inferior sorts and varieties of dull color, and are offering only such as are distinct and effective. Many of the sorts which heretofore have been scarce and high-priced are now offered in our choice collection.

Phlox

The Latest Introductions of Strong Field-Grown Bush Roses

Radiance—A new Rose of American origin, and in our opinion one of the most meritorious of recent introductions. The buds are large and pointed, expanding into blooms of enormous size. The shape is similar to Madam Caroline Testout, but the color is a deep silvery-rose. A wonderfully productive variety, with fine stem and foliage. 60c each, \$6.00 per dozen by express.

J. B. Clark—Hybrid Tea. One of the most vigorous growing of all hybrid tea roses, the flower canes being sometimes six feet high. The color is a blackish crimson, with scarlet shadings; a fine fall bloomer. 50c each, \$5.00 per dozen by express.

Roger Lamberlin—Hybrid Perpetual. The color is a glowing crimson, each petal being marked with white. 50c each, \$5.00 per dozen by express.

Mrs. Benjamin R. Cant—A splendid new garden Rose of round, full form and solid color, clear, bright rosy-pink, large size, double and full, and quite fragrant. The most vigorous grower of all Tea Roses. It is an excellent garden Rose—has come to stay. 50c each, \$5.00 per dozen by express.

Austrian Copper—A beautiful, bright reddish copper, the reverse of the petals being a golden copper; flowers single and very striking. 50c each, \$5.00 per dozen by express.

Irish Glory—A new Irish single rose; a prize-winner in England at the floral show. Color a beautiful cerise; large, broad petals; free bloomer; a vigorous grower. 50c each, \$5.00 per dozen by express.

Irish Elegans ("Irish Rose")—Apricot, shaded coppery-bronze at the base of petals, flowers single. This interesting rose is a new type. 35c each, \$3.00 per dozen by express.

Dark Pink Killarney—Another of last year's improvements in the Killarney Roses. Its habit and blooming qualities are the same as the other Killarney Roses, but of a dwarf growth. The flowers are much deeper in color than the other Pink Killarneys; in fact, almost a pure red. 35c each, \$3.00 per dozen by express.

Double Pink Killarney—Very free bloomer, strong grower. A favorite with the Rose lovers. It is a wonderful improvement over other Killarney varieties on account of being double. 35c each, \$3.00 per dozen by express.

Mrs. John Laing—Hybrid Perpetual. The color is a soft pink; the flowers are very large, beautifully formed and intensely fragrant. A few flowers placed in a vase will scent the whole room. 35c each, \$3.00 per dozen by express.

The Lyon—The most sensational Rose yet introduced, but neither words nor artist's brush can do justice to its wonderful coloring—it must be seen to be appreciated. It is of very vigorous habit, with excellent foliage of a rich reddish-green. The buds are long, tipped coral-red and chrome-yellow at the base. The flowers when expanded are large and full, with broad petals of a superb color, being a coral-red or salmon-pink, shaded with chrome-yellow in the center, toning to a shrimp-pink at the tips, a most happy and charming contrast of colors. Very free, fragrant and hardy. 35c each, \$3.00 per dozen by express.

Mrs. Aaron Ward—Long buds borne on erect stems; flowers very large and full; and the color is coppery-orange in the opening bud; golden-orange when partly developed; pinkish fawn of lovely shade when fully open, when it looks like a full, puffy silk rosette. No wonder that flower buyers have fallen in love with it! 35c each, \$3.00 per dozen by express.

"My Maryland" American Introduction—The plant is of strong, vigorous growth, very free flowering, every shoot bearing one or more flowers, which are double, of perfect form, of a bright but tender salmon-pink, which lightens up beautifully as the flower expands; strongly and delightfully fragrant. An ideal bedding rose. Strong two-year-old plants. 35c each, \$3.00 per dozen by express.

Richmond—A splendid new Rose. This Rose won the first prize at the San Francisco Flower Show. It is semi-double; is a very free bloomer and very easy to grow. The foliage is of a beautiful dark green; long stems. Blooms are a vivid rich scarlet crimson. 35c each, \$3.00 per dozen by express.

Tree or Standard Roses. \$1.25 Each. \$12.00 per Dozen

NO PREMIUMS WITH ROSES

White Killarney Rose

Today we have one of the largest Rose fields in the world. This season our Rose Bushes have grown to perfection, and we are proud to be able to furnish such grand Bushes. Our stock cannot be compared with other plants, which are usually grown in forcing houses. This gives them a rapid growth in a short time, but they have not the strength, size or vitality such as our field grown Rose Bushes possess.

In Rose Culture improvements are going on every year and some of the new varieties we offer are simply marvelous. We have selected the varieties that have proven a wonderful success, and the blendings of colors are such as you don't find in the old sorts. If you would try a few of these new and beautiful ones your Rose Garden would take on an entirely different aspect. Many people plant the old sorts year after year, but fashions change in Roses just the same as in clothes. Our Matchless Beauty Collection includes those that have won gold medals at the big flower shows in England, Ireland and on the Continent.

Dean Hole—Silvery carmine, shaded salmon; absolutely distinct and by far the finest in its way of color. The growth is vigorous, branching and very floriferous; flowers large, of great substance and fine form. A variety of great excellence and useful for any purpose. Gold Medal National Rose Society.

Countess of Gosford—Salmon, pink-rose and pink intermingled; base of petals suffused saffron-yellow, and the whole bloom shaded salmon. Color never fades. The blooms are of perfect form, large, full, long and pointed; large petals of great substance; very floriferous.

Miss Kate Moulton—Light pink, very beautiful; habit robust, with heavy foliage, making it a grand Rose for outdoor culture; especially good for forcing by reason of its free-blooming qualities. This Rose is raised in large quantities by all the leading San Francisco florists.

Wm. R. Smith—This magnificent variety is an American-raised, pedigree seedling. It inherits hardness, constitution, fine habit, grand foliage and superb flowers. Where there are so many good qualities it is difficult to emphasize the leading one, but in this variety we would name its ability to resist disease. The color is a deep ivory white, overlaid with a good, bright shade of pink. As a summer Rose we predict it will rank with the best, if not actually surpass them.

Rosemary—This is one of the best type of hardy everblooming garden Roses, considered from the standpoint of vigorous growth and sound, healthy constitution. The flowers are a beautiful shade of silvery pink, very large and double. It is a sturdy grower, with strong, stiff stems and large foliage. It is a very free bloomer.

Countess of Derby—Center salmon, shading into delicate peach; large, full, free and vigorous in growth; bud sharply pointed in the center; stems stiff and upright. Delightfully fragrant.

Princess Marie Mertschersky—The most beautiful pink rose in existence, for form and color combine.

Mme. Gamon—Pure Tea, with long, handsome bud on a stiff, wiry but graceful stem; the habit is beautiful, and it is a free grower and wonderfully free in bloom. Color, apricot, shaded and washed in golden sunset color.

Rhea Reid—Rose-cerise in summer, "Richmond red" in winter. Blooms are large, elegant and numerous, opening perfectly in winter.

Pink Killarney—Originated in Ireland, near the shore of the historical lake for which it is named, amid grand scenes of unsurpassed beauty, and it does honor to the reputation of the home of its birth. The bush is strong and upright.

White Killarney—A sport from the famous "Pink Killarney," and equal to it in every respect. It is of the same size, form and make-up as the parent, with veritable wax-like blossoms that make it especially valuable for bouquets. Indeed, there are few white Roses can equal it.

White Baby Rambler—Blooms all summer through with amazing freedom and fullness. Bushes candelabra shaped, and each branch bearing from 15 to 50 little flowers, cream-white passing to snow-white.

Etoile de Lyon (Star of Lyons)—Hardy ever-blooming Rose. This is undoubtedly the best Pure Yellow Rose for garden planting yet introduced; color is clear bright golden-yellow, the plant is a strong, robust grower, and very hardy; commences to bloom quickly and continues to bear an abundance of splendid flowers all through the summer and fall; makes beautiful buds, and is very double and sweet, and one of the very best garden Roses.

Maman Cochet—Yellow, Crimson and Red. For full description see next page.

Helen Good—The most satisfactory Rose of its color ever introduced. Beautiful long, pointed buds and immense, full, perfectly double flowers. Color warm, rosy pink.

La Detroit—Clear flesh-pink, shading to deep rose; fine broad, shell-like petals; very full and deliciously tea scented; a vigorous grower and abundant bloomer.

Captain Christy—Delicate flesh-pink, shading deeper at center of magnificent double flowers of bright, satiny appearance.

Madame Leon Pain—Silvery salmon, center orange-yellow, reverse bright red and yellow. Robust grower with handsomely colored foliage. Large and full flowers, which open freely.

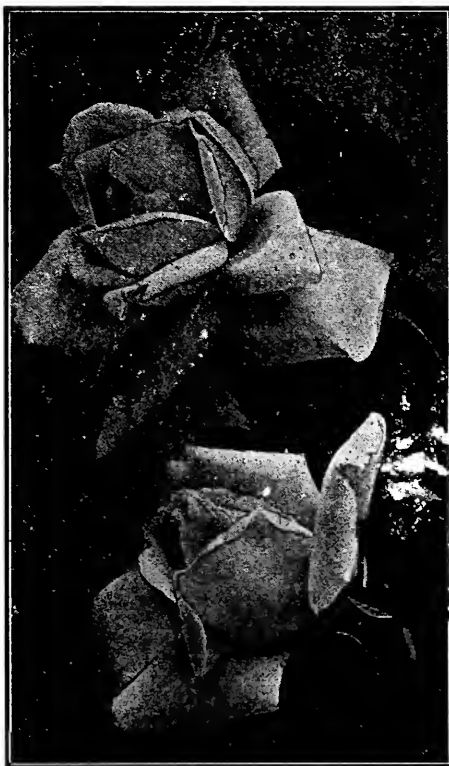

Baroness Rothschild—An exquisite shade of rich, satiny-pink.

Souvenir du President Carnot—A Rose that pleases everybody; fine in form, of large size, delicate in color; a soft rose shading to white.

Red La France (Duchess of Albany)—It is much deeper in color than its pink sister, being a brilliant rose pink, handsomely shaded deeper toward the center.

White La France (Augustine Guinoisseau)—Silvery white, with the faintest tinge of rose blush. Buds and flowers are extra large and of splendid shape and exquisitely perfumed.

Striped La France—In all respects the same as the pink, except that its petals are beautifully striped with a deeper shade of rose pink.

Miss Kate Moulton Rose

Chas. C. Navlet Co's Superlative Collection of Maman Cochet Roses

The Most Beautiful Family of Ever-blooming Roses in Existence

Strong, Field-Grown Rose Bushes Ready for Immediate Delivery

Crimson, Yellow and Red
35c Each, 12 for \$3.00

PINK AND WHITE
25c Each, 12 for \$2.50

We will send one each, Crimson, Yellow, Red, Pink and White, for \$1.50 by express.

NO PREMIUM WITH ROSES

No family of Roses, no matter where grown, are better than the superlative collection of Maman Cochet Roses. Search the wide world over and you cannot get five Roses of different colors that will thrive better, produce prettier flowers or give better satisfaction. Others charge you twice or three times our price for small pot grown plants. Ours are strong field grown bushes, and better cannot be bought at any price.

Red Maman Cochet (HELEN GOULD)

This is a Rose that will grow and give satisfaction in almost any soil or situation. It produces its splendid flowers in amazing profusion, on long, strong shoots. For vigor and freedom of bloom, thousands of growers regard this Rose as better than American Beauty, and without a peer. The flowers are very full, perfectly double; buds long and pointed. Color warm, rosy crimson; hardy everywhere.

Yellow Maman Cochet

We continue to regard this grand kind as absolutely the best hardy, everblooming yellow rose. It is ideal for open-ground culture—a typical Cochet Rose, with gracefully molded buds; flowers magnificent when open, on stiff, strong stems. This kind is identical in every way with Pink and White Cochet, except in the color of the flower, which is deep sulphur-yellow.

Crimson Maman Cochet

(ETOILE DE FRANCE)

This well-known Rose we have named descriptively **Crimson Maman Cochet**, because of its vigor of growth, stiffness of stems, heaviness of foliage, freedom of bloom, and hardness. It bears masses of full, deep-formed flowers singly, on long, substantial stems. The color is a new and clear shade of red or crimson-velvet, brightening in center; of exquisite fragrance.

Pink Maman Cochet

We have always regarded this as the Queen of all Pink Garden Roses, and, as our friends become acquainted with it, they join us in similar admiration of its exquisite form and delicate beauty. The buds are large, full and firm, elegantly pointed, showing depth and richness as they expand. The superb flowers open perfectly double, are extra large and of splendid substance. Hardy in every section of the country; clear, rich pink, changing to silvery rose.

White Maman Cochet

Identical with its parent, Maman Cochet, except in color, which is snowy-white, with sometimes a faint tinge slightly suggesting pale blush. It has the same freedom of bloom, the same magnificent form of buds and flowers, and the same hardness—standing at the very head of all the Roses as the best white kind for open-ground culture. Vigorous as an oak and hardy everywhere.

Maman Cochet Roses

White American Beauty (FRAU KARL DRUSCHKI)

Strong Field Grown Bushes

25c Each, 12 For \$2.50

Three-Year-Old Bushes

50c Each, 12 For \$5.00

This Rose is the largest and best White Rose grown. It is an extra free grower and branches freely with the vigor and hardness of an oak. The large and heavy foliage is remarkable. The flowers are nothing less than glorious and immense in size; produced with freedom on long, stiff stems. Plants in home gardens have borne hundreds of magnificent flowers, full, very deep and double, of splendid substance, with long petals, broad and saucer-shaped. The bud is egg-shaped, long and pointed. The color is marvelously white, without a tinge of yellow or any other shade. We have a large stock of this truly wonderful Rose, which is hardy everywhere. We urge our friends to give Frau Karl Druschki a trial. See illustration on front cover.

Collection of Famous Strong, Field-Grown Rose Bushes

All Roses on this Page

25c Each

6 for \$1.25—12 for \$2.50

Ready for Immediate Delivery

NO PREMIUM WITH ROSES

La France—Garden Rose. One of the loveliest and probably the most popular Rose in cultivation. Both buds and flowers are of entrancing form, grand size and delightfully fragrant. The color is a silvery-rose, clouded with a pink that is as delicate as the blush of mother-of-pearl, and the petals of the magnificent flowers are covered with a satiny sheen. It begins to blossom while very small, and is constantly in blossom until stopped by freezing weather.

Kaiserin Augusta Victoria—A royal new Tea Rose with a royal name. Color, pure ivory-white. The perfect flowers—borne singly on strong, upright stems—are of enormous size, and show no center when fully open. One of the finest Roses for corsage wear, or any other use to which flowers can be put.

Bridesmaid—Tea Rose. The pink "sport" from Catharine Mermet. It is of stronger growth than its parent, and its foliage is handsomer, its joints shorter and its blossoms of a much livelier pink.

Catharine Mermet—Tea Rose. Clear flesh color, with the silvery sheen of the La France. The large, full and well-formed flowers are particularly attractive when in bud. Of sterling merit. One of the finest and best forcing Roses.

Duchess de Brabant—Tea Rose. Soft, silvery-rose, heavily shaded with amber and yellow. Few Roses equal this in freedom of flowering—none surpass it in richness of color, fragrance, or beauty of foliage.

Hermosa—Bourbon Rose. Color a soft, yet deep and extremely pleasing pink. The flowers are cupped—faultlessly formed—very double and fragrant. Blooms in clusters all season.

Souvenir de Malmaison—A notable Bourbon Rose. Lovely flesh white—clear and fresh. Extremely large and deliciously sweet flowers. Attains its greatest beauty in the fall, and especially valuable on that account. Considered the finest of the Bourbon Roses.

Safrano—A magnificent Tea Rose. Bright, apricot-yellow, changing to orange and fawn, and sometimes tinted with rose. Highly prized for its beautiful buds and exquisite flowers. Very fragrant.

Comtesse Riza du Parc—A very fine Rose. Color a bright coppery-rose, tinged and shaded and soft and velvety crimson. A profuse bloomer.

Cecille Brunner—The Baby Rose, the smallest of all Roses. The compact, fairy-like, rose-pink flowers are very double—very fragrant—and as full of beauty as a dancing sea under the moon's witchery.

Bon Silene—Tea Rose. Color—A rich, deep rose, often changing to crimson. Extensively grown by florists for its highly colored buds.

The Bride—Tea Rose. Lovely pure white. Very fragrant. The buds are of fine substance and very full and double. Admirably adapted for forcing.

Madame Lambert—The great Southern Rose. A magnificent rosy-bronze, changing to salmon and fawn, shaded with carmine. Large, globular flowers—very sweet-scented. A high-class Rose for garden planting and pot culture.

Paul Neyron—Color, a beautiful pink that no other Rose excels. Immense and superbly formed flowers—very double and of great depth and substance. Hardy, perpetually in bloom, very showy, and somewhat fragrant.

Meteor—The brightest and finest Red Rose. Flowers are of medium size, full and open, very double and slightly recurving. Color, deepest velvety crimson, with no tinge of violet or purple to mar its glowing beauty. The plant is of vigorous, bushy growth, and the foliage is very bright and of the deepest green. A constant and abundant bloomer, bearing flowers all through the season.

Perle des Jardins—Tea Rose. Beautiful canary or golden-yellow. Flowers are of large size and perfect form. Handsome at every stage of development, from the tiny bud to the open flower.

Papa Gontier—A Grand Tea Rose. Dark, carmine-crimson flowers—very full and sweet. Robust grower. Free, constant bloomer. A charming Rose—one of the handsomest and best for open ground.

Moss Varieties

Mousseline—Elegantly mossed and very beautiful. Extra fine, large, very full and exquisitely perfumed flowers. Color—pure white, sometimes shaded with rose-blush.

Henri Martin—One of the finest Moss Roses. Flowers are large, globular in shape and very fragrant. The color is a rich, glossy pink, tinged with crimson.

Princess Adelaide—A fine English variety and a vigorous grower. Greatly prized for its moss-covered buds. Flowers are large and a fine reddish-blush in color.

Alice Leroy—An extra choice Moss Rose. Color—an exceedingly rich, glossy pink. The large, full and beautiful flowers are sweetly perfumed.

No Premium With Roses

The General Jacqueminot Rose is too well known to require lengthy description. It is of vigorous growth and an abundant bloomer—literally a mass of bloom when at its best. The flowers are of grand size—rare beauty—and an intense shining crimson in color. One of the most satisfactory Roses to grow.

Mad. Caroline Testout—A grand Tea Rose. Color a brilliant, shimmery Rose, deepening at the center to a clear cherry red. The petals are exquisitely edged and of the elegant La France form. Both buds and flowers are extra large and beautiful.

Shirley Hibbard—Tea Rose—Beautiful Nan-keen yellow. Free flowering. An immensely popular Rose—and deservedly so.

Marie Van Houtte—Tea Rose. Pale yellow, with the edges of the petals often lined with rose. Well formed—fragrant. Very free blooming.

Ulrich Brunner—A marvelously beautiful Rose. Rich, glowing crimson, strikingly flaked with cerise. Large, highly perfumed flowers, globular shaped. A general favorite.

Rainbow—A Splendid Tea Rose—The color is an entrancing shade of coral pink, striped and mottled with intense shining crimson. Beautiful buds and extra large, sweet flowers.

General Jacqueminot Rose

American Beauty—The magnificent perpetual bloomer. The largest, sweetest and most popular of all hardy Roses. To the ever-blooming qualities of the Tea Rose it unites the delicious perfume of the Damask Rose, and consequently is equally valuable for summer or winter flowering. It makes superb buds and flawless flowers. At all time its flowers bring phenomenal prices, frequently selling for \$25 per dozen. Color a deep, brilliant, rosy-carmine, exquisitely shaded.

Agrippina—China Rose. Brilliant violet red. Fine in bud. Is not affected by the heat, and blooms profusely during the entire summer. A valuable bedding variety, and as a hedge Rose it cannot be surpassed.

Gruss An Teplitz—The Reddest of All Red Roses. It is a Rose for everybody, as it requires no petting and succeeds under the most ordinary garden culture. The color, when first opening, is the richest scarlet, which changes to a beautiful crimson as the blossoms mature. The flowers are of good size, full and fragrant, very showy and attractive. The foliage is exceedingly handsome, the young growth being a bronzy-plum in color. It blooms constantly, and is covered with flowers the entire season.

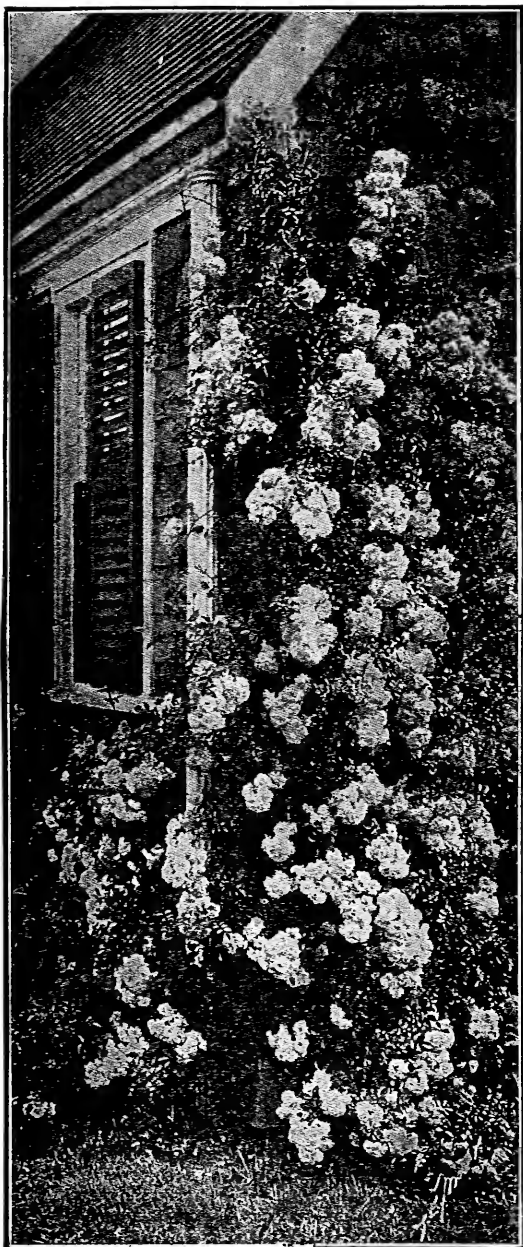

Crimson Baby Rambler

Think of it! An Ever-Blooming Dwarf Crimson Rambler. Unique and Novel Blooms every day in the year. Grows but 20 inches high. The most wonderful Rose ever introduced!

Our Rose Bushes This Year are bigger and better than ever. You will say that they are the biggest values in Roses you ever saw..

Rainbow Rose

True Trellis Dorothy Perkins Rose

Red Single Cherokee Novelty

Ramona—The new red single Cherokee; a sport of the famous Pink Cherokee. The color is one unusual in roses; rich carmine overlaid with a lustrous sheen which is impossible of reproduction with the artist's brush. During the spring months the plants are literally covered with blooms. They flower as freely as the white or pink forms and for porches or covering pergolas and fences they are unsurpassed. Small plants 35c each—\$3.50 per dozen. Large plants 60c each; \$5.00 per dozen.

Single Pink Cherokee Rose

Introduced by Us Seven Years Ago

30c Each—12 for \$2.50

Large Field-Grown Two-Year-Old Plants
on Their Own Roots

READY FOR IMMEDIATE DELIVERY

Single Pink Cherokee is a charming Climbing Rose that we introduced seven years ago. In habit it is similar to the well-known Single White Cherokee, but it is of stronger growth, and its flowers are almost half again as large. Its blossoms are an exceedingly beautiful, lively shell-pink—a trifle lighter in color at the end of the petals—and its luxuriant foliage is darker and richer than that of the white variety. It is in bloom a month longer than Single White Cherokee and there are always a few blooms on this beautiful Climber during the entire season. No lover of Roses can afford to be without this new novelty.

NO PREMIUM WITH ROSES

America—A rampant climber. Very large and beautiful buds and full, sweet flowers. Rich creamy-yellow, passing to orange.

White Banksia—Pure white. The well-known thornless Rose. The small flowers grow in huge clusters.

Yellow Banksia—Canary-yellow flowers. Habit same as that of the White Banksia.

Beauty of Glazenwood or San Rafael Banksia—A charming combination of copper, crimson and salmon-yellow. Fascinatingly beautiful. A grand climber.

Climbing Bridesmaid—Clear, dark, pink. A Rose among Roses. The flowers, when fully opened, are surpassingly beautiful, and in bud are superb beyond anything we have ever seen.

Mad. Alfred Carriere—One of the strongest and most vigorous of Roses. Especially fine when in bud. White, shaded with yellow at the center.

Double Cherokee—A beautiful hardy, quick-growing Climbing Rose. Glossy dark green foliage. Pure white double flowers, 2 to 3 inches in diameter. Foliage retains its glossy green color the entire season.

Single Cherokee—Large, clear, white, single flowers, full of bright yellow stamens in the center. Very odd. Dark rich, carmine foliage.

Glorie de Margottin—A most brilliant Rose. The flowers are very large, somewhat globular, very symmetrical in form, usually full and delightfully perfumed. Color—a clear, dazzling red. A free bloomer and vigorous grower.

Cloth of Gold—A clear golden-yellow. Large, very full and double flowers. Highly fragrant. Greatly prized for pillars and verandas.

Gold of Ophir—A splendid Climbing Rose. Beautiful flowers. Salmon-yellow, shaded with bright deep rose.

Caroline Goodrich—A hardy climbing Tea Rose. The finely formed, very double and very fragrant flowers are of the true Jacqueminot color.

Climbing Kaiserin Augusta Victoria (Mrs. Robert Peary)—A magnificent and celebrated Rose. Succeeds in any climate. Pure white flowers—extra large, full, deep, and double.

Lamarque—Pure white. The large, full and very double flowers are borne in large clusters. A rampant and extremely beautiful climber.

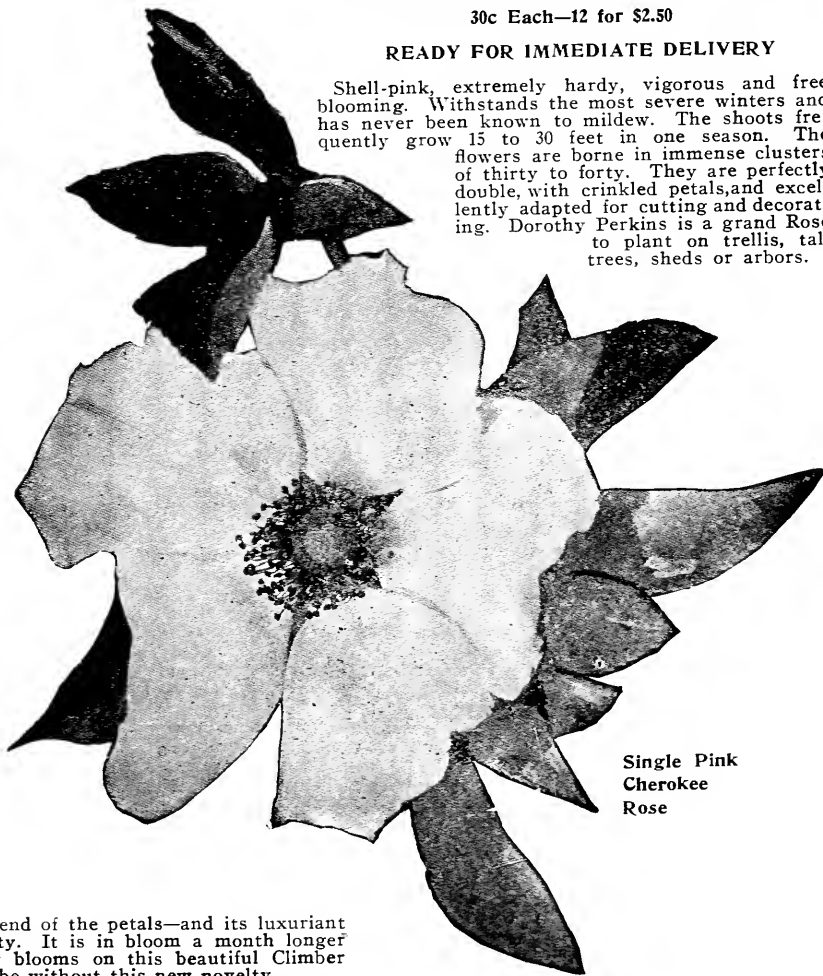

Climbing Meteor—A new Rose that might more properly be called Perpetual Blooming Climbing Jacqueminot. A sport of that fine Tea Rose—Meteor. But its flowers are much larger and of a richer, deeper crimson. It makes exquisite buds and elegant flowers—grows 10 to 15 feet in a season—and shows a profusion of bloom every day.

True Trellis Dorothy Perkins

30c Each—12 for \$2.50

READY FOR IMMEDIATE DELIVERY

Shell-pink, extremely hardy, vigorous and free blooming. Withstands the most severe winters and has never been known to mildew. The shoots frequently grow 15 to 30 feet in one season. The flowers are borne in immense clusters of thirty to forty. They are perfectly double, with crinkled petals, and excellently adapted for cutting and decorating. Dorothy Perkins is a grand Rose to plant on trellis, tall trees, sheds or arbors.

Climbing Roses

Strong Field-Grown Roses 25c Each 6 For \$1.25 12 For \$2.50

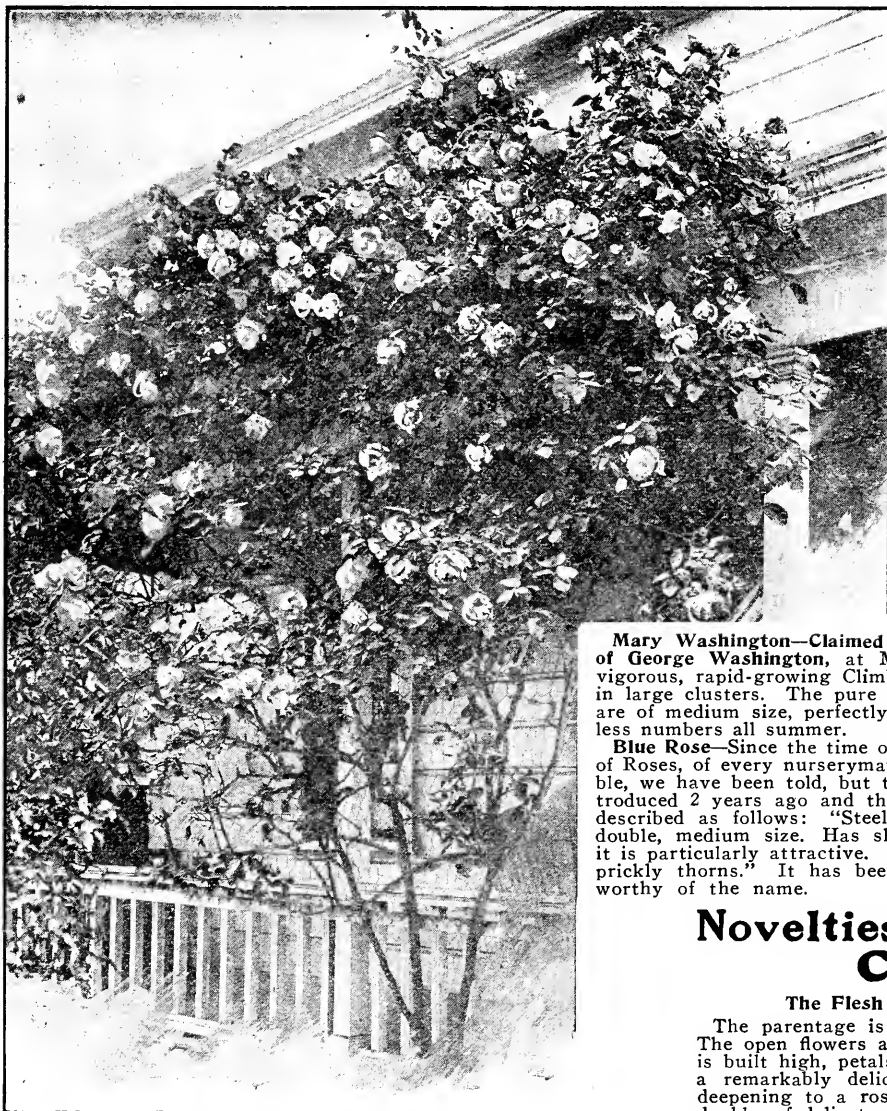

READY FOR IMMEDIATE DELIVERY

NO PREMIUM WITH ROSES

Reine Marie Henriette (Sometimes called the Red Marechal Niel)—This Rose is one of the prettiest, free-blooming climbers we know of. There is no Rose that blooms so freely and produces such beautiful flowers as the Reine Marie Henriette. The flowers are large and double, of bright cherry-red color. Sweetly scented and with long stems. A Rose that can be used for decoration and for bouquet.

The picture shown on this page was taken the 2nd day of November, 1909. The bush is a mass of bloom from early spring until late in the fall.

No Rose garden is complete without this beautiful red climber. It requires little care and produces an endless amount of blooms. We recommend this to be one of the prettiest and most free bloomers known.

Reine Marie Henriette Rose

New Climbing Roses

STRONG, FIELD-GROWN ROSES
35c EACH, 6 FOR \$1.75, 12 FOR \$3.00.

Elie Beauville—A beautiful salmon-fawn.

Climbing Bride (Ruth Vestal)—A lovely pure white climbing form of the Bride.

Climbing Cecile Brunner—Color rosy pink, rich creamy white ground.

Climbing Papa Gontier—A climbing Papa Gontier with all that the name implies. Rich red; a beauty.

Climbing Killarney—An exact counterpart of Killarney in every respect except that it is a vigorous climber. This will prove a grand garden climbing rose.

Climbing Mme. Caroline Testout—A rampant climber. In flower identical with Mme. C. Testout. Beautiful glowing pink. You can't beat it.

Climbing Malmaison—Color rich, creamy flesh, shaded clear peachy rose with rose center.

Climbing Perle des Jardins—A strong growing form of Perle des Jardins, deep golden yellow.

Tausendschoen or Thousand Beauties

The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink, changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring. You can word paint all you want to and then you will have left something unsaid. Simply a wonder.

Pillar of Gold—In a class by itself. Yellow Climbing Roses, with the exception of Marechal Niel are rarely mentioned. But in Pillar of Gold we have a jewel. The blooms are double to the center and of the largest size. They come in immense sprays or bunches of from 5 to 10 flowers on a single branch, and the effect throughout the entire season is that of a perfect sheet of gold. Color—Deep yellow, flushed with coppery-yellow, the reverse of the petals showing touches of bright rose.

Crimson Rambler—A Grand Climber—A peculiar and lovely crimson. The flowers form in magnificent pyramidal clusters, each cluster a perfect bouquet of Roses in itself. The foliage is a bright green, and contrasts finely with the flowers.

Marechal Niel—Beautiful deep, sulphur-yellow. Flowers are very full, large and rich in perfume. One of the finest yellow climbing Roses in existence.

Wm. Allen Richardson—Orange-yellow, with lighter outer petals and coppery-yellow center.

Climbing Safrano—A fine Climber that will flourish in any soil. Flowers are large, full and sweet. Color—Deep yellow, and sometimes coppery-yellow or rosy-buff.

Solfaterre—Fine, clear, sulphur-yellow. Large, double flowers—very full and fragrant.

James Sprunt—Especially fine for hedges. The rich velvety crimson flowers are produced in beautiful clusters. Very floriferous.

Mary Washington—Claimed by the introducer was originated in the garden of George Washington, at Mount Vernon, more than 100 years ago. It is vigorous, rapid-growing Climbing Rose, and produces a profusion of fine buds in large clusters. The pure white flowers resemble the Polyantha Roses, and are of medium size, perfectly double and very sweet. They are borne in endless numbers all summer.

Blue Rose—Since the time of Omar it has been wish and dream of every lover of Roses, of every nurseryman, to be the one to produce a Blue Rose. Impossible, we have been told, but the impossible has been accomplished. It was introduced 2 years ago and thousands upon thousands were sold. Briefly it is described as follows: "Steel-blue flowers, appearing in large clusters, semi-double, medium size. Has showy yellow stamens, and with the blue flowers it is particularly attractive. Very strong grower, glossy green foliage and few prickly thorns." It has been called the Blue Rambler, and it is a novelty worthy of the name.

Novelties and Specialties in Climbing Roses

The Flesh Pink Climbing Rose (Dr. W. Van Fleet)

The parentage is Souvenir du Pres. Carnot X Rosa Wichuraiana. The open flowers are four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkably delicate shade of flesh pink on the outer surface, deepening to a rosy flesh in the center. The flowers are full and double, of delicate perfume, buds pointed, stems twelve to eighteen inches, and fine for cutting. The foliage is a peculiar shade of bronze green, large and glossy, with spines a bright bronze red. The variety is a vigorous grower, practically immune from mildew. 60c each; \$6.00 per dozen.

The Large Clematis-Like Rose Silver Moon

Silver Moon is the result of a most interesting cross, Rosa Wichuraiana X Rosa Senica—Cherokee Rose. The flowers run four and one-half inches and over in diameter. Clear silvery white in color, petals of great substance and beautifully cupped. The center is filled with bright yellow stamens, a very attractive feature. It is very floriferous, the plants literally covering themselves with great clematis-like flowers. They are borne on strong stems, twelve to eighteen inches long, and are delicately fragrant. The foliage is large and abundant bronze-green, glossy and practically immune from mildew. 60c each; \$6.00 per dozen.

Climbing White Maman Cochet—The grandest novelty in climbing roses to date. This variety offered is a sport from the Pure White Maman Cochet and is identical with it in every way. The flowers are the same form and substance, but on account of its vigorous habit they are larger and finer. There is no other rose that blooms more freely than the Cochet. You must have one of these climbers in your garden to appreciate its beauty. 50c each; \$5.00 per dozen, by express.

American Pillar—A new single-flowering variety of great beauty, which appeals to everyone. The flowers are of enormous size, three to four inches across, of a lovely shade of pink, with a cluster of yellow stamens. These flowers are borne in immense clusters, and a large plant in full bloom is a sight not easily forgotten. They last in perfection a long time, and are followed by brilliant red hips or berries, which are carried late into the winter and as the plant frequently retains its lovely green foliage until the end of November, it forms a beautiful decorative subject throughout the autumn months 50c each; \$5.00 per dozen, by express.

Luther Burbank's

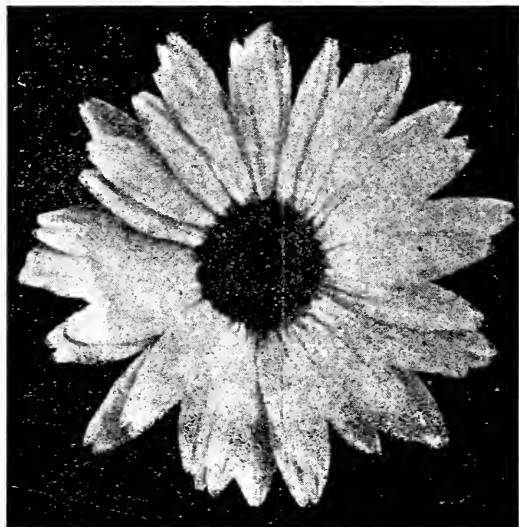

Shasta Daisy Alaska

Plants

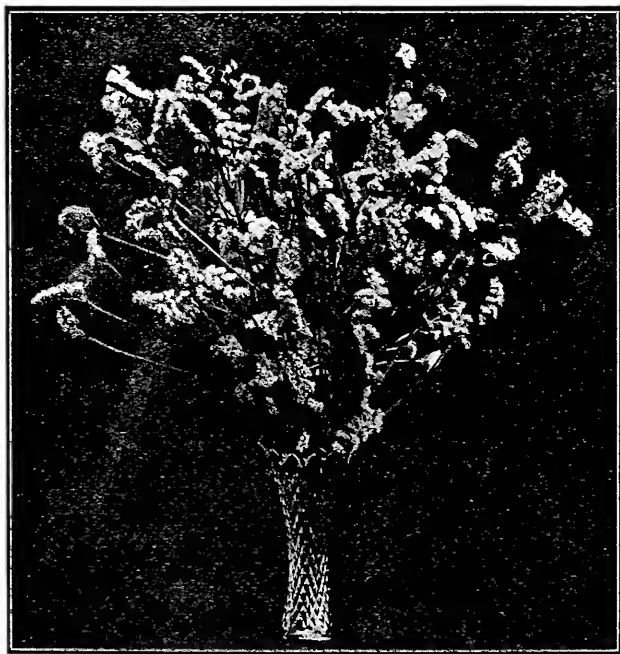

15c Each or
\$1.50 a dozen, Postpaid.

READY FOR DELIVERY ALL THE YEAR ROUND

This grand large flowering Daisy originated with our friend, Luther Burbank. The flowers measure fully four inches across and have one or more rows of long, slender, snowy-white petals surrounding a small golden-yellow center or eye. As the extra large flowers come singly on a stiff, slender stem nearly two feet in length, they are especially useful as cut flowers to arrange in tall vases. Hardy as oak trees.

Among the recent introductions Statice is one of the grandest everlasting flowers on account of its long stems and free-flowering qualities. Blooms from midsummer until late in the fall. Hardy perennial. The stalks are covered with panicles of minute flowers, which can be dried and used in vases in the winter.

Sweet William

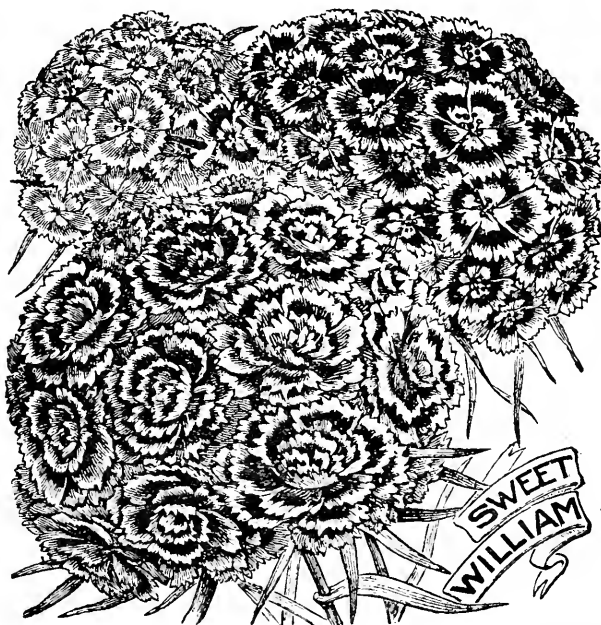

Mammoth Flowering

75c per Dozen, Postpaid
100 for \$4.00

READY FOR DELIVERY THE YEAR ROUND

The Sweet William is one of our finest garden plants. It is of easy culture, and thrives in any good soil, and lasts for years. The plants grow about one foot high and form fine clumps. Our strain produces very large florets in large heads and of a great variety of brilliant colors, including blood-crimson, salmon, pink, white and cerise—many having large, white eyes, and all being sweetly scented. The plants we offer at 75c a dozen, postpaid—or \$4.00 per hundred—are one year old, and will bloom the first season. Plants grown from seed never blossom until the second year.

We guarantee all goods to arrive in perfect condition. If they fail to do so return them at our expense—we will promptly replace them or refund the full price paid.

Mammoth Flowering

California Verbena Plants

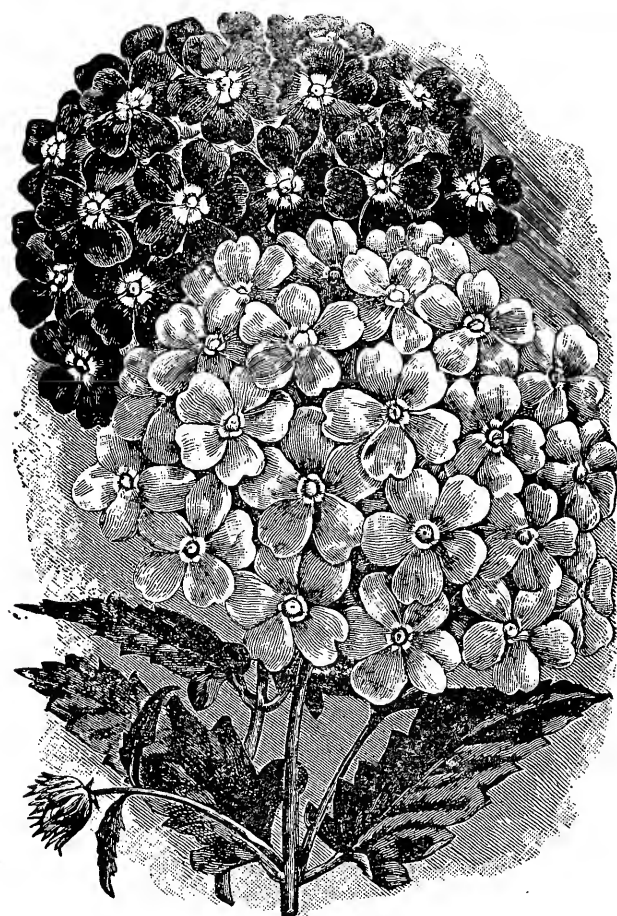

12 Plants for 50c Postpaid
or 100 Plants for \$3.00

Assorted Colors—Pink, Blue, Scarlet, Purple and White

READY FOR DELIVERY THE YEAR ROUND

We have every reason to believe that our California-grown Verbenas are without rival. We have yet to see their equal for abundance of bloom, size of flower and truss, beauty of form, richness of color and vigorous growth. The plants we offer at 50c a dozen, postpaid—or \$3.00 per hundred—assorted colors—are not rooted cuttings, but strong transplanted plants. They will begin to blossom and spread the day set out, and will soon cover the ground with a carpet of beautiful flowers.

VERBENA PLANTS IN SEPARATE COLORS—White, pink, blue, scarlet or purple—75c per dozen, postpaid—or \$4.00 per hundred.

Verbenas

Zinnia Plants

10c Each, 12 for 75c—Delivered Free

Ready for Immediate Delivery

A very showy bedding plant; flowers very double and are supported by stiff stems and are excellent for bouquets or decorations. In the garden they are beautiful on account of their continuous blooms, brilliant colors and varieties of shades, white, golden, yellow, scarlet, purple and salmon.

Free Blooming—Sweet Scented Violet Plants

12 Choice California-Grown Plants
for 50c Postpaid

Or 100 Plants for \$3.00

Ready for Delivery the Year Round

Violets are great favorites. We offer only the four leading varieties, which we produce in enormous quantities. All our stock is absolutely clean and healthy, which cannot be said of all stocks. Once planted, Violets increase in beauty and productiveness each successive year. They bloom with the utmost freedom, and a small sum invested in them will produce truly marvelous results.

California—The largest and most productive Violet in cultivation. The flowers are single in form, and while almost as large as a silver dollar, they have that sweet simplicity peculiar to the Violet. The color is pure, rich violet-blue and does not fade. The flowers are borne on long stems, 10 to 14 inches in length, well above the foliage, which is an unusual feature among Violets. The foliage is especially dark, very large and thick, and impervious to disease of all kinds. This great Violet is grown by the millions for its flowers, which bring the highest prices. 12 for 50c, postpaid—100 for \$3.00.

Princess of Wales—A glorious and very fragrant variety of fine habit—sturdy growth and justly famous for its early and continuous blooming and the immense number of flowers that it bears. It is a distinct type of the California Violet—being of a lighter purple. The flowers average larger than a silver dollar, and are borne on gracefully poised stems from 12 to 14 inches long. 12 for 50c, postpaid—100 for \$3.00.

Marie Louise—A great favorite. Foliage very luxuriant, and of a beautiful glossy green. The flowers—borne on long stems—are large, exquisitely perfumed and a rich double, mauve in color. Very late bloomer. 12 for 50c, postpaid—100 for \$3.00.

Double Swanly White—A reliable and liberal bloomer. The exquisitely fragrant flowers are of immaculate whiteness, perfectly double, and of a very large size. This is the only white Violet that is extensively grown by professional florists. 12 for 50c, postpaid—100 for \$3.00.

Princess of Wales Violet

Order \$1.00 worth of Plants listed on this page, by the single plant or dozen, and we will give you your selection of 25 cents worth of Plants free, or \$1.25 worth for \$1.00.

Choice California Plants

For the House and Garden

All Plants on This Page ready for Immediate Delivery. All plants by the 100 are sent by express at purchaser's expense. Remember, when you order by express we are usually able to send larger plants.

While trees and shrubs are important and satisfactory and must be relied upon as the general structural or frame-work in adornment of a place, flowering plants make up the detail. And it is the detail which gives finish and completeness to the garden as a whole. They serve as pictures which may be shifted from season to season to suit the pleasure of the occupant of the dwelling whose grounds they beautify. They are, too, the only form of embellishment which a tenant will ever care to beset upon a place. They give quick returns from a small outlay of time and labor. New, places and temporary locations can be greatly softened and beautified by a judicious use of plants. There is no place so small that there is not room for a few beautiful plants, and at a small cost, a succession and abundance of blooms can easily be secured.

Antirrhinum Plants—or Snapdragons. Whether grown for cutting or for show in the garden, they are one of the most valuable flowers. Begin flowering early and continue until hard frost. Large—bright scarlet or delicate pink flowers. 10c each—75c per dozen, postpaid.

Alternanthera—Bright foliaged plants. Dwarf plants for borders, rockeries and ornamental designs in lawns and parks. Three varieties. **Aurea Nana**—Bright yellow foliage. **Amoena Spectabilis**—Crimson, pink and bronze foliage. **Rosea Nana**—Rosy-crimson foliage. 35c per dozen, postpaid—\$2.50 per hundred.

Achyranthus Plants—Acuminata. Fine for ribboning beds and making fancy designs in parks and lawns. Bronze-purple foliage, 10 to 14 inches high. 50c per dozen, postpaid—\$3.50 per hundred.

Cigar Plants—**Cuphea**—Beautiful for borders. The tiny cigar-shaped scarlet flowers are produced with unstinted liberality. 50c per dozen, postpaid—\$3.50 per hundred.

Calliopsis Plants—“California Sunbeams.” Showy and beautiful free flowering plants. Bloom all season; excellent for cutting and massing. Very handsome yellow flowers. 10c each—\$1.00 per dozen, postpaid.

Eupatorium Plants—**Ageratoids**. Produce minute white flowers in dense terminal heads. Fine for cutting. 50c per dozen, postpaid—\$3.50 per hundred.

Echeveria Plants—Popularly known as “Hen and Chickens.” 75c per dozen, postpaid—\$4.00 per hundred.

Golden Feather Plants—**Yellow Feverfew**. Indispensable for borders. 35c per dozen, postpaid—\$2.00 per hundred.

Heliotrope Plants—General favorites. Delightfully fragrant flowers. Pure white, dark purple, lavender. An old-fashioned flower, and an old-fashioned favorite. 10c per plant—\$1.00 per dozen, postpaid.

Hydrangea Plants—**Hortensis**. Prolific bloomer, producing immense balls of shell-pink flowers. Small plants 35c each, postpaid—Large plants for use for center of lawns or in larger beds for immediate results. 50c, \$1.00, \$1.50 to \$5.00, by freight or express.

Hydrangea Plants—**Variegata**. Green leaves, mottled with white and red. Delicate pink flowers. Fine for center pieces. Small plants 35c each—Large plants 75c each, postpaid.

Hydrangea Plants—**Thomas Hogg**. A pure white variety. Small plants 35c each—Large plants 50c each, postpaid.

Lantana Plants—Constant bloomers. Very easily grown in any climate, soil or situation. Produce verbena-like clusters of flowers in bright orange—pink with mottled centers—lavender with orange centers—and blue. 10c each—\$1.00 per dozen, postpaid.

Lavender Plants—**Blue**. A hardy shrub, well-known and esteemed for its delicious fragrance. Flowers borne on long stems, the stems are used for fancy work, the flowers are dried and used in sachet bags. 15c each—Large plants 25c each, postpaid.

Lobelia Plants—**Dwarf**. For Edgings, beds, baskets and pots there is nothing better. Pretty dark blue flowers. Graceful foliage. 35c per dozen, postpaid—\$2.50 per hundred.

Lobelia Plants—**Trailing**. Light blue flowers. Fine for hanging baskets. 35c per dozen, postpaid—\$2.00 per hundred.

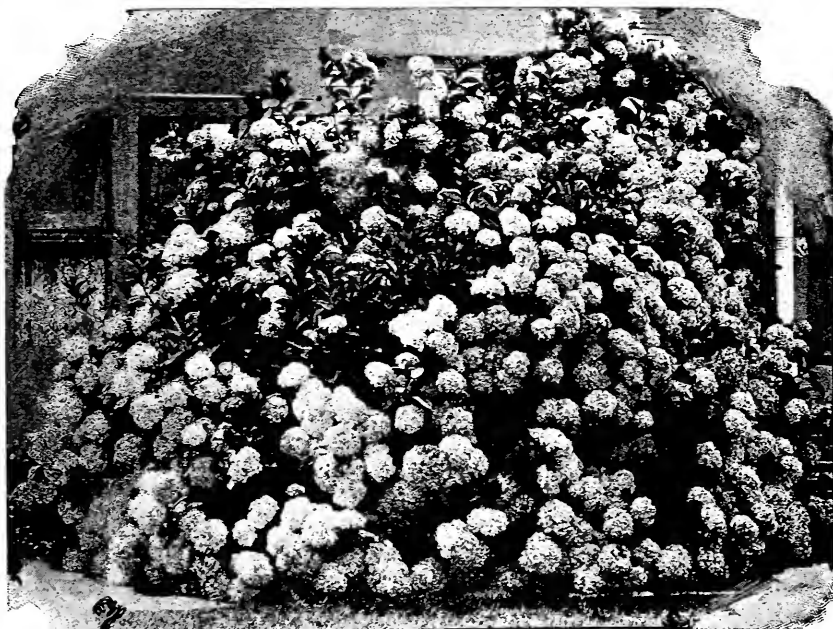

Marguerite Plants—The Marguerite is one of the showiest of plants; requires less care than any plant grown. Superb for solid beds, clumps and hedges.

White—Well-known free-blooming plants. When planted in masses with Geraniums, Salvias and Cannas, the display is nothing short of magnificent. 15c each, postpaid—\$1.00 per dozen.

Yellow—A rich, beautiful color. Same habit as the White Marguerite. 15c each, postpaid—\$1.00 per dozen.

Blue—Elegant. Grows to a height of 18 inches. When planted together, the three varieties make a sight that is beyond the power of printer's ink to describe. 15c each, postpaid—\$1.00 per dozen.

Improved White Marguerite (Coronation)—Flowers large and beautiful. 15c each, postpaid—\$1.00 per dozen.

Hydrangea Hortensis

Marguerite Carnation Plants—A well-known favorite. The most abundant bloomer of all California. It grows easily everywhere—both in sandy soil and heavy loam. Assorted colors. 50c per dozen, postpaid—\$3.00 per hundred.

Mesembryanthemum Plants—Dwarf trailers of great beauty. Bright rose flowers—dark green foliage. 50c per dozen, postpaid—\$2.50 per hundred.

Pentstemon Plants—Garden perennials, producing Foxglove-like flowers of various brilliant colors. For bedding they rival Phloxes, Petunias, etc. 15c each—\$1.50 per dozen, postpaid.

Sage (Variegated)—For borders. 75c per dozen, postpaid—\$4.00 per hundred.

Salvia Plants—**Splendens**. The Scarlet Sage has long been a favorite bedding plant, bears long spikes of flowers in great profusion during the entire season. Scarlet flowers. 10c each—75c per dozen, postpaid.

Salvia Plants—**Fireball**. One of the finest Salvias. 10c each—75c per dozen, postpaid.

Salvia Plants. **Bonfire**. Brilliant scarlet flowers. Finest for bedding. 10c each—75c per dozen, postpaid.

Salvia Plants—**Azurea Grandiflora**. A Rocky Mountain species. Pretty sky-blue flowers. 10c each—75c per dozen, postpaid.

Salvia Plants—**Splendens-Rosea**. Deep rose-pink flowers. In bloom all summer and well into the fall. 10c each—75c per dozen, postpaid.

Santolina Plants—A low-growing plant of a gray color, very largely used for edging and ribbon work; trims well and has a narrow leaf; a half-hardy perennial. 35c per dozen, postpaid—\$2.50 per hundred.

Sea Pink Plants—**Amaria**. Very dwarf. Requires no trimming. Very pretty edging plants. A mass of rosy-pink bloom throughout the spring and summer. 35c per dozen, postpaid—\$2.50 per hundred.

Stevia Plants—**Serata**. Produces a multitude of fragrant pure white flowers on long stems. Fine for cutting—especially desirable to use with Chrysanthemums. 15c each—\$1.00 per dozen, postpaid.

Stock Plants—or Gilliflower. One of the most popular flowers for bedding; for brilliancy and diversity of color, fragrance, profusion and duration of bloom it is unsurpassed. Assorted colors. Assorted. 35c per dozen, postpaid—\$2.50 per hundred; separate colors, 50c per dozen—\$3.00 per hundred.

Stock Plants—**Flesh colored double flowering stocks**. Have immense trusses borne on long stems. One of the prettiest varieties for cut flowers. 50c per dozen, postpaid.

Swainsona Plants (Galefolia A'ba)—Exquisite pink flowers. 15c per plant—beauty of the flower and plant make it popular. Pure white flowers—produced in sprays of from 12 to 20. 15c per plant—\$1.50 per dozen, postpaid.

Swainsona Plants—**Rosea**. Exquisite pink flowers. 15c per plant—\$1.50 per dozen, postpaid.

Thyme Plants—**Variegated**. Excellent for edgings. 35c per dozen, postpaid—\$2.50 per hundred.

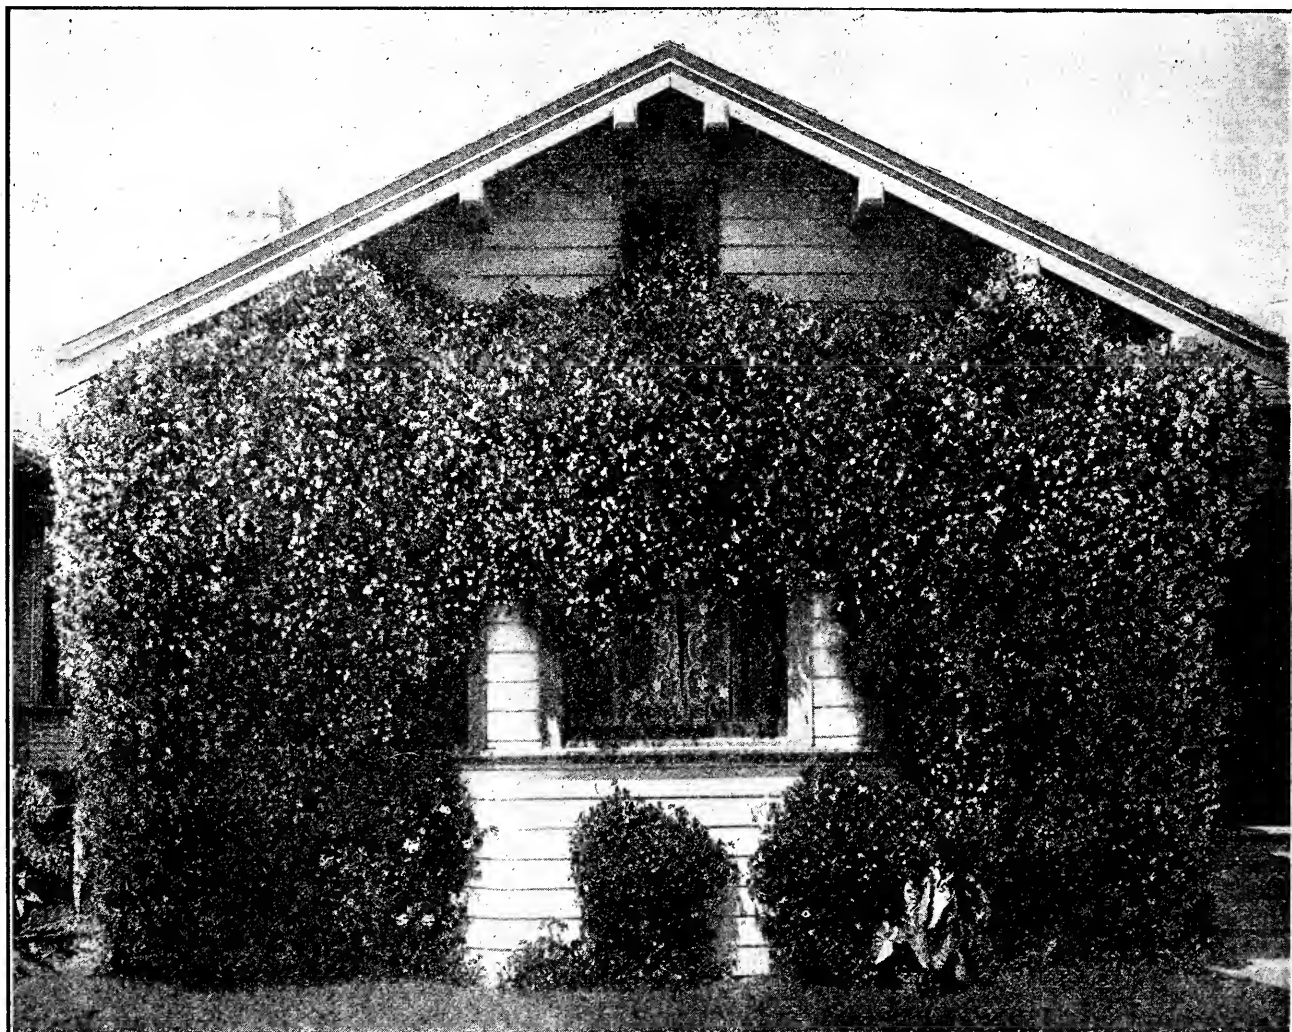

Wall Flower Plants—Well known and popular old-fashioned flower. Fragrant flowers. 50c per dozen, postpaid—\$3.00 per hundred.

Wandering Jew Plants—Three varieties. 1. Green foliage, striped with white. 2. Plain green foliage. 3. Green foliage with purplish-red stripes. 50c per dozen, postpaid—\$3.00 per hundred.

Climbing Plants and Vines

This year, owing to the enormous demand, we have increased our stock for this department over 100 per cent. There is one gratifying reason for this—the fact that our customers are satisfied and buy more each succeeding year. Such success as ours can only be built on a solid foundation—that of supplying the very best stock at the lowest prices. We ask you to compare our low prices with those of our competitors, and you will understand the reason. **All Ready for Immediate Delivery.**

Australian Pea Vines (Photo taken showing growth after only 2 years)

Ampelopsis Veitchii (Boston Ivy)

Australian Pea Vine

The Australian Pea Vine is one of the prettiest ever-blooming and most graceful vines grown, and a most desirable ornamental flowering vine for porches, around tall trees, fences or outbuildings; a very rapid grower; will cover a twenty-five foot trellis in a single season, and covers it very thickly; requires no extra care, blooms the year round. The flowers are pea shaped, rosy lilac; the foliage and leaves are very fine, a great deal like smilax. The above illustration shows four plants of two years' growth, covering the entire front of the bungalow. Small plants 15c each—\$1.50 per dozen, postpaid. Strong plants 25c each—\$2.50 per dozen, postpaid.

Ampelopsis Veitchii (Boston Ivy)

One of the finest climbing plants. It grows rapidly and clings without assistance to the smoothest surfaces. A great protection to houses, as its leaves overlap each other like slates on a roof and effectually prevent rain from penetrating the walls. In the summer its foliage is a fresh deep green, but in the fall it assumes the most gorgeous tints of scarlet, crimson and orange. Strong plants 35c each, postpaid—\$3.00 per dozen. Large plants 50c each, postpaid—\$5.00 per dozen.

Quinque Folia (Virginia Creeper)

In the fall the luxuriant foliage changes to a rich bronze. 35c each, postpaid—\$3.00 per dozen. Large plants 75c and \$1.50, by express.

Climbing Plants and Vines

All Varieties Ready For Immediate Delivery

Clematis

Clematis Jackmanii

Clematis Paniculata, or Japanese Virgin's Flower—A Beautiful Climber From Japan—that source of so many floral wonders. The flowers are pure white and are borne in great clusters that fairly cover the plant, so that it is a mass or sheet of fleecy white. The fragrance is delicious—resembling the English Hawthorn blossom—and so subtle and penetrating that a large plant in bloom fills the air with its exquisite perfume. It begins to flower late in May and continues to bloom until late in Fall. It will grow 15 to 20 feet in a season—it thrives equally well in sunshine and shade. 35c per plant, postpaid—12 for \$3.00.

Mad. Eduard Andre—Of the Jackmanii type. The nearest approach to a bright red Clematis that has yet appeared. The very large flowers—usually six petals—are of a distinct and pleasing shade of carmine, and are produced in bewildering profusion. Strong plants 60c each, postpaid.

Clematis Jackmanii—Grand. The vivid green of its foliage brings out the immense masses of rich, velvety violet-purple flowers with an effect that no words can picture. Strong plants 60c each, postpaid.

Duchess of Edinburgh—One of the best of the double white Clematis. Of vigorous habit. Very free producer of deliciously fragrant flowers. Strong plants 60c each, postpaid.

Henry I—The best large flowering, pure white Clematis. It is a vigorous grower and a free bloomer, producing a wealth of flowers constantly during the summer and early fall. Strong plants 60c each, postpaid.

Montana—In this variety we have the ideal Clematis for this State. The flowers are produced in spring in wonderful profusion; they are about the size of a dollar and are pure white. The vine is a rapid, rampant grower. Strong plants 60c each, postpaid.

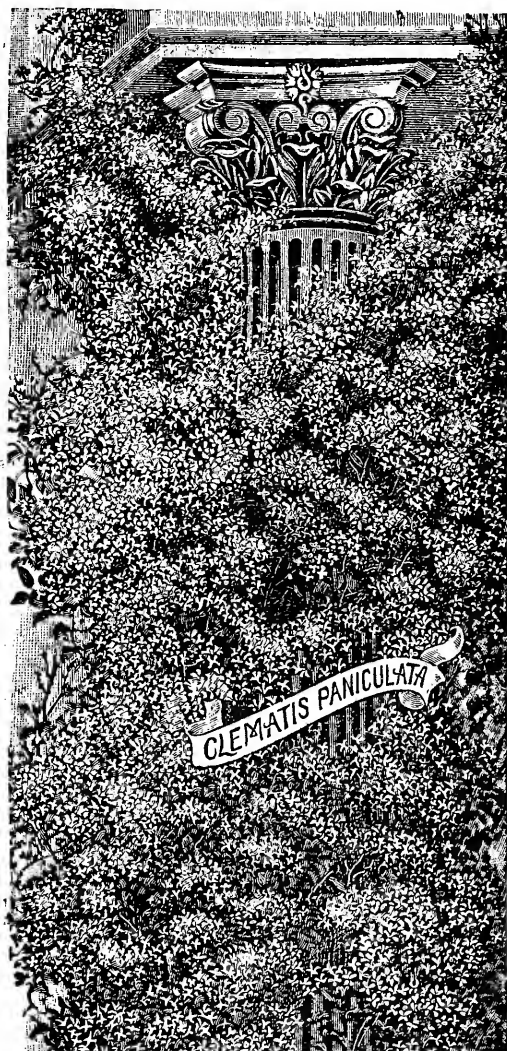

Bougainvillea

Price: From 4-inch pots, 35c each, postpaid. From 5-inch pots, 50c each. From 6-inch pots, 75c. Specimen Plants, \$2.50 and \$5.00 each.

A very showy class of climbers, and is regarded as the finest in cultivation. They have attracted widespread attention. They are peculiarly formed flowers of a beautiful magenta color and are produced in wonderful profusion along the branches. The small green leaves of the plant are of a beautiful bright olive green shade. This Bougainvillea should be given a southern exposure. The illustration on this page shows a Bougainvillea in full bloom. The photograph was taken November 2, 1909.

Bougainvillea

Climbing Plants and Vines

All Ready For Immediate Delivery

Cinnamon Vine

This beautiful climber possesses the rare quality of emitting from its flower the delightful odor of cinnamon and is appropriately called the Cinnamon Vine. Perfectly hardy, the stem dying down every autumn, but growing again so rapidly as to completely cover any trellis or arbor early in the season. We furnish the large tubers, for 10c each—\$1.00 per dozen, postpaid.

Cobaea Scandens (Cup and Saucer Vine)—Dense, dark green foliage. Produces thousands of large white or blue blossoms during the flowering season. 15c each—\$1.50 per dozen, postpaid.

Ficus Repens—A fine trailing or creeping vine. 15c each—\$1.50 per dozen, postpaid.

Trailing Fuchsia—An interesting climber. It is covered with handsome leaves, among which nestle small but pretty flowers of bright red and other colors. 15c each—\$1.00 per dozen, postpaid.

Honeysuckle—One of the most satisfactory of all climbers. Its abundant foliage, fragrant flowers, vigor of growth and immunity from insects make it an ideal vine for porches. We offer the two best varieties. **Aurea Reticulata** and **Chinese Evergreen**—at 15c each, postpaid—\$1.50 per dozen.

Hop Vine Roots—A common but very useful climber. 10c each—50c per dozen, postpaid.

Hop Vine (Japanese)—Variegated or plain green. Very ornamental. Will make a growth of 35 feet in one year. 10c each—50c per dozen, postpaid.

Ivy (Hardy English)—Remains green all the year. Very useful for cemeteries as it flourishes in shady places where grass will not succeed. 15c each—\$1.50 per dozen, postpaid.

Ivy (Madeiriensis Variegated)—The finest of the variegated Ivies. Foliage is mottled with creamy white. 15c each—\$1.50 per dozen, postpaid.

Ivy (Kenilworth)—A rapid grower. The drooping sprays of exquisite foliage are thickly set with lovely little flowers. 15c each—\$1.50 per dozen, postpaid.

Hardy Jasmine—Two Varieties—**Nudflorum** and **Officinate**. The flowers of the **Nudflorum** are yellow—those of the **Officinate** pure white. Both varieties are very fragrant. 25c each—\$2.50 per dozen—postpaid.

Kudzu Vine (Pueraria Thunbergiana)—The most rapid-growing vine in cultivation, attaining, after once being established, height of 50 feet or more in one season. Its foliage is large, and furnishes dense shade; it bears small racemes of rosy-purple, pea-shaped blossoms toward the close of August. 15c each—\$1.50 per dozen, postpaid.

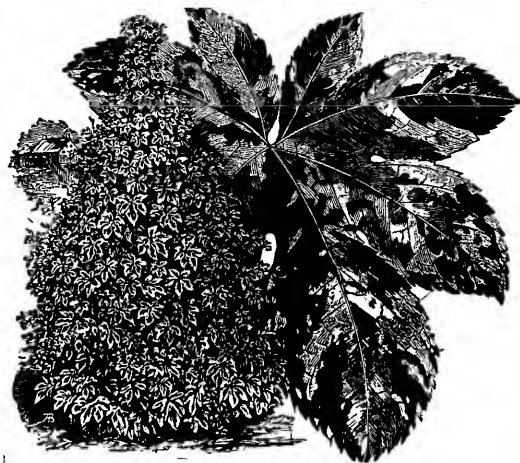

Cinnamon Vine

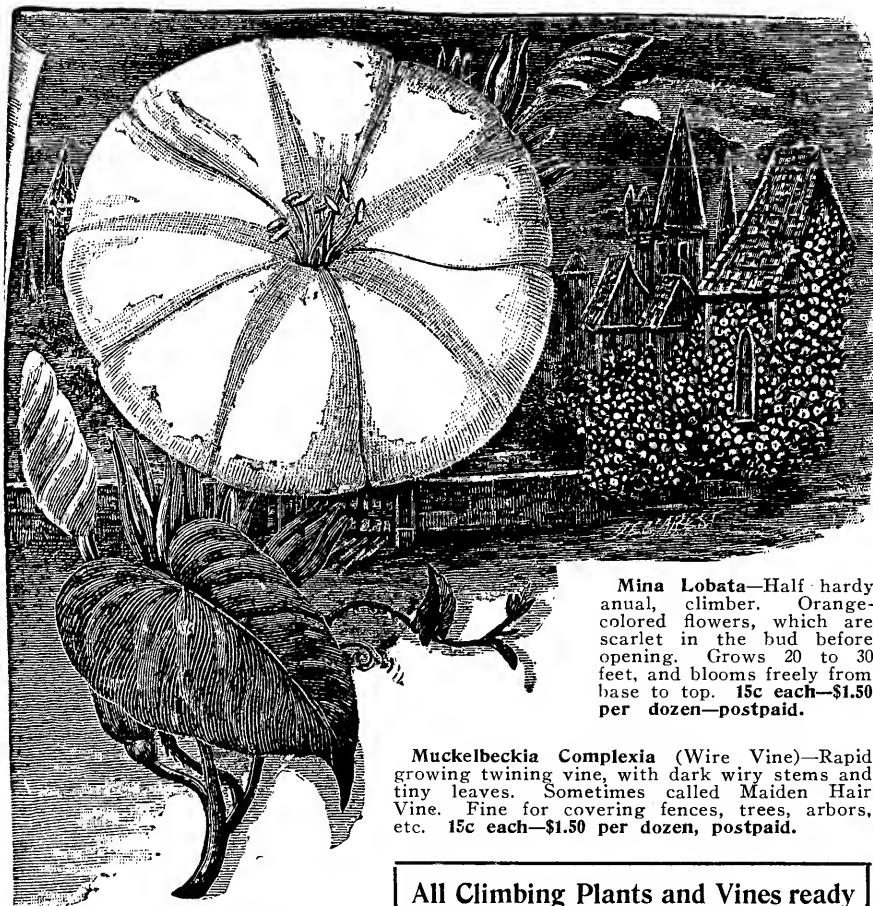

Moonflower

Moonflower—Pure White. The most rapid-growing climber in existence. A wonderfully profuse bloomer—upwards of a thousand buds and flowers are frequently seen on a single vine. The flowers—from 4 to 6 inches in diameter—are of a beautiful silvery or moon-like whiteness, and delightfully perfumed. They are open in greatest profusion in the evening and on cloudy days. A Moonflower vine, in full bloom on a moonlight evening in summer, is one of the most beautiful sights on earth. 15c each—\$1.50 per dozen—postpaid.

Moonflower—Heavenly Blue. Habit of growth and flowering the same as the white variety. The color is an exquisite clear, satiny, blue, with well defined crimson bars. We recommend planting the **Blue Moonflower** with the **White**, as the effect will be both novel and attractive. 15c each—\$1.50 per dozen, postpaid.

Variegated Leaved Hop

The New Giant Moonflower
(Flower shown is 1/4 actual size)

Mina Lobata—Half hardy annual, climber. Orange-colored flowers, which are scarlet in the bud before opening. Grows 20 to 30 feet, and blooms freely from base to top. 15c each—\$1.50 per dozen—postpaid.

Muckelbeckia Complexa (Wire Vine)—Rapid growing twining vine, with dark wiry stems and tiny leaves. Sometimes called Maiden Hair Vine. Fine for covering fences, trees, arbors, etc. 15c each—\$1.50 per dozen, postpaid.

All Climbing Plants and Vines ready for Immediate Delivery.

Climbing Plants and Vines

All Varieties Ready for Immediate Delivery

Snail Vine---Shell Vine

35c Each, Postpaid
\$3.00 Per Dozen

A novel, quick-growing climber. The flowers resemble a mammoth pea and have lavender cork-screw petals running from the center. The flowers are creamy white blushed with pinkish lavender with a lilac strip around the corkscrew petal, making it very effective and and of the choicest climbers. These flowers are borne in clusters of 6 to 20 peas and during the entire summer and early fall the vines are covered with clusters of these beautiful blossoms. The foliage is light green. 35c each, postpaid—\$3.00 per dozen. Large plants, by express, 50c each.

Snail Vine

Wistaria

Wistaria—This favorite vine in early spring is covered with great massive clusters, sometimes two feet long, of lovely white or blue shaped flowers. May also be trained to grow in erect bush form. Blue—35c each, postpaid. Large plants 50c, 75c, and \$1.50 each, by express.

Pink Wistaria—Has beautiful pink flowers. Large grafted plants. \$1.50 to \$2.50 each, by express.

White Wistaria—35c each, postpaid. Large plants 50c, 75c and \$1.50 each, by express.

Pink and White Wistaria—A new variety with pink and white flowers. Large plants 75c and \$1.50 each, by express.

Wax Plant (Hoya Carnosa)—An elegant vine. Produces large clusters of double star-shaped flowers—the outer star being a delicate pink, and the center pure white. 35c and 50c each, postpaid.

Passiflora

OR PASSION VINE. A WELL-KNOWN CLIMBER

White Passiflora—Tinted with lilac—light purple corolla. Small plants 25c each, large plants 35c each, postpaid.

Shell Pink Passiflora—A dainty, exquisite shade. Large flowers and very handsome dark green foliage. Small plants 25c each, large plants 35c each, postpaid.

Scarlet Passiflora—Very bright. When in flower literally a blaze of fiery scarlet blossoms, which are set off in a never-to-be-forgotten way by the background of bright glossy green foliage. Small plants 25c each, large plants 35c each, postpaid.

Cerise Passiflora—A pleasing novelty. The flowers are of extra large size, of a beautiful cerise color. Small plants 25c each, large plants 35c each, postpaid.

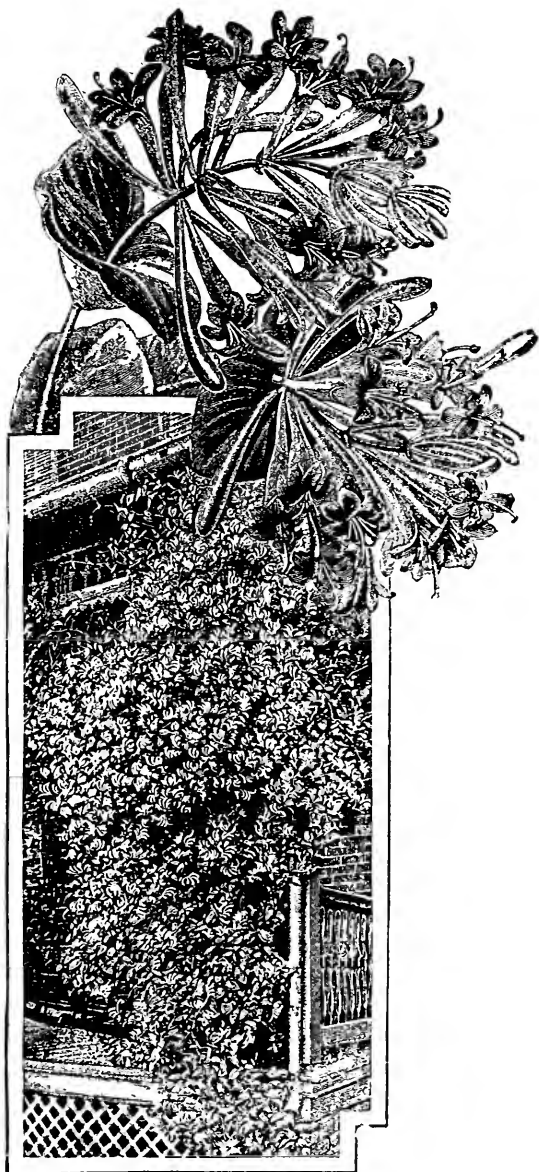

Plumbago—Fine for porches and summer houses. Large pure white flowers. 25c each—\$2.50 per dozen, postpaid. Large plants 75c and \$1.00 each by express.

Plumbago Capensis—Can be trained as a bush or climber. Beautiful sky-blue flowers. 25c each—\$2.50 per dozen, postpaid. Large plants 75c and \$1.50, by express.

Smilax—Indispensable for decoration. Used by all professional florists. 10c each—\$1.00 per dozen, postpaid.

Solanum—Potato Vine. A lovely climber, but can be pinched back to bush form. The star-shaped flowers are produced in enormous clusters. Color—pure white, with a violet tinge on back of petals. In blossom both summer and winter. 15c each—\$1.50 per dozen, postpaid.

Tecoma Radicans—This free-blooming climber produces coppery-yellow trumpet-shaped flowers in clusters. 35c each—\$3.00 per dozen, postpaid.

Honeysuckle

(See page 104 for description)

**We Guarantee Our Stock to Arrive in
Perfect Condition or Money Refunded**

Chas. C. Navlet Co's FERNS Choice Selections of

Ready for Delivery all the Year Round. Purchaser Pays Transportation on Ferns and Plants Shipped by Express

Asparagus Plumosus

Lace Fern

This graceful Asparagus has foliage finer and more delicate than that of any other Fern, and lasts for weeks after being cut. It is an excellent house plant, succeeding under almost any condition.

CHOICE PLANTS

From 2 inch pots, 15c each, postpaid.
From 4 inch pots, 25c each, by express.
From 6 inch pots, 75c each, by express.

Asparagus Sprengerii

Emerald Feather Fern

A most desirable new species; especially useful to grow as a pot plant for decorative purposes, or for planting in suspended baskets. The feathery sprays are frequently four feet long, and of a rich shade of green.

CHOICE PLANTS

From 2 inch pots, 15c each, postpaid.
From 4 inch pots, 25c each, by express.
From 6 inch pots, 75c each, by express.

Boston Fern

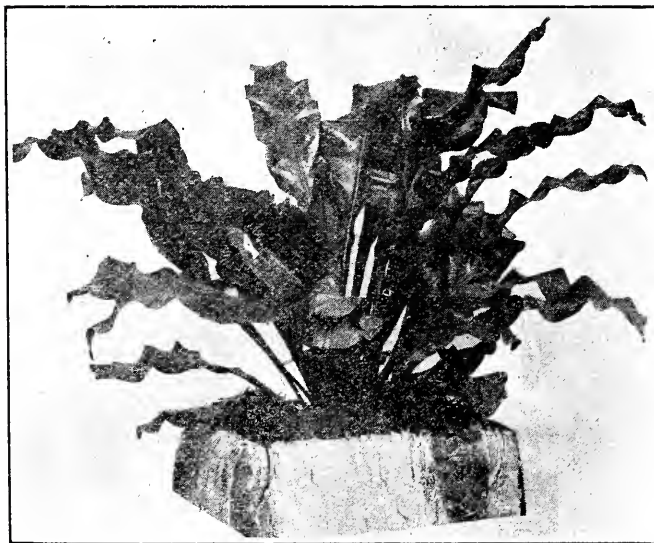

(Nephrolepis Bostoniensis)

One of the finest and best Ferns for growing in pots, vases and baskets. It grows strongly, and will thrive and improve under ordinary house care. The fronds droop and arch gracefully over the edge of a pot or basket, and, as it is a very rapid grower, it is not long before they reach the floor from an ordinary parlor table.

Compare our prices with any others, and it will not take you long to realize that we sell at one-half of what others charge.

CHOICE PLANTS

From 2 inch pots, 15c each, postpaid.
From 4 inch pots, 25c each, by express.
From 6 inch pots, 50c each, by express.

Bird's Nest Fern

Ferns for Fern Dishes

Ferns for fern dishes in assorted varieties. We have many beautiful varieties that we grow especially for this purpose, ready all the year round, in small pots. These can be planted in fern dishes at any time. We will send you a beautiful assortment that will be very effective. Individual plants can be transplanted into larger pots, and will make beautiful house plants.

Price 15c each, postpaid; \$1.25 per dozen, postpaid.
By express 10c each; \$1.00 per dozen.

Woodwardia Ferns

Woodwardia Ferns—One of the strongest tall-growing ferns known up to the present time. Grows to a height of from 4 to 8 feet. In partly shaded corners there is nothing that is more pleasing to the eye than to see a large, beautiful fern, with its long, wavy, green fronds, 6 to 12 inches wide, and from 4 to 8 feet long, growing in your own garden as freely as they grow in canyons and among the wild timbers in the woods. Our stock of Woodwardia Ferns this year is the finest we have ever had. Two years ago we gathered a large number of these plants, and we are offering strong rooted plants for 50c, \$1.00 and \$1.50 each, purchaser to pay transportation.

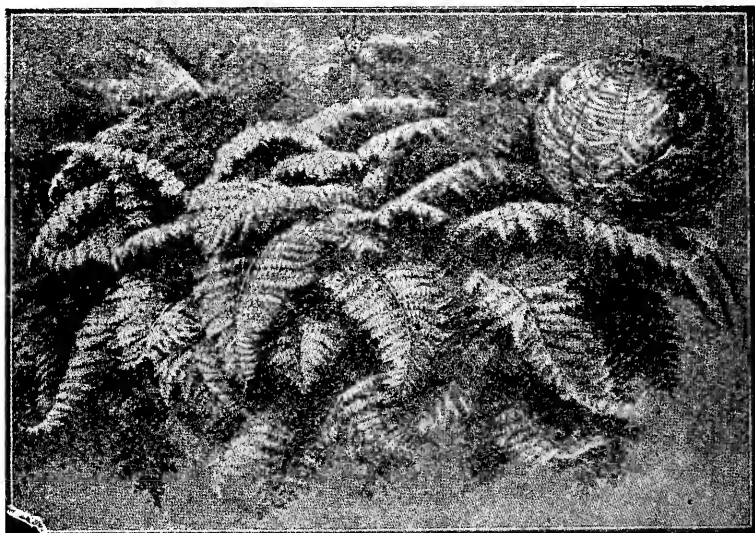

Whitmanii

The New Ostrich Plume Fern

This grand new introduction is the most beautiful of the Ostrich Plume Ferns. The graceful, feathery fronds grow in the most luxuriant manner—the pinnae subdividing, making miniature fronds, which are superimposed on the main fronds, and look as if two and even three were condensed in one.

CHOICE PLANTS

From 2 inch pots, 35c each, postpaid.
From 4 inch pots, 75c each, by express.
From 6 inch pots, \$1.50 each, by express.
Purchaser to pay transportation on plants shipped by express.

Fern Ball

Five Finger Fern

A Well-Known and Very Charming Fern

CHOICE PLANTS

From 2 inch pots, 15c each, postpaid.
From 4 inch pots, 25c each, by express.
From 6 inch pots, 75c each, by express.

Grand Sword Fern

(Nephrolepis Exaltata)

This handsome Fern produces long and extremely graceful, narrow fronds, and is well adapted for house culture. It is wonderfully healthy and grows thriftily without petting or nursing, and is largely used in partly shaded places in the garden and rockeries.

CHOICE PLANTS

From 2 inch pots, 15c each, postpaid.
From 4 inch pots, 25c each, by express.
From 6 inch pots, 50c each, by express.

Japanese Fern Balls

75c Each

These unique and handsome ornaments are made in Japan from a special variety of mountain Fern growing in that country. They require no potting or soil, and if kept warm and moist will soon be covered with a thick growth of lovely emerald green fronds.

Birds Nest Fern

A beautiful and wonderful novelty house plant. It has come to stay; it is as hardy as an oak, and is wonderful grower; requires little care. It does not want to be in the bright sunlight, which makes it so valuable as a house plant. No lovers of plants should be without one of these hardy Ferns.

Plants from 3 inch pots, \$0.75 each; postpaid \$1.00.
Plants from 5 inch pots, \$1.50 each; postpaid \$1.75.
Plants from 6 inch pots, \$2.50 each, by express.

Whitmanii Fern

Chas. C. Navlet Co's Selected Fall and Spring Bulbs

We offer this season the choicest selection of Bulbs that it has ever been our good fortune to procure. Early in the fall we gave a large order to our European agents to obtain for us by direct importation from Holland the choicest varieties of bulbs. Our instructions were to procure the best at any cost. We are pleased to be able to offer our friends the benefit of these choice selections at prices that cannot possibly be duplicated. These collections of Spring and Summer Flowering Bulbs offered on this and the following pages are the best matured bulbs and will all blossom this season.

Please note that in almost every instance we offer them postpaid or delivered free, no inconsiderable saving over the prices of other dealers who charge extra for postage.

Remember, we guarantee safe arrival and absolute satisfaction, or money refunded.

ALL BULBS READY FOR IMMEDIATE DELIVERY

Agapanthus Roots The Great African Lily

Agapanthus Umbellatus—For centerpieces for the lawn the Agapanthus cannot be excelled. In a season it grows 2½ feet high and carries from 100 to 150 spikes of sky-blue Fuchsia-like flowers. The foliage is somewhat like Amaryllis; it never dies and is in bloom nearly all the year round. 25c each, \$2.50 per dozen.

Agapanthus Alba—Same as above, only pure white flowers. 25c each—\$2.50 per dozen. If sent by mail, add 5c each for postage. Plant from October to April.

Amaryllis Bulbs

Belladonna Major—A summer blooming variety of extreme beauty. The spikes grow from 2 to 3 feet high, each carrying from 6 to 12 beautiful silvery-pink sweet-scented lilies. Should be planted early. Mammoth bulbs 25c each—\$2.50 per dozen. Small bulbs 15c each—\$1.00 per dozen. If ordered by mail, add 5c each for postage.

Belladonna Minor—An autumn or late blooming variety. Very beautiful comes in bloom when all other varieties of Amaryllis and summer blooming flowers have ceased to bloom. The spikes grow from 2 to 3 feet high, each carrying from 6 to 10 flowers of sweet-scented lilies. The tip of each flower is a dark shell pink—the throat is a very delicate silver pink. Mammoth bulbs 25c each—\$2.50 per dozen. If ordered by mail, add 5c each for postage. Plant Amaryllis from September to March.

Johnsonii—or Bermuda Spice Lily—A grand variety, producing extra large wine-red flowers with a white stripe running down each petal. Mammoth bulbs 50c each—\$5.00 per dozen. If to be sent by mail, add 5c each for postage. Plant from February to April.

Tuberous Rooted Begonias

This charming class of Begonias is perhaps the handsomest of all flowering Begonias, and make very beautiful house plants if planted early in pots with a mixture of light sandy soil and leaf mould. The flowers of Tuberous Begonias measure from 4½ to 6 inches, and the colors range from the purest white to the most delicate tints of pink, yellow, orange, scarlet and richest crimson. Plant from February to May.

Bleeding Heart Roots

The Beautiful Lyre Flower
25c each—12 for \$2.50, postpaid.

One of the most ornamental of spring flowering plants, with elegant green foliage and long, drooping racemes of heart-shaped flowers. Perfectly hardy. They only require to be planted where they are to remain. If potted in November, left outside till they have formed many roots, then brought into a gentle heat, they may be had in flower in February or March. Plant from November to April.

Mammoth Caladium Bulbs

20c each—12 for \$2.25, postpaid.

The Caladium is a magnificent ornamental foliage plant for the lawn and garden. Its apron-like leaves are frequently 3 feet long and 2 feet wide. Plant from January to June.

Cinnamon Vine

Large Roots 10c each—12 for \$1.00, postpaid.

A very pretty vine to train around the window or on a trellis. In mid-summer the plant is covered with brilliant glossy foliage and an abundance of fragrant flowers. It is also an exceedingly quick grower, having been known to attain a height of 20 feet in one season. Plant from January to June.

Cyperus Papyrus Bulbs

This is the true Egyptian Paper Plant. From the snow-white pith of its triangular stalks the first paper was made. They are 5 to 8 feet high, and support at the top a tuft of long thread-like leaves, which give the plant a graceful and striking appearance. It grows finely in shallow water with rich soil, and makes a splendid companion for flowering aquatics. It will also flourish and make a fine clump in the garden with no more water than Cannas require to make them do well. A most beautiful effect is attained with Cyperus Papyrus when it is planted in a fern bed. It has long green stocks upon which is supported a tuft of thread-like leaves. These stocks make the prettiest house decorations when used in umbrella stands or large jardinières. There is nothing prettier that we know of. Small plants, 50c each, postpaid.

Amaryllis Belladonna

Anemone Bulbs Japanese Windflower

Single Flowering Choice Mixed Colors. 12 for 15c—100 for 75c, postpaid.

Double Flowering Choice Mixed Colors. 12 for 20c—100 for \$1.00, postpaid.

Anemones are very ornamental hardy perennials, producing beautifully colored flowers in spring and summer. Very effective in beds. Plant from September to February.

Caladium (Elephant Ears)

Bleeding Heart

Anemones

in a fern bed. It has long green stocks upon which is supported a tuft of thread-like leaves. These stocks make the prettiest house decorations when used in umbrella stands or large jardinières. There is nothing prettier that we know of. Small plants, 50c each, postpaid. Large plants 75c and \$1.50 each, by express.

Choice Crocus Bulbs

Extra Large Striped
Extra Large Blue
Extra Large White
Mammoth Yellow

12 Bulbs for 10c

Or 100 Bulbs for 60c, Postpaid

Chas. C. Navlet Co's Special Mixture of All Colors } 12 for 10c
36 for 25c Post
100 for 60c Paid

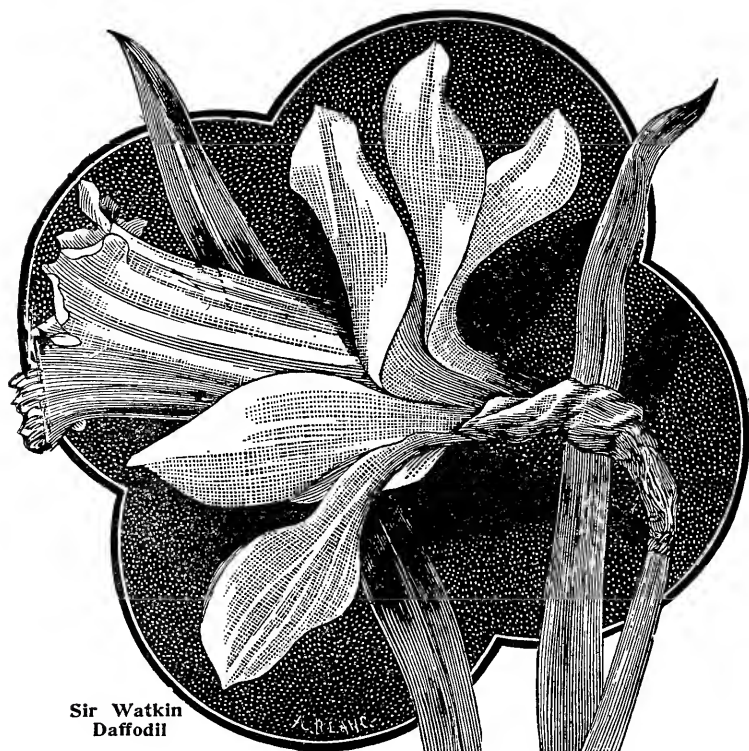

The Crocus is one of the first flowers of the Spring, and one of the best for blooming in the house during the winter. Half a dozen bulbs may be planted in a pot, and will make a pretty show. For garden culture plant the bulb two inches deep and two or three inches apart. They are so cheap and so pretty they ought to be found in every garden in abundance. They bloom splendidly when planted on the lawn among the grass. They lift up their broad heads through the sod very early and give the lawn a charming aspect. The sorts we offer are especially strong and fine. Plant from September to February.

Selected Cyclamen Bulbs

15c each—12 for \$1.50, postpaid. The Cyclamen is noted for its richly colored, fragrant flowers and beautifully variegated foliage. Plant from August to March.

Choice Daffodil Bulbs

Sir Watkin Daffodil

Golden Spur—The flowers of the Golden Spur are extra large, bold and of a rich yellow; foliage is very broad and striking. It is of unusually robust habit, and unsurpassed for gardens, pots and forcing. 12 for 50c—100 for \$2.50, postpaid.

Sir Watkin—or Welsh Giant Daffodil, produces extra long stems and extra long yellow flowers. 12 for 50c—100 for \$2.50, postpaid.

Alba Plena Odorato—The double white Poet's Daffodil—Snow-white. Gardenia-like flowers. Exquisitely Scented. Choice Bulbs, 12 for 20c—100 for \$1.25, postpaid.

Trumpet Major—A large yellow favorite. Flowers are very uniform in size. Choice bulbs 12 for 35c—100 for \$2.00, postpaid.

Von Zion—Golden Yellow—Extra large double flowers with very long stems. Very fine for forcing or bedding. Choice Bulbs 12 for 50c—100 for \$2.50, postpaid.

Emperor—A magnificent flower; perianth deep primrose; trumpet rich golden yellow. Should be largely grown in flower beds, borders or naturalized in grass; it is one of the finest Daffodils in cultivation and much prized for cutting. Selected Bulbs 12 for 50c—100 for \$3.00, postpaid.

Empress—Perianth snow-white, trumpet rich yellow, serrated and flanged at the edges, large in outline, and of rare beauty for cutting. Selected Bulbs 12 for 50c—100 for \$3.00, postpaid.

Plant Daffodils from September to February.

Freesia

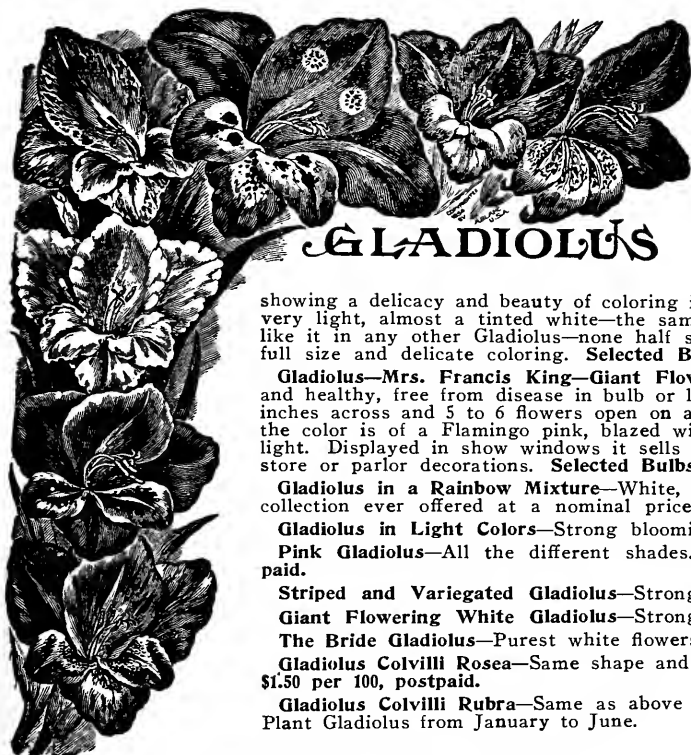

The "Purity" Snowy White Freesia Bulbs

No description can do adequate justice to this beautiful plant. The flowers are two inches long and about the same in width, shaped like a miniature Gladiola, and borne in clusters of six to ten on depressed horizontal scapes. The body of the flower is pure white, with lower segments spotted lemon-yellow. The perfume is delicious, being a mixture of Mignonette, Violet and Jasmine—and one plant is sufficient to perfume a large room, without the overbearing perfume of Hyacinths and Tuberoses.

"THE PURITY"—12 Extra Large Bulbs 25c—100 Extra Large Bulbs, \$1.50, Postpaid. This is, without doubt, the largest, finest and purest white Freesia in existence. Stems grow from 20 to 30 inches high and produce from six to a dozen enormous flowers of snowy white. Plant from August to January.

REFRACTA ALBA—12 Large Bulbs 15c—100 Large Bulbs \$1.00, Postpaid.

Gladiolus Bulbs

GLADIOLUS

showing a delicacy and beauty of coloring it is impossible to describe. The color is a dainty soft lavender-pink, very light, almost a tinted white—the same as seen in the most exquisite Cattleya Orchids. There is no color like it in any other Gladiolus—none half so beautiful. Flowers last a week or more in water, retaining their full size and delicate coloring. **Selected Bulbs 10c each—\$1.00 per dozen, postpaid.**

Gladiolus—Mrs. Francis King—Giant Flowered—It is a splendid, strong-growing sort, always very vigorous and healthy, free from disease in bulb or leaf; it has a long, effective flower spike, with individual flowers 4½ inches across and 5 to 6 flowers open on a spike at one time; then, with above striking growth and appearance, the color is of a Flamingo pink, blazed with some red, and most effective both in daylight and under artificial light. Displayed in show windows it sells at double prices over usual show kinds, and it is ideal for table, store or parlor decorations. **Selected Bulbs 10c each—\$1.00 per dozen, postpaid.**

Gladiolus in a Rainbow Mixture—White, pink, light red, and all the other soft, petty colors. The grandest collection ever offered at a nominal price. **5c each—50c per dozen, \$3.00 per 100, postpaid.**

Gladiolus in Light Colors—Strong blooming Bulbs **5c each—50c per dozen, \$3.00 per 100, postpaid.**

Pink Gladiolus—All the different shades. Strong blooming Bulbs **5c each—50c per dozen, \$3.00 per 100, postpaid.**

Striped and Variegated Gladiolus—Strong blooming Bulbs **10c each—\$1.00 per dozen, postpaid.**

Giant Flowering White Gladiolus—Strong blooming Bulbs **20c each—\$1.50 per dozen, postpaid.**

The Bride Gladiolus—Purest white flowers, **25c per dozen—\$1.50 per 100, postpaid.**

Gladiolus Colvilli Rosea—Same shape and habit as Bride, but beautiful pink flower spikes, **25c per dozen—\$1.50 per 100, postpaid.**

Gladiolus Colvilli Rubra—Same as above except flower spikes are red. **25c per dozen—\$1.50 per 100, postpaid.** Plant Gladiolus from January to June.

Choice Gloxinia Bulbs

15c each—12 for \$1.50 Postpaid

The flowers of these indispensable winter blooming plants are remarkable for the intensity and variety of their colors, and the exquisite manner in which they are blotched, mottled, penciled and blended. Extremely floriferous. Plant from January to May.

Single Hyacinths

Hyacinth Bulbs

12 for 60c—100 for \$4.00 Postpaid

Single or Double. Red, White, Blue, Purple, Pink, Yellow or Chas. C. Navlet Co.'s Special Mixture of all colors.

The Hyacinth is one of the most popular and beautiful of spring-flowering plants for indoor and outdoor decoration. It is easily cultivated, blooms early in the season, and remains a long time in flower. The flowers are richly colored and delightfully fragrant. The Bulbs we offer at 60c a dozen—or \$4.00 a hundred—are of immense size and well matured, and will give vastly greater satisfaction than the small-sized, low-priced bulbs generally sold. Plant Hyacinths from October to February.

Improved Early Roman Hyacinth Bulbs

Pure White
Rose Pink
Light Blue

12 for 75c

Or 100 for
\$5.50—
Postpaid

Roman Hyacinths afford a continuous supply of bloom from early winter until late in the spring. They are very fragrant. The blooms are suitable for almost any kind of cut-flower work; they also look very attractive if planted in boxes or pots and used for window decoration.

Plant Roman Hyacinths from August to January.

Spanish Iris.

German Iris Bulbs

German Iris (*Iris Germanica*)—The true "Fleur-de-Lis," the national flower of France. They are perfectly hardy, thrive anywhere, grow and bloom luxuriantly, particularly if plentifully supplied with water or if planted in moist situations, as on banks of ponds, etc. Plants well established produce from 50 to 100 spikes of bloom, deliciously fragrant and fine for cutting. In beauty the flowers rival the finest Orchids, colors ranging through richest yellows, intense purples, delicate blues, soft mauves, beautiful claret reds, white, primrose and bronzes of every imaginable shade. Assorted colors only 15c each—\$1.50 per dozen, postpaid. Plant from January to March.

Japanese Iris Bulbs

Japanese Iris Bulbs—The newer varieties of this King of Iris, introduced from Japan, are marvels of beauty and stateliness. Many of the varieties rival the Orchid in point of beauty and fantastic shapes. They commence blooming in June and continue in bloom for 5 or 6 weeks. Many of the flowers measure from 10 to 12 inches in diameter.

Assorted Colors 25c each—12 for \$2.50, postpaid.
Plant from January to March.

Spanish Iris Bulbs

Spanish Iris Bulbs—Used largely for low, hedge-like borders, and for planting in masses. Pure White, Canary Yellow or Mixed. Many other colors, 12 for 15c—100 for 75c, postpaid. Plant from September to February.

Ixia Bulbs

The *Ixia* is a very beautiful little winter-flowering bulb, with low, slender, graceful spikes of bloom. The colors are rich, varied and beautiful, the center always differing in color from the other parts of the flowers, so that the bloom expands in the sun's rays.

All Colors Mixed 12 for 15c—100 for 75c, postpaid.

Ixias Crateroides—Fiery scarlet, large blossoms. 12 for 40c—100 for \$3.00, postpaid. Plant from September to January.

Jonquil Bulbs

Jonquils are equally prized for their charming large golden and sweet-scented flowers. They are admirably adapted for water flowering in the house.

Double—Deep yellow, extra choice, 35c per dozen—\$2.50 per 100, postpaid.

Single—Rich yellow, extra choice, 15c per dozen—\$1.00 per 100, postpaid.

Jonquils Campenelle—Extra large yellow flowers, with long stems, 20c per dozen—\$1.25 per 100, postpaid.

Plant Jonquils from September to January.

German Iris

The Peerless Easter Lily

CHOICE BULBS 15c EACH—12 FOR \$1.50—POSTPAID

Lilium Harrissii—The True Bermuda Easter Lily, is the greatest acquisition to floriculture made in many years. The remarkably short time required to bring them into flower, and the certainty to produce a profusion of blooms, and also the ease with which they can be made to flower at any desired period, such as Christmas, Easter and other special occasions, render them invaluable. The flowers are delightfully fragrant, pure waxy-white, of great substance, and if cut as soon as they are open, or partially open, they can be kept for two weeks. If planted early will bloom for Easter. This Lily can be planted as late as March and will bloom in the summer.

Plant from October to March.

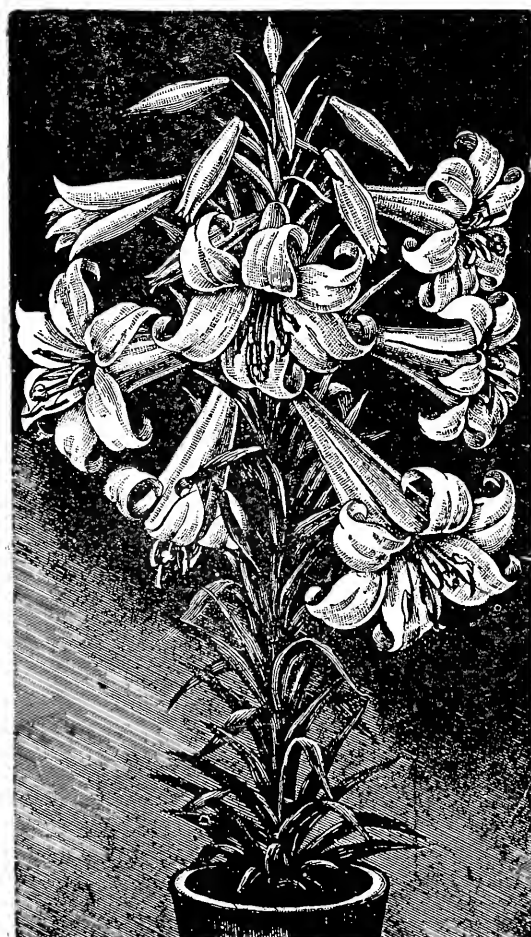

Calla Lily Bulbs

True Yellow Calla—This rare and beautiful novelty is entirely distinct and unlike all other forms of yellow Callas. It has the same habit of growth as the white variety. Price 50c each, postpaid.

Spotted Leaf Calla—An exceedingly pretty and curious plant. Pure white, dark-throated flowers. Rich green leaves, spotted all over with white. Grows and blooms freely, either in the house or garden. Large bulbs 10c each—\$1.00 per dozen, postpaid.

White Calla, or Lily of the Nile.—White flowers, pure as drifted snow. Large bulbs 10c each—\$1.00 per dozen, postpaid.

Plant Calla Lilies from August to March.

Easter Lily

Spotted Leaf Calla Lily

Japanese Lily Bulbs

Lilium Auratum—The Gold-Rayed Lily of Japan. The immense flowers—white, thickly dotted with crimson and beautified with a wide golden-yellow band running through the center of each petal—measure nearly a foot in width, and are borne in great clusters. Extra large bulbs 15c each—\$1.50 per dozen, postpaid.

Lilium Album—Snow-white Lily with very fragrant flowers. Extra large bulbs 15c each—\$1.50 per dozen, postpaid.

Lilium Rubrum—Magnificent. White flowers are spotted with red, and have a deep rose band running through the center of each petal. Extra large bulbs 15c each—\$1.50 per dozen, postpaid.

Lilium Tigrinum—The grandest of the Tiger Lilies. Produces extremely large pyramids of flowers—orange-red, spotted with black. Very showy. Large bulbs 10c each—75c per dozen, postpaid. Plant above Lilies from October to March.

Lilium Candidum—Annunciation or St. Joseph Lily. The well-known garden Lily, with the snow-white fragrant blossoms. Extra large bulbs 15c each—\$1.50 per dozen, postpaid. Plant St. Joseph Lily from August to November.

Madeira Vine Roots

5c each—12 for 25c, postpaid.

The **Madeira Vine**—The old favorite Climbing Mignonette produces thick, glossy leaves and long hanging stems of feathery white flowers, which are strongly and delightfully perfumed. Plant from January to June.

Mystery Plant

Montbretia Bulbs

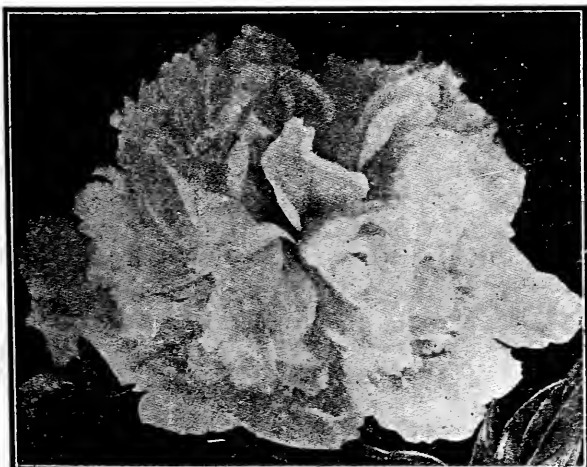

12 for 20c—100 for \$1.00, postpaid.

A summer flowering bulb, bearing bright colored flowers on long, graceful spikes, foliage is long and graceful, and resembles that of the Gladiolus. Valuable for cutting and makes a beautiful display in a clump on the lawn or for borders. Blooms July to September.

Tiger Lily

requiring no protection whatever, even in the most severe climate, and are not troubled with insects, pests, or disease of any kind and when well planted take care of themselves, increasing in beauty each year. An important point to observe in the planting of Paeonies, is not to plant too deep. The roots should be placed so that the crown is covered with two inches of soil. Too deep planting is a frequent cause of shy flowering. Choice Double-Flowering Varieties, Pure White, Crimson and Rose Pink, 25c each—12 for \$2.50. If to be sent by mail add 10c each for postage. Plant from October to June.

Double-Flowering Paeony

Lilium Rubrum

The Mystery Plant No Water, No Soil, Lives on Air

The **Mystery Plant** is the latest and most mysterious novelty in plant life. Magnificent flowers are produced from dry bulbs. Simply place the bulb on a shelf in a warm room and flower will begin to grow at once. In three weeks' time a most curious yet magnificent flower develops, 16 to 24 inches long, tipped with red and yellow. After flowering the bulb may be planted in the open ground and throws up elegant foliage. In the fall when the leaves fade it can be dug up and saved until next year, when the display may be repeated. 25c each, postpaid.

Narcissus Bulbs

Poeticus—The "Pheasant's Eye" or "Poet's Narcissus." Pure white flowers with orange cup, edged with crimson. Splendid for cut flowers. Choice Bulbs 12 for 20c—100 for \$1.50, postpaid.

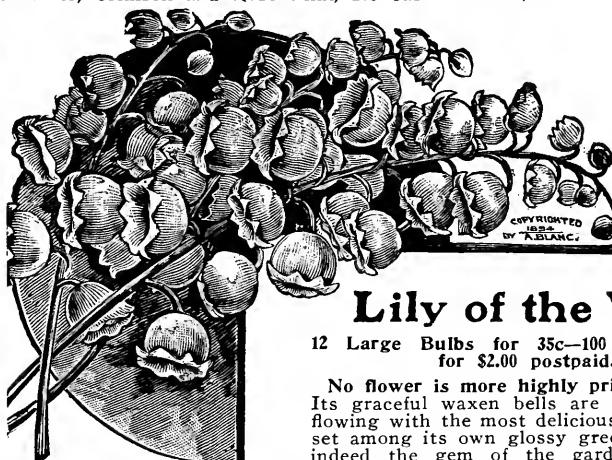

Poeticus Ornatus—The improved "Poeticus." Large and beautifully formed pure white flowers, with saffron cup, tinged with rosy scarlet. Choice Bulbs 12 for 20c—100 for \$1.50, postpaid.

Paper White Narcissus—Pure snow white flowers. This variety is perhaps more largely forced for cut flowers than any other. Choice Bulbs 12 for 35c—100 for \$2.00, postpaid. Plant from September to February.

Chinese Sacred Lily or Oriental Narcissus—"The Water Fairy Flower"—Large Bulbs from China 15c each—12 for \$1.50, postpaid. Plant from September to February.

Large Paeony Roots

Paeonies are the queen of spring flowers, and are very hardy. They rival the rose in perfection of bloom, color and fragrance and produce during their flowering season a gorgeous effect unequalled by any other flower. They are at home in any climate or soil, but will thrive best in a deep, rich, well-drained loam. They make a gorgeous display when planted in beds on the lawn or planted singly along a walk or herbaceous border. The Paeony is perfectly hardy and generally able to care for itself. They will thrive either in a sunny or partly shaded position.

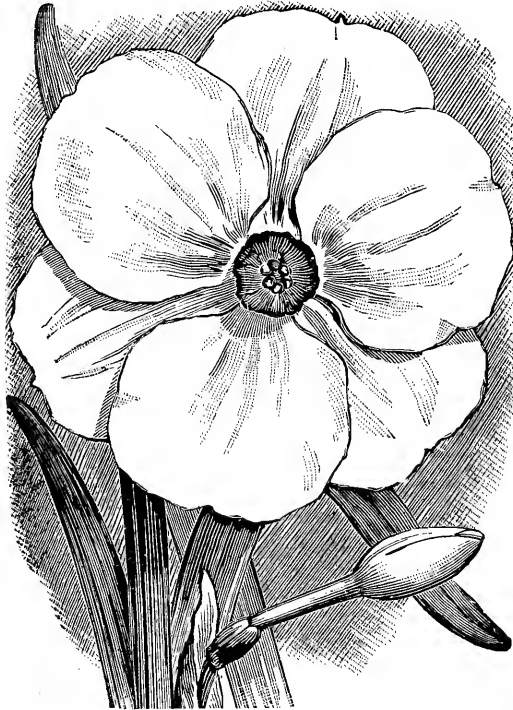

Lily of the Valley

12 Large Bulbs for 35c—100 Large Bulbs for \$2.00 postpaid.

No flower is more highly prized than this. Its graceful waxen bells are filled to overflowing with the most delicious perfume, and set among its own glossy green leaves it is indeed the gem of the garden. Fine for

flowering in pots in the winter, but most charming when grown in large patches in partly shaded localities around the lawn or near the borders of streams or lakes. Plant Lily of the Valley from December to April.

Fall and Spring Bulbs

Narcissus Poeticus—See page 111.

Ranunculus Bulbs

"The Fair Maids of France"
Persian Mixed 12 for 20c—100 for \$1.00, postpaid. Turban Mixed 12 for 20c—100 for \$1.00, postpaid. Plant from October to February.

Snowdrop Bulbs

Single 12 for 15c—100 for \$1.00, postpaid. Double 12 for 25c—100 for \$1.50, postpaid. Beautiful dwarf, white flowers, which push up through the snow in the early spring in cold countries, a habit from which arose the name. Plant from October to February.

Sparaxis Bulbs

All Colors Mixed 12 for 10c—100 for 65c, postpaid. The Sparaxis is hardy, and does exceptionally well when grown in the conservatory, in the house in pots, or in cold frames. Plant from October to February.

Spirea Japonica

Selected Roots with plenty of White Flowering Spikes 25c each—12 for \$2.50, postpaid.

The flowers are borne in large, feathery panicles of white and last a long time in bloom. This is undoubtedly one of the most beautiful and graceful plants. Its foliage and flowers combine to make it one of the finest gems for winter and spring decorations in the house or conservatory, while for grace and elegance as a cut flower it is unsurpassed.

Pink Flowering Spirea Japonica

This novelty is same as above only flowers are pink. 50c each—12 for \$5.00 postpaid. Plant from January to May.

Double Tuberoses

The one flower the rich man must have and the poor cannot do without. We all love its massive spikes—its thick, waxy blooms of rich, creamy whiteness—and its deep, delicious fragrance. For open ground culture, plant about the middle of May. Give them rich soil, in full sun and keep free from weeds, and they will bloom finely. Selected Bulbs 50c per dozen—100 for \$2.50, postpaid. Plant from January to July.

Gorgeous Tulip Bulbs

All Colors Mixed, Single Tulips 12 for 20c—100 for \$1.25, postpaid. Double Tulips 12 for 20c—100 for \$1.50, postpaid.

Tulips are universal favorites. Their ease of culture, combined with beauty of form and gorgeous coloring, render them the most popular bulbs grown for spring bedding and winter flowering in the greenhouse and window garden. They are extremely hardy and of easy culture, flowering as freely in the shade as in the sunshine, and producing as fine flowers in a confined town garden as in a more favored place.

Parrot or Dragon Tulip Bulbs

Chas. C. Navlet Co.'s Mixture of all Colors 12 for 20c—100 for \$1.25, postpaid.

Tulips

Flowers more fantastic or picturesque than those of the Parrot Tulip would be hard to find. They are six, seven and eight inches across, with petals toothed, horned, twisted and waved—now loosely incurved, now spread flatly out like a star. Some are yellow, some are crimson, some are dashed, flaked or feathered with green, gold or scarlet, resembling the plumage of a parrot.

Darwin Tulips (May-flowering)

Chas. C. Navlet Co.'s Mixture of all Colors 12 for 25c—100 for \$1.75, postpaid. Handsome May-flowering class and quite distinct in style of growth from the other late-flowering sorts; stately in appearance, attaining a height of 24 to 30 inches, and bearing on strong stems beautiful globular flowers of remarkably heavy texture, in a large range of colors, embracing almost every conceivable tint in rose, heliotrope, claret, maroon, crimson, and other rich and rare shades. Unsurpassed for bedding and for cutting.

Bouton d'Or (Golden Beauty) Yellow Easter Flowering 12 for 35c—100 for \$2.00, postpaid.

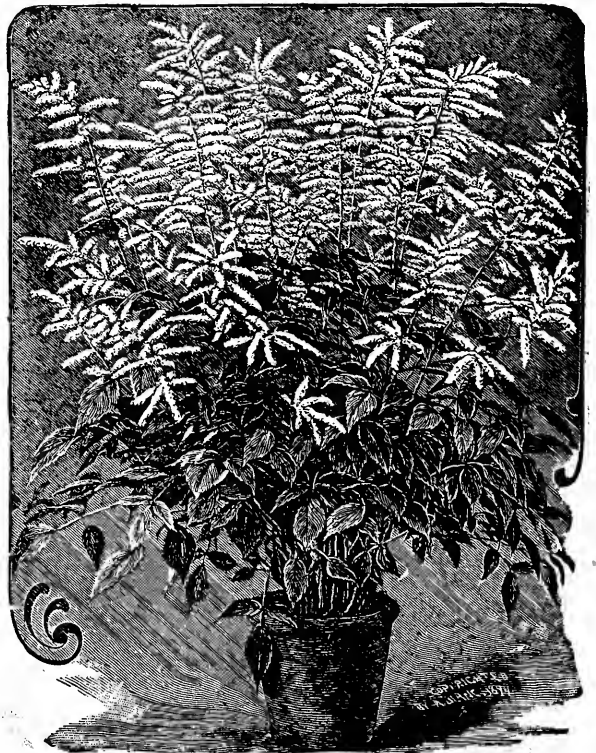

Rich, buttery orange-yellow, cup-shaped flowers. The anthers are black and make a striking contrast with the yellow when the flowers are expanded.

Kaiser Kroon—12 for 50c—100 for \$3.00, postpaid.

Bright red, margined golden-yellow; extra large and grand in every way.

Gesneriana Spathulata. Red Easter Flowering.

A superb Tulip of strong yet graceful growth and bearing very large flowers of an intense brilliant crimson-scarlet with glittering blue-black center. No words or picture can begin to do this Tulip justice. It should be planted in generous quantity. There are a number of inferior types of this Tulip. The variety Spathulata is the finest of all. 12 for 35c—100 for \$2.00, postpaid. Plant Tulips from October to February.

Articles That Will Be Found Useful On The

Ranch, In The Garden Or Orchard

Nico-Fume Liquid—For spraying soft bodied insects, Aphids, Thrips, etc., one to two teaspoonfuls of the liquid to each gallon of water. For more stubborn plant lice on hardy plants, three or four teaspoonfuls to each gallon of water.

1/4 pint cans 80c—If to be sent by mail add 8c postage.

1 pint cans \$2.50—If to be sent by mail add 16c postage.

Lawn Dressing—Some kind of fertilizer is necessary in lawns. Our lawn dressing will invigorate the growth and keep it a dark green color. Two applications a year are necessary. Use about one and one-half pound to one hundred square feet.

10 lbs. 65c; 25 lbs. \$1.25; 50 lbs. \$2.00.

Hellebore—For killing caterpillars and other pests of this nature. Is a poison and very deadly to insects, but not to people. 25c per pkg., if wanted by mail add 16c postage.

Tobacco Stems—The most economical way of using tobacco as an insecticide, sure death to green and black fly and similar garden pests. Dilute with medium warm water and spray plants thoroughly. 10c per pound, if wanted by mail add 15c per pound postage. Write for prices in larger quantities.

Whale Oil Soap—Dissolved with water makes a plant spray that cannot be beat. House plants and palms should be sprayed or sponged at least once a month to assure health and precaution against scale.

1 lb. can 20c—If wanted by mail add 16c per pound postage.

Write for prices in larger quantities.

Vaporite—Vaporite is for soil applications, not for the leaves of the plant. It should be distributed and not be put in masses on the roots. When it is mixed with the moist soil, gives off a vapor. This vapor kills all such underground insects as wireworms, ants, thrips, borers, slugs and root aphids.

25c per pound can, if wanted by mail add 16c postage. Write for prices in larger quantities.

Gophergo—Sure death to Gophers, Squirrels, Rats and Mice. Full directions on each can.

1/2 lb. can 25c. If wanted by mail add 8c postage.

1 lb. can 50c. If wanted by mail add 16c postage.

Write for prices on larger quantities.

Buhach or Persian Insect Powder—One of the most effective powders for killing all kinds of insects; non-poisonous to everything except bugs; owing to its fineness it penetrates the breathing pores and causes instant suffocation; 10 cents 1 ounce; 25 cents 1/4 pound; 80 cents pound, by express.

Sulphur—Use no other if you wish results; prevents and cures mildew on peas, roses, grapes, etc. Per pound 10 cents, 100 pounds \$3.00.

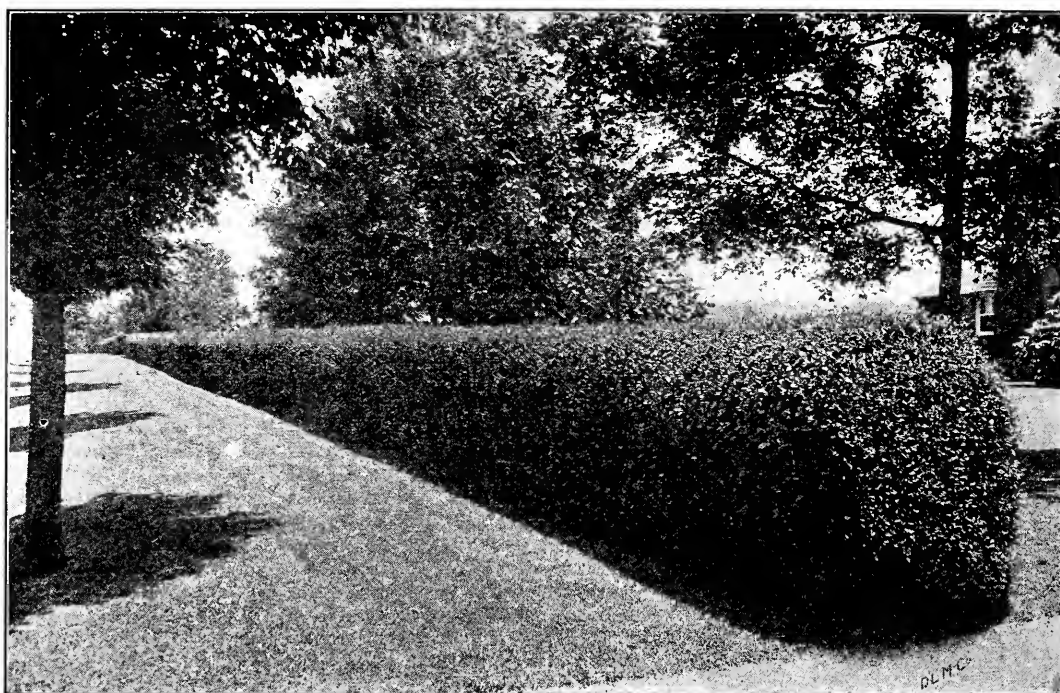

Arsenate of Lead—The most effective of all insecticides for spraying purposes. Especially adapted for use on tender plants and foliage. This can be successfully used to suppress leaf-eating insects. Use in proportion of 2 to 3 pounds Arsenate of Lead to 50 gallons of water, or two to four pounds of Lead to 100 gallons of water if a weaker solution is desired. You can judge best of the strength to be used by your local conditions and uses. Price, 1 pound 50 cents, 5 pounds \$1.25.

Bordeaux, Mixture—The most popular fungicide on the market, curing and preventing blight, black rot, rust, scab and all diseases of vegetables and fruit. One gallon diluted in 49 parts water makes a most effective spray. Quart 50 cents, 1 gallon \$1.00.

Pure Dried Blood—Confidently recommended where a high nitrogenous fertilizer is required. 100 pounds \$5.00.

Nitrate of Soda—Valuable solely for the nitrogen it contains. It is chiefly a stimulant, used in addition to other fertilizers. It is quick in action and hastens crops to maturity, being extremely soluble it is easily applied after the plants are above ground at the rate of 100 to 500 lbs. per acre. 100 pounds \$5.00.

For Formulae of Useful Sprays, Insecticides and Other Valuable Information see Pages 62 to 68 of Planters Guide

CORNER OF QUADRANGLE
SAN JOSE HIGH SCHOOL.

View Showing a Corner of San Jose High School Lawn Planted With Our Special San Jose High School Mixture

Kentucky Blue Grass Seed

The best for lawns and pleasure grounds. It quickly produces a firm, deep, velvety and elastic turf, with no tendency to stool or grow in clumps. It roots deeply and holds its beautiful emerald-green color throughout the season. The best time to set out a lawn is in the spring and fall, although it can be set out at any time if properly cared for, is well watered, and not allowed to dry out. Our Kentucky Blue Grass Seed is of the highest quality, the finest in the world, grown in Paris, Kentucky, and imported by us from Kentucky, is free from weeds. We buy direct from the grower, and all our seed is carefully tested. If you use our Kentucky Blue Grass Seed you will get a lawn free from weeds. Requires one pound for every 225 square feet. To insure a rapid growth of grass, some kind of fertilizer is necessary, especially in lawns where the nourishment of the soil has been used up by continuously growing on the same place. We have fertilizer especially prepared to invigorate the growth of grass and to keep it that dark green color. Use 2 to 2½ pounds of lawn dressing to 225 square feet of lawn. Between the months of March and August every time in cutting lawn fertilize it with our lawn dressing. Per pound, postpaid, 35c—By express, 25c—100 pounds, \$20.00—by express or freight—purchaser to pay transportation.

Chas. C. Navlet Co.'s San Jose High School Lawn Mixture. Contains a variety of grasses which keep the lawn green all the year round. Strong, tough grass that will always present a velvety appearance. We have set out the lawns of all new schools in San Jose with this Special Lawn Grass Mixture. Per pound, postpaid, 50c—by express, 40c—100 pounds by express or freight \$39.00.

White Clover—Of dwarf habit, with creeping stems, rooting at the joints, on which account it makes an excellent turf that stands constant tramping. Sow 8 to 10 pounds to the acre. Per pound, postpaid, 60c—By express, 50c—100 pounds for \$45.00, purchaser to pay transportation.

Lawn Dressing—5 pounds for 25c—25 pounds \$1.00—100 pounds \$3.50—By express or freight, purchaser to pay transportation charges.

Lippia—The Drought-Resisting Lawn Plant—A new and remarkable substitute for Lawn Grass that solves the problem of maintaining a beautiful lawn through the Dry California summer. Lippia is a creeping lawn plant, slightly resembling Clover in appearance. It covers the ground with a thick, smooth mat of green that is quite as handsome as lawn grass. But, unlike grass, it requires very little water, weeding or sowing. It will even go through a summer without water. It does not grow from seed, but is propagated by planting little pieces of the turf with roots and soil adhering. A fifteen-inch square of turf—cut into one hundred small pieces—will plant a hundred square feet of lawn. Each box contains fifteen inches square of solid Lippia Plant turf, sufficient to plant 100 square feet of lawn. Per box \$1.50—By express, purchaser to pay transportation.

Aromatic and Medicinal Herb Seeds

Anise—Used as a cordial, and for garnishing and flavoring. The seeds have an agreeable, aromatic taste. Packet 5c—ounce 10c, pound \$1.00.

Basil—Sweet. The leaves are used for flavoring soups, stews and highly seasoned dishes. Packet 5c—ounce 15c, pound \$1.50.

Borage—The leaves are used for flavoring and the flowers furnish bee pasture. Packet 5c—ounce 15c, pound \$1.25.

Caraway—Grown for the seeds, which are used extensively for the flavoring of bread, pastry, etc. Packet 5c—ounce 10c, pound \$1.00.

Catnip, or Catmint—The leaves are used for seasoning. It also makes an excellent bee pasture. Packet 5c—ounce 30c, pound \$3.00.

Coriander—The seeds are used in the manufacture of liquors and confectionery. Packet 5c—ounce 10c, pound 75c.

Chives—An indispensable seasoning for stews, soups and salads. Sweet and sharp onion flavor. Hardy. Packet 10c—ounce 50c.

Chervil—Used in soups and salads. Packet 5c—ounce 10c, pound \$1.00.

Dill—The seeds have an aromatic odor and warm, pungent taste. They are used as a condiment and also for pickling cucumbers. Packet 5c—ounce 10c, pound 60c.

Fennel—Sweet. The boiled leaves are used in sauces. Packet 5c—ounce 10c, pound \$1.00.

Horseradish—The leaves are used for seasoning, and also for the manufacture of the popular cough remedy. Packet 5c—ounce 20c, pound \$2.00.

Marjoram—Sweet. The leaves and the ends of the shoots are esteemed for seasoning in summer, and are also dried for winter use. Packet 5c—ounce 15c, pound \$1.25.

Rosemary—The aromatic leaves are used for seasoning. Packet 5c—ounce 25c, pound \$2.50.

Rue—For medicinal purposes. Good for the croup. Packet 5c—ounce 15c, pound \$1.75.

Sage—The most extensively used of all herbs as a seasoning and dressing. Packet 5c—ounce 15c, pound \$1.50.

Summer Savory—A hardy annual. The dried stems, leaves and flowers are extensively used for flavoring—particularly in dressings for soups. Packet 5c—ounce 10c, pound \$1.00.
